Strategic Plan Priorities

Core Beliefs

Mission:

The Mission of South Texas ISD is to provide students with diverse and meaningful learning experiences that will empower them with the knowledge, skills, and character to become leaders and innovators in a global society.

Vision:

Through a spirit of continuous innovation, South Texas ISD will pioneer unique and relevant opportunities to develop and encourage students to be the leaders of tomorrow; equipped and empowered to take on the challenges of an ever-changing world.

Goals

I. Teaching & Learning

II. Professional Development

III. Growth & Expansion

IV. Leadership Development

V. Communication

South Texas ISD paved the way for Career & Technical Education (CTE) in the Rio Grande Valley with the establishment of its first vocational magnet school in 1984. Since that time, the district has grown and developed its campuses and CTE programs, offering RGV students innovative educational opportunities.

STISD continues to build and strengthen courses, programs, and certification opportunities through organizations/extracurriculars that meet the individual interests and needs of our students. For the 2025-2026 School Year, we will offer 21 different Programs of Study within 10 Career Clusters, all intended to provide our students an advantage in their career.

With the wide variety of Career Clusters and Programs of Study at STISD, there is something here for every student. We are always innovating, and we offer state-of-the-art facilities and equipment and high-quality instruction by teachers who are experts in their fields. Your time at South Texas ISD will set you on the path to a successful career, and we are excited to guide you through it!

Our STISD Career & Technical Education Guide will help provide a perspective for current students and families to find their fit. We encourage you to look through the guide to learn more about available programs at STISD. The short quizzes and sample occupations will help you to define your areas of interest, and campus counselors are available to answer more specific questions as you decide your path to success.

What is CTE?

Career and Technical Education (CTE) is focused on delivering students of all ages with hands-on, skills-based education that better prepares them for future education or entering the workforce.

CTE Student Organizations

Career and Technical Student Organizations extend Career and Technical Education in Texas through networks of programs, business and community partnerships and leadership experiences at the school, state and national levels. Career and Technical Student Organizations provide Texas students with opportunities to apply academic, technical and employability knowledge and skills necessary in today's workforce.

Business Professionals of America (BPA) The mission of BPA is to contribute to the preparation of a world-class workforce through advancement of leadership, citizenship, academic and technological skills. | www.bpa.org

HOSA - Future Health Professionals The mission of HOSA is to enhance the delivery of compassionate, quality health care by providing opportunities for knowledge, skill and leadership development of all health science education students, therefore, helping the student meet the needs of the health care community. | www.hosa.org

SkillsUSA is a partnership of students, teachers and industry working together to ensure America has a skilled workforce. SkillsUSA helps each student excel. | www.skillsusa.org

Technology Student Association (TSA) TSA fosters personal growth, leadership, and opportunities in technology, innovation, design, and engineering. Members apply and integrate science, technology, engineering and mathematics concepts through cocurricular activities, competitive events and related programs. | www.tsaweb.org

National Future Farmers of America (FFA) FFA is a dynamic student-led leadership development organization for students of agricultural education. FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agricultural education. | www.texasffa.org

Agriculture, Food & Natural Resources

The Agriculture, Food and Natural Resources Career Cluster focuses on the essential elements of life- food, water, land and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher and veterinarian to geologist, land conservationist and florist. It also includes non-traditional agriculture occupations like wind energy, solar energy and oil and gas production.

Ask Yourself

1. Do you like working outdoors?
2. Are you interested in biological sciences?
3. Are you interested in environmental issues?
4. Do you like hunting and fishing?
5. Are you good with animals?

Endorsements

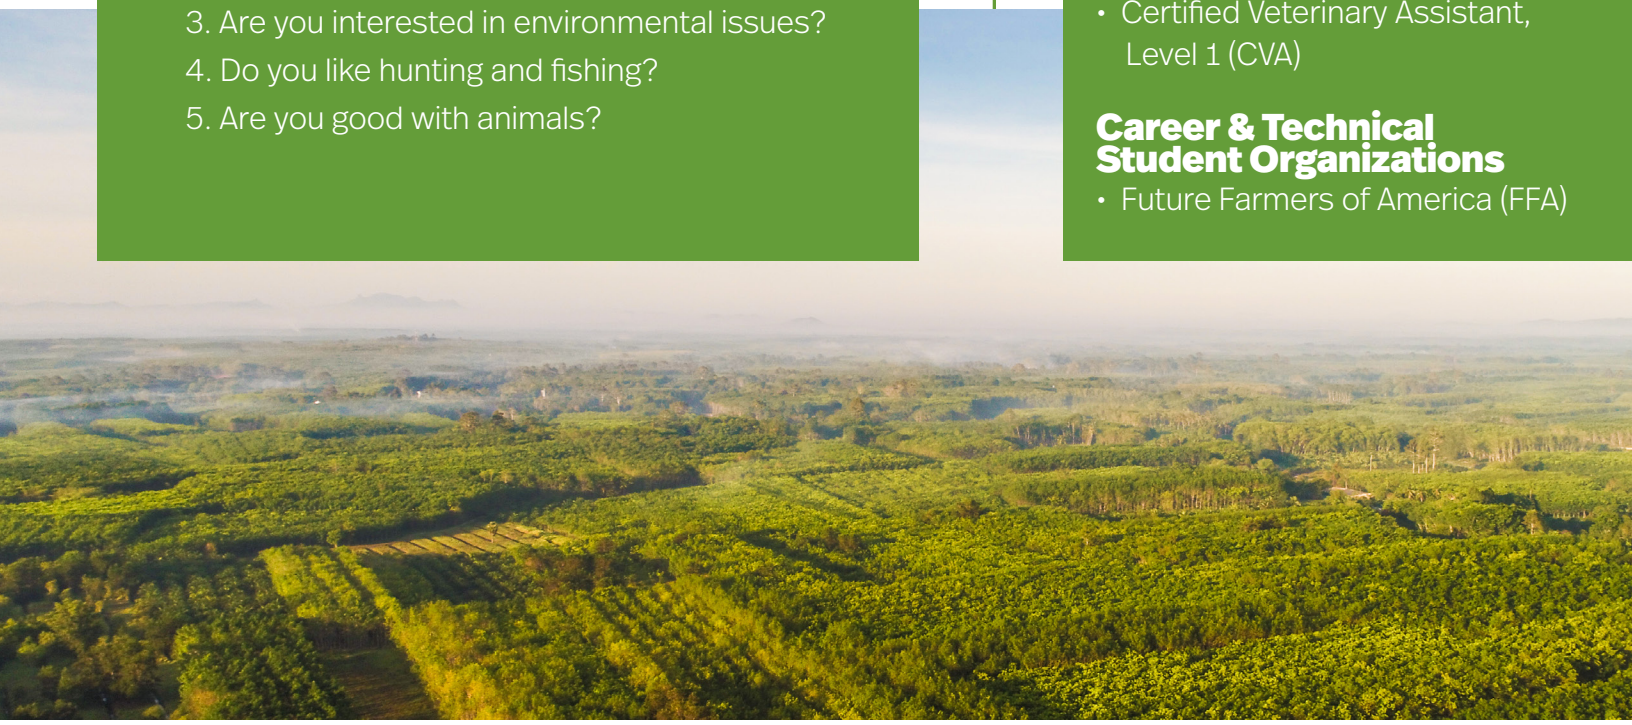

Business & Industry

P-TECH AT

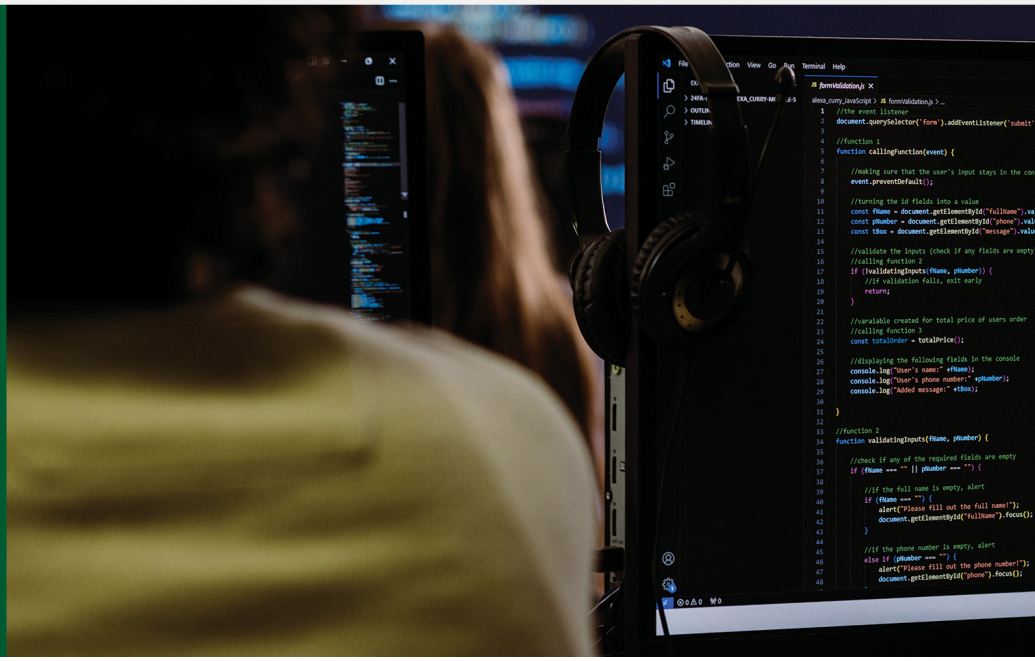

South Texas ISD
Science Academy
GRADES 9-12 | MERCEDES

P-TECH is an innovative school model that allows students to receive curriculum focused on workforce needs, and develop partnerships while obtaining credentials, certificates and earn college credit hours.

Students participating in P-TECH can:

- **Earn** a **high school diploma** and a **certificate** in the area of computer programming & software development at **NO COST**
- **Graduate** with up to **56 credit hours** transferable to any Texas supported college or university
- **Gain work experience** through career readiness, job shadowing, internships, or job training programs
- **Take courses** within the **Programming & Software Development CTE Program of Study**

More on P-TECH

CTE Community Partnerships

AT STISD, we are grateful for our community partners and the invaluable experiences they provide to our students as they pursue their CTE programs of study. We are always open to establishing new partnerships to offer even richer learning opportunities.

If you are interested in becoming one of our STISD Business/Industry Partners, please contact our CTE department at (956) 514-4268 or submit your contact information through the QR Code. Thank you!

*Please note: Not all partners included in photos

STISD Half-Day Programs

Through the STISD Half-Day Programs, students with special needs can take the majority of their academic classes at their home high schools and take a combination of Career & Technical Education (CTE) and academic courses for a total of 4 credits per year.

