Policy 1113: District And School Websites **Status:** ADOPTED

Original Adopted Date: 07/01/2007

To enhance communication with students, parents/guardians, staff, and community members, the Governing Board encourages the Superintendent or designee to develop and maintain district and school websites. The use of district and school websites shall support the district's vision and goals and shall be coordinated with other district communications strategies.

Design Standards

The Superintendent or designee shall establish design standards for district and school websites in order to maintain a consistent identity, professional appearance, and ease of use.

District design standards shall require an evaluation of products, features, and content accessible to students on district and school websites to prevent access to harmful or potentially harmful material.

The district's design standards shall address the accessibility of district and school websites to individuals with disabilities, including compatibility with commonly used assistive technologies.

Website Content

The Superintendent or designee shall develop content guidelines for district and school websites and assign staff to review and approve content prior to posting.

Board policy pertaining to advertising in district and school publications, as specified in BP 1325 - Advertising and Promotion, shall also apply to advertising on district and school websites.

Privacy Rights

The Superintendent or designee shall ensure that the privacy rights of students, parents/guardians, staff, Board members, and other individuals are protected on district and school websites.

Telephone numbers and home and email addresses of students and/or their parents/guardians shall not be published on district or school websites.

The district regards photographs as a category of directory information that would not generally be considered harmful or an invasion of privacy if disclosed. Therefore, a student's photograph, together with the student's name, may be published on district or school websites unless the student's parent/guardian has notified the district in writing to not release the student's photograph without prior written consent, in accordance with BP/AR 5125.1 - Release of Directory Information.

If students' names are not included, photographs of individual students or groups of students, such as at a school event, may be published on school or district websites.

Employees' home addresses, personal telephone numbers, and personal email addresses shall not be posted on district or school websites.

The home address or telephone number of any elected or appointed official including, but not limited to, a Board member or public safety official, shall not be posted on district or school websites without the prior written permission of that individual. (Government Code 3307.5, 7928.205, 7920.535)

No public safety official shall be required to consent to the posting on the Internet of the public safety official's photograph or identity as a public safety officer for any purpose if that officer reasonably believes that the disclosure may result in a threat, harassment, intimidation, or harm to the officer or the officer's family. (Government Code 3307.5)

Community Relations

DISTRICT AND SCHOOL WEB SITES

To enhance communication with students, parents/guardians, staff, and community members, the Governing Board encourages the Superintendent or designee to develop and maintain district and school web sites. The use of district and school web sites shall support the district's vision and goals and shall be coordinated with other district communications strategies.

(cf. 1112 - Media Relations)
(cf. 1114 - District-Sponsored Social Media)
(cf. 6020 - Parent Involvement)

Design Standards

The Superintendent or designee shall establish design standards for district and school web sites in order to maintain a consistent identity, professional appearance, and ease of use. A U.S. Department of Justice technical assistance publication, Accessibility of State and Local Government Websites to People with Disabilities, states that an agency with a web site that is otherwise inaccessible to individuals with disabilities may meet its legal obligations by providing an alternative accessible way for them to use the programs or services (e.g., a staffed telephone information line), but points out that these alternatives are unlikely to provide an equal degree of access in terms of hours of operation or range of options and programs available. See the accompanying administrative regulation for accessibility guidelines.

The district's design standards shall address the accessibility of district **and school** web sites to individuals with disabilities, including compatibility with commonly used assistive technologies.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

Web Site Content

The Superintendent or designee shall develop content guidelines for district and school web sites and assign staff to review and approve content prior to posting.

Board policy pertaining to advertising in district and school publications, as specified in BP 1325 - Advertising and Promotion, shall also apply to advertising on district and school web sites.

(cf. 1325 - Advertising and Promotion)

Privacy Rights

The Superintendent or designee shall ensure that the privacy rights of students, parents/guardians, staff, Board members, and other individuals are protected on district and school web sites.

(cf. 1340 - Access to District Records)
(cf. 4119.23/4219.23/4319.23 - Unauthorized Release of Confidential/Privileged Information)
(cf. 5022 - Student and Family Privacy Rights)
(cf. 5125 - Student Records)

Note: The following **optional** paragraph may be revised to reflect district practice. The district should carefully consider whether to place personally identifiable information on district or school web sites since release of such information may put individuals, including students, at risk and also may violate Education Code 49073 which

prohibits disclosure of student directory information to any private profit-making entity; see BP/AR/E 5125.1 - Release of Directory Information.

Telephone numbers and home and email addresses of students and/or their parents/guardians shall not be published on district or school web sites.

(cf. 5125.1 - Release of Directory Information)

The district regards photographs as a category of directory information that would not generally be considered harmful or an invasion of privacy if disclosed. Therefore, a student's photograph, together with his/her name, may be published on district or school web sites unless the student's parent/guardian has notified the district in writing to not release the student's photograph without prior written consent, in accordance with BP/AR 5125.1 - Release of Directory Information.

If students' names are not included, photographs of individual students or groups of students, such as at a school event, may be published on school or district web sites.

Employees' home addresses, personal telephone numbers, and personal email addresses shall not be posted on district or school web sites.

The home address or telephone number of any elected or appointed official including, but not limited to, a Board member or public safety official, shall not be posted on district or school web sites without the prior written permission of that individual. (Government Code 3307.5, 6254.21, 6254.24)

No public safety official shall be required to consent to the posting on the Internet of his/her photograph or identity as a public safety officer for any purpose if that officer reasonably believes that the disclosure may result in a threat, harassment, intimidation, or harm to the officer or his/her family. Policy 4112.2: Certification **Status:** ADOPTED

Original Adopted Date: 11/01/2008

The Governing Board recognizes that the district's ability to provide a high-quality educational program is dependent upon the employment of certificated staff who are adequately prepared and have demonstrated proficiency in basic skills and competency in the subject matter to be taught. The Superintendent or designee shall ensure that persons employed to fill positions requiring certification qualifications possess the appropriate credential, permit, or other certification document from the Commission on Teacher Credentialing (CTC) and fulfill any additional state, federal, or district requirements for the position.

The Superintendent or designee shall provide assistance and support to teachers holding preliminary credentials to enable them to meet the qualifications required for the clear credential.

Priorities for Hiring Based on Unavailability of Credentialed Teacher

The Superintendent or designee shall make reasonable efforts to recruit a fully prepared teacher who is authorized in the subject or setting for each assignment or, when necessary, a fully prepared teacher serving on a local assignment option. Whenever a teacher with a clear or preliminary credential is not available, and the Board adopts a resolution that it has made reasonable efforts to recruit a fully prepared teacher for the assignment, the Superintendent or designee shall make reasonable efforts to recruit an individual for the assignment in the following order: (Education Code 44225.7)

1. A candidate who enrolls in an approved internship program in the region of the district and possesses an intern credential

2. A candidate who is scheduled to complete preliminary credential requirements within six months and who is granted a provisional internship permit (PIP) or short-term staff permit issued by CTC

The Board shall take action to approve, at an open Board meeting, a notice of its intent to employ a PIP applicant for a specific position. (5 CCR 80021.1)

3. An individual who has been granted a credential waiver by ~~the~~ CTC

Annually, the Board shall, prior to requesting that ~~the~~ CTC issue an emergency permit or ~~a~~ limited assignment permit, approve a Declaration of Need for Fully Qualified Educators. The Declaration of Need shall be approved by the Board as an action item at a regularly scheduled open Board meeting, with the entire Declaration of Need being included in the Board agenda~~.~~ (Education Code 44225, 44225.7; 5 CCR 80023.2, 80026, 80027, 80027.1)

The Declaration of Need shall certify that there is an insufficient number of certificated persons who meet the district's specified employment criteria for the position(s) and that the district has made reasonable efforts to recruit individuals who meet the qualifications specified in Items #1-2 above. The Declaration of Need shall also indicate the number and type of emergency permits and limited assigned permits that the

district estimates it will need during the valid period of the Declaration of Need, based on the previous year's actual needs and projections of enrollment. It shall also specify each subject to be listed on the General Education Limited Assignment Single Subject Teaching Permits and the target language on Emergency Bilingual Permits. Whenever the actual number of permits needed exceeds the estimate by 10 percent, the Board shall revise and resubmit the Declaration of Need. (5 CCR 80026)

Whenever it is necessary to employ non-credentialed teachers to fill a position requiring certification qualifications, the Superintendent or designee shall provide support and guidance in accordance with law to ensure the quality of the instructional program.

National Board for Professional Teaching Standards Certification

The Superintendent or designee shall promote a career continuum that includes participation of district teachers in professional learning that supports their completion of advanced certification awarded by the National Board for Professional Teaching Standards (NBPTS). The Superintendent or designee may coordinate a cohort of teachers through school or district programs or other available networks.

With Board approval and funding, and consistent with the collective bargaining agreement and applicable law, the Superintendent may provide an incentive program for teacher participation in NBPTS certification, which may include:

1. Defraying, subsidizing, or reimbursing the registration, certification, or maintenance fees for NBPTS certification

2. Providing bonuses, step increases, or differential pay for teachers who maintain their certification and continue to teach in the district, with priority given to teachers at Title I schools and schools serving a majority of low-income students

3. Providing substitute teachers to provide release time for participating teachers

4. Providing stipends for teacher participation that match other professional development stipends

5. Compensating mentor teachers who support other teachers' professional learning aligned to NBPTS standards

Parental Notifications

At the beginning of each school year, the Superintendent or designee shall notify the parents/guardians of each student attending a school receiving Title I funds that they may request information regarding the professional qualifications of their child's classroom teacher including, but not limited to, whether the teacher: (20 USC 6312)

1. Has met state qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction

2. Is teaching under emergency or other provisional status through which state qualification or licensing criteria have been waived

3. Is teaching in the field of discipline of the teacher's certification

In addition, the Superintendent or designee shall notify parents/guardians in a timely manner whenever their child has been assigned, or has been taught for four or more consecutive weeks by, a teacher who does not meet applicable state certification or licensure requirements at the grade level and subject area to which the teacher has been assigned. (20 USC 6312)

PROPOSED

Policy 5117: Interdistrict Attendance **Status:** ADOPTED

Original Adopted Date: 12/01/2015 |

The Governing Board recognizes that parents/guardians of students who reside within the geographic boundaries of one district may, for a variety of reasons, desire to enroll their children in a school in another district.

