INSTRUCTIONAL TECHNOLOGY

at New Lebanon School

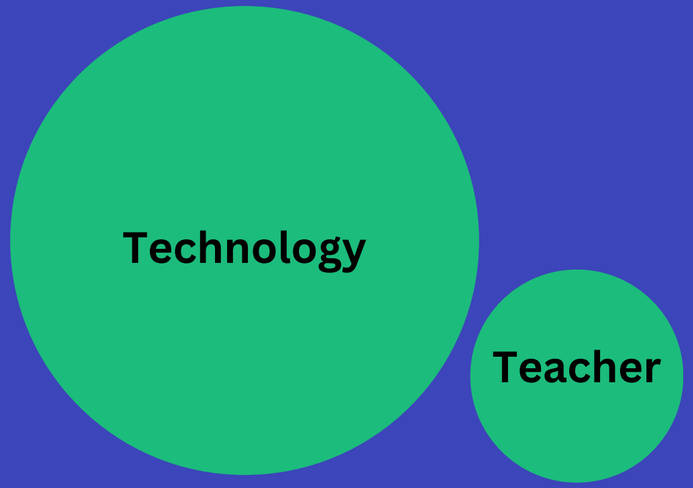

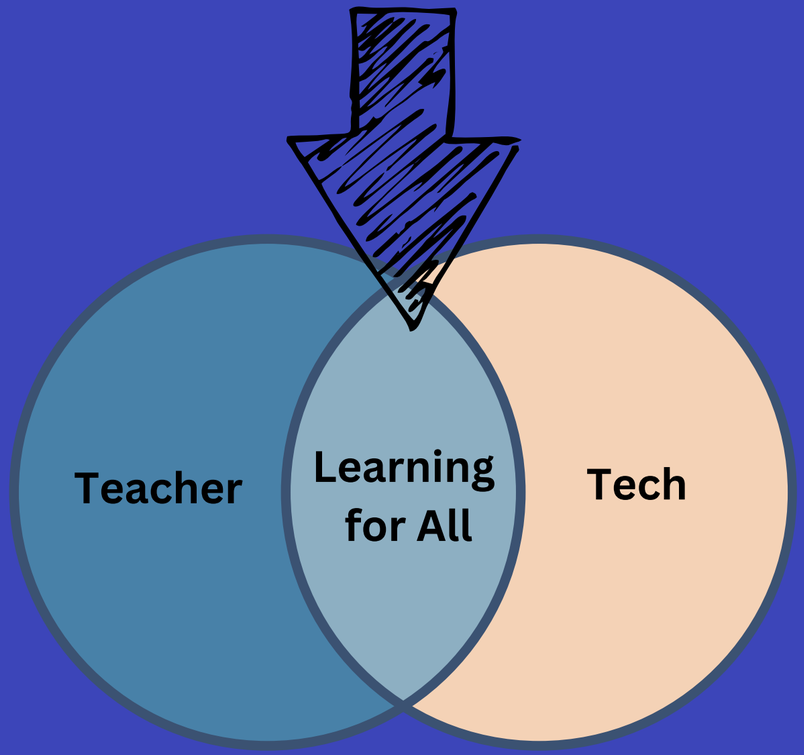

A TECH EVOLUTION

PRE COVID

COVID

POST COVID

OUR GOAL

How do we use instructional technology in balance as a community to find quality content that extends, deepens, and enhances student learning experiences?

