
Note: For information regarding use of the District's technology resources, see CQ. For information regarding intellectual property and copyright compliance, see CY. For information regarding student records, see FL.

DISTRICT WEBSITE

The District will maintain a District website for the purpose of informing employees, students, parents, and members of the community of District programs, policies, and practices. Requests for publication of information on the District website must be directed to the designated webmaster. The technology coordinator and the District webmaster will establish guidelines for the development and format of web pages controlled by the District. The accessibility of online content and functionality will be measured according to the World Wide Web Consortium's (W3C's) Web Content Accessibility Guidelines (WCAG) 2.0 Level AA and the Web Accessibility Initiative Accessible Rich Internet Applications Suite (WAI-ARIA) 1.0 techniques for web content.

ACCESSIBILITY

The District is committed to ensuring that individuals with disabilities have an opportunity equal to their nondisabled peers to participate in the District's programs, benefits, and services, including those delivered through electronic and information technology, except where doing so would impose an undue burden or create a fundamental alteration of the program, benefit, or service.

An individual who needs assistance with the District website should contact the District webmaster.

A District employee, student, parent, or member of the public who wishes to submit a complaint or grievance related to the accessibility of the District website may contact the District webmaster or file a grievance under the District's grievance policies. [See DGBA, FNG, and GF]

During any pending investigation, the District will, as soon as possible, provide the complainant equally effective alternative access to the information or service.

TRAINING

Periodic training on website accessibility will be provided to all appropriate personnel, including content developers, webmasters, procurement officials, and all others responsible for developing, loading, maintaining, or auditing web content and functionality.

MONITORING

The District webmaster will periodically randomly audit District online content for accessibility or may engage an outside auditor for this purpose.
