

Project-Based Capstone - Business Management Syllabus

Course Description/Goals:

This course is designed to familiarize students with the concepts related to business management as well as the functions of management including, planning, organizing, staffing, leading, and controlling. Partnering with their teacher and/ or mentor, students will complete an independent research project relevant to the functions of business management. Students conduct research, compile findings, implement project activities appropriate to student contribution, and formally present their work to a relevant audience that may include industry experts.

Course TEKS/Objectives:

*Research project content and development is independent to each student.