LEVERAGING TECHNOLOGY

Data Collection & Immediate Feedback

Expanded Access to Resources

Digital Citizenship

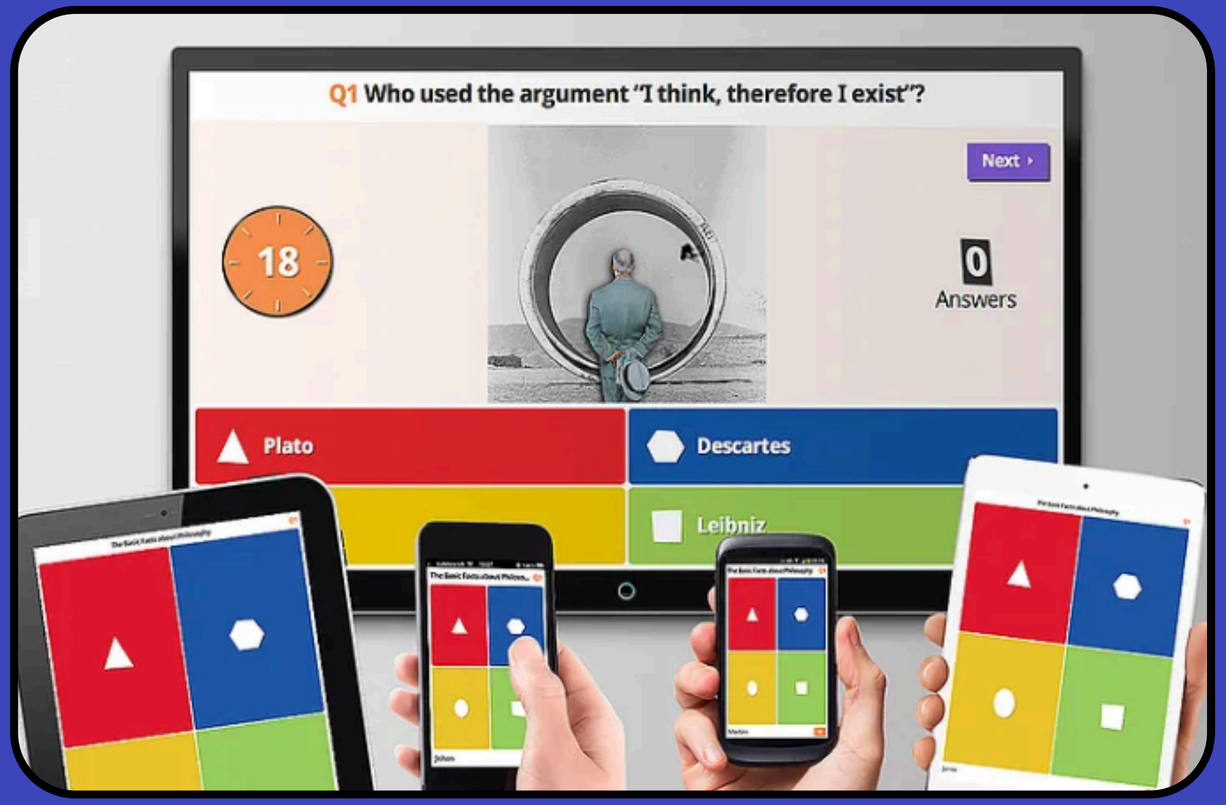

Technology Study Skills

THE EVOLUTION OF ASSESSMENT

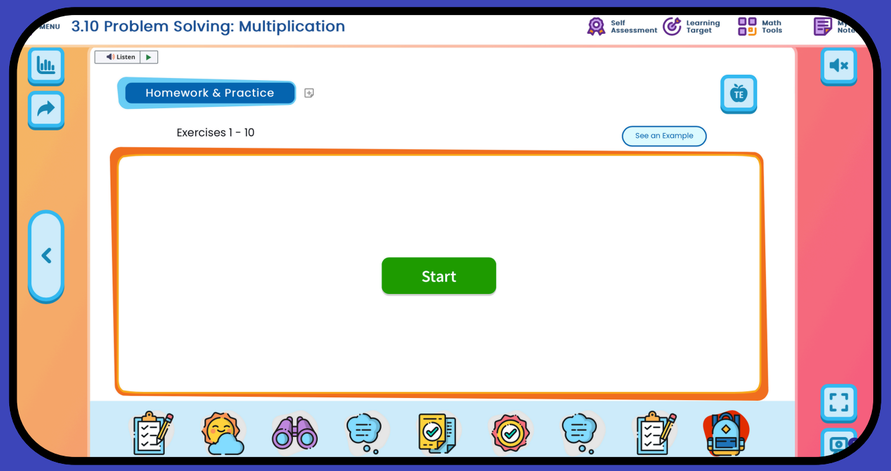

