Questions/Comments from Public – Agenda Items

The Board of Education recognizes the value of public comment on educational issues and the importance of allowing members of the public to express themselves on school matters of community interest. In support of this position, the law establishes a period of public comment at every public Board meeting.

Individuals wishing to speak must state their name and address, students must state their name and school.

Comments will be limited to three (3) minutes duration. No participant may speak more than once on the same topic until all others who wish to speak on that topic have been heard.

All statements and/or questions shall be directed to the presiding officer and no participant may address or question Board members individually. All speakers are requested to express themselves in a civil manner, with due respect for the dignity and privacy rights of others whose legal rights may be affected.

Please note: While it is not the Board's intention to stifle comment on matters of legitimate concern to the school community, the public should be aware that if their statements violate the rights of others under the law governing defamation or invasion of privacy, they may face personal liability to the injured party.

If speakers are uncertain of the legal ramifications of their comments, the Board urges them to seek guidance beforehand from their own legal advisor

WHEREAS, it is fitting and desirable that we commemorate the beginning of the Nation and the role New Jersey played over the past 250 years as well as its present and future role as part of the United States, with particular focus on the individuals, ideas, and events that shaped our Country, State, and Bayonne; and

WHEREAS, RevolutionNJ will consider the role New Jersey played during the American Revolution when it saw more battles and skirmishes than any other state and was truly the Crossroads of the American Revolution; and

WHEREAS, RevolutionNJ will highlight the role New Jerseyans played beyond the battlefield during the American Revolution when people of diverse backgrounds contributed to the development of the State and the Nation in various ways and fought for the right to life, liberty, and the pursuit of happiness; and

WHEREAS, preserving, studying, and enjoying state history strengthens communities and builds bonds between New Jersey residents as we work together toward the goals of justice and equality embedded in the United States Constitution;

Proclamation of September as Attendance Awareness Month

WHEREAS, good attendance is essential to student achievement and graduation, and we are committed to dedicating our resources and attention to reducing chronic absenteeism rates, with a focus starting as early as prekindergarten and kindergarten, and

WHEREAS, chronic absence – missing 10 percent or more of school for any reason including excused and unexcused absences, or just two of three days a month – is a proven predictor of academic trouble and dropout rates, and

WHEREAS, chronic absence is now a required reporting metric under the federal Every Student Succeeds Act, and

WHEREAS, improving attendance and reducing chronic absence takes commitment, collaboration and tailored approaches to particular challenges and strengths in each community, and

WHEREAS, chronic absence predicts lower third-grade reading proficiency, course failure and eventual dropout, it weakens our communities and our local economy, and

WHEREAS, attendance gaps among groups of students often turn into achievement gaps that undermine student success. Chronic absence particularly exacerbates the achievement gap that separates students in low-income communities from their peers, since students from low-income communities are both more likely to be chronically absent and more likely to be affected academically by missing school, and

WHEREAS, absenteeism also undermines efforts to improve struggling schools, since it's hard to measure improvement in classroom instruction if students are not in class to benefit from them, and

WHEREAS, schools and community partners can reach out more frequently to absent students to determine what barriers they face to attending school and what would help them attend more regularly, and

WHEREAS, health care providers can share the importance of school attendance with families and can offer proactive, preventive care to reduce absences, and

WHEREAS, schools and districts must do more to track, calculate and share the data on how many students are chronically absent so that we can see the attendance gaps and can deliver the right interventions to the right students, and

WHEREAS, all students – even those who show up regularly – are affected by chronic absence because teachers must spend time reviewing for students who missed lessons, and

WHEREAS, chronic absence can be significantly reduced when schools, families and communities work together to monitor and promote good attendance and address hurdles that keep children from getting to school, and

NOW, THEREFORE BE IT RESOLVED, that this Bayonne Board of Education proclaim our school district will stand with the nation in recognizing September as “Attendance Awareness Month.” We hereby commit to focusing on reducing chronic absenteeism to give all children an equitable opportunity to learn, grow and thrive academically, emotional and socially.

Whereas, as per N.J.A.C. 6A:8-4.3, requires chief school administrators to report the results of the annual assessments to local boards of education within 60 days of receipt of the finalized information from the New Jersey Department of Education (NJDOE); and

Whereas, Every Student Succeeds Act (ESSA) requires states to use a set of indicators to measure the performance of all schools.
