

# REFERENDUM PROJECT UPDATE

AUGUST 2025

## Drawing up the plans!

The design team at ISG Architects has been hard at work throughout the summer, planning refreshed and improved spaces for Washburn Middle/High School. One focus of the referendum projects is to create a secure, welcoming entrance to the building and ensure full accessibility for all students. Pictured here are renderings of the new main entrance and front office area. The team is on schedule to complete the building design this fall, after which the project will be put out to bid by Miron Construction. Construction is set to begin in spring 2026.

## What will look differently?

Cabinets & Countertops in Classrooms

Accent Paint Color

Flooring