Interdistrict Attendance Agreements and Permits

The Board may enter into an agreement with any other school district, for a term not to exceed five school years, for the interdistrict attendance of students who are residents of the districts. (Education Code 46600)

The agreement shall specify the terms and conditions under which interdistrict attendance shall be permitted or denied. It also may contain standards agreed upon by both districts for reapplication and/or revocation of the student's permit. (Education Code 46600)

Upon receiving a permit for transfer into the district that has been approved by the student's district of residence, or upon receiving a written request from the parent/guardian of a district student who wishes to enroll in another district, the Superintendent or designee shall review the request and may approve or deny the permit subject to the terms and conditions of the interdistrict attendance agreement.

Instruction Collaboration Agreements

The Superintendent or designee may, with board approval, enter into an instruction collaboration agreement (ICA) with another school district, county office of education or charter school to offer the same or similar courses and coursework to students who have been impacted by any of the following: (Education Code 48345)

1. Disruptions or cancellations in science, technology, engineering, and mathematics (STEM) classes
2. Disruptions or cancellations in dual language immersion programs
3. Teacher shortages in STEM classes or dual language immersion programs

Prior to accepting students for classes for any of the reasons specified in Items #1-3 above, the Superintendent or designee shall, with Board Approval, determine the maximum number of students that the district can accept for these purposes. The district shall accept students who apply until the district is at maximum capacity.

Students shall be admitted to this program through an unbiased process that prohibits an inquiry into, or evaluation or consideration of, whether a student should be authorized to participate in the course or coursework based upon the student's current academic or athletic performance, proficiency in English, physical condition, any of the individual characteristics specified in Education Code 200, or family income. If

the number of applicants exceeds the number of seats available, the approval for participation shall be determined by a random public drawing at a regularly scheduled Board meeting. (Education Code 48345)

The Superintendent or designee shall publicly post information, including, but not limited to, applicable forms and timelines for submission pursuant to the ICA, to ensure that students and their families are aware of the opportunities to participate. (Education Code 48345)

When negotiating the ICA, the Superintendent or designee shall collaborate with the other participating LEA(s) to agree upon an appropriate shared cost structure. (Education Code 48345)

Transportation

Upon parent/guardian request, the district shall provide transportation assistance to a student receiving an interdistrict transfer who is eligible for free and reduced-price meals and is the child of an active duty military parent/guardian or a victim of bullying, as defined in Education Code 46600. (Education Code 46600)

The District shall not provide transportation outside any school attendance area. However, upon request of a student's parent/guardian, the Superintendent or designee may authorize transportation for any interdistrict transfer student to and from designated bus stops within the attendance area of the school that the student attends if space is available.

CURRENT

Policy 5117: Interdistrict Attendance

Status: ADOPTED

Original Adopted Date: 11/18/2010

The Governing Board recognizes that students who reside in one district may choose to attend school in another district and that such choices are made for a variety of reasons.

(cf. 0520.3 - Title I Program Improvement Districts)

(cf. 5111.12 - Residency Based on Parent/Guardian Employment)

(cf. 5116.1 - Intradistrict Open Enrollment)

School District of Choice Program

The Board has designated the district as a "school district of choice" and shall accept students who reside in other California districts but wish to attend a district school. Each year, the Superintendent or designee shall recommend to the Board the number of transfer students that the district will be able to accept and shall identify the schools, grade levels, and programs that will be able to accept these students.

Upon receiving the Superintendent's report, the Board shall annually determine the number of students who will be accepted for admittance into the district through this program. This number shall be reflected in the minutes of the Board's meeting.

(cf. 9324 - Minutes and Recordings)

The Superintendent or designee shall establish a selection process which ensures that students applying through the program are admitted to district schools through a random, unbiased process that prohibits evaluation of whether a student should be enrolled based upon his/her academic or athletic performance. If the number of student applications exceeds the number of transfers the Board has designated for acceptance under the program, the Superintendent or designee shall conduct a random drawing in public at a regularly scheduled Board meeting. (Education Code 48301)

Because the district admits students in accordance with the school district of choice program, the Superintendent or designee may admit a student based on an individual interdistrict attendance permit pursuant to Education Code 48300-48316 only in situations of extreme need and upon the request of the district of residence.

The Superintendent or designee shall maintain a record of requests for admittance under the program that contains all of the following: (Education Code 48313)

1. The number of requests granted, denied, or withdrawn and, for denied requests, the reason for the denial

2. The number of students transferred out of and transferred into the district pursuant to this program

3. The race, ethnicity, gender, self-reported socio-economic status, and the district of residence for each student in item #2 above

4. The number of students in item #2 above who are classified as English learners or students with disabilities

The Superintendent or designee shall report to the Board, at a regularly scheduled meeting, the information specified in items #1-4 above. By May 15 of each year, the Superintendent or designee shall provide the same information, as well as information regarding the district's status as a school district of choice in the upcoming school year, to each geographically adjacent school district, the county office of education, the California Department of Education, and the Department of Finance. (Education Code 48313)

The reports to the Board and other agencies shall also include a summary of audit exceptions, if any, resulting from the compliance review of components of the district of choice program conducted as part of the annual district audit. (Education Code 48301, 48313)

Transportation

The district shall not provide transportation outside any school attendance area. However, upon request, the Superintendent or designee may authorize transportation for students living outside an attendance area to and from designated bus stops within the attendance area if space is available. Priority for such transportation shall be based

on demonstrated financial need.

Limits on Student Transfers out of the District to a School District of Choice

The Superintendent or designee may limit the number of student transfers out of the district to a school district of choice based on the percentages of average daily attendance specified in Education Code 48307.

In addition, transfers out of the district may be limited during a fiscal year when the County Superintendent of Schools has given the district a negative budget certification or when the County Superintendent has determined that the district will not meet the state's standards and criteria for fiscal stability in the subsequent fiscal year exclusively as a result of student transfers from this district to a school district of choice. (Education Code 48307)

(cf. 3100 - Budget)

(cf. 3460 - Financial Reports and Accountability)

The district may deny a transfer of a student out of the district to a school district of choice if the Board determines that the transfer would negatively impact a court-ordered or voluntary desegregation plan of the district. (Education Code 48301)

Policy 5141.6: School Health Services

Status: ADOPTED

Original Adopted Date: 11/01/2008

The Governing Board recognizes that good physical and mental health is critical to a student's ability to learn and believes that all students should have access to comprehensive health services. The Board further recognizes that schools are uniquely positioned to increase health equity and to help ensure that all students have access to necessary health care services. The district may provide access to health services at or near district schools through the establishment of a school health center and/or mobile van(s) that serve multiple campuses, and may utilize telehealth as a delivery mechanism to increase access to health care services in schools.

The Board and the Superintendent or designee shall collaborate with local and state agencies and health care providers to assess the health needs of students in district schools and the community. Based on the results of this needs assessment and the availability of resources, the Superintendent or designee shall recommend for Board approval the types of health services to be provided by the district, including preventative programming and intervention strategies to address students' physical, mental, and behavioral health needs.

Board approval shall be required for any proposed use of district resources and facilities to support school health services. The Superintendent or designee shall identify funding opportunities available through grant programs, private foundations, and partnerships with local agencies and organizations.

The Board may prioritize school health services to schools serving students with the greatest need, including schools with medically underserved populations and/or a high percentage of low-income and uninsured children and youth.

The Board may employ or contract with health care professionals or partner with community health centers to provide the services under the terms of a written contract or memorandum of understanding.

The Superintendent or designee shall coordinate the provision of school health services with other student wellness initiatives, including health education, nutrition and physical fitness programs, and other activities designed to create a healthy school environment. The Superintendent or designee shall encourage joint planning and regular communications among health services staff, district administrators, teachers, counselors, other staff, and parents/guardians.

To further encourage student access to health care services, the Superintendent or designee shall develop and implement outreach strategies to increase enrollment of eligible students from low- to moderate-income families in affordable, comprehensive state or federal health coverage programs and local health initiatives. Such strategies may include, but are not limited to, providing information about the Medi-Cal program on the application for free and reduced-price meals in accordance with law.

Consent and Confidentiality

The Superintendent or designee shall obtain written parent/guardian consent prior to providing services to a student, except when the student is authorized to consent to the service pursuant to Family Code 6920-6930, Health and Safety Code 124260, or other applicable law.

Participants in the task force meetings may consider issues of mutual concern, which include: (Education Code 33391)

Policy 6174: Education For English Learners **Status:** ADOPTED

Original Adopted Date: 03/01/2017

The Governing Board intends to provide English learners with challenging curriculum and instruction that maximize the attainment of high levels of proficiency in English, advance multilingual capabilities, and facilitate student achievement in the district's regular course of study.

English learners shall be provided differentiated English language development instruction which is targeted to their English proficiency level. Such instruction shall be based on sound instructional theory, be aligned with state content standards, emphasize inquiry-based learning and critical thinking skills, and be integrated across all subject areas.

