

Dear Haddon Township families,

My name is Jeannine Caballero, area representative for the ASSE International Student Exchange Program. I want to share an incredible opportunity that can transform your family's life and broaden your global perspective--becoming a host family for an exchange student.

As someone who has personally experienced the joy of hosting an international exchange student, I can confidently say that this is a life-changing experience. Last year, my family welcomed a student from Spain, and my sister also hosted a student from Italy. We both had wonderful experiences, and Andrés & Bianca have become cherished members of our extended family.

ASSE brings extraordinary students from around the globe to the United States, offering families like yours the chance to learn about different cultures and create lifelong friendships. You would also be providing a transformative experience for a young person and have the opportunity to expand your own family's world view.

As an area representative, I will be able to offer unique support to the host families in Haddon Township. Living in the community myself, I understand the specific needs of both host families and exchange students. I can provide guidance, answer questions, and help make the hosting experience smooth and rewarding.

Our students are carefully selected and come from diverse countries across Europe, Asia, and South America. They are motivated, academically strong, and eager to immerse themselves in American culture. Students come with their own spending money and insurance.

Hosting requirements are simple. You would just need to provide a bedroom (sharing is okay!), offer meals, provide transportation to school and create a welcoming supportive environment.

If you, or someone that you know, would like to learn more about this incredible opportunity, I would love to discuss how your family can get involved. Contact me for more information!
