-  Edit Section
-  Cross-List this Section
-  Back to Course Settings

Input in the course name in the search box OR paste the course ID number.
You can find the course numbers when you are in the course at the very end of the web address.
Below example is craven.instructure.com/courses/81036 so the course ID is 81036.

Cross-List Section

Cross-listing allows you to create a section in one account and then move it to a course on a different account. To cross-list this course, you'll need to find the course you want to move it to, either using the search tool or by entering the course's ID.

Search for Course:

Or Enter the Course's
