SUBJECT: BUDGET PLANNING AND DEVELOPMENT

Budget planning and development for the District will be an integral part of program planning so that the annual operating budget may effectively express and implement programs and activities of the School System. Budget planning will be a year-round process involving participation of District-level administrators, Principals, Directors, Coordinators, teachers, and other personnel. The process of budget planning and development should allow for community input and contain numerous opportunities for public information and feedback.

The Superintendent will have overall responsibility for budget preparation, including the construction of and adherence to a budget calendar. Program managers will develop and submit budget requests for their particular areas of responsibility after seeking the advice and suggestions of staff members.

Principals will develop and submit budget requests for their particular schools in conjunction with the advice and suggestions of staff members and their own professional judgment. Each school's budget request will be the Principal's recommendation as to the most effective way to use available resources in achieving progress toward the approved educational objectives of the school. Program budgets and school budgets will reflect state and/or federal requirements, special sources of funding, and District objectives and priorities.

The Board will give consideration to budget requests, and will review allocations for appropriateness and for their consistency with the School System's educational priorities.

All budget documents for distribution to the public shall be in plain language and organized in a manner which best promotes public comprehension of the contents. Documents shall be complete and accurate and contain sufficient detail to adequately inform the public regarding such data as estimated revenues, proposed expenditures, transfers to other funds, fund balance information, and changes in such information from the prior year's submitted budget.

In accordance with Commissioner's Regulations, the budget will be presented in three (3) components which are to be voted upon as one (1) proposition. The law prescribes the types of items to be included in each component and further prescribes that all relevant costs be included in the component.

- a) A program component which shall include, but need not be limited to, all program expenditures of the School District, including the salaries and benefits of teachers and any school administrators or supervisors who spend a majority of their time performing teaching duties, and all transportation operating expenses;
- b) A capital component which shall include, but need not be limited to, all transportation capital, debt service, and lease expenditures; costs resulting from judgments and tax certiorari proceedings or the payment of awards from court judgments, administrative orders or settled or

compromised claims; and all facilities costs of the School District, including facilities lease expenditures, the annual debt service and total debt for all facilities financed by bonds and notes of the School District, and the costs of construction, acquisition, reconstruction, rehabilitation or improvement of school buildings, provided that such budget shall include a rental, operations and maintenance section that includes base rent costs, total rent costs, operation and maintenance charges, cost per square foot for each facility leased by the District, and any and all expenditures associated with custodial salaries and benefits, service contracts, supplies, utilities, and maintenance and repairs of school facilities; and

- c) An administrative component which shall include, but need not be limited to, office and central administrative expenses, traveling expenses and all compensation, including salaries and benefits of all school administration and supervisors, business administrators, superintendents of schools and deputy, assistant, associate or other superintendents under all existing employment contracts or collective bargaining, any and all expenditures associated with the operation of the Office of the School Board, the Office of the Superintendent of Schools, General Administration, the School Business Office, consulting costs not directly related to direct student services and programs, planning and all other administrative activities.

Additionally, the Board of Education shall append to the proposed budget the following documents:

- a) A detailed statement of the total compensation to be paid to the Superintendent of Schools, and any Assistant or Associate Superintendent of Schools in the ensuing school year, including a delineation of the salary, annualized cost of benefits and any in-kind or other form of remuneration;
- b) A list of all other school administrators and supervisors, if any, whose annual salary for the coming school year will be at or above that designated in law for such reporting purposes, with the title of their positions and annual salary identified;
- c) A School District Report Card, prepared pursuant to Commissioner's Regulations, which includes measures of the academic performance of the School District, on a school by school basis, and measures of the fiscal performance of the District (see subheading School District Report Card);
- d) A Property Tax Report Card prepared in accordance with law and Commissioner's Regulations (see subheading Property Tax Report Card); and
- e) A Tax Exemption Report prepared in accordance with law (see subheading Tax Exemption Report).

SUBJECT: BUDGET PLANNING AND DEVELOPMENT (Cont'd.)

The Board shall attest that unexpended surplus funds (i.e., operating funds in excess of the current school year budget, not including funds properly retained under other sections of law) have been applied in determining the amount of the school tax levy. Surplus funds shall mean any operating funds in excess of four percent (4%).

The proposed budget for the ensuing school year shall be reviewed by the Board of Education and publicly disseminated, in accordance with law, prior to its submission to District voters for approval.

District funds may be expended to inform the public regarding the annual budget and to present the annual budget to District voters; however, such funds shall not be utilized to promote either a favorable or negative opinion of the proposed budget.

School District Report Card

Each year the District shall supply data as required by the State Education Department (SED) and will receive a School District Report Card, sometimes referred to as a New York State Report Card. The Report Cards provide enrollment, demographic, attendance, suspension, dropout, teacher, assessment, accountability, graduation rate, post-graduation plan, career and technical education, and fiscal data for public and charter schools, districts and the State. The Report Cards are generated from the supplied data and are in a format dictated by SED. The School District Report Cards consist of three (3) parts:

- a) Accountability and Overview Report - shows District/school profile data, accountability statuses, data on accountability measures such as ELA, Math, and Science scores, and graduation rates.
- b) Comprehensive Information Report - shows non-accountability data such as annual Regents examination results and post-graduate plans of students completing high school.
- c) Fiscal Accountability Supplement - shows expenditures per pupil and some information about placement and classification of students with disabilities.

School District Report Cards are also available online at the SED website:
<https://reportcards.nysed.gov/>

Property Tax Report Card

Each year, the Board of Education shall prepare a Property Tax Report Card, pursuant to Commissioner's Regulations, and shall make it publicly available by transmitting it to local newspapers of general circulation, appending it to copies of the proposed budget made publicly

available as required by law, making it available for distribution at the Annual Meeting, and otherwise disseminating it as required by the Commissioner.

The Property Tax Report Card shall include:

- b) The projected enrollment growth for the school year for which the budget is prepared, and the percentage change in enrollment from the previous year; and
- c) The percentage increase in the average of the Consumer Price Indexes from January first of the prior school year to January first of the current school year as defined in Education Law; and
- d) The projected amount of the adjusted unrestricted fund balance that will be retained if the proposed budget is adopted; the projected amount of the adjusted restricted fund balance; the projected amount of the assigned appropriated fund balance; the percentage of the proposed budget that the adjusted unrestricted fund balance represents; the actual adjusted unrestricted fund balance retained in the School District budget for the preceding school year; and the percentage of the School District budget for the preceding school year that the actual adjusted unrestricted fund balance represents; and
- e) The District's school tax levy limit calculation. The District will submit its school tax levy limit calculation to the Office of the State Comptroller, NYSED and the Office of Taxation and Finance by March 1 annually. If a voter override of the tax levy limit is necessary, the budget vote must be approved by sixty percent (60%) of the District's qualified voters present and voting.

A copy of the Property Tax Report Card prepared for the Annual District Meeting shall be submitted to the State Education Department in the manner prescribed by the Department by the end of the business day next following approval of the Property Tax Report Card by the Board of Education, but no later than twenty-four (24) days prior to the statewide uniform voting day (i.e., the third Tuesday in May).

The State Education Department shall compile such data for all school districts whose budgets are subject to a vote of the qualified voters, and shall make such compilation available electronically at least ten (10) days prior to the statewide uniform voting day. Operations**SUBJECT: ACCEPTANCE OF GIFTS, GRANTS, AND BEQUESTS TO THE DISTRICT**

The Board may accept gifts, donations, grants, or bequests (collectively "gifts") of money, real property, or personal property, as well as other merchandise, that add to the overall welfare of the District provided that acceptance is in accordance with existing laws and regulations. Donations to the District are fully tax deductible so long as the gift is used exclusively for public purposes. The Board will not accept any gifts which will place encumbrances on future Boards, or result in unreasonable additional or hidden costs to the District. The Board may, if it deems it necessary, request that gifts of equipment, facilities, or any item that requires upkeep and maintenance include funds to carry out maintenance for the foreseeable life of the donation.

The Board will not formally consider the acceptance of gifts until and unless it receives the offer in writing from the donor or grantor or their attorney or financial advisor. Any gifts donated to the Board and accepted on behalf of the District must be by official action and resolution passed by Board majority. Disabled Citizens

Unless specifically exempted by law, real property used exclusively for residential purposes and owned by one or more persons with disabilities; or owned by a husband, wife or both, or siblings, at least one of whom has a disability; and whose income, as defined pursuant to law, is limited by reason of such disability shall be exempt from taxation to the extent of percentum of the assessed valuation determined by the Board if the owners meet the criteria established annually by the Board. The Board must adopt a resolution allowing such an exemption following a public hearing on this specific issue.

No exemption shall be granted unless the real property is the legal residence of and is occupied in whole or in part by the disabled person; except where the disabled person is absent from the residence while receiving health-related care as an in-patient of a residential health care facility as defined in Public Health Law.

For purposes of this policy, and in accordance with law, a person with a disability is one who has a physical or mental impairment, not due to current use of alcohol or illegal drug use, which substantially limits such person's ability to engage in one or more major life activities, such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning and working; and who is certified to receive Social Security Disability Insurance (SSDI) or Supplemental Security Income (SSI) benefits under the federal Social Security Act or is certified to receive Railroad Retirement Disability benefits under the federal Railroad Retirement Act, or has received a certificate from the State Commission for the Blind and Visually Handicapped stating that such person is legally blind.

SUBJECT: REIMBURSEMENT FOR MEALS/REFRESHMENTS**Travel Outside of District/Emergency Meetings**

School District officials and employees are entitled to reimbursement for necessary expenses incurred in the performance of their official duties. However, it is the position of the New York State Comptroller's Office that meals of public officers and employees generally should not be reimbursed or paid by the District unless the officer or employee is traveling outside his/her regular work area on official business for an extended period of time, or where events prevent them from taking off during mealtime for food consumption because of a pressing need to complete business. All requests for reimbursement must document who attended the meetings and how the meetings fit these conditions.

Staff/Board Meetings and District Events

However, the Board of Education recognizes that at certain times it may be appropriate to provide meals and/or refreshments at District meetings and/or events which are being held for an educational purpose. Prior approval of the Superintendent/designee must be obtained for food and beverages provided at meetings or activities which will be charged to the District.

Any such expenditures must be appropriately documented with an itemized receipt and information showing the date and purpose of the meeting, food served, who attended the meetings and why the attendees needed food and/or refreshments to conduct School District business. These requirements must be met for meals/refreshments provided by the school lunch fund or local vendors, charged to District credit cards and/or reimbursed to a School District official.

In no case will the costs for meals exceed the current Federal per diem meal rates for the geographic area.

SUBJECT: PURCHASING: COMPETITIVE BIDDING AND OFFERING

Except as otherwise provided by law, all contracts for public work involving an expenditure of more than thirty-five thousand dollars (\$35,000) and all purchase contracts involving an expenditure of more than twenty thousand dollars (\$20,000) shall be awarded by the District to the lowest responsible bidder furnishing the required security after advertisement for sealed bids. However, the District may, in its discretion, award purchase contracts on the basis of "best value" to a responsive and responsible bidder or offerer, provided the Board of Education has authorized such action by rule, regulation or resolution adopted at a public meeting.