No middle or high school student who is an English learner shall be denied enrollment in any of the following: (Education Code 60811.8)

1. Courses in the core curriculum areas of reading/language arts, mathematics, science, and history-/social science, courses required to meet state and local high school graduation requirements, or courses required for middle school grade promotion

   However, an English learner who has been enrolled in a school in the United States for less than 12 months or is enrolled in a program designed to develop the basic English skills of newly arrived immigrant students may be denied participation in any such course, if the course of study provided to the student is designed to remedy academic deficits incurred during participation and reasonably calculated to enable the student to attain parity of participation in the standard instructional program within a reasonable length of time after the student enters the school system.

2. A full course load of courses specified in Item #1 above

3. Other courses that meet the "A-G" course requirements for college admission or are advanced courses such as honors or Advanced Placement courses, on the sole basis of the student's classification as an English learner

The district shall identify in its local control and accountability plan (LCAP) goals and specific actions and services to enhance student engagement, academic achievement, and other outcomes for English learners. The Superintendent or designee shall encourage parent/guardian and community involvement in the development and evaluation of programs for English learners. The Superintendent or designee may also provide an English development literacy training program for parents/guardians and community members so that they may better support students' English language development.

Staff Qualifications and Training

The Superintendent or designee shall ensure that all staff employed to teach English learners possess the appropriate authorization from the Commission on Teacher Credentialing.

The district shall provide effective professional development to teachers (including teachers in classroom settings that are not the settings of language instruction educational programs), administrators, and other school or community-based organization personnel to improve the instruction and assessment of English learners and enhance staff's ability to understand and use curricula, assessment, and instructional strategies for English learners. Such professional development shall be of sufficient intensity and duration to produce a positive and lasting impact on teachers' performance in the classroom. (20 USC 6825)

Staff development shall also address the sociocultural needs of English learners and provide opportunities for teachers to engage in supportive, collaborative learning communities.

Identification and Assessment

The Superintendent or designee shall maintain procedures for the early identification of English learners and an assessment of their proficiency using the ~~state's~~ English Language Proficiency Assessments for California (ELPAC). To oversee test administration, the Superintendent or designee shall annually designate a district ELPAC coordinator and a site coordinator for each test site in accordance with 5 CCR 11518.40-11518.45.

Once identified as an English learner, a student shall be annually assessed for language proficiency until the student is reclassified based on criteria specified in the accompanying administrative regulation.

In addition, English learners' academic achievement in English language arts, mathematics, science, and any additional subject required by law shall be assessed using the California Assessment of Student Performance and Progress. As necessary, the test shall be administered with testing variations in accordance with 5 CCR 853. English learners who are in their first 12 months of attending a school in the United States shall be exempted from taking the English language arts assessment to the extent allowed by federal law. (Education Code 60603, 60640; 5 CCR 853)

Formative assessments may be utilized to analyze student performance and appropriately adapt teaching methodologies and instructions.

Language Acquisition Programs

The district shall offer research-based language acquisition programs that are designed to ensure English acquisition as rapidly and as effectively as possible and that provide instruction to students on the state-adopted academic content standards, including the English language development standards. (Education Code 306; 5 CCR 11300)

At a minimum, the district shall offer a structured English immersion program which includes designated and integrated English language development. In the structured English immersion program, nearly all of the classroom instruction shall be provided in English, but with the curriculum and presentation designed for students who are learning English. (Education Code 305-306; 5 CCR 11309)

For the purpose of determining the amount of instruction to be conducted in English in the structured English immersion program, "nearly all" means that all classroom instruction shall be conducted in English except for clarification, explanation, and support as needed.

In addition, language acquisition programs offered by the district may include, but are not limited to, the following: (Education Code 305-306)

1. A dual-language immersion program that provides integrated language learning and academic instruction for native speakers of English and native speakers of another language, with the goals of high academic achievement, first and second language proficiency, and cross-cultural understanding

2. A transitional or developmental program for English learners that provides literacy and academic instruction in English and a student's native language and that enables an English learner to achieve English proficiency and academic mastery of subject matter content and higher order thinking skills, including critical thinking, in order to meet state academic content standards

The district's language acquisition programs for grades K-3 shall comply with class size requirements specified in Education Code 42238.02. (Education Code 310)

In establishing the district's language acquisition programs, the Superintendent or designee shall consult with parents/guardians and the community during the LCAP development process. The Superintendent or designee shall also consult with administrators, teachers, and other personnel with appropriate authorizations and experience in establishing a language acquisition program. (Education Code 305)

At the beginning of each school year or upon a student's enrollment, parents/guardians shall be provided information on the types of language acquisition programs available to students enrolled in the district, including, but not limited to, a description of each program, the process to be followed in making a program selection, identification of any language to be taught in addition to English when the program includes instruction in another language, and the process to request establishment of a language acquisition program. (Education Code 310; 5 CCR 11310)

Whenever a student is identified as an English learner based on the results of the ELPAC, the student's parents/guardians may choose a language acquisition program that best suits their child. To the extent possible, any language acquisition program requested by the parents/guardians of 30 or more students at the school or by the parents/guardians of 20 or more students at any grade level shall be offered by the school. (Education Code 310; 5 CCR 11311)

Until July 1, 2029, the Superintendent or designee may, with Board approval, and as specified in BP 5117 – Interdistrict Attendance, enter into an instruction collaboration agreement (ICA) with another school district, county office of education, or charter school to offer the same or similar courses and coursework to students who have been impacted by teacher shortages, disruptions, or cancellations, or teacher shortages to dual language immersion programs. (Education Code 48345)

Placement of English Learners

Students who are English learners shall be educated through "structured English immersion" (also known as "sheltered English immersion"), as defined in law and the accompanying administrative regulation, for a temporary transition period not normally intended to exceed one year. Nearly all of the classroom instruction in the district's structured English immersion program shall be in English, but with the curriculum and presentation designed for students who are learning the language. (Education Code 305-306)

"Nearly all," for the purpose of determining the amount of instruction to be conducted in English, means that all classroom instruction shall be conducted in English except for clarification, explanation, and support as needed.

When an English learner has acquired a reasonable level of English proficiency as measured by any of the state-designated assessments approved by the California Department of Education, any district assessments, and/or other criteria adopted by the Board, he/she shall be transferred from a structured English immersion classroom to an English language mainstream classroom in which the instruction is overwhelmingly in English. (Education Code 305-306; 5 CCR 11301)

(cf. 6162.5 - Student Assessment)

An English learner has acquired a "reasonable level of English proficiency" when he/she has achieved the following:

An English learner has acquired a "reasonable level of English proficiency" when he/she has achieved an identified English Learner level of Early Advanced (4) or Advanced (5) on the English Language Development Test (CELDT) or any locally developed assessments and using other criteria developed by South San Francisco Unified School District.

At any time during the school year, the parent/guardian of an English learner may have his/her child moved into an English language mainstream program. (5 CCR 11301)

Parental Exception Waivers

When allowed by law, the parent/guardian of an English learner may submit a request that his/her child be exempted from placement in a structured English immersion program and instead be placed in a class where he/she is taught English and other subjects through bilingual education techniques or other generally recognized educational methodologies permitted by law. (Education Code 310-311)

Each waiver request shall be considered on its individual merits with deference given to the parent/guardian's preference for student placement.

A waiver request shall be granted in accordance with law unless the principal and educational staff have determined that an alternative program would not be better suited to the student's overall educational development. (5 CCR 11309)

If the Superintendent or designee denies the waiver request, he/she shall provide a written justification to the parent/guardian describing the reasons for the denial. A parent/guardian may appeal the decision in writing to the Board. The Board may consider the matter at its next regular Board meeting. The Board may decide not to hear the appeal, in which case the Superintendent's decision shall be final. If the Board hears the appeal, the Superintendent shall send the Board's decision to the parent/guardian within seven working days.

Program Evaluation

To evaluate the effectiveness of the district's educational program for English learners, the Superintendent or designee shall report to the Board, at least annually, regarding:

1. Progress of English learners towards proficiency in English

2. The number and percentage of English learners reclassified as fluent English proficient

3. The number and percentage of English learners who are or are at risk of being classified as long-term English learners in accordance with Education Code 313.1

4. The achievement of English learners on standards-based tests in core curricular areas

5. Progress toward any other goals for English learners identified in the district's LCAP

6. A comparison of current data with data from at least the previous year.

The Superintendent or designee also shall provide the Board with regular reports from any district or schoolwide English learner advisory committees.

Bylaw 9322: Agenda/Meeting Materials **Status:** ADOPTED

Original Adopted Date: 03/01/2008

Agenda Content

Governing Board meeting agendas shall reflect the district's vision and goals and the Board's focus on student learning and well-being.

Each agenda shall state the meeting time and location and shall briefly describe each item to be transacted or discussed, including items to be discussed in closed session. (Government Code 54954.2)

The agenda shall provide members of the public the opportunity to address the Board on any agenda item before or during the Board's consideration of the item. The agenda for a regular meeting shall also provide members of the public an opportunity to address the Board regarding matters within the subject matter jurisdiction of the Board which are not on the agenda. (Education Code 35145.5; Government Code 54954.3)

The agenda does not need to provide an opportunity for public comment on an item that has previously been considered at an open meeting by a committee comprised exclusively of Board members, provided that members of the public were afforded an opportunity to comment on the item, before or during the committee's consideration of the item, and the item has not been substantially changed since the committee considered it.

