Comments:

Board members, please urge educational services to stop mandating assessments that yield math and language arts results we already know. What is the purpose? To subject students and teachers to assessments? Value our time. Teachers and students need support before assessments. Follow the raw data. Review the old data. Look at the questions being asked. It will affirm the patterns of inequities among our students. Just be transparent. Don't hide the purpose in a veil of jargon. We are teachers. We know when it's a checkbox. Please plan the rest of the year better.