The purpose of the Half-Day Programs is to teach students in a real work environment so they gain a marketable edge in the workforce. Further, students gain the confidence they need to continue their education after high school. Graduates of the program have solid technical and social skills.

If you are interested in becoming an STISD Half-Day Programs partner, or if you would like more information about our STISD Half-Day Programs, please contact: 956.514.4259.

CTE Consortium

Through the newly-established CTE Consortium, STISD will partner with other school districts in the tri-county area served (Cameron, Hidalgo and Willacy Counties) to provide their students with the opportunity to participate in Programs of Study within 7 Career Clusters at STISD.

There is a nominal fee per student per year for supplies and materials. Transportation is provided free of charge if the district is participating with the STISD Half-Day Programs; otherwise home school districts are responsible for providing transportation for their students.

If your district is interested in partnering with STISD to have students participate in the STISD CTE Consortium, or if you would like more information, please contact: 956.514.4268.

South Texas ISD

It is the policy of the South Texas Independent School District not to discriminate on the basis of race, color, national origin, sex or handicap in its vocational programs, services or activities as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended.

Es norma del Distrito Escolar South Texas de no discriminar en sus procedimientos de empleo por motivos de raza, color, origen nacional, sexo, impedimento o edad, tal como lo requieren el Título VI de la Ley de Derechos Civiles de 1964, según enmienda; Título IX de las Enmiendas en la Educación, de 1972, la ley de Discriminación por Edad, de 1975, según enmienda; y la Sección 504 de la Ley de Rehabilitación de 1973, según enmienda.