(Government Code 54954.3)

The notice and agenda shall describe the means available for the public to access the meeting and provide public comment in-person and, if a Board member is appearing remotely due to an emergency circumstance or for just cause pursuant to Government Code 54953, through an internet-based service or call-in option. (Government Code 54953)

The agenda shall include information regarding how, when, and to whom a request for disabilityrelated accommodations or modifications, including auxiliary aids and services, may be made by an individual who requires accommodations or modifications in order to participate in the Board meeting, as well as the procedure for receiving and resolving such requests as required by law. (Government Code 54954.2, 54953)

Each agenda for a regular meeting shall list the address designated by the Superintendent or designee for public inspection of documents related to an open session item, or for records of a statement threatening litigation against the district to be discussed in closed session, when such documents have been distributed to the Board less than 72 hours before the meeting.

(Government Code 54956.9, 54957.5)

Each agenda shall include a statement regarding the option for students and parents/guardians to request that directory information or personal information of the student or parent/guardian, as defined in Education Code 49061 and/or 49073.2, be excluded from the minutes. The agenda shall also state that the request must be made in writing to the secretary or clerk of the Board.

Agenda Preparation

The Board president and the Superintendent, as secretary to the Board, shall work together to develop the agenda for each regular and special meeting.

Any Board member or member of the public may request that a matter within the jurisdiction of the Board be placed on the agenda of a regular meeting. The request shall be submitted in writing to the Superintendent or designee with supporting documents and information.

The Board president and Superintendent shall decide whether a request from a member of the public is within the subject matter jurisdiction of the Board. Items not within the subject matter jurisdiction of the Board may not be placed on the agenda. In addition, before placing the item on the agenda, the Board president and Superintendent shall determine if the item is merely a request for information, and if so, respond accordingly.

If the Board president and Superintendent deny a request from a Board member to place an item on the agenda, the Board member may request the Board take action during a Board meeting to determine whether the item shall be placed on the agenda.

The Board president and Superintendent shall also decide whether an agenda item is appropriate for discussion in open or closed session, whether the item should be an action item subject to Board vote or an information item, and when the item is placed on the agenda.

In order to promote efficient meetings, the Board may bundle a number of items and act upon them together by a single vote through the use of a consent agenda. Consent items shall be items of a routine nature and items for which Board discussion is not anticipated and for which the Superintendent recommends approval. When any Board member requests the removal of an item from the consent agenda, the item shall be removed and given individual consideration for action as a separate agenda item.

The agenda shall provide an opportunity for members of the public to comment on any consent agenda item unless such item has been previously considered at an open meeting of a committee comprised exclusively of Board members. (Government Code 54954.3)

Any Board action that involves borrowing $100,000 or more shall be discussed, considered, and deliberated upon as a separate item of business on the meeting agenda. (Government Code 53635.7)

All public communications with the Board are subject to requirements of relevant Board policies and administrative regulations.

Agenda Dissemination to Board Members

At least 72 hours before each regular meeting, each Board member shall be provided a copy of the agenda and agenda packet, including the Superintendent or designee's report; minutes to be approved; copies of communications; reports from committees, staff, and others; and other available supporting documents pertinent to the meeting.

When special meetings are called, Board members shall receive, at least 24 hours prior to the meeting, notice of the business to be transacted. (Government Code 54956)

Board members shall review agenda materials before each meeting. Individual members may confer directly with the Superintendent or designee to ask questions and/or request additional information on agenda items. However, a majority of Board members shall not, outside of a noticed meeting, directly or through intermediaries or electronic means discuss, deliberate, or take action on any matter within the subject matter jurisdiction of the Board.

Agenda Dissemination to Members of the Public

Agenda and related materials distributed to the Board shall be made available to the public upon request without delay. However, only those documents which are disclosable public records under the Public Records Act (PRA) and which relate to an agenda item scheduled for the open session portion of a regular meeting or which contain a claim or written threat of litigation which will be discussed in closed session shall be made available to the public. (Government Code 54956.9, 54957.5)

At least 72 hours prior to a regular meeting, the agenda shall be posted at one or more locations freely accessible to members of the public. (Government Code 54954.2)

In addition, the Superintendent or designee shall post the agenda on the homepage of the district website. The posted agenda shall be accessible through a prominent direct link to the current agenda or to the district's agenda management platform in accordance with Government Code 54954.2. When the district utilizes an integrated agenda management platform, the link to that platform shall take the user directly to the website with the district's agendas, and the current agenda shall be the first available. (Government Code 54954.2)

If a writing which relates to an open session agenda item or which contains a claim or written threat of litigation which will be discussed in closed session during a regular Board meeting is distributed to the Board less than 72 hours prior to a meeting, the Superintendent or designee shall make the writing available for public inspection at a designated location at the same time the document is distributed to all or a majority of the Board.

However, if the writing is distributed to at least a majority of the Board at a time when the designated location is closed to the public, this requirement may be satisfied by posting the writing on the district website if the following conditions are met: (Government Code 54957.5)

1. An initial staff report or similar document containing an executive summary and any staff recommendations related to the agenda item is made available for public inspection at the designated location at least 72 hours before the meeting

2. The writing is immediately posted on the district's website in a position and manner that makes it clear that the writing relates to an agenda item for the upcoming meeting

3. The district lists the website address where such writings may be accessed on all Board meeting agendas

4. A physical copy of the document is made available for public inspection at the designated location at the beginning of the next regular business hours, but not less than 24 hours before the relevant Board meeting

The Superintendent or designee shall mail a copy of the agenda or a copy of all the documents constituting the agenda packet to any person who requests the items. The materials shall be mailed at the time the agenda is posted or upon distribution of the agenda to a majority of the Board, whichever occurs first. (Government Code 54954.1)

The Superintendent or designee shall email a copy of, or a website link to, the agenda or a copy of all the documents constituting the agenda packet to any person who requests such items to be delivered by email. If the Superintendent or designee determines that it is technologically infeasible to do so, a copy of the agenda or a website link to the agenda and a copy of all other documents constituting the agenda packet shall be sent to the person who has made the request in accordance with mailing requirements specified in law. (Government Code 54954.1)

Any request for mailed copies of agendas or agenda packets shall be in writing and shall be valid for the calendar year in which it is filed. Written requests must be renewed following January 1 of each year. (Government Code 54954.1)

Persons requesting mailing of the agenda or agenda packet shall pay an annual fee, as determined by the Superintendent or designee, not to exceed the cost of providing the service.

Any document prepared by the district or Board and distributed during a public meeting shall be made available for public inspection at the meeting. Any document prepared by another person shall be made available for public inspection after the meeting. These requirements shall not apply to a document that is exempt from public disclosure under the PRA. (Government Code 54957.5)

Upon request, the Superintendent or designee shall make the agenda, agenda packet, and/or any writings distributed at the meeting available in appropriate alternative formats to persons with a disability, as required by the Americans with Disabilities Act. (Government Code 54954.1)

The Governing Board has a responsibility to actively advocate fiscal and public policy that supports the district's schools and the children in the community. The Board shall be proactive in defining the district's advocacy agenda based on the district's vision and goals and the needs of the district and community. The Board's advocacy efforts shall be conducted in accordance with legal requirements.

Ballot Measures/Candidates

No district funds, services, supplies, or equipment shall be used to urge the support or defeat of any ballot measure or candidate, including any candidate for election to the Board. (Education Code 7054)

The Board may discuss and study the potential effect of proposed or qualified ballot measures on the district's schools at an open and agendized Board meeting. The Board's discussion of the effect of such measures shall include an opportunity for staff and members of the public to speak on all sides of the issue. At that meeting, the Board may adopt a position or resolution in support of or in opposition to a ballot measure. The language in any resolution adopted by the Board shall not urge the public to take any action regarding the measure.

The Board's position on a ballot measure, including any resolution, shall be publicized only through normal district procedures and consistent with regular district practice for reporting Board actions. Such publicity shall be for informational purposes and shall not attempt to influence voters.

Individual School Board members may include their name in support of or opposition to a county, city, district, or school measure on a county ballot in accordance with Elections Code 9170.

The Superintendent or designee may use district resources to provide students, parents/guardians, and community members with fair and impartial information related to ballot measures, including information about the impact of ballot measures on the district. (Education Code 7054)

In preparing or distributing such informational material, the Superintendent or designee shall analyze the material to help ensure that it is an appropriate informational activity, provides a fair analysis of the issues, and does not advocate passage or defeat of a measure or candidate.

District resources, including email or computer systems, shall not be used to disseminate campaign literature. In addition, district resources shall not be used to purchase advertisements, bumper stickers, posters, or similar promotional items that advocate an election result or urge voters to take any action in support of or in opposition to a measure.

Political activity related to district bond measures shall, in addition to the above, be subject to the following conditions:

1. The Superintendent or designee may research, draft, and prepare a district bond measure or other initiative for the ballot, but shall not use district resources to influence voters or otherwise campaign for the measure.

2. Upon request, Board members and district administrators may appear at any time before a citizens' group to explain why the Board called for an election on a bond measure and to answer questions. (Education Code 7054.1)

   If the presentation occurs during working hours, the employee representing the district shall not urge a citizens' group to vote for or against the bond measure.

3. The Board or any individual Board member may file a written argument for the ballot that is either for or against any school measure. (Elections Code 9501)

The Board and Superintendent or designee shall work to establish and maintain ongoing relationships with elected officials, community leaders, and the media in order to communicate district positions and concerns.

The Board and Superintendent shall develop an advocacy action plan to define expectations and responsibilities. This plan may include, but is not limited to, legislative priorities, strategies for outreach to the media and community, development of key messages and talking points, and adoption of positions on specific legislation, regulations, or budget proposals.

In order to strengthen legislative advocacy efforts, the district may work with organizations and coalitions and may join associations whose representatives lobby on behalf of their members in accordance with Government Code 53060.5.

The district may provide fair and impartial information about legislative issues affecting schools and children and shall inform the community about its advocacy activities. However, informational materials about legislation shall not urge the public to lobby the legislature, Governor, or state agencies on behalf of the district.

