

Transportation

At CBA, we recognize the importance of having access to transportation for your son- whether that be from your district or alternative options if your district does not provide busing or if you live outside the 20 mile limit.

Below are some helpful guidelines on the transportation process.

How does it work?

- Busing to CBA comes directly from your resident school district. This is the township to which you pay your taxes.
- For your son to be eligible for transportation by your school district, you must live more than 2.5 miles and less than 20 miles from CBA. Additionally, you must live in a district which provides busing for its public school students.
- If you are eligible for busing through your district and a bus is not provided, you may be entitled to aid-in-lieu. Aid-In-Lieu is financial assistance provided by school districts that do not provide busing to its eligible students. Presently aid-in-lieu is set at \$1,165.00 annually and is paid to eligible families directly by the applicable school districts.

You do not have the option of choosing aid-in-lieu over busing if a bus is offered to you.

The transportation process is as follows:

- During enrollment with CBA, you completed a B6T transportation form for your son*. This form was verified by CBA for accuracy and sent to your school district for processing.
- With the exception of a few school districts, most districts use MOESC (Monmouth Ocean Education Service Commission) to handle their nonpublic school busing. In turn, MOESC plans the routes and bids them out to the busing companies. The managing of the bus process is handled by MOESC and your school district. CBA has no input at all with respect to which bus company is used or the logistics of such bus routes. Pick up times and bus stop locations are determined and provided by MOESC or your school district.
- Your school district and MOESC will communicate your son's bus information during the summer months. ***If you are not getting busing, the district is required by law to inform you no later than August 1st. Students receiving busing will receive their bus information in late August.***

****Please notify the main office of any address change as this may affect your busing.***

While CBA does not provide district busing for our students, we do work to offer alternative options for our families

- At this time, CBA runs a Charter Bus for our students in the Toms River/Point Pleasant area.

We continually analyze our enrollment with a view towards busing needs and try and meet those needs the best way possible. To help us with this process, please keep us informed of any communication you receive from your district over the summer.
