NEW ELECTRONIC DEVICE POLICY

To help keep our focus on learning, there are new rules for using personal electronic devices (like phones, tablets, headphones, earbuds, and smartwatches) at school.

High School:

Devices must be off and stored in your locker during class time.

You can use them at lunch, before school, and after school.

If you have your phone on your person during the school day, you will be given a pink slip and you must report to the front office to turn in your electronic device.

School Level Actions

1. During the first week of school, students violating this policy will receive a warning and be instructed on how to follow this policy; this process includes a new student's first week at school.

2. After the first week, violations will result in the student reporting to the office to submit their device to the office. Parents/guardians will be notified.

First Offense: The student may retrieve the phone at the end of the school day.

Repeat offenses: Will be handled in collaboration with parents/guardians to implement school-level interventions that ensure compliance with the policy.

Parents/guardians will be required to pick up the device at the end of the school day.

3. Refusal to report to the office or to submit a device is considered Insubordination.

APS QUALIFYING COURSES

Only approved courses can be used to complete the required APS curriculum. Eligibility is determined based on courses with a letter grade reflected on your official high school transcript. Each requirement is for a complete unit of credit (can be 1 or more required APS course).

The State Board of Education & Early Development has published the following approved standard courses. Any course matching the title of standard course with high school rigor can be used to meet APS curriculum requirements.

Public School Districts may also approve additional courses. Each school district is responsible for providing students with a complete list of APS-qualifying courses.

Private/Homeschool student APS eligibility is determined by the Department of Education & Early Development (DEED). Submit the *APS Eligibility Determination Application* found in the Private/Homeschool Students section of aps.alaska.gov. Any additional courses used to meet APS requirements must first be approved by DEED.

Please NOTE:

Students in public school districts can select additional courses only from a list of approved additional courses provided by their district.

WAYS TO ACCESS APPROVED COURSES

Several alternative sources to access approved APS courses are available (such as the University of Alaska or others). In most cases, a fee will be required to enroll in these courses. If you are considering using courses from outside of your school to qualify for the APS, ensure these courses are approved by your district and meet APS requirements.
