

VEI Business Management and Practicum in Business Management (BME Capstone) Syllabus

Course Description/Goals:

Practicum in Business Management is designed to give students supervised practical application of previously studied knowledge and skills in business. Practicum students apply business technical skills they have learned in a workplace environment. Students are placed in a variety of locations appropriate to the nature and level of student experience.

Course TEKS/Objectives:

Students are placed in a variety of locations and develop their competitive advantage in the classroom appropriate to the nature and level of student experience.
