

Strawberry Hill School

An IB World School

Strawberry Hill is an inter-district magnet offering the International Baccalaureate Primary Years Program for grades K-4, and the Middle Years Program in grades 5-8. We are an inter-district school, accepting applications for students residing in Stamford and surrounding towns in CT.

STRAWBERRY HILL SCHOOL COMMUNITY

The IB program strives to develop caring, life-long learners that embody the attributes of the Learner Profile. We are a collaborative learning organization of students, teachers, parents and community members who, through the IB program, promote real world application and concept-based understanding. We encourage student action and reflection. We challenge students to be internationally minded by examining multiple perspectives and respecting other cultures and beliefs. We pride ourselves on a strong growing community with active family participation. Together, we are developing new traditions that showcase our learning and shape our school culture. We are building the foundation of a vibrant school community where we foster a sense of belonging and purpose. The practice of life-long learning is central to our beliefs. Our dedicated and knowledgeable staff continually participates in professional development across multiple disciplines. This includes in-house coaching, IBO World workshops, and social emotional learning.

CURRICULUM AND INSTRUCTION

Strawberry Hill delivers a concept-driven, International Baccalaureate curriculum (PYP & MYP) that prioritizes deep understanding, inquiry, and global awareness. Teachers engage students in authentic, interdisciplinary learning experiences that connect classroom content to the real world. This includes: (i) Inquiry-based projects that build voice, choice, and ownership; (ii) Collaborative learning structures to foster communication and teamwork. Our program includes rich access to Spanish, Art, Music, and PE, ensuring an integrated experience across disciplines.
