PARTICIPANT FEEDBACK

"As a parent, the information I have learned at TCSS U has been eye-opening! From funding issues and curriculum to opportunities for our students and programs to support them, this program has been so helpful. The leaders of our Tuscaloosa County School System have such a large responsibility & obligation to our community that they handle with great poise and expertise! They really do care about our students and our community. I consider myself a pretty involved & educated parent, but I had NO IDEA all that goes into making our school system what it is. If you have an opportunity to attend TCSS U in the future, do it!"

- Jeremy Burrage, Parent

"Being a part of TCSS U has allowed me a glimpse into the Tuscaloosa County Schools System on an intimate level. I have learned about great programs, innovative approaches to instruction, and have felt community and camaraderie. The district leaders/presenters have been open, honest and intentional about funding, needs and facts. I am grateful for this opportunity and can't wait to learn more about TCSS through TCSS U."

- Dr. Terri Boman, Educator

"I like that they are explaining things at a level that parents can understand. For example, when they explained the Alabama State Report Card for schools, they explained the detail that goes into it, so a parent can really understand what exactly makes up a school's score. Also, when they talked about alternative school options, I learned so much. I work in the schools, and I didn't even know all the options for this. I like that you get to network with other parents, and I like that the participants are leaders within their school communities, so they can take this information back and share it."

- Janice Smith, Parent & School Secretary

"We were provided important details and, also, good visuals of the larger role of the education system in general and the TCSS specifically. Also, more prevalent topics such as mental health awareness were discussed and the specific initiatives addressing these issues. I highly recommend TCSS U to parents. You will gain a greater understanding of your child's educational journey and the role of so many educators in your child's nurturing and development."
