### **SCHOOL VOLUNTEERS**

The Board of Education recognizes the need to develop a volunteer program to support District instructional programs and extracurricular activities. The purpose of the volunteer program will be to:

1. assist employees in providing more individualization and enrichment of instruction;
2. build an understanding of school programs among interested citizens, thus stimulating widespread involvement in a total education process; and
3. strengthen school/community relations through positive participation.

A volunteer is a person who works on an occasional or regular basis at school sites or other educational facilities to support the efforts of professional personnel. Such an adult volunteer worker will serve in that capacity without compensation or employee benefits of any type, except for liability protection as provided by state law.

Use of volunteers within the District is not to conflict with or replace any regularly authorized personnel allotment.

Volunteers will work with students under the immediate supervision and direction of a school employee.

Volunteers are expected to comply with state and federal laws, as well as all rules and regulations set forth by the District.

### **VOLUNTEERS**

The Board recognizes that certain programs and activities can be enhanced through the use of volunteers who have particular knowledge or skills that will be helpful to members of the classified staff responsible for the conduct of those programs and activities.

The Superintendent shall be responsible for recruiting community volunteers, reviewing their capabilities, and making appropriate placements. She/he shall not be obligated to make use of volunteers whose abilities are not in accord with District needs.

The Superintendent is to inform each volunteer that she/he:

- A. is required to abide by state and federal laws, as well as all board policies and District guidelines while on duty as a volunteer;

- B. will be covered under the District’s liability policy, but the District cannot provide any type of health insurance to cover illness or accident incurred while serving as a volunteer, nor is the person eligible for workers’ compensation;
- C. is required to provide a set of the volunteer’s fingerprints for the purpose of conducting a criminal records check;
- D. will be asked to sign a form releasing the District of any obligation should the volunteer become ill or receive an injury as a result of his/her volunteer services.

The Superintendent shall also ensure that each volunteer is properly informed of the District’s appreciation for his/her time and efforts in assisting in the operation of the schools.

In accordance with Board Policy 3.02, all volunteers must submit to a criminal records check conducted by the Bureau of Criminal Identification and Investigation (“BCI”).

### VOLUNTEER RELEASE FORM

I have offered my services as a volunteer to help the Revere Local School District in the following areas:

---

---

---

---

---

I agree to abide by all relevant state and federal laws, including, but not limited to O.R.C. §3319.321 and the Family Educational Rights and Privacy Act (“FERPA”), 20 USC §1232g, as well as Board policies and administrative guidelines while on duty for the District. I understand that, although I am covered under the District’s liability insurance policy, I am not covered by its health insurance policy nor am I eligible for workers’ compensation. Should I become ill or suffer an accident while doing volunteer work for the District, I agree that I shall be responsible for any and all hospital and medical charges that may accrue.

I understand further that, as a volunteer, I am not in any manner considered an employee of the District or entitled to any benefits provided to employees. I further release the Board of Education from any and all liability for any damages, whatever their nature, which may result as a consequence of my volunteer services.

For the protection of the children in the school, I have been informed that I may be required at any time to provide a set of fingerprints and successfully pass a BCII criminal records check.

I agree to respect the privacy interests of District students and their families. To that end, I agree not to create student educational records, or otherwise record the educational activities undertaken during the school day, without the prior approval of the District employee serving as my immediate supervisor. I further agree not to disclose student educational records, or discuss or otherwise reveal personally identifiable information about a student, without the prior authorization of the District employee serving as my immediate supervisor.

If, in the judgment of the District Superintendent, I have failed to abide by the terms set forth in this Volunteer Release Form, I understand that I will be immediately relieved from my status as a volunteer and will be precluded from serving as a District volunteer in the future.

### **PARENT AND FAMILY ENGAGEMENT**

This policy was developed jointly with, and agreed upon and distributed to, parents and family members of District students. All parents of District students shall be notified of this policy in an understandable and uniform format, and, to the extent practicable, provided in a language the parents can understand. This policy shall be provided to the local community and updated periodically to meet the changing needs of parents and the District.

The Board of Education desires for meaningful parent and family involvement in the educational process for District students. To achieve that objective, the Board will:

1. Involve parents and family members in jointly developing the District’s “local educational agency plan” under 20 U.S.C. §6312, and the development of support and improvement plans under 20 U.S.C. §6311(d)(1) and (2). Parents are a part of the planning process through face-to-face meetings conducted a minimum of one time per school year, as well as surveyed in the spring of each year. Their input from these events will be used to develop the plan for the upcoming school year.
2. Provide the coordination, technical assistance, and other support necessary to assist and build the capacity of all of the District’s schools in planning and implementing effective parent and family involvement activities to improve student academic achievement and school performance, which may include meaningful consultation with employers, business leaders, and philanthropic organizations, or individuals with expertise in effectively engaging parents and family members in education. The District will work directly with the staff and building principal to plan the calendar of events, including parent events tailored to students receiving Title I services. These events, whenever possible, will involve local businesses and organizations in the community.
3. Coordinate and integrate parent and family engagement strategies, to the extent feasible and appropriate, with other relevant Federal, State, and local laws and programs. The District will provide annual informational meetings regarding the Title I program in the fall, after the identification of students who will receive services during the upcoming school year.
4. Conduct, with the meaningful involvement of parents and family members, an annual evaluation of the content and effectiveness of this policy in improving the academic quality of all District schools, including identifying: (i) barriers to greater participation by parents in authorized activities (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background); (ii) the needs of parents and family members to assist with the learning of their children, including engaging with school personnel and teachers; and (iii) strategies to support successful school and family interactions. The District will include this policy in the informational meeting held in the fall, and it will be disseminated to all families of students identified for services. Feedback on the policy elements is a component of the annual spring survey disseminated to all families whose students are receiving services.

5. Use the findings of such evaluation in paragraph (4) above to design evidence-based strategies for more effective parental involvement, and to revise, if necessary, the parent and family engagement policies described in this section. The District will analyze the results of the survey data collected and make adjustments as needed. These modifications will be shared with the Board in a timely fashion.
6. Involve parents in the activities of the schools of the District, which may include establishing a parent advisory board comprised of a sufficient number and representative group of parents or family members served by the local educational agency to adequately represent the needs of the population served by such agency for the purposes of developing, revising, and reviewing the parent and family engagement policy. Families whose students are receiving services will form the advisory group and provide feedback via face-to-face and survey contacts to the District regarding parent events, services, and changes that need to be made to better serve the needs of the students receiving Title I supports.

### **Policy Involvement**

To facilitate the involvement of parents and families under this policy, the District shall:

1. Convene an annual meeting, at a convenient time, to which all parents of District students shall be invited and encouraged to attend, to inform parents of the District's obligations under 20 U.S.C. §6318, and to explain the requirements of that statute and the right of the parents to be involved. The District will do this by, each fall, holding face-to-face meetings with families of the students identified for services to share all necessary information and outline the programs offered to their children. Those parents not in attendance will receive all information in paper form via the mail, as well as having the information emailed to them electronically.
2. Offer a flexible number of meetings, such as meetings in the morning or evening, and may provide, with funds provided under this part, transportation, child care, or home visits, as such services relate to parental involvement. The District will do this by holding parent meetings/events in a combination of right after school, evenings, and during school hours to accommodate the greatest number of families.
3. Involve parents, in an organized, ongoing, and timely way, in the planning, review, and improvement of programs under this policy, including the planning, review, and improvement of this policy and the joint development of the schoolwide program plan under 20 U.S.C. §6314(b). Parents are part of the planning process through face-to-face meetings conducted a minimum of one time per school year, as well as surveyed in the spring of each year. Their input from these events will be used to develop the plan for the upcoming school year and make improvements to the current programs in place. The District will communicate on a regular basis with the families receiving services by the teachers providing the support.

