

Camerado Springs is dedicated to creating a learning environment that enables students to achieve their maximum potential in academic performance, critical thinking skills, expressive talents, physical development, and social and emotional growth.

We are located in beautiful El Dorado County immediately adjacent to Highway 50 in Cameron Park.

Camerado Springs Middle School is an IB World School offering the MYP. We are part of a global community of schools committed to developing knowledgeable and caring young people who will be ready to negotiate their futures successfully. IB World Schools share a common philosophy - a commitment to high quality, challenging education.

For further information about the IB and its programmes visit <http://www.ibo.org>.

What is the IB MYP?

The IB Middle Years Program (MYP) is designed as an inclusive, whole-school program by the International Baccalaureate (IB) that represent the characteristics exemplified in life-long learners. Lessons are designed to strengthen these attributes as students work through challenging concepts.

At the core of all IB programs is the learner profiles. IB learners strive to be inquirers, knowledgeable, thinkers, communicators, principled, open-minded, caring, courageous, balanced and reflective. These characteristics are infused in the daily educational experience in the CSMS Middle Years Program.

The MYP curriculum: The MYP curriculum consists of eight subject groups:

1. Language and Literature (Language Arts)
2. Language Acquisition (Spanish)
3. Individuals and Societies (Social Studies/History)
4. Sciences
5. Mathematics
6. Arts (Visual and Performing)
7. Physical and Health Education (PE)
8. Design

Student study is supported by a minimum of 50 hours of instruction per subject group in each academic year. The MYP aims to help students develop their personal understanding and their emerging sense of self and responsibility in their community.

Benefits for Students

An IB education includes:

- rigorous learning objectives
- a student-centered approach to teaching
- international perspectives
- concern for the whole child
- sustained teaching and learning in more than one language
- a focus on learning how to learn
- the development of flexible thinking that prepares students to evaluate information critically and apply knowledge in complex, unfamiliar situations

The MYP teaches tools for lifelong learning and fosters responsible attitudes that help students develop the skills they need for both academic and personal success.
