LEGO Education Solutions will increase student access to innovative technologies and get students excited about acquiring 21st century skills. The products listed on the pricing proposal form are a non-consumable cost; however, given that they function as durable equipment, the initial investment necessary establishes long-lasting programming to be inventoried for years of use only needing replacing on a cyclical basis.

The curriculum and software associated with the sets are available at no cost, including no annual licensing or software fees. Discounts will be automatically included when FCS requests a price quote from their LEGO Education sales representative.

Pricing is valid from 06/30/2026. LEGO Education commits to the above prices for the first term of this contract. Annual increases may occur as product quality, value or performance is enhanced. Component shortages may also impact prices. Please note FCS is welcome to purchase from our online catalog (<https://education.lego.com/en-us/shop>). Please note, only the above products will be discounted.
