

Homework Assistance Club

The Homework Assistance Club is an after-school activity in which a NOVA teacher supervises the completion of school-assigned homework for your child. This differs from tutoring, as no direct instruction is provided; instead, someone checks to see whether homework is completed and offers basic assistance. This program is designed to support families who struggle to help their child meet the full demands of homework assignments, but do not require a full, one-to-one tutor.

Grade: 1 - 5

Trimester fee: 180 euro (four times per week)
100 euro (twice per week)