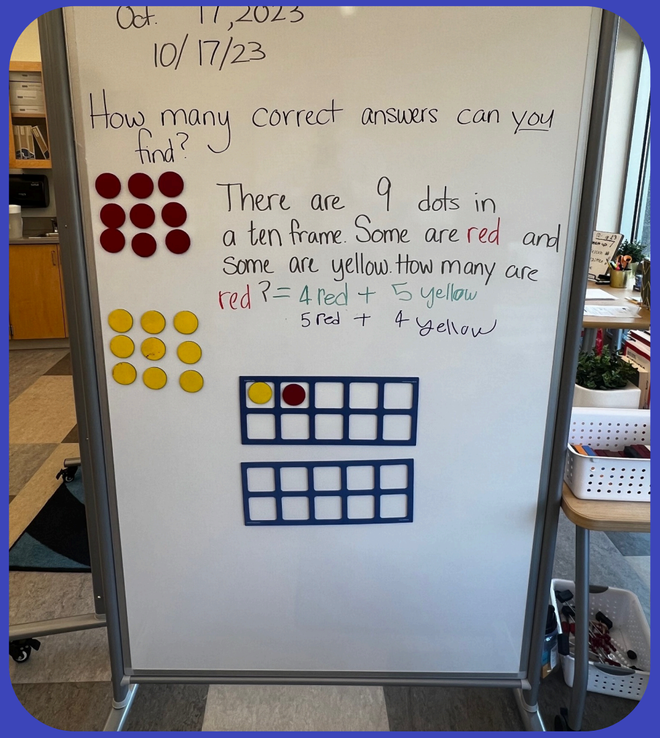

Kahoot!

- REAL TIME ASSESSMENT FOR EVERY CHILD
- INCREASED ENGAGEMENT & ACCOUNTABILITY
- DOWNLOADABLE DATA

BIG IDEAS MATH INTEGRATION

CLASSROOM VISITS

Our teachers are happy to have you. Please respect that they are teaching :)

