PREFACE

HYPERLINK FEATURE

The digital version of this report has been hyperlinked. Click on the title of a section or a table in the List of Tables and you will be automatically directed to the actual content section or table in the report.

This report provides the detailed results for each question from the 2024-25 *California Healthy Kids Survey* (CHKS) for schools within this school. The CHKS, along with its two companion surveys—the *California School Staff Survey* (CSSS) and the *California School Parent Survey* (CSPS)—form the California Department of Education’s *California School Climate, Health, and Learning Survey* (CalSCHLS) System. CalSCHLS is the largest, most comprehensive state effort in the nation to regularly assess students, staff, and parents to provide key data on school climate and safety, learning supports and barriers, stakeholder engagement, and youth development, health, and well-being. Exhibit 1, at the end of the Preface, presents the major domains and constructs assessed by CalSCHLS. The Appendix provides more information about CHKS questions.

These surveys grew out of the California Department of Education’s (CDE) commitment to helping schools create more positive, safe, supportive, and engaging environments and to promoting the successful cognitive, social, emotional, and physical development of all students. They provide a wealth of information to guide school improvement and **Local Control and Accountability Plan** (LCAP) efforts, particularly in regard to the state priorities of enhancing school climate, pupil engagement, parent involvement, and addressing the needs of vulnerable groups.

Factsheets, guidebooks, and other resources to help in understanding and using CHKS results are available for downloading from the CalSCHLS website (calschls.org). The California Safe and Supportive Schools website (ca-safe-supportive-schools.wested.org) provides information and tools helpful in implementing effective strategies to address the needs identified by the survey.

The CalSCHLS technical advisor team offers data workshops and coaching to help identify local needs and develop action plans to meet those needs.

THE SURVEY

CDE has funded the CHKS since 1997 to provide data to assist schools in: (1) fostering safe and supportive school climates, social-emotional competencies, and engagement in learning; (2) preventing youth health-risk behaviors and other barriers to academic achievement; and (3) promoting positive youth development, resilience, and well-being. A thorough understanding of the scope and nature of student behaviors, attitudes, experiences, and supports is essential for guiding school improvement and academic, prevention, and health programs. The Appendix is a brief guide to key CHKS Core Module indicators designed to help survey users more easily understand and interpret their findings.

The CHKS is not just a standalone instrument but a data collection system that districts can customize to meet local needs and interests. The secondary-school CHKS consists of a required general Core Module and a series of optional, supplementary topic-focused modules that districts can elect to administer. Districts may also add their own questions of local interest in a custom module. Table 1 indicates the modules administered by the district/school.

Core Module

As summarized in the Appendix, the Core Module consists of key questions that are considered most important for schools to guide improvement of academic, health, and prevention programs and promote student achievement, college and career readiness, positive development, and well-being. The majority of the questions are school-specific, including the following indicators:

- student grades, truancy, boredom at school, attendance, academic motivation, and school connectedness, as indicators of engagement;
- developmental supports (protective factors) that promote positive academic, social, and emotional outcomes: experiences of caring adult relationships, high expectations, and opportunities for meaningful participation at school;
- perceived school safety, bullying, and victimization; and
- violence perpetration, substance use, and crime-related behavior (e.g., weapons possession).

The Core Module also assesses indicators of student well-being in general, including the scope and nature of substance use and mental health and wellness (chronic sadness, social and emotional distress, life satisfaction, and contemplation of suicide). These questions provide insight into important barriers to learning and development.

A wide range of demographic questions help districts identify differences among student groups and to better address the needs of significant and vulnerable students, including those required to be included in LCAP efforts. These include differences in the results related to race/ethnicity, gender, sexual orientation, and socioeconomic status; homeless and foster status; and English language proficiency.

Behavioral Health Module (Supplementary)

The Behavioral Health Module (BHM) is a multiform survey module that assesses secondary student well-being indicators (i.e., social isolation, body image and disordered eating, responses to trauma, stress-associated health conditions, and precursors to and consequences of substance use) and protective factors (i.e., home adult supports, peer supports, and school mental health supports). This module assesses almost all of the measures that were assessed on the 2022-23 Mental Health Supports Module, Student Trauma Module, and Alcohol and Other Drugs (AOD) Module—which have been discontinued. The BHM assesses more content while minimizing the survey length for individual students by using a multiform instrument. Students are randomly administered one of two BHM survey forms to reduce survey burden and collect representative data on more aspects of behavioral health. Because the BHM is administered to all schools participating in the Biennial State CHKS, statewide comparison data will be available for all BHM results.

