

# KING SCHOOL WEEKLY NEWS

## Attendance Matters!

### Did You Know?

Starting in transitional kindergarten (TK) and kindergarten, regular attendance plays a key role in a child’s academic success. Missing just 10% of the school year—about 2 days per month—can make it harder for young learners to master reading and other foundational skills.

Being late to school not only disrupts your child’s learning but also affects the entire classroom, as teachers must pause instruction to help late students catch up.

Establishing the habit of coming to school on time every day helps children feel more connected and confident. Building strong attendance habits early sets the stage for future success—in high school, college, and beyond!
