Application Components

**JACKSON CO SCHOOL DIST (3000) Public District - FY 2024 - School Improvement, 1003 - Rev 3 - District Level Application**

This section of the application has three parts:

**Part I: District Application for Section 1003 School Improvement Funds**

ESSA Section 1003 School Improvement funds are available to school districts with schools identified for Comprehensive Support and Improvement (CSI), Targeted Support and Improvement (TSI), or Additional Targeted Support and Improvement (ATSI). Districts must submit an application to receive Section 1003 funds. Part I below is the district's application for Section 1003 funds.

**Part II: Use of Section 1003 School Improvement Funds**

The State Board Approved methodology for dispersing 1003 funds states that, districts receive \$100,000 for each CSI school. If funds remain after CSI schools have been served, districts will receive \$40,000 for each TSI/ATSI school. If there are not enough funds to serve all schools, priority will be given to CSI schools, then TSI/ATSI schools will receive funding proportionally. Section 1003 funds must be used in identified schools to support evidence-based strategies or interventions that meet strong, moderate, or promising levels of evidence. Part II collects information about how districts plan to use Section 1003 funds in identified schools.

**Part III: Use of Required Title I, Part A Reservation for CSI, TSI and ATSI Schools (20% of each identified school's Title I, Part A allocation)**

Under Mississippi's ESSA State Plan approved by the U.S. Department of Education, a Title I school that is identified for CSI, TSI, or ATSI must reserve 20% of its Title I, Part A allocation to implement evidence-based strategies or interventions that meet strong, moderate, or promising levels of evidence and address the issues that caused the identification. Part III collects information about how identified schools will use this Title I, Part A school-level reservation. Note: all CSI, TSI, and ATSI schools that receive Title I, Part A funds must take this reservation whether they receive Section 1003 funds or not.

**JACKSON CO SCHOOL DIST (3000) Public District - FY 2024 - School Improvement, 1003 - Rev 3 - District Level Application**

Please provide a description of how the district will carry out the following responsibilities for CSI, TSI and ATSI schools receiving Section 1003 School Improvement funds.

**CSI Schools Only**

1. Describe how the LEA will develop the school improvement plan(s).

Not Applicable

**TSI and ATSI Schools Only**

2. Describe how the LEA will support schools in developing or implementing the school improvement plan(s).

As a district-level leadership team, the Superintendent, Special Education Director, Business Manager, Curriculum Director, and the Assistant Superintendent of Curriculum and Instruction will work together to ensure that all TSI/ATSI schools have the support needed to provide transformational leadership in their buildings, to develop new and existing teacher talents, to implement instructional initiatives, and to positively shift school culture. The curriculum department, with leadership oversight by the Assistant Superintendent of Curriculum and Instruction and the Curriculum Director, will provide instructional coaching support in all schools and act as an advisor to school administration as TSI/ATSI plans are developed and implemented. The business office will provide any cost data needed to evaluate spending options. Overall, JCSD district-level leadership team will provide technical support using our staff to answer questions and guide the process, when necessary.

3. Describe how the district will monitor the implementation of the school improvement plan(s).

The District Leadership Team will monitor the instructional and fiscal activities of the schools receiving Section 1003a funds. The curriculum department will provide direct support for school teachers and administrators in the way of instructional coaching and advisement as they implement TSI/ATSI plans. The curriculum department will assist schools with unsuccessful TSI plan implementation by providing support and advisement for plan revision. The business office will apply the same procedures used to expend all Title funds with regards to budgets and purchasing procedures. The Superintendent will have all TSI/ATSI school principals submit monthly reports during breakout sessions after the monthly principal meetings to inform the leadership team of progress being made with the subgroup. The Special Education director, Case Managers, and the MET team will comprehensively review students deemed unsuccessful for TST or suspected of a disability and work with school personnel to ensure that the needs of all IDEA students are met within the TSI/ATSI plan. As a team, a review of data will occur and recommendations for adjustments in areas that are not progressing will be discussed and addressed. This will be an ongoing, monthly process.