No bid or offer shall be accepted that does not conform to specifications furnished unless such specifications are waived by Board action. The District may, in its discretion, reject all bids or offers and readvertise for new bids or offers in a manner consistent with New York State law.

All contracts requiring public advertising and competitive bidding or offering will be awarded by resolution of the Board.

Except as authorized by law, no Board member or employee of the School District shall have an interest in any contract entered into by the School District.

Standardization

Upon the adoption of a standardization resolution by a vote of at least three-fifths (3/5) of all Board members, purchase contracts for a particular type or kind of equipment, materials or supplies of more than twenty thousand dollars (\$20,000) may be awarded by the Board to the lowest responsible bidder or offerer furnishing the required security after advertisement for sealed bids in the manner provided in law. Such resolution must state that, for reasons of efficiency or economy, there is a need for standardization and must contain a full explanation of those reasons. Upon the adoption of a valid standardization resolution, the District may provide in its specifications for a particular make or brand to the exclusion of others.

"Piggybacking" Exception to Competitive Bidding

The District may, in its discretion, purchase certain goods and services (apparatus, materials, equipment and supplies) at costs beyond the above-referenced thresholds through the use of contracts let by the United States or any agency thereof, any state, and any county, political subdivision or district of any state.

This method of procurement is permitted on contracts issued by other governmental entities, provided that the original contract:

- a) Has been let by the United States or any agency thereof, any state (including New York State) or any other political subdivision or district therein;

(Continued)

SUBJECT: PURCHASING: COMPETITIVE BIDDING AND OFFERING (Cont'd.)

- b) Was made available for use by other governmental entities and agreeable with the contract holder; and

Annual Review

Comments concerning the District's bidding and purchasing policies and procedures will be solicited from those District employees involved in the procurement process from time to time.

The Board of Education will annually review its bidding and purchasing policies and procedures. The School Business Official will be responsible for conducting an annual review of such policies and for an evaluation of the internal control structure established to ensure compliance with the procurement policy.

No contracts for goods and services shall be made by individuals or organizations in the school that involve expenditures without first securing approval for such contract from the Purchasing Agent.

Except as authorized by law, no Board member or employee of the School District shall have an interest in any contract entered into by the School District.

Purchasing Process

The Board of Education recognizes its responsibility to ensure the development of procedures for the procurement of goods and services not required by law to be made pursuant to competitive bidding requirements. These goods and services will be procured in a manner so as to:

- a) Assure the prudent and economical use of public moneys in the best interest of the taxpayer;
- b) Facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under the circumstances; and
- c) Guard against favoritism, improvidence, extravagance, fraud and corruption.

These procedures shall contain, at a minimum, provisions which:

- a) Prescribe a process for determining whether a procurement of goods and services is subject to competitive bidding and if it is not, documenting the basis for such determination;
- b) With certain exceptions, provide that alternative proposals or quotations for goods and services shall be secured by use of written request for proposals, written quotations, verbal quotations or any other method of procurement which furthers the purposes of General Municipal Law Section 104-b;
- c) Set forth when each method of procurement will be utilized;

- g) Identify the individual or individuals responsible for purchasing and their respective titles. Such information shall be updated biennially.

SUBJECT: ALTERNATIVE FORMATS FOR INSTRUCTIONAL MATERIALS

Preference in the purchase of instructional materials will be given to vendors who agree to provide materials in a usable alternative format (i.e., any medium or format, other than a traditional print textbook, for presentation of instructional materials that is needed as an accommodation for each student with a disability, including students requiring Section 504 Accommodation Plans, enrolled in the School District). Alternative formats include, but are not limited to, Braille, large print, open and closed captioned, audio, or an electronic file in an approved format as defined in Commissioner's Regulations.

The District has adopted the National Instructional Materials Accessibility Standard (NIMAS) to ensure that curriculum materials are available in a usable alternative format for students with disabilities. The District will be responsible to ensure that each student who requires instructional materials in an alternate format will receive it in a timely manner and in a format that meets NIMAS standards.

The District will establish a plan to ensure that instructional materials in a usable alternative format for each student with a disability (including students requiring Section 504 Accommodation Plans) are based upon the student's educational needs and course selections, and will be available at the same time as such instructional materials are available to non-disabled students.

Such Plan will:

- a) Ensure that the District gives a preference in the purchase of instructional materials it has selected for its students to those vendors who agree to provide such instructional materials in alternative formats;
- b) Specify when an electronic file is provided, how the format will be accessed by students and/or how the District will convert to an accessible format;
- c) Specify the process to be used when ordering materials to identify the needs of students with disabilities residing in the District for alternative format materials;
- d) Specify ordering timelines to ensure that alternative format materials are available at the same time as regular format materials are available; and
- e) Include procedures so that when students with disabilities move into the School District during the school year, the process to obtain needed materials in alternative formats for such students is initiated without delay.

SUBJECT: MAINTENANCE OF FUND BALANCE**General Provisions**

The Board of Education recognizes that the maintenance of a fund balance is essential to the financial integrity of the District insofar as it helps mitigate current and future risks and assists in ensuring stable tax rates. Consistent with this understanding, the Board adopts the following standards and practices.

Classification of Funds

The District will ensure that funds are classified consistent with Governmental Accounting Standards Board (GASB) Statement Number 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. Consequently, fund balance amounts will be categorized as non-spendable, restricted, committed, assigned, or unassigned.

Unassigned Fund BalanceMinimum Unassigned Fund Balance

In order to maintain financial stability and protect against cash flow shortfalls, the Board of Education will strive to maintain an unassigned fund balance of at least *2% of the current year's budgeted expenses. In the event such balance falls below the *2% floor, the District will seek to replenish deficiencies through reducing expenses and/or increasing revenue.

Maximum Unassigned Fund Balance

In order to support normal operating costs and provide fiscal stability for the District, the Board of Education will also strive to ensure that the unassigned fund balance does not exceed 4% of the current year's budgeted expenditures. If it is anticipated that such balance will exceed the 4% ceiling, the Board of Education will evaluate current commitments and assignments in order to determine the final distribution of fund balance in any fiscal year. The District will ensure unexpended surplus funds are used to reduce taxpayer liability in conformance with Real Property Tax Law Section 1318.

Fund Balance and Budget Development

The District's ability to maintain its unassigned fund balance within the limits articulated above is contingent upon the development of a reasonable budget. Consequently, the District will develop and adopt budgets that, to the extent possible, reflect the anticipated revenues and expenditures.

(Continued)

SUBJECT: MAINTENANCE OF FUND BALANCE (Cont'd.)

Likewise, the District will ensure that appropriate reserve funds are established and utilized, consistent with applicable law and District policy, to ensure the fund balance is sufficient to meet District needs.

Compliance

The District will adhere to the reporting requirements of Article 3 of the General Municipal Law of the State of New York, and the practices set forth in GASB Statement Number 54.

SUBJECT: MAINTENANCE OF FISCAL EFFORT (TITLE I PROGRAMS)

A Local Educational Agency (LEA) may receive its full allocation of Title I funds if the combined fiscal effort per student or the aggregate expenditures of state and local funds with respect to the provision of free public education in the LEA for the preceding fiscal year was not less than ninety percent (90%) of the combined fiscal effort per student or the aggregate expenditures for the second preceding fiscal year.

In determining an LEA's compliance with the maintenance of effort requirement, the State Educational Agency (SEA) shall consider the LEA's expenditures from state and local funds for free public education. These include expenditures for administration, instruction, attendance, health services, student transportation services, plant operation and maintenance, fixed charges, and net expenditures to cover deficits for food services and student body activities.

The SEA shall not consider the following expenditures in determining an LEA's compliance with the maintenance of effort requirements:

- a) Any expenditures for community services, capital outlay, and debt service;
- b) Any expenditures made from funds provided by the federal government for which the LEA is required to account to the federal government directly or through the SEA.

The Board of Education assigns the Business Manager the responsibility of reviewing, as part of the budgeting process, combined fiscal effort so that expenditures of state and local funds with respect to the provision of free public education per student and in the aggregate for any fiscal year are not budgeted at less than ninety percent (90%) of the combined fiscal effort per student or the aggregate of expenditures for the preceding fiscal year.

Title I of the Elementary and Secondary Education Act of 1965, as amended by the No Child Left Behind Act of 2001
34 Code of Federal Regulations (CFR) Part 200

SUBJECT: ALLOCATION OF TITLE I, PART A FUNDS IN THE DISTRICT**Allocation of Funds**

The District allocates the Title I, Part A funds it receives to District school buildings on the basis of the total number of students from low-income families in each eligible school attendance area or eligible school, as defined in law. Unless the District school building is participating in a school wide program, the District school building will only use Title I, Part A funds for programs that provide services to eligible children, as defined in law, identified as having the greatest need for special assistance.

The District will reserve from its allocation of Title I, Part A funds, such funds as are necessary to provide services comparable to those provided to students in District school buildings that receive Title I, Part A funds in order to serve:

- a) Homeless children and youths, including educationally related support services to children in shelters and other locations where children may live;
- b) Children in local institutions for neglected children; and
- c) If appropriate, children in local institutions for delinquent children, and neglected or delinquent children in community day programs.

Funds Will Supplement Not Supplant

The District will ensure that Title I, Part A funds only supplement, not supplant, the funds that would, in the absence of such federal funds, be made available from state and local sources for the education of students participating in programs assisted by Title I, Part A funds.

Allocation Methodology

The District has developed an allocation methodology that is consistent with Title I guidelines.

Adopted: 1/28/14

SUBJECT: ALLEGATIONS OF FRAUD**Reporting and Investigations of Allegations of Fraud**

All Board members and officers, District employees and third party consultants are required to abide by the District's policies, administrative regulations and procedures in the conduct of their duties. Further, all applicable federal and/or state laws and regulations must be adhered to in the course of District operations and practices. Any individual who has reason to believe that financial improprieties or wrongful conduct is occurring within the School System is to disclose such information according to the reporting procedures established by the District. The reporting procedures will follow the chain of command as established within the department or school building or as enumerated in the District's Organizational Chart. In the event that the allegations of financial improprieties/fraud and/or wrongful conduct concern the investigating official, the report shall be made to the next level of supervisory authority. If the chain of supervisory command is not sufficient to ensure impartial, independent investigation, allegations of financial improprieties/fraud and/or wrongful conduct will be reported as applicable, to the Internal Auditor (if available), or the External (Independent) Auditor, or the School Attorney, or the Board of Education. The District's prohibition of wrongful conduct, including fraud, will be publicized within the District as deemed appropriate; and written notification will be provided to all employees with fiscal accounting/oversight and/or financial duties including the handling of money.