School Climate Module (Supplementary)

To further support school improvement efforts and the LCAP process, a supplementary School Climate Module is available. It provides additional data on student academic mindset, school academic supports, discipline/order, supports for social-emotional learning, bullying prevention, peer relationships, respect for diversity, and the quality of the physical environment (calschls.org/survey-administration/downloads).

Social Emotional Health Module (Supplementary)

The Social Emotional Health Module (SEHM) greatly enhances the value of the CHKS as a strength-based assessment of positive emotions, engagement, ability to build and maintain relationships, and other social-emotional capacities linked to student mental health and well-being and academic success. It includes 43 items that capture core adolescent psychological assets. The combination of the SEHM and Core Module

yields a comprehensive set of data to inform decisions about mental health and social-emotional learning programs.

SURVEY ADMINISTRATION AND SAMPLE

School staff administered the survey, following detailed instructions provided by CDE that were designed to assure the protection of all student and parental rights to privacy and to maintain confidentiality. Students were surveyed only with the consent of parents or guardians. Each student’s participation was voluntary, anonymous, and confidential.

Table A1.1 describes the target sample of students and the final number and percent of students who completed the survey (the participation response rate).

THE REPORT

The report tables, organized by topic, provide the percentage of students that responded to each question response option by grade level. Percentages are rounded to the nearest whole number.

LCAP Subgroup Results

Summary tables provide key findings (e.g., safety, school connectedness, bullying and harassment, developmental supports) disaggregated by each of the LCAP subgroups (race/ethnic subgroups, socioeconomically disadvantaged students, English learners and long-term English learners, students with disabilities, students in foster care, and unhoused youth). Results are also disaggregated by gender. Districts can subscribe to the District CalSCHLS data dashboard to disaggregate their CHKS results by these and other factors (i.e., students who report different levels of caring relations with adults at school).

ONLINE DATA DASHBOARDS

Public Dashboard. Anyone can examine online key state, county, and district CHKS results on the public CalSCHLS Data Dashboard (calschls.org/reports-data/dashboard). The dashboard can be used to graphically display statewide, county, and district key indicators from the Core and School Climate Modules, trends over time, and disparities in survey outcomes across subgroups. Group differences across LCAP subgroups and other characteristics (e.g., chronic sadness) can be examined. In addition to displaying results interactively on the web, dashboard results can be exported as Image and PDF files for dissemination. District data are publicly posted on the dashboard by the end of November of the year following survey administration.

The District Dashboard Option. Districts may also purchase a two-year subscription to a password-protected, private data dashboard that displays up to 11 years of CalSCHLS data at not only the district level but also the *individual school level*. The dashboard provides designated staff with graphical data displays for the district as a whole, for all schools in the district on the same page to enable comparisons across schools, and for a single, individual school. At both the district and school level, viewers can:

- compare their data with district and state averages;
- make comparisons across groups such as race/ethnicity, sexual orientation, gender identity, and many other characteristics (LCAP subgroups, chronic sadness, caring relationships); and
- examine data trends over time overall and by different demographic groups.

Viewers at both the district level and the school level have the option to download data displays as a PDF document which can be shared with stakeholders.

UNDERSTANDING THE DATA

Care must be taken to understand the factors that can impact the quality, validity, and generalizability of the results. These include changes that occur in survey content, administration, and/or sample characteristics between administrations. The following are a few of the key issues that should be kept in mind.

Representativeness

Among the most important factors affecting the quality of survey results is the level and type of student participation. The validity and representativeness of the results will be adversely affected if the student response rate is lower than 70 percent (see Table A1.1 and Appendix I for student response rates). One indication of the survey's representativeness is how accurately the sample reflects the gender and ethnic composition of the student enrollment. Even if the response rate is low, the results provide an indication of what those students who did respond felt about the school and their experiences and behavior.

Changes Between Survey Administrations

Many factors besides real changes in behavior, attitudes, or experiences among students may account for changes in results from administration to administration. Changes may be due to differences over time in the characteristics or size of the sample of students who completed the survey, changes in the questions themselves, or differences between time periods in which the survey was administered (e.g., some risk behaviors tend to increase as students age, or may increase during holidays or social events).

