Please review and hopefully update the policy on Physical Education. Many students, including my child, participate in extracurricular activities that exceed the minutes required to complete PE. For example, my child is a dancer and a martial artist and practices for over 15 hours per week. It would be beneficial as a middle schooler to use that PE period to do homework to avoid late nights of work.

**Comments:**

Can something be done with the locker policy? My child had an appointment with his physical therapist this week and they mentioned that his backpack was too heavy and messing up muscle growth and development. My child mentioned he was only allowed to use his locker twice a day. This is really unacceptable for children. We weighted his backpack and it weighed over 20lbs. Having to carry a Chromebook and all your books and supplies for the entire day when you have a locker? Please review the locker policy or let my child use a wheeled backpack, the physical therapist said he should not be wearing a backpack too heavy because it will affect his growth and development. Thank You.