Upon receipt of an allegation of financial improprieties/fraud and/or wrongful conduct, the Board or designated employee(s) will conduct a thorough investigation of the charges. However, even in the absence of a report of suspected wrongful conduct, if the District has knowledge of, or reason to know of, any occurrence of financial improprieties/fraud and/or wrongful conduct, the District will investigate such conduct promptly and thoroughly. To the extent possible, within legal constraints, all reports will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges and/or to notify law enforcement officials as warranted, and any disclosure will be provided on a "need to know" basis. Written records of the allegation, and resulting investigation and outcome will be maintained in accordance with law.

Based upon the results of this investigation, if the District determines that a school official has engaged in financial improprieties/fraudulent and/or wrongful actions, appropriate disciplinary measures will be applied, up to and including termination of employment, in accordance with legal guidelines, District policy and regulation, and any applicable collective bargaining agreement. Third parties who are found to have engaged in financial improprieties/fraud and/or wrongful conduct will be subject to appropriate sanctions as warranted and in compliance with law. *The application of such disciplinary measures by the District does not preclude the filing of civil and/or criminal charges as may be warranted. Rather, when school officials receive a complaint or report of alleged financial improprieties/fraud and/or wrongful conduct that may be criminal in nature, law authorities should be immediately notified.*

SUBJECT: FACILITIES: INSPECTION, OPERATION, AND MAINTENANCE**Operation and Maintenance**

The Board, through the Superintendent and his or her staff, has the responsibility of protecting the District's facilities through a systematic maintenance program. The program will include periodic preventive maintenance activities, long-range maintenance schedules, and emergency repair procedures. The District will make reasonable attempts to ensure that all maintenance work will be carried out in the least intrusive manner.

Construction and Remodeling of School Facilities

The District will ensure all capital projects and maintenance comply with the requirements of the New York State Uniform Fire Prevention and Building Code, the Manual of Planning Standards, and the Commissioner's regulations. Relevant documentation regarding all new buildings must be formally submitted to the State Education Department (SED) no matter the size or cost. The SED Office of Facilities Planning has provided an Instruction Guide on its official website.

Plans and specifications for the erection, enlargement, repair, or remodeling of facilities of the District will be submitted to the Commissioner consistent with applicable law.

Plans and specifications submitted to the Commissioner will bear the signature and seal of an architect or engineer licensed to practice in the State of New York. The architect or engineer who sealed the plans and specifications must also certify that the plans and specifications conform to the standards set forth in the State Uniform Fire Prevention and Building Code and the State Energy Conservation Construction Code.

For remodeling or construction projects, the District will ensure compliance with the requirements of the State Uniform Fire Prevention and Building Code and Commissioner's regulations. The District will also retain the services of an architect or engineer licensed to practice in New York State as required by law or regulation, or as necessary given the scope and cost of the project.

Carbon Monoxide Detection Requirements

All new and existing District buildings that have appliances, devices, or systems that may emit carbon monoxide, and all attached garages, must have a means to detect carbon monoxide. Buildings include school buildings, administrative buildings, bus maintenance facilities, concession stands, and field houses. Carbon monoxide may be produced by fuel-fired heating systems (boilers, HVAC units, and makeup air units), emergency or standby electric generation within a building, fuel-fired kitchen equipment (ranges, ovens, steamers, dishwashers, and makeup air units serving hoods), fuel-fired domestic hot water heaters, laboratory/shop equipment (gas outlets, torches, gas-fired kilns, and stationary or portable engines), maintenance and storage areas with fuel-fired equipment, and in garages.

(Continued)

SUBJECT: FACILITIES: INSPECTION, OPERATION AND MAINTENANCE (Cont'd.)

The District may use a self-contained carbon monoxide alarm, a carbon monoxide detection system, or both. The District will comply with all laws and regulations regarding alarms or detectors, including where they must be located, their power sources, and labeling requirements. The District should develop written standard operating procedures to follow when a carbon monoxide detector is activated.

Inspections

The District is mindful of the health and safety of its students, staff, and visitors and, as such, the District administration will cooperate with appropriate officials conducting health, fire, asbestos, bus, and boiler inspections. In addition, the administration will keep the Board informed of the results of these inspections in a timely fashion.

In accordance with the Asbestos Hazard Emergency Response Act (AHERA), the District will inform all employees and building occupants (or their legal guardians) at least once each school year about all asbestos inspections, response actions, post-response action activities, as well as triennial re-inspection activities and surveillance activities that are either planned or in progress. The District will provide yearly notification to parent, teacher, and employee organizations on the availability of the District's asbestos management plan and any asbestos-related actions taken or planned in the school.

The District will test potable water for lead contamination from all outlets as required by law. If an outlet exceeds the action level for lead content, the District will prohibit use of the outlet for drinking and cooking purposes, and it will remediate the outlet before allowing these uses. The District will make all required notifications and issue all mandated reports to the public, local health department, or the SED. For ten years following creation, the District will retain all records of test results, lead remediation plans, lead-free building determinations, and waiver requests. The District may seek a waiver from testing requirements from the local health department by demonstrating prior substantial compliance with testing requirements.

Comprehensive Public School Building Safety Program (RESCUE)

To ensure that all District facilities are properly maintained and preserved and provide suitable educational settings, the Board requires that all occupied school facilities which are owned, operated or leased by the District comply with the provisions of the Comprehensive Public School Building Safety Program, the Uniform Code of Public School Building Inspections, and the Safety Rating and Monitoring as prescribed in Commissioner's regulations. For this reason, the District will develop a Comprehensive Public School Building Safety Program in accordance with Commissioner's regulations.

(Continued)

SUBJECT: FACILITIES: INSPECTION, OPERATION AND MAINTENANCE (Cont'd.)

The program will be reevaluated and made current at least annually, and will include, at a minimum, the following:

- e) Procedures to ensure the safety of the building occupants while a construction or renovation project is taking place. These procedures will include:
 1. Notification to parents, staff, and the community at least two months in advance of a construction project of \$10,000 or more to be conducted in a school building while the building is occupied; provided, however, that in the case of emergency construction projects, notice will be provided as far in advance of the start of construction as is practicable;
 2. A plan to ensure that all contractors comply with all health and safety issues and regulations, and wear photo identification badges;

SUBJECT: PEST MANAGEMENT AND PESTICIDE USE

The Board of Education is committed to maintaining the integrity of school buildings and grounds while protecting the health and safety of students and staff and maintaining a productive learning environment.

Structural and landscape pests can pose significant problems for people and property. Weeds and infestations can destroy playing fields and playgrounds and more importantly, cause severe allergic reactions. Pesticides can pose risks to people, property, and the environment. It is therefore the policy of the School District to incorporate Integrated Pest Management (IPM) procedures for control of weeds, structural and landscape pests. The objective of this program is to provide necessary pest control while using the least toxic approach to all pests, weeds and infestations.

Pest/Pesticide Management Plan

The District will manage weeds and pests to:

- a) Reduce any potential human health hazard or threat to public safety.
- b) Prevent loss or damage to school structures or property.
- c) Prevent pests from spreading into the community, or to plant and animal populations beyond the site.
- d) Enhance the quality of life for students, staff, and others.

Integrated Pest Management (IPM) Coordinator

An IPM Coordinator will be appointed by the Superintendent of schools. The Coordinator will be responsible for implementing the IPM policy and plan. The coordinator's responsibilities will include the following:

- a) Recording all pest sightings by school staff and students.
- b) Recording all pesticide use and utilizing the least toxic approach.
- c) Meeting with a local pest control expert, such as a pesticide contractor to share information on what pest problems are present in the school.
- d) Assuring that all of the expert's recommendations on maintenance and sanitation are carried out where feasible.

(Continued)

SUBJECT: PEST MANAGEMENT AND PESTICIDE USE (Cont'd.)

- e) Assuring that pesticide use is done when school is not in session or when the area can be completely secured against access by school staff and students for a standard seventy-two (72) hours, or as required by the pesticide being used.
- f) Evaluating the school's progress in the IPM plan.
- g) Notifying parents, staff and neighbors of any applications of pesticides forty-eight (48) hours before they occur. The IPM Coordinator will serve as the District's Pesticide Representative.

Pesticide Use on Common Areas

Pesticides will not be used on playgrounds, turf, athletic or playing fields, in effect, all lawn areas of the school. In these common areas where children gather and play, pesticide alternatives will be used whenever possible and effective. The prohibition does not apply to indoor use or the application to building structures.

An exception may be made for emergency applications of pesticide only when approved in advance by the School Board. The Board may consult with the local Health Department on public health related emergency determinations. They may also consult with the Department of Environmental Conservation (DEC) for environmental emergency determinations. Emergency determinations should only be sought for one-time pesticide application in a specific situation, which presents a true emergency. The guidance document from DEC provides clarification on emergency determinations. It can be found at:

SUBJECT: ENERGY CONSERVATION AND RECYCLING IN THE SCHOOLS

The Board of Education recognizes the importance of energy conservation and is committed to the analysis, development, and initiation of conservation measures throughout the District for the purpose of reducing energy consumption, particularly in these times of declining levels of natural energy resources and increasing cost of these resources. The Board maintains an aggressive and responsible program to reduce consumption of energy by its facilities and to provide education to both staff and students on the conservation of energy.

The District is committed to an energy conservation program that addresses not only capital-related energy projects but ongoing, day-to-day energy related issues as well. All staff are urged to participate actively in a program of energy conservation by assisting in the efforts to eliminate the wasteful use of energy in the operation of the District's buildings. Cooperation will be required of each employee and each student to achieve a meaningful energy conservation program that results in a more efficient use of energy resources. Involvement of staff and students is essential to a successful program of energy conservation.

Energy Manager

The Director of Facilities and Operations is designated as the Energy Manager of the District and he/she shall report directly to the Board of Education and the Superintendent, or their designee, on matters pertaining to energy conservation.

Energy Conservation Task Force

The Board of Education further directs the Superintendent to establish an energy conservation task force consisting of at least two Board members, the Superintendent, the School Business Official, the Director of Facilities and Operations, and such other individual(s) as may be deemed necessary. The duties of this task force will include, but are not limited to, the following:

- a) Analyzing the District's energy consumption patterns and cost data;
- b) Selecting and recommending to the Board an energy audit or technical assistance study to determine where the District can save;
- c) Consider financing energy improvements with an energy performance contract. A technical assistance study can evaluate a proposed performance contract before the District enters into an agreement;
- d) Consider cost savings from cooperative purchasing arrangements with other municipalities and school districts.

(Continued)

SUBJECT: ENERGY CONSERVATION AND RECYCLING IN THE SCHOOLS (Cont'd.)

- e) Work with outside consultants and/or staff members to recommend and evaluate energy saving ideas including, but not limited to, technology power management, lighting changes, HVAC changes; and
- f) Evaluate and make recommendations about the energy efficiency of District buildings through periodic building inspections and surveys.

Progress reports on the implementation of energy conservation measures will be made to the Board at least annually.

Minimum Indoor Air Temperature

The District will comply with the Property Maintenance Code of New York State, part of the New York State Uniform Fire Prevention and Building Code, which requires that indoor occupiable work spaces be maintained at a minimum temperature of sixty-five (65) degrees from September 14 to May 31 during the period the spaces are occupied. There are exceptions for areas of vigorous physical activities such as gymnasiums as well as processing spaces such as coolers or freezers. However, by law, code or regulation there is no maximum temperature specified. Ventilation requirements only require fresh air, not cool air-conditioning.

Long-Range Considerations

The energy conservation program is an important factor to be considered in planning effective use of school facilities, new construction, remodeling or rehabilitation programs, and modernization projects.

Recycling

The Board is committed to protecting and improving the environment by recycling commonly used materials, waste prevention strategies and purchasing recycled products when feasible. The Superintendent will create a task force charged with developing a program for the source separation and segregation of recyclable or reusable materials in the District. This District-wide recycling plan shall include:

- a) A conservation education program to teach students about their social responsibility for preserving our resources, and involvement of all students and personnel in a comprehensive effort to reduce, reuse and recycle waste materials;

- a) For any computerized data owned or licensed by the School District that includes private information, the District shall disclose any breach of the security of the system following discovery or notification of the breach to any New York State resident whose private information was, or is reasonably believed to have been, acquired by a person without valid authorization. The disclosure to affected individuals shall be made in the most expedient time possible and without unreasonable delay, consistent with the legitimate needs of law enforcement, or any measures necessary to determine the scope of the breach and restore the reasonable integrity of the data system. The District shall consult with the State Office of Information Technology Services to determine the scope of the breach and restoration measures.
- b) For any computerized data maintained by the District that includes private information which the District does not own, the District shall notify the owner or licensee of the information of any breach of the security of the system immediately following discovery, if the private information was, or is reasonably believed to have been, acquired by a person without valid authorization.

The notification requirement may be delayed if a law enforcement agency determines that such notification impedes a criminal investigation. The required notification shall be made after the law enforcement agency determines that such notification does not compromise the investigation.

Methods of Notification

The required notice shall be directly provided to the affected persons by one of the following methods:

- a) Written notice;
- b) Electronic notice, provided that the person to whom notice is required has expressly consented to receiving the notice in electronic form; and a log of each such notification is kept by the District when notifying affected persons in electronic form. However, in no case shall the District require a person to consent to accepting such notice in electronic form as a condition of establishing any business relationship or engaging in any transaction;
- c) Telephone notification, provided that a log of each such notification is kept by the District when notifying affected persons by phone; or

SUBJECT: INFORMATION SECURITY BREACH AND NOTIFICATION (Cont'd.)

- d) Substitute notice, if the District demonstrates to the State Attorney General that the cost of providing notice would exceed \$250,000, or that the affected class of subject persons to be notified exceeds 500,000, or that the District does not have sufficient contact information. Substitute notice shall consist of **all** of the following:
1. Email notice when the District has an email address for the subject persons;
 2. Conspicuous posting of the notice on the District's website page, if the District maintains one; and
 3. Notification to major statewide media.

Regardless of the method by which notice is provided, the notice shall include contact information for the notifying District and a description of the categories of information that were, or are reasonably believed to have been, acquired by a person without valid authorization, including specification of which of the elements of personal information and private information were, or are reasonably believed to have been, so acquired.

In the event that any New York State residents are to be notified, the District shall notify the New York State Attorney General (AG), the New York State Department of State, and the New York State Office of Information Technology Services as to the timing, content and distribution of the notices and approximate number of affected persons.

In the event that more than five thousand (5,000) New York State residents are to be notified at one time, the District shall also notify consumer reporting agencies, as defined pursuant to State Technology Law Section 208, as to the timing, content and distribution of the notices and approximate number of affected persons. Such notice shall be made without delaying notice to affected New York State residents. A list of consumer reporting agencies shall be compiled by the State Attorney General and furnished upon request to school districts required to make a notification in accordance with State Technology Law Section 208(2), regarding notification of breach of security of the system for any computerized data owned or licensed by the District that includes private information.

SUBJECT: EMPLOYEE PERSONAL IDENTIFYING INFORMATION

In accordance with Section 203-d of the New York State Labor Law, the District shall restrict the use and access to employee personal identifying information. As enumerated in law, "personal identifying information" shall include social security number, home address or telephone number, personal electronic mail address, Internet identification name or password, parent's surname prior to marriage, or driver's license number.

The District shall not unless otherwise required by law:

- a) Publicly post or display an employee's social security number;
- b) Visibly print a social security number on any identification badge or card, including any time card;
- c) Place a social security number in files with unrestricted access; or
- d) Communicate an employee's personal identifying information to the general public.

A social security number shall not be used as an identification number for purposes of any occupational licensing.

District staff shall have access to this policy, informing them of their rights and responsibilities in accordance with Labor Law Section 203-d. District procedures for safeguarding employee "personal identifying information" shall be evaluated; and employees who have access to such information as part of their job responsibilities shall be advised as to the restrictions on release of such information in accordance with law.

Labor Law Section 203-d

Adopted: 8/13/13

SUBJECT: STUDENT GRADING INFORMATION SYSTEMS

Student performance is assessed in many ways, but primarily through assigned grades. The District will help ensure the integrity of student grades by controlling access to its grading information system and by approving modifications to grades where warranted.

The System

The District utilizes an electronic software system that contains a record of student performance, credit accumulation, report cards, and a transcript. More specifically, the system includes class rosters where teachers enter student grades and track their students' academic progress. The system is used to generate student report cards and transcripts, and to maintain all student grading records.

To protect student data in the system, the District will first establish who has the authority to grant, change, or terminate user access. The personnel with this authority will be very limited. Further, if the grading system has a feature that allows one user or account to assume the identity of another user or account, the District will restrict or disable that feature. These types of features could allow a user greater access than intended, including inheriting permissions of another user that are greater than the user's.

System Access

The District will create categories of system users and assign appropriate system permissions to each. Users' permissions will be compatible with and restricted by their roles and job duties; their access will be as restrictive as possible. Typically, teachers will have the ability to enter, update, and modify grades each marking period before a pre-determined lockout date. The lockout function will be consistently used throughout the school year to help prevent grade modifications without authorization after a marking period closes. Through increased system permissions, other individuals—such as non-classroom teachers, guidance counselors, information technology (IT) staff, clerical staff, and support staff—will be able to view or modify grades.

The District will work with its IT, human resources, and other appropriate departments to determine how best to timely establish access rights, add users, deactivate or modify user accounts, and monitor user accounts. The District will develop further IT controls to protect against improper access, if needed.

Grade Changes

Once the lockout period begins, only authorized users identified by the District may change grades, and only under certain circumstances. The system will recognize when grades change, and a log of modified grades may then be viewed and printed. Any grade mismatches will be reconciled before the next marking period closes or before the end of the school year, whichever is earlier.

(Continued)

SUBJECT: STUDENT GRADING INFORMATION SYSTEMS (Cont'd.)

The staff member seeking to change a grade will submit a grade-change form signed by the requesting party, the teacher who assigned the original grade, and the appropriate administrator. This form and all other documents supporting a grade modification will be electronically filed in the grading system or filed in a non-electronic system—if electronic filing is impossible or impractical—and maintained for six years. The personnel seeking the modification should specify one or more reasonable grounds for the grade change on the form. There must be reasonable grounds to alter a grade. The reasons may include:

- a) Data entry error;
- b) Computational error;
- c) A modification based on work submitted or considered after the lockout date;
- d) Changing an incomplete grade to a regular grade because a student completed course requirements;
- e) Credit recovery coursework;
- f) Administrative change; or
- g) Other acceptable justifications.

Audit Log and Monitoring

The District's grading system will have an audit log or grade-change report function that records certain system activities, including modifications to grades. The District will periodically monitor audit logs or grade-change reports to confirm the integrity of the system, to ensure proper access by personnel, and to confirm that modifications within the system are appropriate and completed in a timely manner. The District will also periodically monitor user accounts and rights so that the permissions granted are proper and the minimum necessary for each user or user group. To the extent feasible, the District will make sure that user accounts are current and updated regularly. The District will be able to print user information, logs, reports, and other documents from the student grading information system, as needed.

Student Transcripts

Student transcripts may show all credit-bearing classes; final grades; test scores; grade-point average; class rank; diploma type; SAT, ACT, and other standardized test scores; and graduation date. The same controls, protections, and monitoring applicable to student grading information apply equally to student transcripts.

Adoption Date: 12/20/2016

Chief Privacy Officer

The Commissioner of Education has appointed a Chief Privacy Officer who will report to the Commissioner on matters affecting privacy and the security of student data and teacher and principal data. Among other functions, the Chief Privacy Officer is authorized to provide assistance to educational agencies within the state on minimum standards and best practices associated with privacy and the security of student data and teacher and principal data.

The District will comply with its obligation to report breaches or unauthorized releases of student data or teacher or principal data to the Chief Privacy Officer in accordance with Education Law Section 2-d, its implementing regulations, and this policy.

The Chief Privacy Officer has the power, among others, to:

- a) Access all records, reports, audits, reviews, documents, papers, recommendations, and other materials maintained by the District that relate to student data or teacher or principal data, which includes, but is not limited to, records related to any technology product or service that will be utilized to store and/or process PII; and
- b) Based upon a review of these records, require the District to act to ensure that PII is protected in accordance with laws and regulations, including but not limited to requiring the District to perform a privacy impact and security risk assessment.

Data Protection Officer

The District will ensure that the Data Protection Officer has the appropriate knowledge, training, and experience to administer these functions. The Data Protection Officer may perform these functions in addition to other job responsibilities. Additionally, some aspects of this role may be outsourced to a provider such as a BOCES, to the extent available.

District Data Privacy and Security Standards

The District will use the National Institute for Standards and Technology Framework for Improving Critical Infrastructure Cybersecurity (Version 1.1) (Framework) as the standard for its data privacy and security program. The Framework is a risk-based approach to managing cybersecurity risk and is composed of three parts: the Framework Core, the Framework Implementation Tiers, and the Framework Profiles. The Framework provides a common taxonomy and mechanism for organizations to:

- a) Describe their current cybersecurity posture;
- b) Describe their target state for cybersecurity;
- c) Identify and prioritize opportunities for improvement within the context of a continuous and repeatable process;
- d) Assess progress toward the target state; and
- e) Communicate among internal and external stakeholders about cybersecurity risk.

The District will protect the privacy of PII by:

- a) Ensuring that every use and disclosure of PII by the District benefits students and the District by considering, among other criteria, whether the use and/or disclosure will:
 - 1. Improve academic achievement;
 - 2. Empower parents and students with information; and/or
 - 3. Advance efficient and effective school operations.
- b) Not including PII in public reports or other public documents.

The District affords all protections under FERPA and the Individuals with Disabilities Education Act and their implementing regulations to parents or eligible students, where applicable.

Third-Party Contractors

District Responsibilities

The District will ensure that whenever it enters into a contract or other written agreement with a third-party contractor under which the third-party contractor will receive student data or teacher or principal data from the District, the contract or written agreement will include provisions requiring that confidentiality of shared student data or teacher or principal data be maintained in accordance with law, regulation, and District policy.

In addition, the District will ensure that the contract or written agreement includes the third-party contractor's data privacy and security plan that has been accepted by the District.

