Non-Certified Substitute, Seasonal, and Student Rates

Students ²	\$15.50 per hour
Students - Custodian/Maintenance	\$16.50 per hour
Substitute wage rates for support staff and maintenance positions ³	90% of Step 1 on scale ⁴
Seasonal wage rate (summer work only)	Step 1 on scale

² A student employee is any individual who has not yet graduated from high school working for less than 100 days in a calendar year in positions that are temporary or seasonal in character. Upon graduation, the district will reclassify student staff in concert with district employment practices and current bargaining agreements. This reclassification will occur on STMA's graduation date in May or June regardless of the employee's actual graduation date. Reclassification is not retroactive. *See generally* Minn. Stat. Section 179A.03, subdivision 14 (7).

³ This rate would not apply to current permanent staff assigned to a classified contract. These employees would be assigned their current rate and in accordance with the applicable master contract.

⁴ The actual wage rate is at the discretion of the district and does not imply a contractual or legal obligation to change wage rates for non-classified staff simultaneously with any change in the respective collective bargaining agreements for the same job classification. In the event of a scale change, the district will implement wage changes at the start of the following school year and wage changes would not apply retroactively. The timing of when wage rates change is at the discretion of the district.
