

### Oncourse Connect App:

All students need to have at least one adult signed up on Oncourse. This app is replacing the PowerSchool app.

If you previously used the PowerSchool app, you will use the same email address to create your OnCourse Connect account.

If you do not receive a response from OnCourse after attempting to sign up, it likely means no email is currently associated with your student's record. In that case, please contact the school office to have your email added. You will be asked to verify your student's information.

### Carline:

Carline begins in the gravel parking lot on the right hand side of the school. Please follow the line toward the back of the school as it wraps around to the front porch.

Please keep your Car Tag with your child's name visible in your rearview mirror the ENTIRE time you are in the carline. DO NOT remove this tag until your child is put in your car.