The third-party contractor's data privacy and security plan must, at a minimum:

- a) Outline how the third-party contractor will implement all state, federal, and local data privacy and security contract requirements over the life of the contract, consistent with District policy;
- b) Specify the administrative, operational, and technical safeguards and practices the third-party contractor has in place to protect PII that it will receive under the contract;
- c) Demonstrate that the third-party contractor complies with the requirements of 8 NYCRR Section 121.3(c);
- d) Specify how officers or employees of the third-party contractor and its assignees who have access to student data or teacher or principal data receive or will receive training on the laws governing confidentiality of this data prior to receiving access;
- e) Specify if the third-party contractor will utilize subcontractors and how it will manage those relationships and contracts to ensure PII is protected;
- f) Specify how the third-party contractor will manage data privacy and security incidents that implicate PII including specifying any plans to identify breaches and unauthorized disclosures, and to promptly notify the District;
- g) Describe whether, how, and when data will be returned to the District, transitioned to a successor contractor, at the District's option and direction, deleted or destroyed by the third-party contractor when the contract is terminated or expires; and
- h) Include a signed copy of the Parents' Bill of Rights for Data Privacy and Security.

(Continued)

Third-Party Contractor Responsibilities

Each third-party contractor, that enters into a contract or other written agreement with the District under which the third-party contractor will receive student data or teacher or principal data from the District, is required to:

- a) Adopt technologies, safeguards, and practices that align with the NIST Cybersecurity Framework;
- b) Comply with District policy and Education Law Section 2-d and its implementing regulations;
- c) Limit internal access to PII to only those employees or subcontractors that have legitimate educational interests (i.e., they need access to provide the contracted services);
- d) Not use the PII for any purpose not explicitly authorized in its contract;
- e) Not disclose any PII to any other party without the prior written consent of the parent or eligible student:
 - 1. Except for authorized representatives of the third-party contractor such as a subcontractor or assignee to the extent they are carrying out the contract and in compliance with law, regulation, and its contract with the District; or
 - 2. Unless required by law or court order and the third-party contractor provides a notice of the disclosure to NYSED, the Board, or the institution that provided the information no later than the time the information is disclosed, unless providing notice of the disclosure is expressly prohibited by law or court order;
- f) Maintain reasonable administrative, technical, and physical safeguards to protect the security, confidentiality, and integrity of PII in its custody;
- g) Use encryption to protect PII in its custody while in motion or at rest; and
- h) Not sell PII nor use or disclose it for any marketing or commercial purpose or facilitate its use or disclosure by any other party for any marketing or commercial purpose or permit another party to do so.

Where a third-party contractor engages a subcontractor to perform its contractual obligations, the data protection obligations imposed on the third-party contractor by law and contract apply to the subcontractor.

Cooperative Educational Services through a BOCES

The District may not be required to enter into a separate contract or data sharing and confidentiality agreement with a third-party contractor that will receive student data or teacher or principal data from the District under all circumstances.

For example, the District may not need its own contract or agreement where:

- a) It has entered into a cooperative educational service agreement (CoSer) with a BOCES that includes use of a third-party contractor's product or service; and
- b) That BOCES has entered into a contract or data sharing and confidentiality agreement with the third-party contractor, pursuant to Education Law Section 2-d and its implementing regulations, that is applicable to the District's use of the product or service under that CoSer.

To meet its obligations whenever student data or teacher or principal data from the District is received by a third-party contractor pursuant to a CoSer, the District will consult with the BOCES to, among other things:

- a) Ensure there is a contract or data sharing and confidentiality agreement pursuant to Education Law Section 2-d and its implementing regulations in place that would specifically govern the District's use of a third-party contractor's product or service under a particular CoSer;
- b) Determine procedures for including supplemental information about any applicable contracts or data sharing and confidentiality agreements that a BOCES has entered into with a third-party contractor in its Parents' Bill of Rights for Data Privacy and Security;
- c) Ensure appropriate notification is provided to affected parents, eligible students, teachers, and/or principals about any breach or unauthorized release of PII that a third-party contractor has received from the District pursuant to a BOCES contract; and
- d) Coordinate reporting to the Chief Privacy Officer to avoid duplication in the event the District receives information directly from a third-party contractor about a breach or unauthorized release of PII that the third-party contractor received from the District pursuant to a BOCES contract.

Click-Wrap Agreements

Periodically, District staff may wish to use software, applications, or other technologies in which the user must "click" a button or box to agree to certain online terms of service prior to using the software, application, or other technology. These are known as "click-wrap agreements" and are considered legally binding "contracts or other written agreements" under Education Law Section 2-d and its implementing regulations.

District staff are prohibited from using software, applications, or other technologies pursuant to a click-wrap agreement in which the third-party contractor receives student data or teacher or principal data from the District unless they have received prior approval from the District's Data Privacy Officer or designee.

The District will develop and implement procedures requiring prior review and approval for staff use of any software, applications, or other technologies pursuant to click-wrap agreements.

Parents' Bill of Rights for Data Privacy and Security

The District will publish its Parents' Bill of Rights for Data Privacy and Security (Bill of Rights) on its website. Additionally, the District will include the Bill of Rights with every contract or other written agreement it enters into with a third-party contractor under which the third-party contractor will receive student data or teacher or principal data from the District.

The District's Bill of Rights will state in clear and plain English terms that:

1. A student's personally identifiable information (PII) cannot be sold or released for any commercial purpose.
2. The right to inspect and review the complete contents of the student's education record stored or maintained by an educational agency.
3. State and federal laws, such as NYS Education Law §2-d and the Family Educational Rights and Privacy Act, that protect the confidentiality of a student's PII, and safeguards associated with industry standards and best practices, including but not limited to, encryption, firewalls, and password protection, must be in place when data is stored or transferred.
4. A complete list of all student data elements collected by NYSED is available for public review at www.nysed.gov/data-privacy-security, and by writing to: Chief Privacy Officer, New York State Education Department, 89 Washington Avenue, Albany, NY 12234.
5. The right to have complaints about possible breaches and unauthorized disclosures of student data addressed. Complaints may be submitted to NYSED online at www.nysed.gov/data-privacy-security, by mail to: Chief Privacy Officer, New York State Education Department, 89 Washington Avenue, Albany, NY 12234, by email to privacy@nysed.gov, or by telephone at 518-474-0937.
6. To be notified in accordance with applicable laws and regulations if a breach or unauthorized release of their student's PII occurs.

7. Educational agency workers that handle PII will receive training on applicable state and federal laws, the educational agency's policies, and safeguards associated with industry standards and best practices that protect PII.
8. Educational agency contracts with vendors that receive PII will address statutory and regulatory data privacy and security requirements.

The Bill of Rights will also include supplemental information for each contract the District enters into with a third-party contractor where the third-party contractor receives student data or teacher or principal data from the District. The supplemental information must be developed by the District and include the following information:

- a) The exclusive purposes for which the student data or teacher or principal data will be used by the third-party contractor, as defined in the contract;
- b) How the third-party contractor will ensure that the subcontractors, or other authorized persons or entities to whom the third-party contractor will disclose the student data or teacher or principal data, if any, will abide by all applicable data protection and security requirements, including but not limited to those outlined in applicable laws and regulations (e.g., FERPA; Education Law Section 2-d);
- c) The duration of the contract, including the contract's expiration date, and a description of what will happen to the student data or teacher or principal data upon expiration of the contract or other written agreement (e.g., whether, when, and in what format it will be returned to the District, and/or whether, when, and how the data will be destroyed);
- d) If and how a parent, student, eligible student, teacher, or principal may challenge the accuracy of the student data or teacher or principal data that is collected;
- e) Where the student data or teacher or principal data will be stored, described in a manner as to protect data security, and the security protections taken to ensure the data will be protected and data privacy and security risks mitigated; and
- f) Address how the data will be protected using encryption while in motion and at rest.

The District will publish on its website the supplement to the Bill of Rights (i.e., the supplemental information described above) for any contract or other written agreement it has entered into with a third-party contractor that will receive PII from the District. The Bill of Rights and supplemental information may be redacted to the extent necessary to safeguard the privacy and/or security of the District's data and/or technology infrastructure.

Right of Parents and Eligible Students to Inspect and Review Students' Education Records

Consistent with the obligations of the District under FERPA, parents and eligible students have the right to inspect and review a student's education record by making a request directly to the District in a manner prescribed by the District.

The District will ensure that only authorized individuals are able to inspect and review student data. To that end, the District will take steps to verify the identity of parents or eligible students who submit requests to inspect and review an education record and verify the individual's authority to do so.

Requests by a parent or eligible student for access to a student's education records must be directed to the District and not to a third-party contractor. The District may require that requests to inspect and review education records be made in writing.

The District will notify parents annually of their right to request to inspect and review their child's education record including any student data stored or maintained by the District through its annual FERPA notice. A notice separate from the District's annual FERPA notice is not required.

The District will comply with a request for access to records within a reasonable period, but not more than 45 calendar days after receipt of a request.

The District may provide the records to a parent or eligible student electronically, if the parent consents. The District must transmit the PII in a way that complies with laws and regulations. Safeguards associated with industry standards and best practices, including but not limited to encryption and password protection, must be in place when education records requested by a parent or eligible student are electronically transmitted.

Complaints of Breach or Unauthorized Release of Student Data and/or Teacher or Principal Data

The District will inform parents, through its Parents' Bill of Rights for Data Privacy and Security, that they have the right to submit complaints about possible breaches of student data to the Chief Privacy Officer at NYSED. In addition, the District has established the following procedures for parents, eligible students, teachers, principals, and other District staff to file complaints with the District about breaches or unauthorized releases of student data and/or teacher or principal data:

- a) All complaints must be submitted to the District's Data Protection Officer in writing.
- b) Upon receipt of a complaint, the District will promptly acknowledge receipt of the complaint, commence an investigation, and take the necessary precautions to protect PII.
- c) Following the investigation of a submitted complaint, the District will provide the individual who filed the complaint with its findings. This will be completed within a reasonable period of time, but no more than 60 calendar days from the receipt of the complaint by the District.

- d) If the District requires additional time, or where the response may compromise security or impede a law enforcement investigation, the District will provide the individual who filed the complaint with a written explanation that includes the approximate date when the District anticipates that it will respond to the complaint.

These procedures will be disseminated to parents, eligible students, teachers, principals, and other District staff.

The District will maintain a record of all complaints of breaches or unauthorized releases of student data and their disposition in accordance with applicable data retention policies, including the Records Retention and Disposition Schedule ED-1 (1988; rev. 2004).

Reporting a Breach or Unauthorized Release

The District will report every discovery or report of a breach or unauthorized release of student data or teacher or principal data within the District to the Chief Privacy Officer without unreasonable delay, but no more than ten calendar days after the discovery.

Each third-party contractor that receives student data or teacher or principal data pursuant to a contract or other written agreement entered into with the District will be required to promptly notify the District of any breach of security resulting in an unauthorized release of the data by the third-party contractor or its assignees in violation of applicable laws and regulations, the Parents' Bill of Rights for Student Data Privacy and Security, District policy, and/or binding contractual obligations relating to data privacy and security, in the most expedient way possible and without unreasonable delay, but no more than seven calendar days after the discovery of the breach.

In the event of notification from a third-party contractor, the District will in turn notify the Chief Privacy Officer of the breach or unauthorized release of student data or teacher or principal data no more than ten calendar days after it receives the third-party contractor's notification using a form or format prescribed by NYSED.

Investigation of Reports of Breach or Unauthorized Release by the Chief Privacy Officer

The Chief Privacy Officer is required to investigate reports of breaches or unauthorized releases of student data or teacher or principal data by third-party contractors. As part of an investigation, the Chief Privacy Officer may require that the parties submit documentation, provide testimony, and may visit, examine, and/or inspect the third-party contractor's facilities and records.

Upon the belief that a breach or unauthorized release constitutes criminal conduct, the Chief Privacy Officer is required to report the breach and unauthorized release to law enforcement in the most expedient way possible and without unreasonable delay.

SUBJECT: PRIVACY AND SECURITY FOR STUDENT DATA AND TEACHER AND PRINCIPAL DATA (Cont'd.)

Third-party contractors are required to cooperate with the District and law enforcement to protect the integrity of investigations into the breach or unauthorized release of PII.

Upon conclusion of an investigation, if the Chief Privacy Officer determines that a third-party contractor has through its actions or omissions caused student data or teacher or principal data to be breached or released to any person or entity not authorized by law to receive this data in violation of applicable laws and regulations, District policy, and/or any binding contractual obligations, the Chief Privacy Officer is required to notify the third-party contractor of the finding and give the third-party contractor no more than 30 days to submit a written response.

If after reviewing the third-party contractor's written response, the Chief Privacy Officer determines the incident to be a violation of Education Law Section 2-d, the Chief Privacy Officer will be authorized to:

- a) Order the third-party contractor be precluded from accessing PII from the affected educational agency for a fixed period of up to five years;
- b) Order that a third-party contractor or assignee who knowingly or recklessly allowed for the breach or unauthorized release of student data or teacher or principal data be precluded from accessing student data or teacher or principal data from any educational agency in the state for a fixed period of up to five years;
- c) Order that a third-party contractor who knowingly or recklessly allowed for the breach or unauthorized release of student data or teacher or principal data will not be deemed a responsible bidder or offeror on any contract with an educational agency that involves the sharing of student data or teacher or principal data, as applicable for purposes of General Municipal Law Section 103 or State Finance Law Section 163(10)(c), as applicable, for a fixed period of up to five years; and/or
- d) Require the third-party contractor to provide additional training governing confidentiality of student data and/or teacher or principal data to all its officers and employees with reasonable access to this data and certify that the training has been performed at the contractor's expense. This additional training is required to be performed immediately and include a review of laws, rules, and regulations, including Education Law Section 2-d and its implementing regulations.

If the Chief Privacy Officer determines that the breach or unauthorized release of student data or teacher or principal data on the part of the third-party contractor or assignee was inadvertent and done without intent, knowledge, recklessness, or gross negligence, the Chief Privacy Officer may make a recommendation to the Commissioner that no penalty be issued to the third-party contractor.

The Commissioner would then make a final determination as to whether the breach or unauthorized release was inadvertent and done without intent, knowledge, recklessness or gross negligence and whether or not a penalty should be issued.

Notification of a Breach or Unauthorized Release

The District will notify affected parents, eligible students, teachers, and/or principals in the most expedient way possible and without unreasonable delay, but no more than 60 calendar days after the discovery of a breach or unauthorized release of PII by the District or the receipt of a notification of a breach or unauthorized release of PII from a third-party contractor unless that notification would interfere with an ongoing investigation by law enforcement or cause further disclosure of PII by disclosing an unfixed security vulnerability. Where notification is delayed under these circumstances, the District will notify parents, eligible students, teachers, and/or principals within seven calendar days after the security vulnerability has been remedied or the risk of interference with the law enforcement investigation ends.

Notifications will be clear, concise, use language that is plain and easy to understand, and to the extent available, include:

- a) A brief description of the breach or unauthorized release, the dates of the incident and the date of discovery, if known;
- b) A description of the types of PII affected;
- c) An estimate of the number of records affected;
- d) A brief description of the District's investigation or plan to investigate; and
- e) Contact information for representatives who can assist parents or eligible students that have additional questions.

Notification will be directly provided to the affected parent, eligible student, teacher, or principal by first-class mail to their last known address, by email, or by telephone.

Where a breach or unauthorized release is attributed to a third-party contractor, the third-party contractor is required to pay for or promptly reimburse the District for the full cost of this notification.

Annual Data Privacy and Security Training

The District will annually provide data privacy and security awareness training to its officers and staff with access to PII. This training will include, but not be limited to, training on the applicable laws and regulations that protect PII and how staff can comply with these laws and regulations. The District may deliver this training using online training tools. Additionally, this training may be included as part of the training that the District already offers to its workforce.

Notification of Policy

The District will publish this policy on its website and provide notice of the policy to all its officers and staff.

Labor Law § 27-c
8 NYCRR § 155.17

Adoption Date: November 8, 2022

**SUBJECT: CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN
PUBLIC SCHOOL FACILITIES**

The School District shall provide and maintain on-site in each *instructional school facility* functional cardiac automated external defibrillator (AED) equipment as defined in Public Health Law Section 3000-b for use during emergencies. Each such facility shall have sufficient automated external defibrillator equipment available to ensure ready and appropriate access for use during emergencies in quantities and types as deemed by the Commissioner of Education, in consultation with the Commissioner of Health. Determination of the quantity and placement of AEDs must be made with consideration of at least the factors enumerated in Commissioner's Regulations. *An instructional school facility means a building or other facility maintained by the School District where instruction is provided to students pursuant to its curriculum.*

Whenever an *instructional School District facility* is used for a school-sponsored or school-approved curricular or extracurricular event or activity and whenever a *school-sponsored athletic contest* is held at any location, the public school officials and administrators responsible for such school facility or athletic contest shall ensure that AED equipment is provided on-site and that there is present during such event, activity or contest at least one staff person who is trained in accordance with Public Health Law in the operation and use of an AED. *School-sponsored or school-approved curricular or extracurricular events or activities mean events or activities of the School District that are, respectively, associated with its instructional curriculum or otherwise offered to its students. A school-sponsored athletic contest means an extraclass intramural athletic activity of instruction, practice and competition for students in grades 4 through 12 consistent with Commissioner's Regulations Section 135.4.*

Where a *school-sponsored competitive athletic event* is held at a site other than a School District facility, School District officials shall assure that AED equipment is provided on-site by the sponsoring or host district and that at least one staff person who is trained, in accordance with Public Health Law, in the operation and use of the AED is present during such athletic event. *A school-sponsored competitive athletic event means an extraclass interscholastic athletic activity of instruction, practice and competition for students in grades 7 through 12 consistent with Commissioner's Regulations Section 135.4.*

School District facilities and District staff responsible for carrying out the duties enumerated in Education Law Section 917 are deemed a "public access defibrillation provider" as defined pursuant to Public Health Law Section 3000-b and subject to the Public Health Law requirements and limitations.

Therefore, it is the policy of our School District to provide proper training requirements for District AED users, to ensure the immediate calling of 911 and/or the community equivalent ambulance dispatch entity whenever the AED is used, to ensure ready identification of the location of the AED units as enumerated in the District's Public Access Defibrillation Collaborative Agreement.

(Continued)

**SUBJECT: CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN
PUBLIC SCHOOL FACILITIES (Cont'd.)**

The District will provide for regular maintenance and checkout procedures of the AED unit(s) which meet or exceed manufacturer's recommendations. Appropriate documentation will be maintained in accordance with law and/or regulation. Further, the District will participate in the required Quality Improvement Program as determined by the Regional Emergency Medical Services Council.

The District shall post a sign or notice at the main entrance to the facility or building in which the AED unit(s) is stored, indicating the exact location where the unit(s) is stored or maintained on a regular basis.

Pursuant to Public Health Law Sections 3000-a and 3000-b, the School District (as a public access defibrillation provider), or any employee or other agent of the School District who, in accordance with the provisions of law, voluntarily and without expectation of monetary compensation renders emergency medical or first aid treatment using an AED to a person who is unconscious, ill or injured, shall not be liable for damages for injury or death unless caused by gross negligence.

SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS

Fire Drills

The administration of each school building shall provide instruction for and training of students, through fire drills, in procedures for leaving the building in the shortest possible time and without confusion or panic.

Fire drills shall be held at least twelve (12) times in each school year; eight (8) of these shall be held between September 1 and December 1. At least one-third (1/3) of all such required drills shall be through use of the fire escapes on buildings where fire escapes are provided. At least one (1) of the twelve (12) drills shall be held during a regular lunch period, or shall include special instruction on the procedures to be followed if a fire occurs during a student's lunch period.

At least two (2) additional drills shall be held during summer school in buildings where summer school is conducted and one (1) of these drills shall be held during the first week of summer school.

After-School Programs

The Building Principal or his/her designee shall require those in charge of after-school programs, attended by any individuals unfamiliar with the school building, to announce at the beginning of such programs the procedures to be followed in the event of an emergency.

Bomb Threats

School Bomb Threats

A bomb threat, even if later determined to be a hoax, is a criminal action. No bomb threat should be treated as a hoax when it is first received. The school has an obligation and responsibility to ensure the safety and protection of the students and other occupants upon the receipt of any bomb threat. This obligation must take precedence over a search for a suspect object. Prudent action is dependent upon known information about the bomb threat - location, if any; time of detonation; etc. If the bomb threat is targeted at the school parking lot or the front of the school, building evacuation may not be an appropriate response. If the bomb threat indicates that a bomb is in the school, then building evacuation is necessary unless the building has been previously inspected and secured in accordance with State Education Department Guidelines. Specific procedures can be found in the building level school plan, as required by Project SAVE.

The decision to evacuate a building or to take shelter is dependent upon information about where the bomb is placed and how much time there is to reach a place of safety. Prudent action dictates that students and other occupants be moved from a place of danger to a place of safety. Routes of egress and evacuation or sheltering areas must be thoroughly searched for suspicious objects before ordering

(Continued)

SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)

an evacuation. Failure to properly search evacuation routes before an evacuation takes place can expose students and staff to more danger than remaining in place until the search has taken place. Assistance is available from local police agencies and the New York State Police to train staff to check evacuation routes.

Police Notification and Investigation

A bomb threat to a school is a criminal act, which is within the domain and responsibility of law enforcement officials. Appropriate State, county, and/or local law enforcement agencies must be notified of any bomb threat as soon as possible after the receipt of the threat. Law enforcement officials will contact, as the situation requires, fire and/or county emergency coordinators according to the county emergency plan.

Therefore, the building administrator or designee is to notify local law enforcement officials and follow established procedures to move all occupants out of harm's way.

Implementation

The Board of Education directs the Superintendent or his/her designee to develop administrative regulations to implement the terms of this policy. Additionally, such regulations are to be incorporated in the District-wide School Safety Plan and the building level school safety plan, with provisions to provide written information to all staff and students regarding emergency procedures by October 1 of each school year, an annual drill to test the emergency response procedures under each of its building level school safety plans; and the annual updating of the District-wide and building level school safety plans, by July 1, as mandated pursuant to law and/or regulation.

Bus Emergency Drills

The Board of Education directs the administration to conduct a minimum of three (3) emergency drills to be held on each school bus during the school year. The first drill is to be conducted during the first seven (7) days of school, the second drill between November 1 and December 31, and the third drill between March 1 and April 30. No drills shall be conducted when buses are on routes.

Students who ordinarily walk to school shall also be included in the drills. Students attending public and nonpublic schools who do not participate in regularly scheduled drills shall also be provided drills on school buses, or as an alternative, shall be provided classroom instruction covering the content of such drills.

(Continued)

SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)

Each drill shall include instruction in all topics mandated by the Education Law and the Commissioner's Regulations and shall include, but will not be limited to, the following:

- a) Safe boarding and exiting procedures with specific emphasis on when and how to approach, board, disembark, and move away from the bus after disembarking;
- b) The location, use and operation of the emergency door, fire extinguishers, first aid equipment and windows as a means of escape in case of fire or accident;
- c) Orderly conduct as bus passengers.

Instruction on Use of Seat Belts

When a school bus is equipped with seat safety belts, the District shall ensure that all students who are transported on such school bus owned, leased or contracted for by the District or BOCES shall receive instruction on the use of seat safety belts. Such instruction shall be provided at least three (3) times each year to both public and nonpublic school students who are so transported and shall include, but not be limited to:

- a) Proper fastening and release of seat safety belts;
- b) Acceptable placement of seat safety belts on students;
- c) Times at which the seat safety belts should be fastened and released; and
- d) Acceptable placement of the seat safety belts when not in use.

SUBJECT: SCHOOL BUILDING ACCESS CONTROL

Schools cannot always control the crises/safety issues that may impact them. However, through the development and implementation of school safety plans, the District Code of Conduct, and various policies that address school security issues, the District is continually taking steps to improve the safety and culture of the school community.

All school safety plans shall be implemented, reviewed and/or revised as necessary in accordance with applicable law and Commissioner's Regulations. Appropriate school safety training for staff and students, the conduct of drills and other exercises to test components of the emergency response plan, as well as procedures for review, will be provided as mandated by law and regulation.

Additionally, school officials will encourage all staff and students to be more aware of their school surroundings by conducting awareness training relating to the school environment that includes awareness of signs of terrorism. Any suspicious activity is to be reported to the Building Principal/designee who will contact law enforcement authorities. Such suspicious activity may include, but is not limited to, unexplained presence of unauthorized persons in places where they should not be; discreet use of still cameras or video recorders; note-taking or the use of binoculars or maps near school locations; observation of security reaction drills or procedures; mobile surveillance from unauthorized vehicles on or around school grounds; the parking of a suspicious vehicle in the school's parking lot or in proximity to the school building, particularly for an extended period of time; and the discovery of an unattended package or object inside or around the premises of the school.

Visitors shall be directed to the Main Office for specific instructions regarding that building's procedures for visitors to the school.

Possession and Use of Cell Phones/Camera Phones

The Board recognizes that while carrying cell phones can be a safety measure for staff and students alike, problems arise when the inappropriate use of cell phones and/or camera phones interfere with the school's ability to maintain control in the school environment, giving rise to security as well as educational concerns. For example, the use of camera phones poses a danger to school security; risks educational integrity, particularly during testing/examinations; and creates the potential for violations of privacy. The use of camera phones by visitors to the schools can also present a potential security concern.

Inappropriate or unauthorized use of cell phones can undermine (if not render inoperable due to system overload) the communication system in place per the school safety plans, impede evacuation plans if parents or other individuals are summoned to the school by non-designated persons, and potentially restrict the access of community emergency service providers to the site.

Therefore, the use and/or restriction of cell phones/camera phones shall be reviewed by designated personnel, including those individuals who are members of the school safety team(s) and team members involved in the annual review of the District Code of Conduct. As deemed necessary,

(Continued)

SUBJECT: SCHOOL BUILDING ACCESS CONTROL (Cont'd.)

school safety plans and the District Code of Conduct shall be modified to address the use of and/or restriction of cell phones/camera phones during designated times or events, particularly by students and visitors to the schools.

Policy Implementation

The Board directs that administration implement and review on a periodic basis building access control procedures, and provide IDs for staff, students and visitors as appropriate. Parents and students shall be informed of the school's access procedures; and visitors shall be required to follow the specific visitor procedures prescribed by that particular building.

This policy is intended to highlight our commitment to and planning for heightened security access to our schools. The policy shall be considered an adjunct to, not a replacement of, our school safety plans and the District Code of Conduct.

SUBJECT: MAXIMUM TEMPERATURE FOR SCHOOL BUILDINGS AND INDOOR FACILITIES

The District is responsible for addressing the health, safety, and comfort of students and staff on extreme heat conditions days.

For purposes of this policy, the following definitions apply:

- a) Extreme heat condition days means days when occupiable educational and support services spaces are 82 degrees Fahrenheit or higher.
- b) Room temperature means the temperature measured at a shaded location, three feet above the floor near the center of the room.
- c) Support services spaces do not include kitchen areas used in the preparation of food for consumption by students.

Implementation Plan When the Temperature Reaches Eighty-Two Degrees Fahrenheit

The District is required to take action to relieve heat-related discomfort when the occupiable educational and support services spaces temperatures reach 82 degrees Fahrenheit. These actions may include, but are not limited to:

- a) Turning off the overhead lights;
- b) Pulling down shades or blinds;
- c) Turning on fans;
- d) Opening classroom doors and windows to increase circulation, if permitted;
- e) Turning off unused electronics that produce heat; and
- f) Providing water breaks.

Air conditioners, where available, may also be used to keep room temperatures from reaching 82 degrees Fahrenheit. The District may take the actions above earlier in the day or before school starts in an effort to keep the room temperature below 82 degrees Fahrenheit. This does not prohibit using air conditioning in response to a student's Individualized Education Plan, Section 504 Plan, or in response to a documented student medical need.

(Continued)

SUBJECT: MAXIMUM TEMPERATURE FOR SCHOOL BUILDINGS AND INDOOR FACILITIES (Cont'd.)Implementation Plan When the Temperature Reaches Eighty-Eight Degrees Fahrenheit

The District will remove students and staff from educational and support services spaces when the room temperature reaches 88 degrees Fahrenheit where practicable. The Superintendent or designee may direct building principals to evacuate the space by:

- a) Moving students and staff to cooler spaces within the school building(s); or
- b) Closing school early and sending students and staff home according to the District's emergency school closing policy and/or procedure which include communicating with parents and persons in parental relation.

The Board will consider the anticipated number of extreme heat condition days when adopting or adjusting the District's school calendar. The District will also be mindful of collective bargaining agreements.

According to the New York State Department of Labor's Division of Safety and Health and Occupational Safety and Health Administration (OSHA) standards, the program shall consist of:

- a) Guidelines for maintaining a safe, healthy school environment to be followed by staff and students alike.
- b) Written standard operating procedures for blood/body fluid clean-up.
- c) Appropriate staff education/training.
- d) Evaluation of training objectives.
- e) Documentation of training and any incident of exposure to blood/body fluids.
- f) A program of medical management to prevent or reduce the risk of pathogens, specifically hepatitis B and Human Immunodeficiency Virus (HIV).
- g) Written procedures for the disposal of medical waste.
- h) Provision of protective materials and equipment for all employees who perform job-related tasks involving exposure or potential exposure to blood, body fluids or tissues.

Whenever, upon investigation and evaluation by the Director of School Health Services or other health professionals acting upon direction or referral of the director, a student in the public schools shows symptoms of any communicable or infectious disease reportable under the public health law that imposes a significant risk of infection of others in the school, he/she shall be excluded from the school and sent home immediately, in a safe and proper conveyance. The Director of School Health Services shall immediately notify a local public health agency of any disease reportable under the public health law.

The Director of School Health Services, or other health professionals acting upon direction or referral of the director, may make evaluations of teachers and any other school employees, school buildings and premises as, in their discretion, they may deem necessary to protect the health of the students and staff.

Regulations and procedures will be developed for dealing with communicable diseases (including, but not limited to, pandemic flu) in ways that protect the health of both students and staff while minimizing the disruption of the education process.

Scheduling and Routing

Bus routes are authorized by the Board of Education and any requests for a change must be submitted to the Superintendent or his/her designee.

Transportation services shall be provided to meet the needs of the students of the District within specified limits and areas established by the Board of Education.

All students, grades Kindergarten through five are eligible to be transported to school and returned by District transportation. All students, grades six through twelve, living more than 1-1/2 miles from the school are eligible to be transported to school and returned by District transportation. An exception may occur when the District operates under a contingent budget when only students living more than two (2) miles from school will be transported.

The speed and distance measuring devices of the official vehicle shall be calibrated annually by a state registered odometer service facility.

The official vehicle shall measure all distances. The point of origin shall be the door of the child's residence to the front door of the school.

The "door of the child's residence" shall mean the point that intersects the driveway of the residence with the centerline of the road where the child is customarily picked up.

(Continued)

SUBJECT: TRANSPORTATION PROGRAM (Cont'd.)

The "front door of the school" shall mean the door at the school where students are customarily discharged from school buses.

The district of residence remains responsible to provide transportation to parentally placed nonpublic school students from the student's home to the nonpublic school.

Transportation of Students with Disabilities

Transportation of students with disabilities in the District may not exceed 50 miles one way from the student's home to the appropriate special service or program, unless the Commissioner certifies that no appropriate nonresidential special service or program is available within 50 miles. In that event, the Commissioner may then establish transportation arrangements.

Student Information

Use of Cell Phones and Portable Electronic Devices Prohibited

Use of portable electronic devices by a school bus driver at times the vehicle is in operation on the roadway poses a potential safety risk. All school bus drivers are prohibited from using portable electronic devices while the bus is in operation and students are on the bus.

Personal cell phones are to be placed in the "off" position when in the possession of the school bus driver while the bus is in operation. Cell phones may be used in case of emergency.

The following terms are defined as:

The Transportation Supervisor, in cooperation with the Principals, has the responsibility of developing and publishing safety rules to be followed by drivers and passengers, including rules of student conduct. In order to ensure maximum safety to those riding school buses, it is necessary that students and drivers cooperate in this effort. There is no substitute for training to develop safe habits in pedestrian and vehicular traffic.

All buses and other vehicles owned and operated by the School District or by vendors/contract bus companies will have frequent safety inspections, and will be serviced regularly. The Transportation Supervisor will maintain a comprehensive record of all maintenance performed on each vehicle.

Adopted: 8/13/13

SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS

In order to help prevent accidents and injuries resulting from the misuse of drugs and/or alcohol by school bus drivers, the Board adopts this policy in compliance with federal and state law and regulation.

