Students can login to the 5-Star Student App, select Hall Passes and then click the camera icon to scan the QR code and assign themselves a hall pass. They must scan the QR code a second time to close the pass when they return.

*Students can view their scheduled hall passes by clicking the clock icon in the hall pass section. Students may have a scheduled hall pass for the following reasons: sport, participation in school activity/event, testing, or for a presentation.

If the circle around the student's photo is not moving, that means the pass is not active, and it is a screenshot.