As necessary, the Board may direct the Superintendent or designee to draft legislative or regulatory proposals which serve the district's interests.

Legal Advocacy

The Board recognizes that some issues are more appropriately addressed judicially rather than legislatively. When a legal issue is likely to set a state or national precedent, the district may join with other districts or parties in order to resolve the issue through litigation or other appropriate means.

Political Forums

Forums on political issues may be held in district facilities as long as the forum is made available to all sides of the issue on an equitable basis. (Education Code 7058)

Therefore, the Board authorizes the use of school facilities by district residents and community groups for purposes specified in the Civic Center Act, to the extent that such use does not interfere with school activities or other school-related uses.

Policy 4151: Employee Compensation

Status: ADOPTED

Original Adopted Date: 02/01/1997 |

In order to recruit and retain employees committed to the district's goals for student learning, the Governing Board recognizes the importance of offering a competitive compensation package which includes salaries and health and welfare benefits.

The Board shall adopt separate salary schedules for certificated, classified, and supervisory and administrative personnel. These schedules shall comply with law and collective bargaining agreements and shall be printed and made available for review at the district office. (Education Code 45022, 45023, 45160, 45162, 45268)

Each certificated employee, except an employee in an administrative or supervisory position, shall be classified on the salary schedule on the basis of uniform allowance for education level and years of experience, unless the Board and employee organization negotiate and mutually agree to a salary schedule based on different criteria. Certificated employees shall not be placed in different classifications on the schedule, nor paid different salaries, solely on the basis of the grade levels at which they teach. (Education Code 45028)

Salary schedules for staff who are not a part of a bargaining unit shall be determined by the Board at the recommendation of the Superintendent or designee.

The Board shall determine the frequency and schedule of salary payments, including whether payments for employees who work less than 12 months per year will be made over the course of the school year or in equal installments over the calendar year. However, if the district participates in the Classified School Employee Summer Assistance Program, eligible classified employees may elect to have up to 10 percent of the employee's monthly salary withheld and paid out during the summer recess in either one or two payments. (Education Code 45038, 45039, 45048, 45165, 45500)

In extraordinary circumstances or emergency situations, the Board may determine to continue to compensate employees during periods of extended closure or disruption of normal district operations when permitted by law and consistent with collective bargaining agreements and memoranda of understanding.

The Superintendent or designee shall post a notice explaining the Fair Labor Standards Act's wage and hour provisions in a conspicuous place at each work site. (29 CFR 516.4)

Overtime Compensation

District employees shall be paid an overtime rate of not less than one and one-half times their regular rate of pay for any hours worked in excess of eight hours in one day and/or 40 hours in one work week, or twice their regular rate of pay for any hours worked in excess of 12 hours in one day or eight hours on the seventh consecutive day of work. However, teachers, school administrators, and other employees in positions established by the Board as executive, administrative, or professional shall be exempt from overtime rules. (Education Code 45128, 45130; 29 USC 213; 29 CFR 541.0-541.710, 553.27, 553.32)

When authorized in a collective bargaining agreement or other agreement between the district and employees, an employee may take compensatory time off in lieu of overtime compensation, provided the employee has not accrued compensatory time in excess of the limits specified in 29 USC 207. An employee who has requested the use of compensatory time shall be allowed to use such time within 12 calendar months after making the request if the use of the compensatory time does not unduly disrupt district operations. (Education Code 45129; 29 USC 207; 29 CFR 553.20553.25)

For each nonexempt employee, the Superintendent or designee shall maintain records on the employee's wages, hours, and other information specified in 29 CFR 516.5-516.6.

Wage Overpayment

If the district determines an employee has been overpaid, the district shall notify the employee in writing of the overpayment, afford the employee an opportunity to respond before commencing any recoupment actions, and inform the employee of the employee's rights to dispute the existence or amount of the claimed overpayment. If the employee agrees there was an overpayment in the claimed amount, reimbursement shall be made to the district through one of the methods described in Education Code 44042.5 as mutually agreed upon by the employee and the district. (Education Code 44042.5)

If a mutual agreement on a method of reimbursement is not reached, within 30 days of the employee verifying the overpayment amount, the district shall recoup the overpayment through payroll deductions in accordance with Education Code 44042.5.

If the employee does not respond or disputes the existence or amount of the district's claimed overpayment, the district shall, with board approval, initiate a legal action to recover the overpayment. (Education Code 44042.5)

If the employee separates from the district before the overpayment is fully repaid, the district shall withhold the remaining balance due from any money owed to the employee upon separation, provided that the state minimum wage is still paid to the employee as required by Education Code 44042.5. The Superintendent or designee may consult with legal counsel to calculate the amount to withhold.

If an outstanding overpayment balance still remains, the district shall, with Board approval, exercise any legal means to recover the remaining amount owed by the employee. (Education Code 44042.5)

Legal action to recover any overpayment under this policy shall be initiated within three years from the date of the overpayment, which for leave credits is the date that the employee receives compensation in exchange for leave erroneously credited to the employee. (Education Code 44042.5)

Policy 5131.9: Academic Honesty

Status: ADOPTED

Original Adopted Date: 06/01/1987

The Governing Board believes that academic honesty and personal integrity are fundamental components of a student's education and character development. The Board expects that students will not cheat, lie, plagiarize, or commit other acts of academic dishonesty.

Students, parents/guardians, staff, and administrators shall be responsible for creating and maintaining a positive school climate that encourages honesty. Students found to have committed an act of academic dishonesty shall be subject to district and school-site discipline rules.

The Superintendent or designee may establish a committee comprised of students, parents/guardians, staff, administrators, and members of the public to develop standards of academic honesty, measures of preventing dishonesty, and specific consequences for acts of dishonesty. Any recommendations for discipline shall be incorporated into the school's site level discipline rules.

Prohibited and Permitted Technology Use

As the district's standards for academic achievement are designed to challenge all students to reach their full potential in acquiring the knowledge and skills needed for success in postsecondary education, employment, and responsible citizenship, any use of technology that prevents or inhibits a student from achieving these standards is prohibited. Prohibited uses include, but are not limited to, using technology primarily or solely for the completion of coursework as a student's original work and generating answers to mathematical, scientific, or analytical problems.

Permitted uses of technology include, but are not limited to, conducting research, correcting grammar and spelling, and learning from educational applications such as tutoring systems and language learning applications.

Additionally, consistent with the limitations expressed in this policy and with teacher consent, students may also use technology to assist with assessments, homework, and/or makeup work or other uses approved by the teacher.

However, a student with a disability shall be permitted to use technology for any purpose identified in the student's individualized education program as a tool to support the student's learning. If an employee suspects that a student has used technology in violation of this policy, the student shall be given the opportunity to demonstrate that the use of technology was in accordance with this policy.

Any information acquired from an employee's use of technology in determining whether a student has committed an act of academic dishonesty shall be shared with the student, and the student's parent/guardian as appropriate.

The Superintendent or designee may provide training to staff regarding the use of technology to improve education, including the detection of plagiarism and sensitivity to potential discrimination from algorithmic bias.

PROPOSED

Policy 6154: Homework/MakeupWork

Status: ADOPTED

Original Adopted Date: 02/01/1997

The Governing Board recognizes that meaningful homework assignments can be a valuable extension of student learning time, provide enrichment, and assist students in developing good study habits. Homework and/or makeup work shall be assigned when necessary to support classroom lessons, enable students to complete unfinished assignments, or review and apply academic content for better understanding.

Students may use technology to assist with homework and/or makeup work in conducting research, correcting grammar and spelling, and learning from educational applications such as tutoring systems and language learning applications, as specified in Board Policy 5131.9 – Academic Honesty and Board Policy 6163.4 – Student Use of Technology.

The Superintendent or designee shall collaborate with school administrators and teachers to develop and regularly review guidelines for the assignment of homework and the related responsibilities of students, staff, and parents/guardians.

Homework assignments shall be reasonable in length and appropriate to the grade level and course. The Board expects that the number, frequency, and degree of difficulty of homework assignments will increase with the grade level and the maturity of students. Teachers shall assign homework only as necessary to fulfill academic goals and reinforce current instruction.

As needed, teachers may receive training in designing relevant homework assignments that reinforce classroom learning objectives and inspire students' interests.

Age-appropriate instruction may be given to help students allocate their time wisely, meet their deadlines, learn to work independently, and develop good personal study habits.

At the beginning of the school year, teachers shall communicate homework expectations to students and their parents/guardians. Homework guidelines shall also be included in student and/or parent/guardian handbooks. These communications shall include the manner in which homework relates to achievement of academic standards and course content, the impact of homework assignments on students' grades, any school resources and programs that are available to provide homework support, and ways in which parents/guardians may appropriately assist their children.

Although it is the student's responsibility to undertake assignments independently, parents/guardians may serve as a resource and are encouraged to ensure that their child's homework assignments are completed. Students may also work with other students and use approved outside resources as directed by the teacher.

To further support students' homework efforts, the Superintendent or designee may establish and maintain electronic forums, provide access to school library media centers and technological resources, and/or provide before-school and after-school programs where students can receive homework assistance from teachers, volunteers, and/or student tutors. The Board encourages the Superintendent or designee to design class and transportation schedules that will enable students to make use of homework support services.

Teachers shall review all completed homework to assess the student's understanding of academic content and shall provide timely feedback to the student.

If a student repeatedly fails to complete homework, the teacher shall notify the student's parents/guardians as soon as possible so that corrective action can be taken prior to the release of any final grades or report cards.

Makeup Work

Students who are absent from school shall be given the opportunity to complete all assignments and tests that can be reasonably provided. As determined by the teacher, the assignments and tests shall be equivalent to, but not necessarily identical to, the assignments and tests missed during the absence. Students shall receive full credit for work satisfactorily completed within a reasonable period of time.

The Superintendent or designee shall notify parents/guardians that no student may have a grade reduced or lose academic credit for any excused absence when missed assignments and tests are satisfactorily completed within a reasonable period of time. Such notification shall include the full text of Education Code 48205. (Education Code 48980)

Suspended Students

When a parent/guardian of a student who has been suspended for two or more school days requests homework that the student would otherwise have been assigned, the student's teacher shall provide such homework. If a homework assignment is requested and is turned in to the teacher by the student either upon the student's return from suspension or within the timeframe originally prescribed by the teacher, whichever is later, and is not graded before the end of the academic term, the homework assignment shall not be included in the calculation of the student's overall grade in the class. (Education Code 48913.5)

The teacher of any class from which a student is suspended may require the student to complete any assignments and tests missed during the suspension. (Education Code 48913)

Policy 6162.5: Student Assessment

Status: ADOPTED

Original Adopted Date: 07/01/2010

The Governing Board recognizes that student assessments are an important instructional and accountability tool. To obtain the most accurate evaluation of student performance, the district shall use a variety of measures, including district, state, and/or national assessments.

Any student use of technology to complete assessments shall be as specified in Board Policy 5131.9 – Academic Honesty and Board Policy 6163.4 – Student Use of Technology.

Assessment data shall be used to help determine individual students' progress, mastery of academic standards, appropriate placement in district programs, and/or eligibility for graduation. In addition, summary data on student assessment results shall be used by the district to identify and review student achievement goals in the district's local control and accountability plan, evaluate district educational programs in order to identify needed improvements, and, as appropriate, evaluate staff performance.

In selecting or developing any district assessment, the Superintendent or designee shall examine evidence of its reliability, its validity for the intended purpose and for various student populations, and the extent to which it aligns with the material that is being taught.

The Superintendent or designee shall ensure that assessments are administered in accordance with law and test publisher's directions, and that test administration procedures are fair and equitable for all students.

As appropriate, assessment results shall be disaggregated by student subgroup, classroom, grade level, and/or school site to allow for critical analysis of student needs.

The Superintendent or designee shall provide professional development as needed to assist administrators and teachers in interpreting and using assessment data to improve student performance and the instructional program.

When districtwide and school-level results of student assessments are published by the state, the Superintendent or designee may provide supplementary information to assist parents/guardians and the community in understanding test results.

Interim and Formative Assessments

State interim and formative assessments may be used in combination with other sources of information to gain timely feedback about student progress in an effort to continually adjust instruction to improve learning~~.~~, and for communicating with students' parents/guardians and identifying professional development goals. Results from interim and formative assessments shall not be used for any high-stakes purpose, including, but not limited to, teacher or other school staff evaluation, accountability, student grade promotion or retention, graduation, course or class placement, identification for gifted or talented education, reclassification of English learners, or identification as an individual with exceptional needs. (Education Code 60642.6, 60642.7)

The Superintendent or designee shall ensure that teachers who administer interim and formative assessments have access to all functions and information designed for teacher use related to such assessments and student performance on the assessments. (Education Code 60642.6)

Individual Record of Accomplishment

The Superintendent or designee shall ensure that each student, by the end of grade 12, has an individual record of accomplishment that includes the following: (Education Code 60607)

1. The results of the state achievement tests required and administered as part of the California Assessment of Student Performance and Progress, or any predecessor assessments, pursuant to Education Code 60640-60649

2. The results of any end-of-course examinations taken

3. The results of any vocational education certification examinations taken

No individual record of accomplishment shall be released to any person, other than the student's parent/guardian or a teacher, counselor, or administrator directly involved with the student, without the written consent of the student's parent/guardian, or the student if the student is an adult or emancipated minor. The student or the student's parent/guardian may authorize the release of the record of accomplishment to a postsecondary educational institution for the purposes of credit, placement, or admission. Furthermore, the results of an individual student on the CAASPP may be released to a postsecondary educational institution for the purpose of credit, placement, or admission. (Education Code 60607)

Policy 1312.2: Complaints Concerning Instructional Materials

Original Adopted Date: 09/01/1988

The Governing Board uses a comprehensive process to adopt district instructional materials that is based on selection criteria established by law and Board policy and includes opportunities for the involvement of district staff, parents/guardians, and community members, and, as appropriate, students. Complaints concerning the content or use of instructional materials, including textbooks, supplementary instructional materials, library materials, or other instructional materials and equipment, shall be properly and fairly considered using established complaint procedures.

Parents/guardians are encouraged to discuss any concerns regarding instructional materials with their child's teacher and/or the school principal. If the situation remains unresolved, a complaint may be filed using the process specified in the accompanying administrative regulation and exhibit.

The district shall accept complaints concerning instructional materials only from staff, district residents, or the parents/guardians of children enrolled in a district school. (Education Code 35160)

However, a complaint related to the use or prohibited use of any existing textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library that alleges unlawful discrimination based on a violation of Education Code 243 shall be filed, investigated, and resolved in accordance with Board Policy 1312.3 - Uniform Complaint Procedures.

When deliberating upon challenged materials, the Superintendent, or any designee or committee established by the Superintendent to review the materials, shall consider the degree to which the materials aligned with the criteria for instructional materials as specified in law, Board policy, and administrative regulation. In addition, such deliberations may consider the educational philosophy and vision of the district; the educational suitability of the materials including the manner in which the materials support the curriculum and appropriateness for the student's age; the professional opinions of teachers of the subject and of other competent authorities and/or experts; reviews of the materials by reputable bodies; the stated objectives in using the materials; community standards; the allegations in the complaint, including the extent to which the objections are based on the dislike of ideas contained in the materials; and the impact that keeping or removing the materials would have on student well-being.

The Superintendent, or any designee or committee established by the Superintendent to review the materials, shall not prohibit the continued use of an appropriately adopted textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library on the basis that it contains inclusive and/or diverse perspectives, as specified in Education Code 243.

If the complainant finds the Superintendent's or review committee's decision unsatisfactory, the complainant may appeal the decision to the Board.

Any challenged instructional material that is reviewed by the district shall not be subject to further reconsideration for 12 months, unless required by law.

Complaints related to the sufficiency of textbooks or instructional materials shall be resolved as specified in Administrative Regulation 1312.4 - Williams Uniform Complaint Procedures.

Policy 1312.3: Uniform Complaint Procedures

Original Adopted Date: 05/01/2017

The Governing Board recognizes that the district has the primary responsibility to ensure compliance with applicable state and federal laws and regulations governing educational programs. 10. Discrimination, harassment, intimidation, or bullying in district programs and activities, including in those programs or activities funded directly by or that receive or benefit from any state financial assistance, based on a person's actual or perceived characteristics of race or ethnicity, color, ancestry, nationality, national origin, immigration status, ethnic group identification, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or any other characteristic identified in Education Code 200 or 220, Government Code 11135, or Penal Code 422.55, or based on the person's association with a person or group with one or more of these actual or perceived characteristics (5 CCR 4610)

    Discrimination includes, but is not limited to, the Board's refusal to approve the use or prohibit the use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library, on the basis that it includes a study of the role and contributions of any individual or group consistent with the requirements of Education Code 51204.5 and 60040, unless such study would violate Education

11. 21. State preschool programs (Education Code 8207-8225)

22. State preschool health and safety issues in license-exempt programs (Education Code 8212)

23. Any complaint alleging retaliation against a complainant or other participant in the complaint process or anyone who has acted to uncover or report a violation subject to this policy

24. Any other state or federal educational program the SPI or designee deems appropriate

The Board recognizes that alternative dispute resolution (ADR) can, depending on the nature of the allegations, offer a process for resolving a complaint in a manner that is acceptable to all parties. An ADR process such as mediation may be offered to resolve complaints that involve more than one student and no adult. However, mediation shall not be offered or used to resolve any complaint involving sexual assault or where there is a reasonable risk that a party to the mediation would feel compelled to participate. The Superintendent or designee shall ensure that the use of ADR is consistent with state and federal laws and regulations.

The district shall protect all complainants from retaliation. In investigating complaints, the confidentiality of the parties involved shall be protected as required by law. For any complaint alleging retaliation or unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), the Superintendent or designee shall keep the identity of the complainant, and/or the subject of the complaint if different from the complainant, confidential when appropriate and as long as the integrity of the complaint process is maintained.

When an allegation that is not subject to UCP is included in a UCP complaint, the district shall refer the non-UCP allegation to the appropriate staff or agency and shall investigate and, if appropriate, resolve the UCP-related allegation(s) through the district's UCP.

The Superintendent or designee shall provide training to district staff to ensure awareness and knowledge of current law and requirements related to UCP, including the steps and timelines specified in this policy and the accompanying administrative regulation.

The Superintendent or designee shall maintain a record of each complaint and subsequent related actions, including steps taken during the investigation and all information required for compliance with 5 CCR 4631 and 4633.

Non-UCP Complaints

The following complaints shall not be subject to the district's UCP but shall be investigated and resolved by the specified agency or through an alternative process:

1. Any complaint alleging child abuse or neglect shall be referred to the County Department of Social Services
   Protective Services Division or the appropriate law enforcement agency. (5 CCR 4611)

2. Any complaint alleging health and safety violations by a child development program shall, for licensed facilities, be referred to Department of Social Services. (5 CCR 4611)

The Superintendent or designee shall ensure that the use of ADR is consistent with state and federal laws and regulations.

The district shall protect all complainants from retaliation. In investigating complaints, the confidentiality of the parties involved shall be protected as required by law. For any complaint alleging retaliation or unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), the Superintendent or designee shall keep the identity of the complainant, and/or the subject of the complaint if different from the complainant, confidential when appropriate and as long as the integrity of the complaint process is maintained.

