

Lisbon Exempted Village Schools
Annual Notice of Health Care Services Accessible to Students

HB8 - Parents' Bill of Rights

The Lisbon Exempted Village Schools ("District") complies with the Parents' Bill of Rights and all components of House Bill 8. Our Board Policies may be viewed on the District's website.

HB8 requires districts to provide annual notification to parents of each health care service offered at, or facilitated in cooperation with, their student's school and their option to withhold consent or decline any specified service by supplying written notice to the District that includes the student's full name and the specific service(s) declined or for which consent is withheld. If such written notice is not provided by a parent, all specified health care services are deemed authorized. Parental consent to health care services does not waive the parent's right to access the parent's student's educational or health records or to be notified about a change in the student's services or monitoring.

Pursuant to Ohio Rev. Code 3313.473(B)(4), below is a list of all health care services available to our students through the District and/or in connection with outside providers:
