# Updating Your Laptop to Windows 11

1. Connect your laptop to your charger.
2. Click start, then click settings.

3. Click Update and security

4. Once your laptop is ready to be updated to Windows 11, you'll see this an option to run the update. Click Download and install. When the update is done downloading, you will see an option to restart and install.

5. Once the update has completed and the laptop has restarted, the login screen will appear like this. Login with your normal email and password.
6. ***It is recommended that you leave your laptop on overnight. The next morning, restart it.**
7. ***The week before school starts, sign into your laptop and use it for at least 8 hours to ensure all of the Brentwood Apps are ready for the first day of school.**
