

Adobe Login Instructions for District Computers

2019 Updated Information

What is changing? Adobe has recently updated its licensing to require a user specific license. This will provide the following benefits:

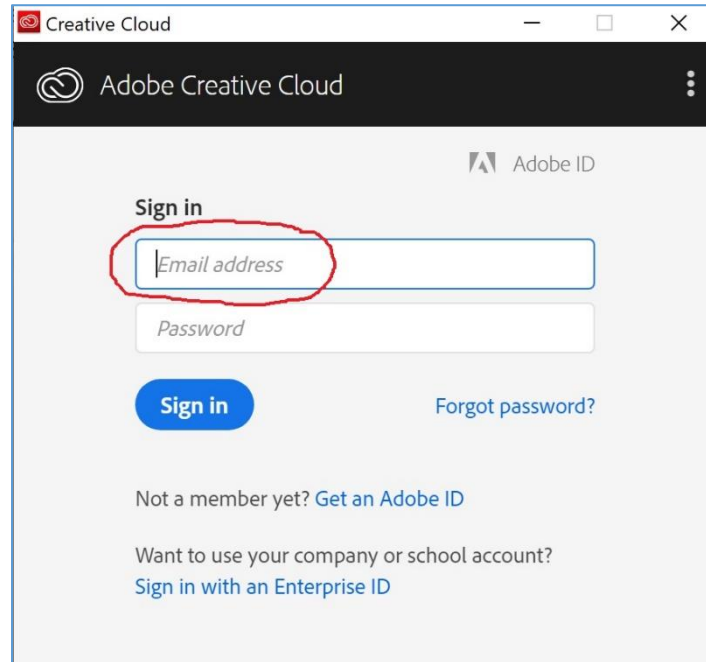

- Ability to access and leverage additional Creative Cloud Apps such as Adobe XD, Lightroom CC, and Adobe Dimension
- Access to Adobe Cloud Services such as Cloud Libraries, Cloud Collaboration with Team Projects, and font collections from Adobe Fonts
- Access to all Adobe Creative Cloud Applications at home (using personal devices)
 - Students
 - Teachers
 - Faculty
 - Administrators

In order to provide these benefits to Students, Teachers, and Staff, there are a few changes in the way that the Adobe software applications are accessed from CCPS Computers. When launching an Adobe software product (Such as Adobe Acrobat Pro, Photoshop, Premiere/etc), the following screen may appear. **This is normal and should only prompt for a sign-in once if you are a Teacher or Administrator.** Click on the “Sign In Now” button and follow the steps below in order to proceed:
