

# Principles of Education and Training Syllabus

## **Course Description/Goals:**

This course covers a variety of topics including learning processes, education theory, classroom management, child development, and lesson planning. Students will research careers and topics in education, including teacher training, interview processes, and ethics in the workplace. Students will experience field-based teaching observation opportunities and create a portfolio that will serve as a foundation for future education courses.

## **Course TEKS/Objectives:**

The TEKS (Texas Essential Knowledge and Skills) for Principles of Education and Training is designed to introduce learners to the various careers within the Education and Training Career Cluster. Students use self-knowledge as well as educational and career information to analyze various careers within the Education and Training Career Cluster. Students are introduced to societal influences of education and various school models. Additionally, students learn the role and responsibilities of a classroom educator. Students will develop a graduation plan that leads to a specific career choice in the student's interest area.
