Comments:

We need to think about getting air conditioning for the classrooms that do not have it. Since the world is not going to change quick enough, climate change is going to continue to bring on warmer weather. While this has not been the case in the past here in South City, we can see drastic changes here in recent years. Please consider getting air conditioning in classrooms that don't have it. The settings that are currently there, "cool" or "fan" do not do anything to alleviate the heat.