Policy 5145.3: Nondiscrimination/Harassment

Original Adopted Date: 10/01/2014

This policy shall apply to all acts constituting unlawful discrimination or harassment related to school activity or to school attendance occurring within a district school, to acts which occur off campus or outside of school-related or school-sponsored activities but which may have an impact or create a hostile environment at school, and to all acts of the Governing Board and the Superintendent in enacting policies and procedures that govern the district.

The Board desires to provide a welcoming, safe, and supportive school environment that allows all students equal access to and opportunities in the district's academic, extracurricular, and other educational support programs, services, and activities. The Board prohibits, at any district school or school activity, unlawful discrimination, including discriminatory harassment, intimidation, and bullying, targeted at any student by anyone, based on the student's actual or perceived race, color, ancestry, nationality, national origin, immigration status, ethnic group identification, ethnicity, age, religion, marital status, pregnancy, parental status, physical or mental disability, medical condition, sex, sexual orientation, gender, gender identity, gender expression, or genetic information, or association with a person or group with one or more of these actual or perceived characteristics.

Unlawful discrimination, including discriminatory harassment, intimidation, or bullying, may result from physical, verbal, nonverbal, or written conduct based on any of the categories listed above. Unlawful discrimination also occurs when prohibited conduct is so severe, persistent, or pervasive that it affects a student's ability to participate in or benefit from an educational program or activity; creates an intimidating, threatening, hostile, or offensive educational environment; has the effect of substantially or unreasonably interfering with a student's academic performance; or otherwise adversely affects a student's educational opportunities.

Unlawful discrimination also includes disparate treatment of students based on one of the categories above with respect to the provision of opportunities to participate in school programs or activities or the provision or receipt of educational benefits or services.

Because unlawful discrimination may occur when disciplining students, including suspension and expulsion, the Superintendent or designee shall ensure that staff enforce discipline rules fairly, consistently and in a nondiscriminatory manner, as specified in Board Policy and Administrative Regulation 5144 - Discipline, Board Policy and Administrative Regulation 5144.1 - Suspension and Expulsion/Due Process, and Administrative Regulation 5144.2 Suspension and Expulsion/Due Process (Students With Disabilities).

The Board also prohibits any form of retaliation against any individual who reports or participates in the reporting of unlawful discrimination, files or participates in the filing of a complaint, or investigates or participates in the investigation of a complaint or report alleging unlawful discrimination. Retaliation complaints shall be investigated and resolved in the same manner as a discrimination complaint.

The Superintendent or designee shall facilitate students' access to the educational program by publicizing the district's nondiscrimination policy and related complaint procedures to students, parents/guardians, and employees. In addition, the Superintendent or designee shall post the district's policies prohibiting discrimination, harassment, intimidation, and bullying and other required information on the district's website in a manner that is easily accessible to parents/guardians and students, in accordance with law and the accompanying administrative regulation.

(Education Code 234.1, 234.6)

The Superintendent or designee shall provide training and/or information on the scope and use of the policy and complaint procedures and take other measures designed to increase the school community's understanding of the requirements of law related to discrimination. The Superintendent or designee shall regularly review the implementation of the district's nondiscrimination policies and practices and, as necessary, shall take action to remove any identified barrier to student access to or participation in the district's educational program. The Superintendent or designee shall report the findings and recommendations to the Board after each review.

Regardless of whether a complainant complies with the writing, timeline, and/or other formal filing requirements, all complaints alleging unlawful discrimination, including discriminatory harassment, intimidation, or bullying, shall be investigated and prompt action taken to stop the discrimination, prevent recurrence, and address any continuing effect on students.

Students who engage in unlawful discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, in violation of law, Board policy, or administrative regulation shall be subject to appropriate consequence or discipline, which may include suspension or expulsion when the behavior is severe or pervasive as defined in Education Code 48900.4. Any employee who permits or engages in prohibited discrimination, including discriminatory harassment, intimidation, retaliation, or bullying, shall be subject to disciplinary action, up to and including dismissal.

All allegations of unlawful discrimination in district programs and activities shall be brought, investigated, and resolved in accordance with Board Policy 1312.3 - Uniform Complaint Procedures.

Record-Keeping

The Superintendent or designee shall maintain a record of all reported cases of unlawful discrimination, including discriminatory harassment, intimidation, or bullying, to enable the district to monitor, address, and prevent repetitive prohibited behavior in district schools.

The district's course of study shall provide students with opportunities to attain the skills, knowledge, and abilities they need to be successful academically, professionally, and personally.

The Superintendent or designee shall establish processes for ensuring the articulation of courses across grade levels within the district. Policy 6161.1: Selection And Evaluation Of Instructional Materials

Original Adopted Date: 11/01/2011

The Governing Board desires that district instructional materials, as a whole, present a broad spectrum of knowledge and viewpoints, accurately reflect and value society's diversity, stimulate thought, the exploration of ideas and intellectual exchanges, and enhance instructors' ability to educate all students through the use of multiple teaching strategies and technologies. The Board shall adopt instructional materials based on a determination that such materials are an effective learning resource to help students achieve grade-level competency and that the materials meet criteria specified in law. Textbooks, technology-based materials, and other educational materials shall be aligned with academic content standards and the district's curriculum to ensure that they effectively support the district's adopted courses of study.

The Board shall select instructional materials for use in grades K-8 that have been approved by the State Board of Education (SBE) or that have, during the district's review process, been determined to be aligned with the state academic content standards adopted by SBE, which includes instructional materials for mathematics and English language arts that are aligned to Common Core State Standards. (Education Code 60200, 60210)

The Board shall adopt instructional materials for grades 9-12 upon determining that the materials meet the criteria specified in law and the accompanying administrative regulation. (Education Code 60400)

In selecting or adopting instructional materials, the Board shall consider the recommendation of the Superintendent or designee and/or an advisory committee established to review the materials.

The degree to which every student has sufficient access to standards-aligned instructional materials shall be included in the district's local control and accountability plan. (Education Code 52060)

Sufficiency of Instructional Materials and Public Hearing

The Board shall annually conduct one or more public hearings on the sufficiency of the district's instructional materials, including textbooks, technology-based materials, other educational materials, and tests. Technology-based materials include, but are not limited to, software programs, video disks, compact disks, optical disks, video and audio tapes, lesson plans, databases, and the electronic equipment required to make use of those materials by students and teachers as a learning resource. (Education Code 60010, 60119)

The hearing shall be held on or before the end of the eighth week from the first day students attend school for that year. (Education Code 60119)

The Board encourages participation by parents/guardians, teachers, interested community members, and bargaining unit leaders at the hearing. Ten days prior to the hearing, the Superintendent or designee shall post a notice in three public places within the district containing the time, place, and purpose of the hearing. The hearing shall not take place during or immediately following school hours. (Education Code 60119)

At the hearing(s), the Board shall determine, through a resolution, whether each student in each school, including each English learner, has sufficient textbooks and/or other instructional materials that are aligned to the content standards adopted by SBE and consistent with the content and cycles of the curriculum framework adopted by SBE in each of the following subjects: (Education Code 60119)

1. Mathematics
2. Science
3. History-social science
4. English language arts, including the English language development component of an adopted program
5. World language
6. Health

The Board shall also determine the availability of science laboratory equipment, as applicable to science laboratory courses offered in grades 9-12. (Education Code 60119)

In making these determinations, the Board shall consider whether each student has sufficient textbooks or other instructional materials to use in class and to take home. This does not require that each student have two sets of materials. However, materials shall not be considered sufficient if they are photocopied sheets from only a portion of a textbook or instructional materials copied to address a shortage. (Education Code 60119)

If materials are in a digital format, they shall be considered sufficient as long as each student, at a minimum, has and can access the same materials in the class and to take home as all other students in the same class or course in the district, and has the ability to use and access them at home. (Education Code 60119)

If the Board determines that there are insufficient textbooks or other instructional materials, the Board shall, by resolution, provide information to classroom teachers and to the public setting forth, for each school in which an insufficiency exists, the percentage of students who lack sufficient standards-aligned textbooks or instructional materials in each subject area and the reasons that each student does not have sufficient textbooks and/or instructional materials. The Board shall submit a copy of the resolution to the County Superintendent of Schools no later than three business days after the hearing. The Board shall take any action to ensure that each student has sufficient materials within two months of the beginning of the school year in which the determination is made.
(Education Code 60119)

In addition, if the County Superintendent, in accordance with Education Code 1240, makes the district aware of a school that does not have sufficient textbooks or instructional materials, the district shall take any action to ensure that each student has sufficient materials within two months of the beginning of the school year.

Prohibition Against Refusal to Approve or Prohibit the Use of Specified Instructional Materials

The use of any textbook, instructional material, supplemental instructional material, or other curriculum for classroom instruction, or any book or other resource in a school library shall not be rejected or prohibited by the Board or district on the basis that it includes a study of the role and contributions of any individual or group consistent with the requirements of Education Code 51204.5 and 60040, unless such study would violate Education Code 51501 or 60044. (Education Code 243)

Complaints

Complaints concerning instructional materials shall be handled in accordance with Board Policy 1312.2 - Complaints Concerning Instructional Materials, Board Policy 1312.3 - Uniform Complaint Procedures, or Administrative Regulation 1312.4 - Williams Uniform Complaint Procedures, as applicable.

SELECTION AND EVALUATION OF INSTRUCTIONAL MATERIALS

Note: Pursuant to Education Code 60200 and 60400, the Governing Board is responsible for the adoption of textbooks and other instructional materials, as defined in Education Code 60010, for use in district schools. See the accompanying administrative regulation for required and optional criteria for the selection of instructional materials. See BP 6161.11 - Supplementary Instructional Materials and BP 6163.1 - Library Media Centers for selection processes regarding supplementary materials.