RESOURCES

CalSCHLS.org contains numerous guidebooks and other resources for using and understanding survey results.

- CHKS **factsheets** analyze key topics at the state level, show how data variables are related, and offer suggestions for how data can be analyzed at the local level (calschls.org/resources/factsheets).
- *Making Sense of School Climate* provides a discussion of CalSCHLS survey items that relate to school climate (data.calschls.org/resources/S3_schoolclimateguidebook_final.pdf).
- The **California Center for School Climate** (ccsc.wested.org) website houses school climate resources and guides, and archived virtual events.
- The *California Safe and Supportive Schools Newsletter* provides monthly announcements of resources, tools, webinars and workshops, and research. Sign up on ca-safe-supportive-schools.wested.org/subscribe/.
- CDE's **California Safe and Supportive Schools** website (ca-safe-supportive-schools.wested.org) contains a wealth of information and tools related to school climate improvement and social-emotional learning. It includes factsheets analyzing CalSCHLS data and *What Works Briefs* that provide guidance on strategies to implement.
- The **CalSCHLS Item Crosswalk** (calschls.org/resources/#resources_and_tools) is a handy table listing all the constructs and questions that are on two or more of the CalSCHLS surveys, along with the report table number where results can be found, to assist in the comparison of findings among students, staff, and parents.

NEXT STEPS

Receiving this report is just a beginning step in a data-driven decision-making process of continuous improvement. The following describes some additional steps you should take and some custom services (additional fees apply) available from the CalSCHLS technical advisor team. These will help in fostering effective use of the results and provide additional information to support school and program improvement efforts and the LCAP process.

Engage Students, Staff, and Parents in Reviewing the Results and Action Planning

Engage students, parents, and school/community stakeholders in reviewing and exploring the meaning of the results. Obtain their input into how the school might better meet the identified school and student needs and into developing a detailed action plan to guide school/community collaborative efforts. This communicates to stakeholders that you value their input into how to improve the school/community and gives them an opportunity for meaningful participation. By enlisting their collaboration, you also increase the prospect that the identified needs will be successfully addressed.

As part of this process, WestEd staff can facilitate a *Data Workshop* designed to identify local needs based on the survey results and engage adult stakeholders in developing a detailed plan and timetable for meeting those needs using evidence-based strategies. For more information, contact your CalSCHLS technical advisor (calschls.org/contact) or email calschls@wested.org.

Compare Results with Other Data

The value of your CHKS results will be greatly enhanced if examined in the context of the following sources of related data.

- **Staff and Parent Surveys.** If your school district has administered the CalSCHLS school staff and parent surveys, obtain these results and compare them to those provided by students. It is important to determine how consistent are student, staff, and parent perceptions and experiences. To facilitate these comparisons, the CalSCHLS Survey Item Crosswalk (calschls.org/resources/#resources_and_tools) lists all the constructs and questions that are on two or more of the CalSCHLS surveys, along with the report table number where results can be found. If your district did not administer these companion surveys, urge them to do so next time.
- **Elementary CHKS Results.** Examine how the results from 9th and 11th graders compare with those from 5th and 7th graders if your district also administered the CHKS at these school levels. The elementary, middle, and high school surveys contain common indicators that will enable you to gain a sense of the developmental trajectory in these indicators and explore what programs at the elementary and middle school levels might help mitigate problems that are evident among older students.
- **Other Data.** Examine how the results compare with other youth data collected within the district that relate to the variables assessed. Other relevant school-related data include discipline referrals, school demographic information, school vandalism costs, and behavioral observations in classrooms.
- **Similar District and Statewide Results.** The results from the biennial state administration of the CHKS, which provide representative state norms, can be downloaded from the CalSCHLS website (data.calschls.org/resources/Biennial_State_1921.pdf) or examined on the CalSCHLS Data Dashboard (calschls.org/reports-data/dashboard). If there is a school district that you consider similar to your own, you can also check to see if they have administered the survey and download the results for comparison (calschls.org/reports-data/search-lea-reports). How

you compare to state and district results can provide some context for your results, but the most important consideration is what your own results say about the students in your school/community.