**TSI and Non-Title I ATSI Schools Only**

4. Address the following:

a. Describe what the school will do with stakeholders (including principals, other school leaders, teachers, and parents) to develop and implement a school-level TSI plan to improve student outcomes based on the indicators in the statewide accountability system.

b. What is the LEA's determined number of years for a school to be identified before additional action will be taken by the LEA?

a). The school level plan will be aligned with the statewide accountability system indicators, therefore, the planning sessions with all stakeholders will be anchored to the discussions pertaining to the indicators. All stakeholders will be present to include principals, other school leaders, teachers and parents, which will be led and overseen by the Jackson County School District Curriculum and Instruction department. b. Each school examines their plan on an annual basis, and adjustments are made based on student achievement outcomes. After 2 years of annual reviews by the school and district level educational team, the JCSD district-level educational team, which consists of the Assistant Superintendent of Curriculum and Instruction and the Director of Curriculum and Instruction will take additional action. Close collaboration between the curriculum department, special education department, and the technology department will help to guide and meet the needs of each school. All collaboration will involve a review of the implementation of strategies that

are working and those that are not. Both district and school level educational leadership teams will make adjusts and/or removals if strategies are not proving to be advancing student achievement. All collaborative sessions will consist of reviewing data and making immediate adjustments as needed

\* 5. Describe the district's rigorous review process to a) recruit, b) screen, c) select, and d) evaluate external partners funded by the district to implement strategies or interventions. Provide a description for parts a, b, c, and d.

- a. Recruit
- b. Screen
- c. Select
- d. Evaluate

In partnership, the Special Education director, the Assistant Superintendent of Curriculum and Instruction, and the Curriculum and Instruction director will work with various regional colleges and universities to attract newly graduated students and consistently work with state and local leadership to update and maintain a running list of potential external partners in education. Jackson County School district also utilizes multiple commercial job/employment boards to seek out and recruit talent. All three district-level administrators collaborate with consortium members to also garner and add to our list of effective external partners. The District Leadership team will act as an advisor for school administrators as they choose external partners with whom they will work to provide academic interventions. The Special Education department has a variety of cooperative agreements with many agencies and businesses, and the Special Education director and the MET team is responsible for screening and selecting all external partners for special education students. All stakeholders, including the Jackson County School Board of Education, will be involved in selecting any external supports districtwide. Their input will be most valuable, since their feet are on the ground implementing the TSI/ATSI plans. The District Leadership team, which includes the Special Education Director, will utilize surveys to obtain feedback from school principals and staff members to evaluate the effectiveness of all external partners, utilizing state and local assessment/benchmark data and a review of students' overall performance on both formative and summative classroom assessments to determine effectiveness.

\* 6. Describe how the district will align a) other Federal, b) State, and c) Local resources to support strategies funded with Section 1003 funds. Provide a description for parts a, b, and c.

- a. Federal (i.e., Title I, IDEA, Homeless, Migrant, EL, 21st Century, etc.)
- b. State
- c. Local

The Special Education and Curriculum departments will utilize district instructional improvement funds where appropriate and necessary to support the implementation of TSI/ATSI plans. The district will only use 1003a funds to supplement existing spending budgets. The Special Education Director, along with the Superintendent, will ensure that all special education teacher units will be equitably distributed based on student needs. Additionally, the district, under the advisement of the Special Education Director, will adhere to all IDEA regulations and the Mississippi Department of Education policies. Overall, the district will be creative and flexible and look for ways to make sure all resources support the goals.

\* 7. Describe how the district will make necessary modifications to practices and policies to provide operational flexibility that enables full and effective implementation of school improvement plans.

The curriculum department will prioritize the instructional coaches for TSI/ATSI schools so that additional time will be allocated to assist the effective implementation of TSI/ATSI plans. The Special Education director will ensure that he/she modifies or adjusts sped unit allocations per ATSI/TSI school as needed to implement the school's plan. Moreover, his/her team will progress monitor IDEA students every nine weeks. The JCSD district-level administrative team will use its authority to remove barriers and allow for school-level autonomies, including budget, staffing, and curriculum autonomies. The district will allocate funding and resources based on the needs of our SPED student population and the Special Education and Curriculum Director will ensure that a system is developed to support, monitor, and sustain school improvement efforts.

