

TSDSKB-606 TEAL Roles for TSDS

PEIMS

PEIMS Data Sched/Promoter – An ESC or LEA authorized role for scheduling and promoting of ESC, LEA and/or campus level data to the PEIMS Data mart.

PEIMS Campus Submitter – A LEA authorized role providing the ability to validate and view PEIMS data and reports for campus level data.

PEIMS Data Submitter – An ESC or LEA authorized role that will allow the user the ability to promote, validate and view PEIMS data and reports, as well as to mark categories and subcategories ready.

PEIMS Data Completer – An ESC or LEA authorized role of a user that can promote, view, report set as complete and lock the data. This role also includes all of the functionality of the PEIMS LEA Data Promoter and PEIMS LEA Data Viewer roles

PEIMS Campus Approver – A LEA authorized role providing the ability to load, validate and view PEIMS data and reports for campus level data. This role is only available for the Principal listed in Ask TED.

PEIMS Data Approver – A role that will allow the user the ability to view reports and approve or reject a PEIMS data collection. This role is only available for the Superintendent listed in AskTED. This role also includes all of the functionality of the PEIMS LEA Data Viewer role.

- If there is an Interim Superintendent who is taking over for the Superintendent and their name is not listed in AskTED, the district must provide Board meeting minutes which shows the elected Interim Superintendent. Best way to get this meeting notes is via TIMS ticket.

PEIMS Data Acceptor – An ESC authorized role that will allow the user the ability to view, run reports and accept/reject the user's ESC PEIMS data collection.

- If the user also has the ESC Access LEA Data permission, then the user can also accept/reject the collections for LEAs belonging to their ESC.

PEIMS LEA View Data – A LEA role allowing the user to generate and view reports without any ability to change data.

PEIMS ESC View Data – An ESC role allowing the user to generate and view reports without any ability to change data.

(Note: The user does not need the PEIMS Data Submitter, PEIMS Data Sched/Promoter, or PEIMS Data Viewer roles if requesting the PEIMS Data Completer role.)

CORE

Core LEA Data Promoter - This role allows LEA users to initiate data promotion, which makes the relevant data from the ODS available for use by promoting it to a data mart or by populating a view. Promoters have the following access: Schedule/Monitor Data Promotions, Schedule/Monitor Data Validations, Generate Reports and Load Assessments.

Core LEA Data Completer - This role allows LEA users to formally certify the completeness and accuracy of their data and submit it to TEA. Completers usually have the most comprehensive access to a data collection, including Schedule/Monitor Data Promotions, Schedule/Monitor Data Validations, Generate Reports, Complete Submissions and Load Assessments. This role also includes all of the functionality of the Core LEA Data Promoter and Core LEA Data Viewer roles.

Core LEA Data Approver – This role allows the user the ability to view reports, approve or reject data collections, and request submission extensions. This role also includes all of the functionality of the Core LEA Data Viewer role.

Core LEA Data Viewer - Viewers are usually LEA staff who need to review the data to verify its accuracy. A viewer can only view (not promote or validate) data, including reports and any data search or data summary features. They can: Monitor Data Promotions, Monitor Data Validations and Generate Reports.

Core ESC Data Viewer - For ESC staff who need the ability to access data of the LEAs served by them. The user shall have the ability to: Monitor Data Validations, Monitor Performance/Submissions and Generate/View LEA Reports

Note: If a user has the Core LEA Data Completer role, they do not need the Core LEA Data Promoter or Core LEA Data Viewer roles.

UNIQUE ID

Uniq-ID LEA/ESC – A LEA/ESC authorized role providing access to Unique-ID at the LEA level.

Uniq-ID Campus – A LEA authorized role providing access to Unique ID at the campus level.

Uniq-ID Search – An authorized role providing access to the Student Search module at the statewide level.

ODS

ODS Campus Data Loader – A LEA authorized role for the loading of campus xml interchange files in previous years working collection into the eDM.

ODS Data Loader – An ESC/LEA authorized role for the loading of ESC/LEA xml interchange files in previous years working collection into the eDM.

TIMS

TIMS Level 1 Support – A Level 1 TIMS role specifically designed for an LEA support agent. TIMS Level 1 role is only available at the district level and not at the ESC level.

TIMS Level 2 Support – A Level 2 TIMS role specifically designed for an ESC or vendor support agent. TIMS Level 2 role is only available at the ESCs level and not at the LEA level.

DMC

DMC LEA Data Monitor – A LEA authorized role that will allow users to access to Level 1.5 filters, search data and map descriptors.

DMC LEA Technical – A LEA authorized role that will allow users to access to manage key/secrets.

DMC LEA L2 Validations – A LEA authorized role that will allow users to run and view Level 2 validations.

DMC ESC Data Monitor – An ESC authorized role that will allow users to access Level 1.5 filters, Search Data and Map Descriptors.

DMC LEA Admin Configurator – An LEA authorized role that allows users to view (manage map descriptors). Note: Role is not being granted at this time. The DMC LEA Data Monitor, DMC LEA L2 Validations and DMC LEA Technical Role have the same privileges.

DMC ESC Technical – An ESC authorized role that will allow users to access to manage key/secrets.

DMC ESC L2 Validations – An ESC authorized role that will allow users to run and view Level 2 validations.

DMC ESC L2 Validations Support – An ESC authorized role that will allow users to view validations.

DMC ESC View LEA Data – An ESC authorized role that will allow users to drill down access to LEA data and summary access to LEA data.

DMC ESC Admin Configurator – An ESC authorized role that allows users to view (manage map descriptors). Note: Role is not being granted at this time. The DMC ESC Data Monitor, DMC ESC L2 Validations and DMC ESC Technical Role have the same privileges.