Data Workshop

To assist in your review of the survey results, you can request your CalSCHLS technical advisor to conduct a structured, customized *Data Workshop*. In this workshop, a survey specialist works with district stakeholders to promote better understanding of the results and to identify local needs that need to be addressed. The workshops can also include engaging stakeholders in developing a detailed Action Plan and timetable for meeting those needs using evidence-based strategies. For more information, contact your CalSCHLS technical advisor (calschls.org/contact) or email calschls@wested.org.

Request Additional Reports and Data

As you review your data with stakeholders, you may find that additional data needs emerge. The following custom services are available to help delve more deeply into your survey results and foster more effective use of the results in support of school and program improvement efforts and the LCAP process.

School Climate Report Cards, Mental Health Reports, and School Boredom Reports

In addition to this school-level report with all the survey results, three additional reports are available:

- A short, user-friendly, graphic **School Climate Report Card** that provides trends across key indicators of school climate and provides two-year state averages on those indicators (calschls.org/reports-data/#slcr)
- A graphic **Mental Health Report** that describes key indicators of mental health by grade level and by survey administration year (calschls.org/reports-data/#slcr)
- A **School Boredom Report** that describes how much students value school and how bored they feel at school (calschls.org/reports-data/#slcr)

Disaggregated Reports

CalSCHLS staff can produce full reports that look at how results vary by demographic subgroups (e.g., race/ethnicity), or by other characteristics of youth, such as those who are low in academic motivation compared to those who are high. This can be valuable for identifying what subgroups need to be targeted with what resources and programs. Given the LCAP requirement that districts identify and address the needs of underserved subgroups, doing this would be a natural next step for addressing subgroup disparities.

Additional Analysis of Data

The complete dataset is available electronically for additional analysis (calschls.org/reports-data). The dataset enables analyses of patterns in the results, how they are interrelated, and how they vary by different subgroups of students and across schools within a district. You can also request an analysis by WestEd staff of any topic of interest.

Add Questions to Your Next Surveys

Determine what additional information is needed from students to guide school improvement efforts and add questions to your next CHKS, staff, or parent surveys. All three surveys are designed so that schools can add additional questions to help them conduct a more individualized and comprehensive assessment.

For more information about survey planning or technical assistance in understanding survey results and developing effective action plans to address identified needs, call the CalSCHLS helpline (562.799.5460) or email calschls@wested.org.

Exhibit 1

Major School-Related Domains and Constructs Assessed by CalSCHLS in Secondary Schools

	Student Core	Student School Climate	Student Social Emotional Health	Staff Survey	Parent Survey
Student Learning Engagement					
Academic mindset			✓		
Academic motivation	✓	✓		✓	✓
Academic performance (grades)	✓				
Attendance (absences and reasons absent)	✓			✓	
School boredom	✓				
School connectedness	✓				
Student Social-Emotional and Physical Well-being					
Alcohol, tobacco, and drug use	✓			✓	✓
Behavioral self-control			✓		
Bedtime	✓				
Collaboration			✓

Core Module Results

1. Survey Sample

Table A1.1

Student Sample for Core Module

	Grade 9	Grade 11
<i>Student Sample Size</i>		
Target sample	347	290
Final number	225	112
Response Rate	65%	39%

Table A1.2

Number of Respondents by Instructional Model

	Grade 9	Grade 11
In-school learning only	223	110
Remote learning only	2	2

2. Summary of Key Indicators

Table A2.1

Key Indicators of School Climate

	Grade 9 %	Grade 11 %	Table
School Engagement and Supports			
School connectedness [†]	54	49	A6.4
School connectedness ^{†ψ} (<i>Remote Only</i>)			A6.4
Academic motivation [†]	59	55	A6.4
School is really boring [±]	48	44	A6.11
School is worthless and a waste of time [±]	17	12	A6.11
Current absenteeism (≥3 times) [¶]	12	18	A6.2
Trouble focusing on schoolwork ^σ	44	41	A6.10
Caring adult relationships [‡]	53	59	A6.4
High expectations [‡]	63	67	A6.4
Meaningful participation [‡]	23	24	A6.4
Facilities upkeep ^σ	59	46	A6.15
Promotion of parental involvement in school [†]	41	44	A6.4
School Safety and Cyberbullying			
School perceived as very safe or safe	65	56	A8.1
Experienced any harassment or bullying [§]	32	20	A8.2
Had mean rumors or lies spread about you [§]	28	28	A8.3
Been afraid of being beaten up [§]	13	15	A8.3
Been in a physical fight [§]	6	8	A8.4
Seen a weapon on campus [§]	10	4	A8.6
Cyberbullying [§]	21	19	A8.3

Notes: Cells are empty if there are less than 10 respondents.

