Phone-Free in Beaumont ISD

To support student success and meet new state requirements, BISD is implementing the Yondr Pouch Program at all middle and high schools beginning the first day of school. This initiative creates a phone-free learning environment by securing cell phones, smartwatches, and earbuds in personal Yondr pouches during the school day.

How Parents Can Help

Your support makes a big difference in helping students adjust to a phone-free learning environment. Build a daily routine of checking in with your child. Talk about how they're getting to and from campus, if they have everything they need, and whether there are any schedule changes or appointments.

Lost or Damaged Pouches

Lost or stolen pouches must be replaced at a cost of \$30. Until the replacement is purchased, the student may not bring their phone or smart devices to school.

Violations and Consequences

Students who do not secure their devices properly will face progressive consequences:

- First offense: device confiscation, \$15 fine, and parent pick-up.
- Repeated offenses: In-School Suspension (ISS), extended ISS (CRD), suspension, or reassignment to Pathways for 20 days.

WHAT IS HOUSE BILL 1481

House Bill 1481, also known as the "Student Cell Phone Use Policy" bill, requires Texas public and charter schools to prohibit student use of personal wireless communication devices during instructional time.

What's the Purpose of the Bill?

The bill aims to minimize distractions, promote better social interaction, reduce cyberbullying, and encourage healthy boundaries regarding technology use during school hours.

WHAT'S CONSIDERED A PERSONAL DEVICE?

The bill defines "personal wireless communication device" as any device, other than those provided by the school for educational purposes, capable of transmitting or receiving data, including cell phones, text messaging devices, laptops, and tablets.

Let's Discuss

From your perspective, and based on your experience, what should be a priority area of focus for our District?