*The District has designated the following individual to answer driver questions about this policy and related materials: Superintendent of Schools

Drug and Alcohol Testing Program

School bus drivers are subject to drug and/or alcohol testing in a variety of circumstances. The District will comply with all federal and state law and regulation regarding the implementation of a drug and alcohol testing program for school bus drivers.

****If District owns buses (use the paragraph below):***

The District will either establish and manage its own drug and alcohol testing program or by contract have a consortium/third-party administrator manage all, or part of, its drug and alcohol testing program for school bus drivers.

****If District contracts out for buses (use the paragraph below):***

The District will ensure that vendors or contract bus companies either establish and manage their own drug and alcohol testing program or by contract have a consortium/third-party administrator manage all, or part of, their drug and alcohol testing program for school bus drivers.

Under federal law and regulation, individuals who operate a Commercial Motor Vehicle (CMV) designed to transport 16 or more occupants (including the driver) and are subject to commercial driver's license (CDL) requirements established by the United States Department of Transportation are safety-sensitive employees and are subject to the following drug and/or alcohol testing:

- a) **Pre-employment drug testing** which will be conducted after a conditional offer to hire has been extended, but before the actual performance of safety-sensitive functions for the first time. This pre-employment testing will also be required when employees transfer to a safety-sensitive position.
- b) **Random drug and/or alcohol testing** which will be conducted on an unannounced basis.

(Continued)

SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS (Cont'd.)

- c) **Reasonable suspicion drug and/or alcohol testing** which will be conducted when reasonable suspicion exists that a driver has engaged in prohibited use of drugs and/or alcohol. The required observation for reasonable suspicion drug and/or alcohol testing must be made by a supervisor or official who has been trained in accordance with federal law and regulation.
- d) **Post-accident drug and/or alcohol testing** which will be conducted as soon as practicable following certain occurrences involving a CMV operating on a public road.
- e) **Return-to-duty drug and/or alcohol testing** which will be conducted on a driver who has engaged in prohibited drug and/or alcohol conduct before the driver returns to perform a safety-sensitive function.
- f) **Follow-up drug and/or alcohol testing** which will be conducted on a driver who has engaged in prohibited drug and/or alcohol conduct and has returned to performing a safety-sensitive function. This testing will be conducted on an unannounced basis in accordance with a written follow-up testing plan developed by a substance abuse professional (SAP).

All procedures used to test for the presence of drugs and/or alcohol will conform to the requirements outlined in federal law and regulation for protecting the driver and the integrity of the testing process, safeguarding the validity of the test results, and ensuring that all test results are attributed to the correct driver.

Under New York State law and regulation, all school bus drivers are subject to pre-employment and random drug and alcohol testing in accordance with the provisions and requirements of federal regulations, regardless of CDL endorsement. Every school bus driver will be included in the random testing pool and must submit to testing when selected.

Prohibitions and Consequences for School Bus Drivers

Under federal law and regulation, individuals who operate a CMV designed to transport 16 or more occupants (including the driver) and are subject to CDL requirements established by the United States Department of Transportation are prohibited from:

If testing shows an alcohol concentration of 0.02 or greater but less than 0.04, the employee must be removed from performing safety-sensitive functions for not less than 24 hours, but no punitive action will be taken by the employer;
- b) Using alcohol while performing safety-sensitive functions;

(Continued)

SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS (Cont'd.)

- h) Reporting for duty, remaining on duty, or performing a safety-sensitive function, if the driver tests positive for drugs.

Additionally, under New York State law, all school bus drivers are prohibited from:

- a) Consuming a drug or intoxicating liquor, regardless of its alcoholic content, or be under the influence of a drug or intoxicating liquor, within six hours before going on duty or operating, or having physical control of a bus;

(Continued)

SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS (Cont'd.)

Any violation of this policy, District procedures, and/or applicable federal and state law and regulation by a school bus driver will be grounds for disciplinary action and penalties including, but not limited to, fines, suspension, and/or discharge in accordance with the District's and/or the vendors' or contract bus companies' policies, collective bargaining agreements, and applicable law.

- a) Are evaluated by a SAP;
- b) Complete any requirements for rehabilitation as set by the employer and the SAP; and
- c) Pass a return-to-duty test with the result below 0.02 if the conduct involved alcohol, or a drug test with a verified negative result if the conduct involved drug use.

The Drug and Alcohol Clearinghouse

The Drug and Alcohol Clearinghouse ("Clearinghouse") is a secure online database that provides real-time information about CDL and commercial learner's permit holder's drug and alcohol program violations. The District will comply with all federal law and regulation regarding the Clearinghouse.

In accordance with 49 CFR Part 382, the following personal information will be collected, maintained, and reported to the Clearinghouse:

****Prohibitions and Consequences for Vendors or Contract Bus Companies (If District owns buses delete this subheading)***

Any significant violation of this policy or District procedures, and applicable federal and state law and regulation by a vendor or contract bus company and its employees will result in revocation of its contract for the transportation of students.

Employee Notification****If District owns buses (use following three paragraphs):***

The Superintendent or designee will ensure that each school bus driver receives a copy of educational materials that explain the requirements of drug and alcohol testing law and regulation and any policies, regulations, and/or procedures developed by the District with respect to meeting those requirements. The Superintendent or designee will ensure that a copy of these materials is distributed to each school bus driver, who will sign for receipt of all of the above documents, as well as other appropriate personnel, prior to the start of any drug and/or alcohol testing as well as at the beginning of each school year or at the time of hire for any school bus driver. Representatives of applicable collective bargaining units will be notified of the availability of this information.

The Superintendent or designee will further ensure that each school bus driver receives educational materials concerning: the effects of drug and alcohol use on an individual's health, work, and personal life; signs and symptoms of a drug or alcohol problem (the driver's or a co-worker's); and available methods of intervening when a drug or alcohol problem is suspected, including confrontation, referral to any employee assistance program, and/or referral to management.

The Superintendent or designee will arrange for training of all supervisors who may be utilized to determine whether reasonable suspicion exists to test a driver for prohibited conduct involving drugs and/or alcohol.

Overview

The emergence of artificial intelligence (AI) technologies, especially generative AI (GenAI), pose unique challenges and opportunities for learning environments. As these technologies integrate deeper into everyday life, the District must proactively address the implications of AI usage to ensure it enhances educational outcomes without compromising academic integrity or equity. This policy outlines the District's commitment to responsible AI integration in educational practices, balancing innovation with the core values of the District's educational mission. Further, it sets forth guidelines designed to evolve as new technologies and methodologies emerge, ensuring the District remains at the forefront of academic excellence and technological responsibility.

Scope and Application

This policy applies to all District students, personnel, volunteers, and contractors. It integrates with, and complements, existing policies on data privacy, acceptable use, and student conduct. This policy aims to provide clear guidelines on the use of AI within the District's schools, ensuring that its application supports the District's educational goals and adheres to its privacy and security standards.

Definitions

- a) Generative AI (GenAI) represents a dynamic subset of AI technologies that can create new, human-like content from extensive data training sets. This content spans across text, images, audio, and more, often mimicking human creativity and adaptability.
- b) Traditional AI refers to systems that operate on fixed algorithms and predefined rules without altering their behavior based on new data after their initial deployment.

Risks and Limitations

The use of GenAI comes with some risks and limitations which include, but are not limited to:

- a) Hallucinations/Confabulations

GenAI can generate plausible, but false or inaccurate, information, a phenomenon known as a hallucination/confabulation.

SUBJECT: ARTIFICIAL INTELLIGENCE (AI) (Cont'd.)**b) Biases**

GenAI tools learn from data created by people, which means any biases, prejudices, and stereotypes in that data can be reflected in the outputs produced by GenAI. For example, GenAI has been found to generate images and text that reinforce existing gender and racial biases. It is essential to recognize that these biases exist and to critically assess the outputs of GenAI tools to prevent the perpetuation of stereotypes and unfair treatment.

The impact of GenAI biases is particularly significant in the context of Diversity, Equity, and Inclusion (DEI) initiatives. DEI initiatives aim to create environments where all individuals have equal opportunities and are treated with respect and fairness. Biased AI outputs can undermine these goals by perpetuating inequality and exclusion, which can be detrimental to the educational mission of the District.

GenAI can also suffer from response bias, where the AI generates answers tailored to what it predicts the user wants to hear based on its training data or specific tuning.

c) Copyright

GenAI may pose copyright issues as it may have used copyrighted material within its training data without explicit permission from the copyright holders. As a result, there are unsettled legal questions about the ownership and copyright status of GenAI's outputs, which can closely mimic or incorporate elements of existing copyrighted works.

Data Privacy and Security

Information entered into GenAI may be accessible to others due to data sharing or breaches. All users should exercise caution when utilizing GenAI. Under no circumstances should any sensitive, copyrighted, confidential, or proprietary information be entered into GenAI or any other AI platform, consistent with relevant state and federal laws and District policy. This includes, but is not limited to, data protected by:

- a) Family Educational Rights and Privacy Act (FERPA);
- b) Education Law Section 2-d (Unauthorized Release of Personally Identifiable Information);
- c) Labor Law Section 203-d (Employee Personal Identifying Information);
- d) State Technology Law Section 208 (Notification of Security Breach of Private Information).

Further, if the information would not be disclosed in response to a Freedom of Information Law (FOIL) request, it should not be entered into GenAI.

Student Use

The District permits teachers to determine whether students in their class may use GenAI for assignments. However, the District recognizes that disparities in access to GenAI technologies may exist and will work with teachers to ensure that no student is disadvantaged by their inability to use or decision not to use GenAI.

If teachers allow their students to use GenAI, they are expected to communicate their expectations regarding the use of GenAI clearly to their students. Further, the teacher must discuss the appropriate and responsible use of GenAI with the students. This includes talking to students about the risks and limitations of GenAI, emphasizing how students are accountable for the accuracy of their work, and, when relevant, and ensuring proper citation of sources.

Student use of GenAI that conflicts with teacher instruction, District policy, regulation, procedure, or other document, such as the District's Code of Conduct, may result in investigation and/or disciplinary action.

Training, Awareness, and Support

The District will provide training, awareness, and support to teachers in navigating the evolving use of GenAI in the classroom. This may include professional learning opportunities, workshops, and resources to enhance teachers' proficiency and confidence in using GenAI to enrich student learning. The goal is to equip teachers with the knowledge to critically assess GenAI technologies and guide students in understanding the complexities associated with these tools. Additionally, the District may extend training, awareness, and support regarding GenAI to other District personnel who may benefit from understanding and utilizing GenAI in their roles.

Compliance with Other Documents

When using GenAI, all personnel and students must comply with all applicable laws, regulations, and District documents. This includes Education Law Section 2-d, which requires the District to ensure that whenever it enters into a contract or other written agreement with a third-party contractor under which the third-party contractor will receive student data or teacher or principal data from the District, the contract or written agreement will include provisions requiring that confidentiality of shared student data or teacher or principal data be maintained in accordance with law, regulation, and District policy.

Applicable District documents may include the District's policies on data security and acceptable use, as well as the District's *Code of Conduct*.