[†] Average percent of respondents reporting “Agree” or “Strongly agree” across survey questions that comprise the scale.

^ψ The scale was based on four questions for remote respondents.

[±] Rating of 7 or higher.

[¶] Past 30 days.

^σ Percent of respondents reporting “Agree” or “Strongly agree.”

[‡] Average percent of respondents reporting “Pretty much true” or “Very much true” across survey questions that comprise the scale.

[§] Past 12 months.

Table A2.2**Key Indicators of Substance Use, Health Routines, and Remote Schooling**

	Grade 9 %	Grade 11 %	Table
Substance Use			
Current alcohol or drug use [¶]	5	6	A9.5
Current tobacco use [¶]	4	3	A10.8
Current marijuana use [¶]	3	5	A9.5
Current binge drinking [¶]	0	3	A9.5
Very drunk or “high” 7 or more times, ever	2	6	A9.7
Been drunk or “high” on drugs at school, ever	2	4	A9.9
Current cigarette smoking [¶]	0	0	A10.5
Current use of vape products [¶]	5	4	A10.6
Current tobacco vaping [¶]	4	3	A10.6
Current marijuana vaping [¶]	3	3	A10.6
Health Routines			
Eating of breakfast [‡]	56	58	A4.1
Bedtime (at 12 am or later)	27	20	A4.2
Remote Schooling			
Remote learning frequency (5 days per week) ^{¶δ}			A5.1
Synchronous instruction (4 days or more) ^{‡δ}			A5.1
Interest in schoolwork done from home ^{σδ}			A5.3
Meaningful opportunities ^{θδ}			A5.2

Notes: Cells are empty if there are less than 10 respondents.

[¶]Past 30 days.

[‡]Today.

^δRemote only.

[‡]Past 7 days.

^σPercent of respondents reporting “Agree” or “Strongly agree.”

^θPercent of respondents reporting “Pretty much true” or “Very much true.”

Table A2.3**Key Indicators of Student Well-Being**

	Grade 9 %	Grade 11 %	Table
Social and Emotional Health			
Social emotional distress [‡]	24	24	A7.5
Experienced chronic sadness/hopelessness [§]	25	31	A7.1
Considered suicide [§]	10	10	A7.2
Optimism [‡]	44	43	A7.3
Life satisfaction [⊖]	65	64	A7.4
	Grade 9	Grade 11	
California Student Wellness Index [∘]	102.5	101.4	NP

Notes: Cells are empty if there are less than 10 respondents.

[‡]Average percent of respondents reporting “Pretty much true” or “Very much true” across survey questions that comprise the scale.

[§]Past 12 months.

[⊖]Average percent of respondents reporting “Satisfied” or “Very satisfied” across survey questions that comprise the scale.

[∘]To construct the index, the ten items that comprise both the social emotional distress and life satisfaction scales were each recoded such that the lowest possible score on each item was zero. These scores were then added together, resulting in a total raw score that could vary between 0 and 40. To calculate the scale score for the Student Wellness Index, the raw score was divided by the maximum possible score (40). Additionally, for clearer comparisons across groups and for interpreting future trends across time, a standardized version of the Student Wellness Index was constructed based on statewide data from the 2021-23 Biennial State CHKS. The standardized score (presented in the table) is scaled to have a mean score of 100 and a standard deviation of 15.

NP-Not presented in an individual table.

3. Demographics

Table A3.1

School Schedule, Past 30 Days

	Grade 9 %	Grade 11 %
In-School Model	99	98
Remote Learning Model	1	2

Question HS/MS A.1: Which of the following best describes your school schedule during the past 30 days?

Notes: Cells are empty if there are less than 10 respondents.

In-School Model - Respondents selecting “I went to school in person at my school building for the entire day, Monday through Friday.”

Remote Learning Model - Respondents selecting “I participated in school from home for the entire day on most or all weekdays and did not go to school in person.”

Table A3.2

Gender of Sample

	Grade 9 %	Grade 11 %
Male	54	44
Female	45	54
Nonbinary	1	2
Something else	0	1

Question HS/MS A.3: What is your gender?

Note: Cells are empty if there are less than 10 respondents.

