Comments:

One of the benefits of seeing the board meetings over Zoom is transparency. It allows the public to see how the the board works and in turn the board will have more public support when implementing policies. I think for the benefit of all, board meetings should always be televised/recorded for public review.

#### Comments:

I am concerned that next year board meetings will be in person only. I would like to see ALL board meetings televised/recorded for transparency purposes. I feel so much more informed this year because I have been able to view them on YouTube.

### Comments:

I think it is wonderful and a great idea for the board and superintendent to be part of the Equity Network study sessions. It shows how much the team wants to improve our district. This is a great start.

While it is beneficial that you all are engaged in this conversation, there are others in the district (assistant superintendent, teachers, and staff) that do not have the same mindset. They may not have the awareness or have accepted that inequities exists and are really adamant about the maintaining the current status quo. Actions speak louder than words. How is the board going to help all staff see through an equity lens?

Comments:

Can we hire more teachers to alleviate the large class sizes in schools, especially high school? Students coming in from a whole year in distance learning, how can students get the attention they need? Board members, please look at the classroom sizes in our schools and hire more teachers!
