***Siblings:** Older students will always meet their younger sibling at their pickup location. Here are a few examples:

- I have a 5th grader, a 3rd grader, and a kindergartener. My 5th grader and 3rd grader will meet my kindergartener at the classroom. I will arrive slightly early to bypass the loop, park my car, and collect all my children from my kindergartener's classroom.
- I have a 3rd grader and 2nd grader. I turn an immediate right into the upper lot and drive through the loop to pick up both of my children who are waiting at the Blue Box.
- I have a 5th grader and a 1st grader. My 5th grader will meet my 1st grader at their classroom. I will drive through the lower lot with my car number tag. My children walk to my car when their number is called.