(Education Code 60200, 60210)

Note: The following paragraph is for use by districts that maintain high schools.

The Board shall adopt instructional materials for grades 9-12 upon determining that the materials meet the criteria specified in law and the accompanying administrative regulation. (Education Code 60400)

In selecting or adopting instructional materials, the Board shall consider the recommendation of the Superintendent or designee and/or an advisory committee established to review the materials.

Public Hearing on Sufficiency of Instructional Materials

The Board shall annually conduct one or more public hearings on the sufficiency of the district's instructional materials, including textbooks, technology-based materials, other educational materials, and tests. Technology-based materials include, but are not limited to, software programs, video disks, compact disks, optical disks, video and audio tapes, lesson plans, databases, and the electronic equipment required to make use of those materials by students and teachers as a learning resource. (Education Code 60010, 60119)

Note: Education Code 60119 specifies that the hearing must be held within eight weeks of the beginning of the school year. Pursuant to Education Code 60119, for a district that operates schools on a multi-track, year-round calendar, the timeline begins with the first day students attend school in any track that begins in August or September.

The hearing shall be held on or before the end of the eighth week from the first day students attend school for that year. (Education Code 60119)

The Board encourages participation by parents/guardians, teachers, interested community members, and bargaining unit leaders at the hearing. Ten days prior to the hearing, the Superintendent or designee shall post a notice in three public places within the district containing the time, place, and purpose of the hearing. The hearing shall not take place during or immediately following school hours. (Education Code 60119)

(cf. 9322 - Agenda/Meeting Materials)

Note: Education Code 60119 requires the Board to adopt a resolution indicating whether or not each student in each school has sufficient standards-aligned textbooks or instructional materials for the subjects specified in items #1-6 below. See the accompanying Exhibit for a sample resolution.

At the hearing(s), the Board shall determine, through a resolution, whether each student in each school, including each English learner, has sufficient textbooks or other instructional materials that are aligned to the content standards adopted by SBE and consistent with the content and cycles of the curriculum framework adopted by SBE in each of the following subjects: (Education Code 60119)

1. Mathematics

(cf. 6142.92 - Mathematics Instruction)

2. Science

(cf. 6142.93 - Science Instruction)

3. History-social science

(cf. 6142.94 - History-Social Science Instruction)

4. English language arts, including the English language development component of an adopted program

(cf. 6142.91 - Reading/Language Arts Instruction)
(cf. 6174 - Education for English Learners)

5. World language

(cf. 6142.2 – World Language Instruction)

6. Health

(cf. 6142.8 - Comprehensive Health Education)

Note: The following paragraph is for use by districts that maintain any of grades 9-12.

The Board shall also determine the availability of science laboratory equipment, as applicable to science laboratory courses offered in grades 9-12. (Education Code 60119)

In making these determinations, the Board shall consider whether each student has sufficient textbooks or other instructional materials to use in class and to take home. This does not require that each student have two sets of materials. However, materials shall not be considered sufficient if they are photocopied sheets from only a portion of a textbook or instructional materials copied to address a shortage. (Education Code 60119)

If materials are in a digital format, they shall be considered sufficient as long as each student, at a minimum, has and can access the same materials in the class and to take home as all other students in the same class or course in the district, and has the ability to use and access them at home. (Education Code 60119)

Note: Pursuant to Education Code 60119, if the Board makes a determination that there are insufficient textbooks or other instructional materials, the Board must take action to ensure that the materials are provided within two months of the beginning of the school year. CDE's Instructional Materials FAQ states that, if a district has submitted purchase orders to the publisher to purchase materials to remedy the insufficiency, these materials should be received and made available to students by the end of the second month of the school year. Thus, districts are strongly encouraged to hold the public hearing as early in the school year as possible in order to provide sufficient

time to correct any deficiencies.

If the Board determines that there are insufficient textbooks or other instructional materials, the district shall provide information to classroom teachers and to the public setting forth, for each school in which an insufficiency exists, the percentage of students who lack sufficient standards-aligned textbooks or instructional materials in each subject area and the reasons that each student does not have sufficient textbooks or instructional materials. The Board shall take any action to ensure that each student has sufficient materials within two months of the beginning of the school year in which the determination is made. (Education Code 60119)

The degree to which every student has sufficient access to standards-aligned instructional materials shall be included in the district's local control and accountability plan. (Education Code 52060)

Policy 6161.11: Supplementary Instructional Materials

Original Adopted Date: 12/01/1990

The Governing Board encourages the use of supplementary instructional materials to enrich the curriculum and enhance student learning. Such materials shall be aligned with district goals, curriculum objectives, and academic standards and shall supplement and not supplant the use of Board-adopted basic instructional materials that serve as the primary learning resources.

Supplementary instructional materials include, but are not limited to, instructional materials that are designed to serve one or more of the following purposes: (Education Code 60010)

1. To provide more complete coverage of one or more subjects included in a given course
2. To meet the various learning ability levels of students in a given age group or grade level
3. To meet the diverse educational needs of students with a language disability in a given age group or grade level
4. To meet the diverse educational needs of students reflective of a condition of cultural pluralism
5. To use current, relevant technology that further engages interactive learning in the classroom and beyond

Supplementary instructional materials may be selected by the Superintendent or designee, school administrators, or teachers, as applicable, and obtained through donations to the district and/or available funding sources designated for these purposes.

The use of any supplemental instructional material shall not be rejected or prohibited by the Board or district on the basis that it includes a study of the role and contributions of any individual or group consistent with the requirements of Education Code 51204.5 and 60040, unless such study would violate Education Code 51501 or 60044.
(Education Code 243)

As appropriate, supplementary instructional materials shall meet the criteria developed for the selection and evaluation of basic instructional materials as described in AR 6161.1 - Selection and Evaluation of Instructional Materials.

Supplementary instructional materials shall be directly related to the course of study in which they are being used and shall be appropriate for the age and maturity level of the students.

The use or reproduction of supplementary instructional materials shall be in accordance with federal copyright law.

Appropriateness of Materials

Whenever a district employee proposes to use a supplementary resource which is not included in the approved learning resources of the district, the employee shall preview the material to determine whether, in the employee's professional judgment, it is appropriate for the grade level taught and is consistent with district criteria for the selection of supplementary instructional materials.

The employee shall confer with the Superintendent or designee as necessary to determine the compliance of the material with district criteria. The primary considerations should be the educational value, factual

accuracy, appropriateness, including whether the material contains pervasive vulgarity or profanity, and relevance of the materials, as well as the ages and maturity of the students.

The Superintendent or designee may provide training to administrators and teachers in the selection and evaluation of supplementary instructional materials, including the criteria to be utilized and applicable legal considerations.

Complaints

Complaints concerning supplemental instructional materials shall be handled in accordance with Board Policy 1312.2 - Complaints Concerning Instructional Materials and Board Policy 1312.3 - Uniform Complaint Procedures, as applicable.

Policy 6161.11: Supplementary Instructional Materials

Status: ADOPTED

Original Adopted Date: 11/18/2010

The Governing Board encourages teachers to use supplementary instructional materials which are relevant to curriculum objectives and compatible with district goals and objectives. By using such materials, teachers can introduce content and instructional strategies that enrich the curriculum, enhance learning, help students make critical judgments, and stimulate their intellectual growth.

Teachers shall carefully preview all supplementary instructional materials in order to ensure that, in their professional judgment, the materials are:

1. Directly related to the course of study in which they are being used

2. Appropriate for students' ages and maturity levels

Supplementary instructional materials must also be consistent with criteria developed for the selection and evaluation of other instructional materials. If the teacher believes that the materials may be in conflict with district criteria, the teacher shall confer with the principal or designee before using them.

(cf. 6161.1 - Selection and Evaluation of Instructional Materials)

When using supplementary materials, teachers shall provide appropriate introductory and follow-up activities. In addition, teachers shall ensure that supplementary materials do not supplant the use of basic texts or teaching activities.

All materials must be used within legal copyright limits.

(cf. 6162.6 - Use of Copyrighted Materials)

Films

When a teacher desires to show a film that has not been approved by the district or county for use in the grade level taught, the teacher shall preview the film to determine whether in his/her professional judgment it is consistent with district criteria for the selection of instructional materials. All films must be appropriate for the curriculum and the students' ages.

If the teacher has any questions about how established district criteria apply to the film, he/she shall confer with the principal or designee before showing the film.

Library materials shall include print and electronic resources that align with the curriculum and are accessible to students with varying cognitive and/or language needs.

Library materials shall be selected and evaluated through a process that invites recommendations from administrators, teachers, other staff, parents/guardians, and students as appropriate.

The use of any book or other resource in a school library shall not be rejected or prohibited by the Board or district on the basis that it includes a study of the role and contributions of any individual or group consistent with the requirements of Education Code 51204.5 and 60040, unless such study would violate Education Code 51501 or 60044. (Education Code 243)

Library Instruction

Teacher librarians and/or classroom teachers shall provide library instruction to support the development of students' information literacy skills. Such instruction shall be aligned with the state academic standards for library instruction and shall prepare students to:

1. Access information by applying knowledge of the organization of libraries, print materials, digital media, and other sources

2. Evaluate and analyze information to determine appropriateness in addressing the scope of inquiry

3. Organize, synthesize, create, and communicate information

4. Integrate information literacy skills into all areas of learning and pursue information independently to become life-long learners

Teacher librarians also may provide support to teachers, administrators, and other staff by identifying instructional materials that will aid in the development of curriculum and instructional activities and by providing information about effective and ethical uses of school library services and equipment.