4. Provide parents of participating children: (a) timely information about programs under this policy; (b) a description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the achievement levels of the challenging State academic standards; and (c) if requested by parents, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children and respond to any such suggestions as soon as practicably possible. The District will do this by conducting an annual evaluation of the content and effectiveness of the parent and family engagement policy in improving the academic quality of the Title I targeted assistance program, including identifying barriers to greater participation by parents in activities under this policy, and the revision of parent and family engagement policies necessary for more effective involvement. This work will be the responsibility of the Director of Curriculum and Instruction, along with the building principal. A procedure is in place for this review on an annual basis.
5. If the schoolwide program plan under 20 U.S.C. §6314(b) is not satisfactory to the parents of students, the school will submit any parent comments on the plan when the school makes the plan available to the Board. The District will do this by recognizing parent concerns with program components when the Board is updated on the CCIP plan on a yearly basis. Concerns will be shared in writing to the Board.

### **School-Parent Compact**

The Board desires for parents, the entire school staff, and students to share the responsibility for improved student academic achievement. The means by which the District and parents will build and develop a partnership to help students achieve the State's high standards are as follows:

1. Describe the District's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables its students to meet the challenging State academic standards, and the ways in which each parent will be responsible for supporting their children's learning; volunteering in their child's classroom; and participating, as appropriate, in decisions relating to the education of their children and positive use of extracurricular time:

The District provides both a hard and emailed copy of the *Bath Parent and Teacher Compact* on an annual basis. The compact is developed with parent and teacher input by the building and central office administration.

2. Address the importance of communication between teachers and parents on an ongoing basis through, at a minimum: (a) parent-teacher conferences in elementary schools, at least annually, during which the compact shall be discussed as the compact relates to the individual child's achievement; (b) frequent reports to parents on their children's progress; (c) reasonable access to staff, opportunities to volunteer and participate in their child's class, and observation of classroom activities; and (d) ensuring regular two-way,

meaningful communication between family members and school staff, and, to the extent practicable, in a language that family members can understand:

The District provides both a hard and emailed copy of the *Bath Parent and Teacher Compact* on an annual basis. The compact is developed with parent and teacher input by the building and central office administration.

### **Building Capacity for Involvement**

To ensure effective involvement of parents and to support a partnership among the District, parents, and the community to improve student academic achievement, the District:

1. Shall provide assistance to parents of District students, as appropriate, in understanding such topics as the challenging State academic standards, State and local academic assessments, the requirements of 20 U.S.C. §6318, and how to monitor a child's progress and work with educators to improve the achievement of their children. The District will do this by providing literacy programs that bond families around reading and using the local library, providing information about the essential components of reading or math instruction to enable parents to support the instructional practices used by the teacher, training parents to use the programs provided by the school at home with their child, including but not limited to content support, homework, grades, and regular communication between school and home.
2. Shall provide materials and training to help parents work with their children to improve their children's achievement, such as literacy training and using technology (including education about the harms of copyright piracy), as appropriate, to foster parental involvement. The District will do this by holding parenting orientation sessions for parents of students incoming to the building; hosting meet-the-teacher night in August or September of each school year; conducting parent workshops on specific topics, such as family literacy and math; sending regular newsletters and timely information, including information regarding state and local assessments; providing parent access to grades through Progress Book software; providing Blackboard Connect calls regarding upcoming school and District-based events; providing frequent and ongoing communication between school and home; and maintaining the District website and teacher pages in Google Classroom updated for families.
3. Shall educate teachers, specialized instructional support personnel, principals and other school leaders, and other staff, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and the school. The District will do this by developing plans in partnership with building and District-level teams at the Title I school to collaborate with Community-Based Organizations, such as the public library, local businesses, and parent professionals

in the community to improve the effectiveness of professional development in the area of parent involvement.

