### NEEDS ASSESSMENT: SCHOOL PROFILE

#### Student Demographics

The following data regarding **student demographics** has been collected, retained, and analyzed:

- ☒ Enrollment (Required)
- ☒ Grade level (Required)
- ☒ Ethnicity (Required)
- ☒ Attendance (Required)
- ☒ Mobility (Required)
- ☒ Socioeconomic status (Required)
- ☒ Discipline (Required)
- ☒ Limited English Proficiency (Required)

Summarize the analysis of data regarding **student demographics**:

Strengths:

Prairie Point has a year to date attendance of 94.04%. This is an increase in attendance from last year. Our class sizes have also remained at or on the lower end of the guidelines set forth by the district.

Weaknesses:

This year we had more students enroll after 1<sup>st</sup> quarter than in years past. 22 students enrolled after school started and many of these students had academic deficits.

If indicated, state need(s) identified pertaining to **student demographics**:

#### Student Achievement

The following data regarding **student achievement** has been collected, retained, and analyzed:

- ☒ MAP results by content area and grade level, including multi-year trends (required)

- ☒ MAP results by ESEA Annual Measurable Objective: comparative data showing performance of disadvantaged students against all other meaningful categories of students in the school; comparison of performances of students in various subgroups (required)
- ☐ Completion rates: promotion/graduation rate, retention rates (if applicable)
- ☐ Post-Secondary trends: students attending and/or completing post-secondary schools, students accepted in the armed forces (if applicable)
- ☒ Other performance indicators used in analysis:  

NWEA MAP Assessment Results

Summarize the analysis of data regarding **student achievement**:

Strengths:

According to NWEA Map results, 73% of our entire school is achieving at or above the 40<sup>th</sup> percentile in math and 75% of our students are achieving at or above the 40<sup>th</sup> percentile in reading. When looking at growth in math, our school achieved at the 60<sup>th</sup> percentile and our conditional growth was at the 44<sup>th</sup> percentile. Which means as a school we grew better than 44% of schools who took the same test. In reading, we did even better: as a school our achievement was at the 65<sup>th</sup> percentile and the average growth was 54<sup>th</sup> percentile.

Weaknesses:

When we split our data up by subgroups, there continues to be a significant gap in achievement when looking at different ethnicities. This is an area we will continue to look at.

If indicated, state need(s) identified pertaining to **student achievement**:

## Curriculum and Instruction

Data has been collected, retained, and analyzed regarding each of the following factors of **curriculum and instruction** at the school:

- ☒ Learning expectations (Required)
- ☒ Instructional program (Required)
- ☒ Instructional materials (Required)
- ☒ Instructional technology (Required)
- ☒ Support personnel (Required)

Summarize the analysis of data regarding **curriculum and instruction**:

Strengths:

District approved curricula can be found on our Park Hill Website. The district provides strong curriculum for all subject areas as well as instructional frameworks. Our staff ensures that the curriculum is implemented with fidelity within the instructional frameworks. This year the focus has been on math achievement and meeting our growth goals.

Weaknesses:

This is more of a threat than a weakness but next year we are getting a new resource for math in all grade levels. While the new resource will be better than what we currently have, there is a risk for a drop in achievement as teachers become familiar with a new resource.

If indicated, state need(s) identified pertaining to **curriculum and instruction**:

We have a PD plan designed to support teachers with the new math curriculum. Additionally, our instructional coach is doing some proactive PD this spring to help get the teachers ready.

## High Quality Professional Staff

Data has been collected, retained, and analyzed regarding each of the following factors of a **high quality professional staff**:

- ☒ Staff preparation (Required)
- ☒ Core courses taught by appropriately certified teachers (Required)
- ☒ Staff specialists and other support staff (Required)
- ☒ Staff demographics (Required)
- ☒ School administrators (Required)

Summarize the analysis of data regarding **high quality professional staff**:

Strengths:

More than 70% of certified staff members have advanced degrees in education. Our district provides dedicated time for professional development. Our building PD has been focused on BSIP goals related to Restorative Practices

Weaknesses:

A continued weakness for Prairie Point Elementary is our staff's diversity does not mirror the student population. We have begun doing some equity work, but this is a continued weakness.

If indicated, state need(s) identified pertaining to **high quality professional staff**:

## Family and Community Engagement

Data has been collected, retained, and analyzed regarding each of the following factors of **family and community engagement** at the school:

- ☒ Parental involvement (Required)
- ☒ Communication with parents (Required)
- ☒ Policy involvement (Required)
- ☒ Parent education (Required)
- ☒ Support for special needs and underserved (Required)
- ☒ Health services (Required)

Summarize the analysis of data regarding **family and community engagement**:

Strengths:

In our district survey, we had 24% of families responding positively to questions about family engagement which is up 1 percent from last year and falls around the 50th percentile nationally. Additionally, 84% of families responded favorably when asked about overall school climate which falls in the 80-99th percentile. This is also a 2 point increase from last year.

**Weaknesses:**

The amount of diverse families and needs in our community has continued to grow. This has caused us to rethink how we structure programming in and outside of the school day to ensure the greatest opportunity for families to participate.

If indicated, state need(s) identified pertaining to **family and community engagement**:

### **School Context and Organization**

Data has been collected, retained, and analyzed regarding each of the following factors of **school context and organization** at the school:

- ☒ School mission/vision (Required)
- ☒ Average class size (Required)
- ☒ School climate (Required)
- ☒ Management and governance (Required)
- ☒ Student discipline policy (Required)

Summarize the analysis of data regarding **school context and organization**:

**Strengths:**

Prairie Point's Mission and Vision are posted throughout the building and are always reviewed at the beginning of all staff meetings. On our building score card, there was a lot of success - According to the Panorama Ed Staff Feedback Survey, 74% of the staff responded favorably regarding school climate. When looking at Principal/Teacher Trust, 90% of our staff responded favorably.

**Weaknesses:**

Work/Life Balance is our lowest area where only 51% of staff responded favorably. This is something we are continuing to work on.

If indicated, state need(s) identified pertaining to **school context and organization**:

1. Our school will continue to benefit from fine-tuning our MTSS to support the "whole child." This means looking at socio-emotional needs; behavior needs and academic needs when working to best support our struggling students.

### **NEEDS ASSESSMENT: IDENTIFYING PRIORITIES**

"In most schools, conducting a comprehensive needs assessment will result in the identification of a large number of issues that could be addressed to improve the achievement of students. However, no school should attempt to address every identified need in a single year. Most planning experts suggest that schools prioritize their major issues and address no more than three of the most important..." (*Designing Schoolwide Programs Non-Regulatory Guidance, March 2006*)

List and number, in order of priority, the critical needs identified in the school profile.

Prioritized needs: One need must be identified with the option to add up to two more needs

1.
  1. Our school will continue to benefit from fine-tuning our MTSS to support the “whole child.” This means looking at socio-emotional needs; behavior needs and academic needs when working to best support our struggling students.

Description of how strategy/strategies will provide...:

One of the biggest pieces of our BSIP that was new this year is our implementation of Restorative Practices. Restorative Practices came from the district level DEIB work that was done with our community. Schools that implement restorative practices benefit from less disruptions during instruction, stronger classroom communities- both of which contribute to higher student achievement.

- ☒ Use methods and instructional strategies that strengthen the academic program in the school.

Description of how strategy/strategies will strengthen...:

Our school continues to be an AVID school, implementing WICOR in all areas. WICOR stands for Writing, Inquiry, Collaboration, Organization and Reading. Each of these components is woven into instruction in all grades and all areas of the building.

Description of how strategy will provide...:

- ☒ Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the Missouri Learning Standards

Description of how strategy/strategies will address...:

Many of the students who come to Prairie Point are at risk of not meeting Missouri Learning standards. We have multiple families who are homeless or doubled up in homes as well as students who have experienced significant trauma. One of the ways we are working to support these students feeling safe at school is to implement daily morning meetings. Through these morning meetings, teachers focus on building a strong classroom community as well as teaching lessons from a SEL curriculum called Character Strong. By helping students feel safe and ready to learn at school, we are more likely to help them grow academically. Once students feel safe, many participate in small group instruction with their teachers, other teachers in the grade level or our building interventionists.
