
SUMMER OF 2025 FACILITIES PROJECTS

Presented By:

Eric Smith

Director of Facilities and Safety

PROJECT GOALS

After the passage of Measure Z last November, we took action to plan some “quick start” projects for the summer of 2025.

Projects were selected that had limited design and DSA review requirements, as we were working on a short timeline.

- (DSA= Division of State Architect, body that provides design and construction oversight for all state schools.)

We also selected projects that were strategic and would have little or no impact by future projects.

Compared to a normal summer project budget of \$500K, this summer we took on approximately \$3.4M.

MISSION ESTANCIA EXTERIOR PAINTING

“Old School Colors”

PROJECT DETAILS:

- Complete exterior re-painting of the Mission Estancia Campus
 - Color scheme options were professionally developed by a Property Services Specialist from our paint supplier
 - New school lettering was installed as well to compliment the new modern color scheme
-

FLORA VISTA AND LA COSTA HEIGHTS ROOFING

Project Details:

- 100,000 sq ft combined completed
 - Complete tear down to plywood decking
 - 30-year warranty on new materials
-

Project Details:

- Replacing 3 “end of life” playgrounds:
2 at Park Dale Lane, and 1 at Flora Vista
- All playgrounds will have poured in place rubberized surfacing.
- All playgrounds will have shade components implemented.
- Various site, program, and district staff provided input in the playground designs.

****IN PROGRESS****