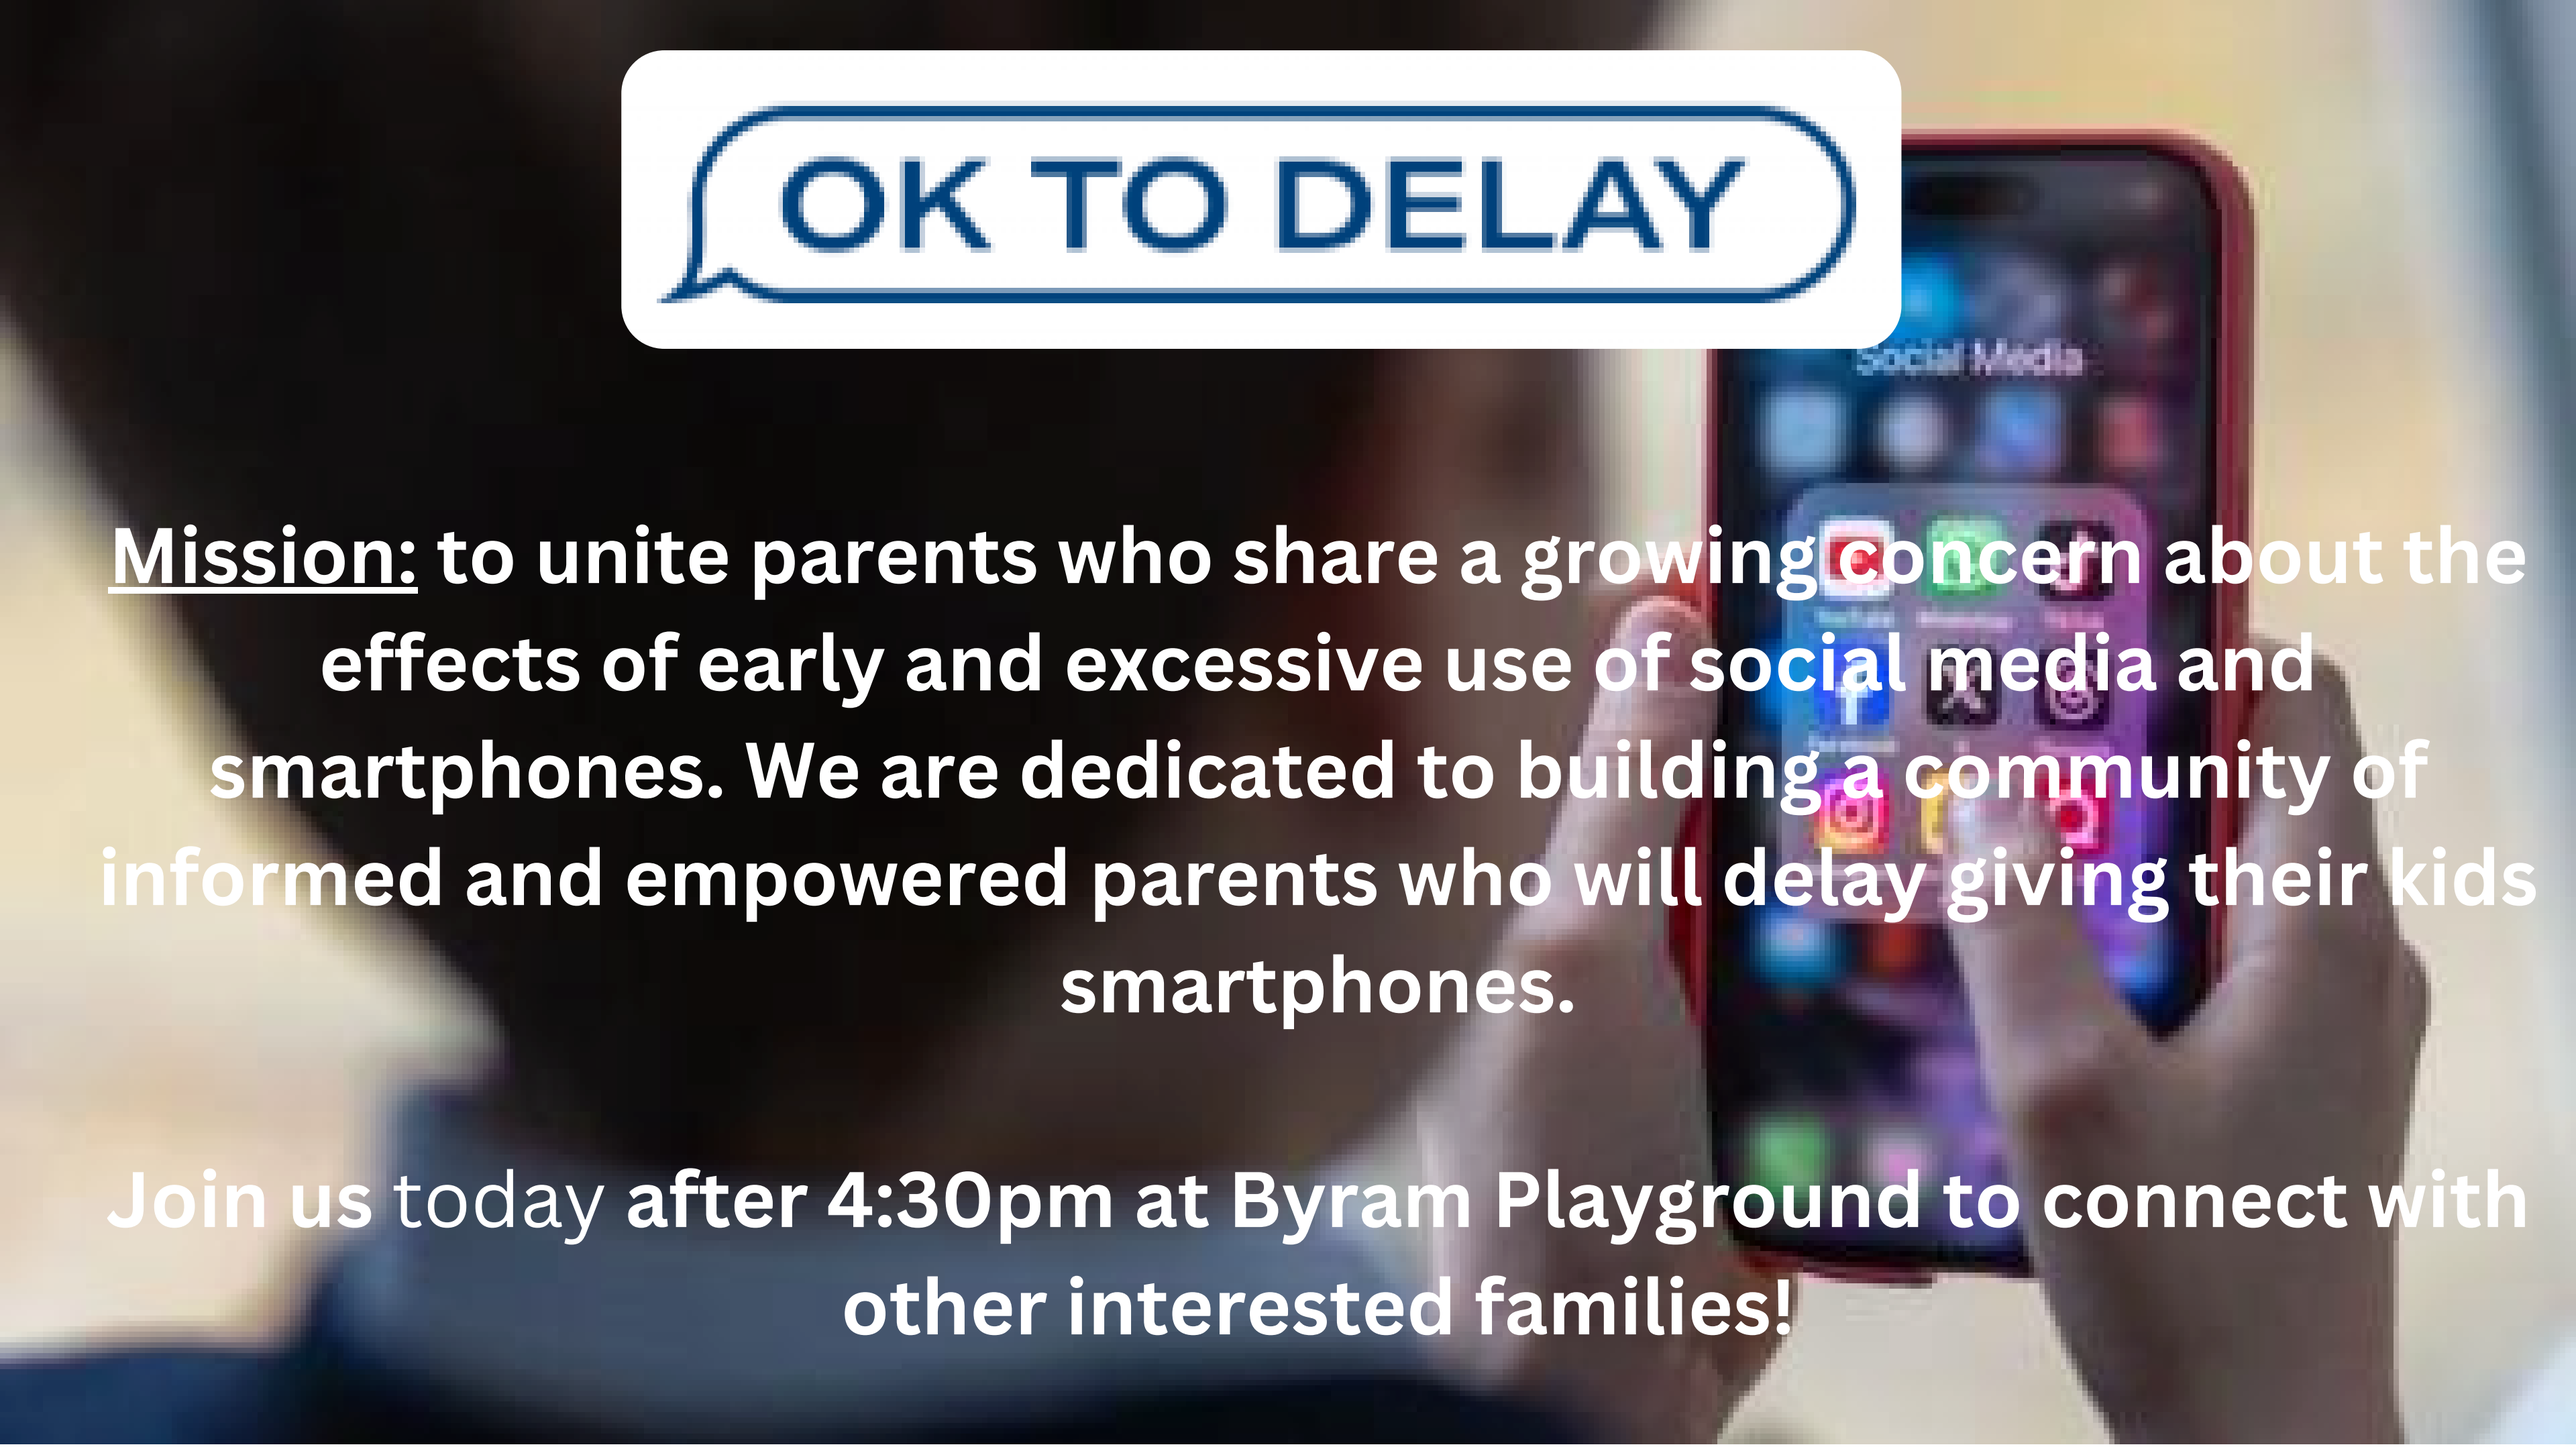

Give everyone grace.

Take your cues from your staff guide.

Invite students without an adult visitor into your activity when possible.

OK TO DELAY

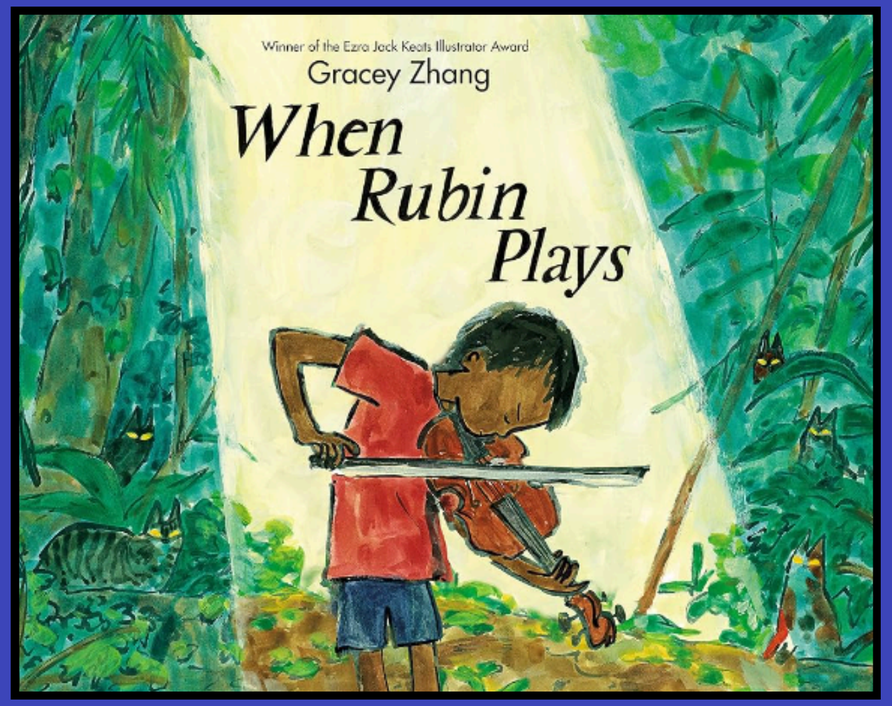

<u>Mission:</u> to unite parents who share a growing concern about the effects of early and excessive use of social media and smartphones. We are dedicated to building a community of informed and empowered parents who will delay giving their kids smartphones.

Join us today **after 4:30pm at Byram Playground to connect with other interested families!**

TB Learner Profile: Risk-Taker

The biggest risk is not taking one at all.

Primary Years Programme

THANK
YOU
