Peter Weaver
Superintendent of Schools

Ned Pratt
Director of Student Support Services

Kristie LaPlante
Business Administrator

Superintendent Report
August 26, 2025

We had a **great start** to the school year this week, with teachers preparing their classrooms, attending meetings and professional development, and reconnecting with each other and the school community

On Thursday, we briefly talked about our overall **goals** of academic achievement and education culture (see below) and the importance of continuous improvement

- I would like to **recognize** all of our staff who continued our work this **summer**. From our Extended School Year and Summer Academy teams, to our front office staff, teachers and administrators, thank you for a positive and productive summer!
- We are in the process of finalizing our **Consolidated Application Grant**, which covers Title I, II, IV. The application is extensive, and we are happy the process is coming to a close! Once officially approved by the NHED, we will post the grant information on our District website
- We are actively working to fill our LCS Nurse and WLC Physical Education **positions**. We have met with several candidates throughout the summer and have offered both positions to selected candidates, but have not been successful. We will keep working this issue, while also preparing for our students' return
- Kristina is working with our teachers completing their **teaching credentials**. It is a complicated and confusing process, and Kristina has been a guiding light supporting our teachers!
- Our bus routes are ready to go, but we do not have a bus driver available at this time to take our students to their Milford CTE programs (21 students) in the morning, beginning September 1st. I want to recognize Tom, Katie, Kristie, and Bill Ryan for being open to possible ideas and taking time to find a workable solution

Academic Achievement To improve overall student academic performance and competency by supporting evidence-based teaching strategies, differentiated learning approaches, and promoting a positive learning environment

Education Culture To continue to improve the education culture by establishing a safe and respectful environment where all students are valued and supported, strengthening relationships with families and community, and developing and supporting the professional culture of our staff
