

# Weymouth Public Schools: Who to Contact

We value our partnership with WPS families and welcome your communication and feedback. To help you reach the right person quickly, we've outlined the recommended communication flow for common questions and topics. **Please begin with the first contact listed**—they are usually the best equipped to help! We kindly ask that you do not CC multiple contacts on your initial message; this can lead to confusion and delay a response. If you do not receive a response within 1-2 business days, you are encouraged to reach out to the next contact listed.
