

ECS STUDENT CELL PHONE POLICY

ECS has a student cell-phone-free policy during the school day. Specifically, middle and high school students bringing their cell phones and smart watches onto campus will be required to turn them in to their discipleship group leaders at the beginning of each school day and pick them up when the school day concludes. The policy for upper elementary is that no student cell phones and smart watches should be seen or heard during the school day. This decision is grounded in our commitment to cultivating a learning environment that promotes focus, connection, personal responsibility, and spiritual and emotional well-being.

If parents need to communicate with their students during school hours, they should first email using the students' ECS email addresses. If unable to make contact by email, they may call the school office at 901.754.7217.