4. Shall, to the extent feasible and appropriate, coordinate and integrate parent involvement programs and activities with other Federal, State, and local programs, including public preschool programs, and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children. The District Director of Curriculum and the Building Principals will develop a procedure to review and evaluate the content and effectiveness of the parent and family engagement policy with input from building School Leadership Teams and parent organizations within the District.
5. Shall ensure that information related to school and parent programs, meetings, and other activities is sent to the parents of participating children in a format and, to the extent practicable, in a language the parents can understand. Communication with parents will be via many media, including face to face, phone, paper notification, email, text, website, and Blackboard Connect calls. When appropriate, the use of ELL instructional support will assist communication in languages other than English.
6. Shall provide such other reasonable support for parental involvement activities under this policy as parents may request. The District will do this by acting upon all parent requests or concerns in a timely fashion, addressing their needs to better serve their child.

### **Accessibility**

In carrying out the requirements of this policy and 20 U.S.C. §6318, the District, to the extent practicable, shall provide opportunities for the informed participation of parents and family members (including parents and family members who have limited English proficiency, parents and family members with disabilities, and parents and family members of migratory children), including providing information and school reports required under 20 U.S.C. §6311, in a format and, to the extent practicable, in a language such parents will understand.

LEGAL REF.: 20 U.S.C. §6318

Adopted: June 26, 2018

### **SCHOOL VISITORS**

Visitors to the schools are welcomed. However, the District's educational program is not to be disturbed by such visitors. Board of Education members will also be required to adhere to this policy. Therefore, the following rules are in effect:

- A. No person shall trespass or loiter in any school building of this District or on the grounds thereof or on other grounds owned or used by the District.
- B. All persons entering a school building shall immediately report their presence to the building office. The principal shall require all visitors to properly identify themselves.
- C. Any parent wishing to visit a school/classroom which his or her child attends may do so only by making prior arrangements with the building principal. Arrangements must be made at least one school day in advance. A class may occasionally be involved in an activity, such as the administration of standardized examinations, when the nature of that activity is such that the presence of any adult in the classroom, other than the teacher, will be inherently disruptive. On such occasions, the principal shall advise the parent of the special problem and shall, at that time, arrange a definite day of visitation as soon as practicable.
- D. In the event a person who is not a parent of a child attending the particular school desires to visit a particular classroom or classrooms, this wish should be communicated to the principal prior to the visitor's arrival at the school. If for any reason the visit would interfere with the program planned for the classroom in question on the day of the proposed visit, the principal shall advise the proposed visitor of the scheduling problem, and shall at that time, arrange a definite day of visitation. In the event a person who is not a parent arrives at a particular school, not having made advance arrangements as set forth herein, whether he or she shall be permitted to visit the school or classroom shall be at the discretion of the principal.
- E. A teacher shall not admit a visitor to his or her classroom unless the visitor is either accompanied by the principal or some person designated by the principal, or presents to the teacher approved identification.
- F. While visiting in a classroom under the aforementioned conditions, a visitor shall not interrupt the class in any way, nor speak to or disturb the children. Use of audio or visual equipment to record class activities is prohibited unless approved by the principal. If the visitor desires to ask questions of or to confer with the teacher, he or she must make arrangements for a conference with the teacher upon leaving the classroom, or contact the teacher at a later time for an appointment.

- G. In order not to unreasonably interfere with the education of the children or the school program, and in order not to overcrowd a particular classroom, the principal shall have the right to restrict the number of visitors to a particular classroom at a given time and shall have the further right to determine a reasonable period of time for a visitor to remain in a classroom.
- H. When a visitor leaves the classroom, unless otherwise arranged with the principal's office, he or she will return directly to the principal's office, and promptly leave the building.
- I. A parent having more than one child in the same school may visit each child's classroom, proceeding from one class to the other. In the event a visitor who is not a parent desires to visit more than one classroom in a building, the principal may require that he or she return to the principal's office after visiting each classroom in order that he or she may be directed to the next classroom he or she desires to visit, and to enable the principal's office to have full knowledge at all times of the number and whereabouts of visitors in the building.
- J. The principal shall have complete authority to exclude from the school premises any persons whom he or she has reason to believe are disruptive to the educational programs in the classroom or in the school, are disturbing the staff or children on the premises, or whom the principal believes are on the premises for the purpose of committing an illegal act. If the person refuses to leave, the principal may summon assistance from the appropriate law enforcement agency.

