

The Art Explorers Club

discover. imagine. create

Welcome to **The Art Explorers Club** — where young artists set out on exciting creative journeys! This extracurricular program gives children the space to explore their creativity, catch up on projects, or start new ones.

Each week, our “explorers” will dive into the colourful world of painting, drawing, sculpture, and mixed-media creations. They’ll learn to see art everywhere — in nature, shapes, colours, and everyday objects while discovering new materials, trying fresh techniques, and expressing unique ideas. We believe that appreciation of the arts is the hallmark of a complete person and a healthy society. Our classes focus on nurturing creativity, encouraging collaboration, and offering inspiring, sometimes life-changing experiences in art.

Our Art Program inspires and develops:

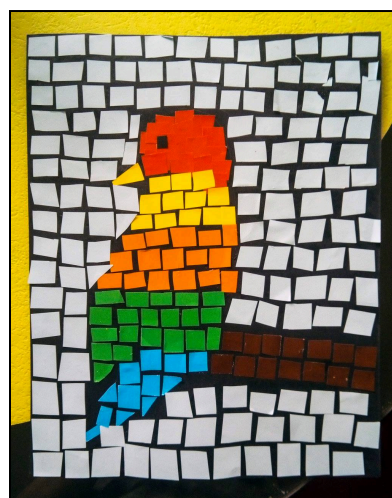

- Creativity, imagination and self-expression
- Knowledge of various media, tools, and techniques
- Appreciation of famous artists and their creative worlds

We will explore:

- Colours, composition, textures, and patterns
- Drawing, painting, collage, clay, and sculpture
- Storytelling through art, problem-solving, and collaboration

Skills gained:

- Fine motor coordination
- Focus, patience, and confidence
- Thinking creatively and sharing ideas
