Academic Magnet High School
Jacob Perlmutter, Principal
5109-A West Enterprise Street
North Charleston, SC 29405
(843) 746-1300

For Immediate Release – August 20, 2025

Academic Magnet High School is delighted to welcome Ms. Christine Taylor to our Science Department to teach AP Chemistry and Honors Chemistry for the 2025-2026 school year.

Ms. Taylor brings to Academic Magnet over 30 years' experience teaching chemistry with expertise in general chemistry, organic chemistry, Advanced Placement chemistry and International Baccalaureate Higher Level Diploma chemistry.

In addition to her proven track record teaching Chemistry in both North and South Carolina, Ms. Taylor has experience as an AP Chemistry content reader and writer, has served as a collaborator to the American Chemical Society and the American Association of Chemistry Teachers, and is a twice published author with the periodical *Chemistry Solutions*. She has also served as a Learning Design Coach. She earned her Bachelor of Science in Science teaching and Master's of Education in Administration and Supervision from Clemson University.

When not teaching or pursuing her love of Chemistry, you can find Ms. Taylor boating in Charleston's waterways, relaxing at the beach, reading mysteries, or spending time with her new Dalmatian puppy, Ozzie, named after Atlanta Braves second baseman, Ozzie Albies. She and her husband, a football coach for Goose Creek High School moved to Charleston to be closer to their grandchildren.

Ms. Taylor describes joining Academic Magnet High School's faculty as a "once in a lifetime opportunity" to teach highly motivated students in a "community that values academic excellence and curiosity."