Rules regarding the entry of persons upon school grounds or premises shall be posted conspicuously at or near the entrance to such grounds or premises if there are no formal entrances, and at the main entrance to each school building. In addition, a sign shall be posted in one or more conspicuous locations in the premises stating the following:

“Unless otherwise authorized by law, pursuant to the Ohio Revised Code, no person shall knowingly possess, have under the person's control, convey, or attempt to convey a deadly weapon or dangerous ordnance onto these premises.”

LEGAL REFS: O.R.C. §§3313.20; 2923.1212

Adopted: April 21, 2020

### **CRIMINAL RECORDS CHECK**

The Board of Education recognizes that it is not only important to employ highly qualified and competent personnel, but also individuals who are good, moral, and law-abiding citizens themselves.

Accordingly, the Superintendent, or his/her designees, shall cause all applicants for employment and all volunteers to undergo criminal records checks conducted by the Bureau of Criminal Identification and Investigation (BCI) at the time of their initial employment or appointment as volunteers and at the intervals required by law as set forth below.

The following notice shall be included in each employment application in boldface type: **“ANY PERSON WHO KNOWINGLY MAKES A FALSE STATEMENT IS GUILTY OF FALSIFICATION UNDER SECTION 2921.13 OF THE REVISED CODE, WHICH IS A MISDEMEANOR OF THE FIRST DEGREE.”**

The following shall apply:

- A. Each applicant or volunteer shall be provided with a separate written statement when the applicant first applies notifying him that he is required to provide a set of his fingerprint impressions and that, as a precondition to employment or appointment as a volunteer, a criminal records check is required to be conducted and satisfactorily completed.
- B. Each applicant or volunteer shall be notified, when he first applies, of the amount of the criminal records check fee and that, unless the fee is pre-paid to the Board, he will not be considered for employment or a position as a volunteer with the Board. The fee will only be paid by the applicant or volunteer if he comes under final consideration for employment with or appointment by the Board.
- C. A criminal records check shall be requested from the Ohio Bureau of Criminal Identification and Investigation (BCI) for each applicant or volunteer under final consideration. The request shall include a request that the BCI obtain information from the Federal Bureau of Investigation (“FBI”) as a part of the criminal records check. The Board may accept a certified copy of any records issued by the BCI presented by an individual applying for employment or appointment with the Board in lieu of requesting such information itself. In such case, however, the Board shall only accept a certified copy of such records within one (1) year after the date of issuance by the BCI.
- D. Except as provided below, each applicant for a position with the Board or volunteer is responsible for completing the criminal records check by submitting fingerprints and information via the WebCheck® system maintained by BCI, unless the applicant or volunteer lives more than 75 miles from the nearest WebCheck® facility or the

applicant's fingerprints cannot be captured on a Webcheck® screen. If the applicant or volunteer fails to submit the necessary information for the criminal records check, he/she shall not be employed or appointed by the Board.

An applicant who, within a two-year period prior to the date of application, was the subject of a criminal records check prior to being hired by the District for short-term employment shall not be required to undergo a criminal records check if the applicant meets the following conditions:

1. The applicant is applying to be an instructor of adult education; and
  2. The duties of the position for which the applicant is applying do not involve routine interaction with or regular responsibility for the care, custody, or control of a child or, if the duties do involve such interaction or responsibility, the Superintendent or his/her designee has arranged for a District employee to be present.
- E. Each applicant for a position with the Board or volunteer may be employed or appointed conditionally, at the sole discretion of the Board, until the criminal records check is completed and the Board receives the results of the criminal records check. If the results of the criminal records check indicate that the applicant or volunteer has been convicted of or pleaded guilty to any crime listed in O.R.C. §3319.39(B)(1)(a) or an existing or former law of Ohio, another state, or the United States that is substantially equivalent to any of the offenses listed in O.R.C. §3319.39(B)(1)(a), or if the applicant has applied for a position as a teacher, any crime listed in O.R.C. §3319.31 in addition to those set forth in O.R.C. §3319.39(B)(1)(a), the applicant shall be immediately released from employment with the Board or if a volunteer, released as a volunteer from the Board.
- F. Subsequent criminal records checks of employees shall be requested from the BCI for every person hired by the Board, other than a person hired for a position that requires a license issued by the Ohio State Board of Education, according to the following schedule:
1. for a person in a position other than for the operation of a vehicle for pupil transportation by September 5, 2008, and every five years thereafter; and
  2. for a person hired to operate a vehicle used for pupil transportation, at time of initial application for certificate and every six years thereafter at time of renewal.

If the employee presents proof that he or she has been a resident of Ohio for the five years immediately prior to the date of the subsequent criminal records check, the District shall request BCI to obtain only information from the FBI.

- G. Subsequent criminal records checks of volunteers shall be conducted at the District's discretion.
- H. Prior to taking an adverse action against an applicant or employee based in whole or in part on a criminal record check, the applicant or employee will be given a written pre-adverse action disclosure statement which will include a copy of the criminal record check and the Federal Trade Commission's notice entitled "A Summary of Your Rights Under the Fair Credit Reporting Act."
- I. After taking an adverse action, the applicant or employee will be given a written adverse action notice which includes the name, address and telephone number of BCI, a statement that BCI did not make the decision to take the adverse action and cannot give specific reasons for it, the individual's right to dispute the accuracy or completeness of any information furnished by BCI and the individual's right to an additional free criminal record check from BCI upon request within 60 days.
- J. When permitted by law, the Board will take into consideration administrative rules adopted by the State Board of Education specifying the circumstances under which a person who has been convicted of a disqualifying offense may be employed; provided the person meets the rehabilitation standards set forth in the rules.
- K. The report of a criminal records check conducted by the BCI pursuant to paragraph C. of this policy is not a public record and shall not be made available to any person other than the applicant, a court, a hearing officer, or other necessary individual involved in a case dealing with the denial of employment to the applicant.
- L. For any position that does not require a license issued by the State Board of Education and is not for the operation of a vehicle for pupil transportation, a private company that provides essential school services to the District shall submit a criminal records check for any employee of the private company who will work in the District in a position that involves routine interaction with or regular responsibility for the care, custody, or control of a child, unless the Superintendent or his/her designee has arranged for a District employee to be present.
- M. New record checks for those employees who serve as bus drivers shall be required with Driver Certification.
- N. The District shall consult the "educator profile" database maintained on the website of the Department of Education and Workforce ("DEW") prior to making any hiring decision. After consulting the "educator profile" database, the District may further discern the employment, disciplinary, or criminal record of an applicant for employment in either or both of the following ways:

1. Consulting the Office of Professional Conduct within the DEW to determine whether the individual has been the subject of either:
  - a. Any notice to the DEW under O.R.C. §§3314.40, 3319.313, 3326.24, 3328.19, or 5126.253;
  - b. Any disciplinary actions conducted by the DEW.
2. Consulting any prior education-related employers of the individual.

The District may require additional background checks other than the criminal records checks for any applicant for employment or potential volunteer. The District may conditionally employ an individual pending the receipt of information sought in accordance with this paragraph. Should that information indicate that the individual has engaged in conduct unbecoming to the teaching profession or has committed an offense that prevents, limits, or otherwise affects the applicant's employment with the District, the District may release the individual from employment.

- O. Except as provided in O.R.C. §3319.318(C), no school representative shall knowingly engage in any activity intended to assist another individual in obtaining employment with a school district or chartered nonpublic school, or in obtaining employment with a county board of developmental disabilities in a position responsible for providing educational services to children from six through 21 years of age, other than transmitting administrative and personnel files to the prospective employer if the school representative knows or has reasonable cause to believe that the individual has committed a sex offense listed in Chapter 2907. of the Revised Code, or a substantially comparable offense, involving a student.

LEGAL REFS: O.R.C. §§3319.318; 3319.39; 3319.391; 3319.392; 3319.393; 109.57; 109.572  
Fair Credit Reporting Act; 15 U.S.C. 1681, *et seq.*

Adopted: November 16, 2021
