Comments:

Why is the district avoiding talking about our re-opening plans? At this point, the board has discussed their own return to in-person meetings more than they have discussed feasible and safe plans for returning in the fall. It seems that the superintendent and cabinet are just hoping that we can return in the fall back to normal, as if nothing ever happened. After 15 months in this situation, it is a shame that more progress has not been made to reassure staff, parents, and kids that their safety AND education are of the utmost top priority.

Can we hire more teachers to alleviate the large class sizes in schools? Students coming in from a whole year in distance learning, how can students get the attention they need? Board members, please look at the classroom sizes in our schools and hire more teachers!

When will we get information on reopening, so parents can plan for the fall? Even if it's tentative, we would appreciate that. There's time now to plan schedules, different scenarios, etc. Is the district planning? Can you update parents in multiple places (board meeting, website, email, etc)?

Also, please consider kindergarten students being in the same group for first grade, since they do not know anyone. At the least they can recognize some familiar names.

Comments:

Pay teachers more. There is a teacher shortage and with teachers leaving our district it is hurting our students because of the instability that it creates. Students already suffered enough with the pandemic. For some students school is their only stable area of life and to see different faces all the time can be scary and disheartening.

Will you be implementing vaccination requirement for all faculty, students, and staff heading into the fall? UC and CSU systems are requiring it in order to attend campus. Will this be added to existing immunization requirements? What's the district's plan?

Comments:

When reopening middle school in the fall, can the middle schools plan for cohorts? 6th, 7th and 8th grade two cohorts to ensure physical distancing. It was done before at Westborough Middle school. As well as high schools, can they consider cohort schedules to ease the staff and students to in-person instruction and to ensure health and safety.

Comments:

How is the superintendent implementing the culture that she describes in the her podcast? How come not all of us get to feel it?

The current district climate seems to value accountability more than the "mistakes" that are being described:

<https://futureready.org/podcasts/leading/>

Show us a plan. Show teachers you appreciate them with action not just words.

Outdoor Ed for current 6th graders

Do you want to provide your comment when the agenda item comes up or during the public comment section?(To comment during the meeting please provide your Name above)

- When agenda item comes up
- During the public comment section

Comments:

As a parent of a 6th grader who did not have the opportunity to attend outdoor Ed during the 5th grade year I would like to have the option provided to students in the next school year to attend outdoor Ed. This activity is an opportunity that comes only once in a lifetime during their elementary school years so it would be nice if these children were able to get back & capture this missed opportunity from last year.

Comments:

I have heard that Outdoor Ed is planning it's reopening. I am hoping that you will consider allowing all the children that missed this amazing educational experience a chance to still attend this week-long event. My son who attended Monte Verde was scheduled to go in May 2020, right at the craziness of the pandemic. He was heartbroken about missing this. Being my youngest—he has watched both his siblings go and was super excited that it was finally his turn. I'm asking that our district allow these children—who have already lost so much—this opportunity. I don't know about you, but I still remember my experiences from when I was a child in 6th grade and attended this week long camp! Think about it—do we really want to be responsible for taking this too from them??? We've all lost things that can't be replaced due to this Pandemic; but if we have the means to replace them, we should do whatever it takes to make it happen!!!

Comments:

I heard that Outdoor Ed was opening back up and think it is only fair that children who missed it the last two school years should have the right to go. My son who was a 5th grader at Buri and missed it by one week in 2020. All these kids missed out on a memorable experience and should get to go. Please consider this as these kids have missed out on so much.

There has been talk about Outdoor Education re-opening. I, along with some other parents, would like the opportunity for our kids to still be able to attend, since they weren't able to participate in 5th grade due to the Pandemic. Thank you.

Comments:

With Outdoor Ed reopening I would hope you would extend the invitations to all the kids that missed out over the last two school years due to the Pandemic. Our kids have lost so much. A year of learning that cannot be replaced. Let's do what we can to give them back something. My son was scheduled for May 2020. He was devastated. I ask every member of the district—wouldn't you fight for this if it were your child?????

Comments:

I am a parent of a 6th grader that didn't have the opportunity to experience Outdoor Ed due to COVID. I heard Outdoor Ed is inviting students that didn't get to go back to experience Outdoor Ed. I am asking for the Board to consider allowing this since these kids have missed out on so much. This is a program that they fundraised for many years . These kids worked really hard to go to Outdoor Ed and that was taken away from them. Please give them this experience back! These kids have been stuck to a screen for over a year and a half they deserve to experience Outdoor Ed! Thank you for your consideration.

Comments:

Monte Verde Elementary could not attend Outdoor ed in 2020. I would like the Middle schools to seriously consider allowing the current 6th grade class to experience it next year.
