CHRISTIAN SCHOOL

DEVICE SPECIFICATIONS & MINIMUM SYSTEM REQUIREMENTS

Under the BYOD Program, students in Grades 6th – 12th are expected to bring their own computing device to school each day. This personal computing device needs to meet the Device Specifications that are recommended by the school and listed below.

The device specifications identify the minimum system requirements/hardware specifications for student devices. While iOS (Apple) devices can be used at school there may be difficulty with connections and a number of applications and tasks may present problems. The use of these devices is discouraged. **Android based devices are not allowed.**

While all devices must meet the minimum system requirements/hardware specifications, the school strongly recommends that students choose a laptop device to ensure that their BYOD maximizes their learning experiences.

| Device Type | Mac Laptop | Windows Laptop |
|--|-------------------------|-------------------------|
| Operating System | OSX 10.11 or Higher | Windows 11 |
| Recommended Screen Size | 11-13" | 11-13" |
| Minimum Processor | Intel i3 or better | Intel i3 or better |
| Recommended Processor | Intel Core i5 or better | Intel Core i5 or better |
| Minimum Storage Capacity (SSD) | 64 GB | 64 GB |
| Recommended Storage Capacity (SSD or HD) | 128 GB or Higher | 128 GB or Higher |
| Minimum RAM | 4 GB | 4 GB |
| Recommended RAM | 8 GB or Higher | 8 GB or Higher |
| Wireless | 5 GHZ 802.11N | 5 GHZ 802.11N |
| Minimum Battery Life | 6 Hours | 6 Hours |