\* 8. Describe the collaborative process used by the district and school leadership teams to a) identify and b) select the evidence-based interventions. Provide a description for parts a and b.

- a. Identify
- b. Select

The Federal Programs Director, Federal Programs Grant Accountant and the Federal Programs Coordinator will facilitate a district-wide school-improvement planning session with all school teams to aid collaboration amongst ATSI/TSI identified school leadership. The Special Education Director, Technology Director, Assistant Superintendent of Curriculum and Instruction and the Curriculum Director will assist school-level leadership with identifying and selecting evidence based interventions during designated work sessions and/or principal/admin meetings. The Assistant Superintendent of Curriculum and Instruction,

the Curriculum and Instruction Director, and the Special Education Director will assist school leadership, to include the school principal, with discussing the use of and finalizing evidence-based interventions to be implemented within the identified school during these planning/work sessions. These district-level leaders will assist school-level leaders with internet searches, other educational research databases, or educational conference session materials. School teams will then go back to their campuses, and continue planning with their SLTs. During the designated work sessions each individual SLT and the FP Director, FP Grant Accountant, FP Coordinator will finalize spending options for evidence-based interventions and input selections within the MCAPs system.

**CSI and ATSI Schools:**

9. Describe how the district identifies resource inequities, which may include a review of the LEA and school level budgeting, that will be addressed through implementation of the school improvement plan(s). (ESEA section 1111(d)(1)(B)(iv) and (2) (C)).

**Resource Inequity Considerations May Include:**

Outcomes such as academic readiness in kindergarten, attendances, performance on course work, on track for graduation, and post-secondary readiness. Access to opportunities and resources such as participation in early childhood programs, effective teaching, rigorous coursework, curriculum resources, academic supports, supportive schools and classroom environments

Each school will have an individual meeting to review the LEA and school level-budgeting that will be addressed through the implementation of the plan. Principals and school leadership teams will attend the meetings, in which strategies and best practices to address deficiencies will be discussed to increase learning outcomes for students. Agendas and sign-in sheets will be utilized. Resource inequities that will be focused on include academic engagement, assessment performance, and access to and participation in tutoring or other types of support

\* Required Assurance. The district assures that each school that receives Section 1003 funds will receive all of the State and local funds it would have received in the absence of Section 1003 funds.

\* LEA Approval Certification: The district certifies that the plan and funding application for each school that received Section 1003 funds has been reviewed at the school and district level as well as has received approval from the principal, federal programs director, business manager, superintendent and local school board.

\* I understand that upon approval of our application, the district is required to enter the approved budget into the district's accounting package and align it to the approved application in MCAPS. In addition, I understand that this alignment must be done with each approved application revision.

JACKSON CO SCHOOL DIST (3000) Public District - FY 2024 - School Improvement, 1003 - Rev 3 - School Improvement, 1003 Checklist

This checklist is a means of communication between MDE and LEAs regarding the allowability and allocability of the items submitted in the funding application. Please follow the steps below to ensure that the funding application contains items that are in compliance with program requirements.

- After the LEA submits the application, MDE will review the application and mark each section as OK, Not Applicable, or Attention Needed. If the application contains no items that are marked as Attention Needed, the application will be approved.
If the application contains items that are marked as Attention Needed, the application will be returned to the LEA with a status of not approved. The LEA will review the checklist for items that are marked Attention Needed and make the necessary changes to those items. Only the checked items in the sections marked Attention Needed are to be corrected and/or explained. Each section marked Attention Needed also has a place where MDE may provide notes to explain those items. The LEA should check for notes and additional comments.
Once the LEA has made the necessary adjustments, the LEA will resubmit the application for approval. If MDE determines that the item has been corrected, Attention Needed will be changed to OK by the MDE Reviewer. If the items that were marked Attention Needed still have not been corrected, the application will be returned again to the LEA with a status of not approved.
Applications that contain no items that are marked Attention Needed will be approved.
