

Request for Lactose Free Milk

The USDA and Minnesota Department of Education allow a School Food Authority to provide a lactose free milk to any student with a lactose intolerance. This substitution can be made with a written request from a parent.

By completing the request below, you are asking Osseo Area Schools to provide a lactose free substitution to your child.

USDA regulations do not allow for a non-milk substitution unless a child has a documented allergy to milk. If that is the case for your child, please have a physician complete the Special Diet Statement found on the District 279 website at District279.org under the lunch menu tab.

If you have any questions, please free to contact Colleen Fairbanks, Coordinator of Food and Nutrition at FairbanksC@district279.org or 763-391-7066