Table A3.3

Gender Identity

	Grade 9 %	Grade 11 %
No, I am not transgender	93	88
Yes, I am transgender	0	4
I am not sure if I am transgender	1	1
Decline to respond	5	6

Question HS/MS A.4: Some people describe themselves as transgender when how they think or feel about their gender is different from the sex they were assigned at birth. Are you transgender?

Note: Cells are empty if there are less than 10 respondents.

Table A3.4***Sexual Orientation***

	Grade 9 %	Grade 11 %
Heterosexual (straight)	78	79
Lesbian or Gay	3	3
Bisexual	8	4
Something else	2	5
Not sure	3	3
Decline to respond	8	6

Question HS/MS A.5: Which of the following best describes you?

Note: Cells are empty if there are less than 10 respondents.

Table A3.5***Race or Ethnicity***

	Grade 9 %	Grade 11 %
American Indian or Alaska Native, non-Hispanic	0	1
Asian or Asian American, non-Hispanic	2	1
Black or African American, non-Hispanic	3	0
Hispanic or Latino/a	21	26
Native Hawaiian or Pacific Islander, non-Hispanic	2	0
White, non-Hispanic	59	62
Multiracial, non-Hispanic	10	8
Something else, non-Hispanic	4	2

Question HS/MS A.6: What is your race or ethnicity? (Mark All That Apply)... American Indian or Alaska Native... Asian or Asian American... Black or African American... Hispanic or Latino/a... Native Hawaiian or Pacific Islander... White... Something else.

Note: Cells are empty if there are less than 10 respondents.

Table A3.6
Living Arrangements and Housing Status

	Grade 9 %	Grade 11 %
A home with one or more parent or guardian	94	91
Other relative's home	1	2
A home with more than one family	2	1
Friend's home	0	3
Foster home, group care, or waiting placement	0	0
Hotel or motel	0	0
Shelter, car, campground, or other transitional or temporary housing	0	0
Other living arrangement	2	4

Question HS/MS A.9: What best describes where you live? A home includes a house, apartment, trailer, or mobile home.

Note: Cells are empty if there are less than 10 respondents.

Table A3.7
Living Situation

	Grade 9 %	Grade 11 %
Home with one or more parent or guardian	94	91
Foster home	0	0
Homeless	0	3
Other living arrangement	5	7

Question HS/MS A.9: What best describes where you live? A home includes a house, apartment, trailer, or mobile home.

Notes: Cells are empty if there are less than 10 respondents.

Category "Homeless" includes "Friend's home," "Hotel or motel," and "Shelter, car, campground, or other transitional or temporary housing."

Category "Other living arrangement" includes "Other relative's home," "A home with more than one family," and "Other living arrangement."

Table A3.8***Parental Education***

	Grade 9 %	Grade 11 %
Did not finish high school	3	10
Graduated from high school	19	18
Attended college but did not complete four-year degree	19	19
Graduated from college	42	42
Don't know	16	11

Question HS/MS A.10: What is the highest level of education your parents or guardians completed? (Mark the educational level of the parent or guardian who went the furthest in school.)

Note: Cells are empty if there are less than 10 respondents.

Table A3.9***Special Education Services***

	Grade 9 %	Grade 11 %
No	78	74
Yes	8	13
Don't know	11	12
Prefer not to say	2	1

Question HS/MS A.15: Do you have an IEP (Individualized Education Plan) or get special education services?

Note: Cells are empty if there are less than 10 respondents.

Table A3.10***English Learner Program Designation***

	Grade 9 %	Grade 11 %
No	87	87
Yes	2	2
Don't know	11	11

Question HS/MS A.13: Are you in the English Learner Program at school?

Note: Cells are empty if there are less than 10 respondents.

Table A3.11***English Learner (EL) Program Duration and Long-Term English Learner (LTEL) Status***

	Grade 9 %	Grade 11 %
Not currently in English Learner Program	98	98
Less than 7 years (EL)	2	2
7 years or more (LTEL)	0	0

Question HS/MS A.13, 14: Are you in the English Learner Program at school?... How many years have you been in the English Learner Program across all schools you've attended?

Notes: Cells are empty if there are less than 10 respondents.

Category "Less than 7 years (EL)" includes responses "Less than 3 years," "3 to 4 years," and "5 to 6 years."

Table A3.12***Language Spoken at Home***

	Grade 9 %	Grade 11 %
English	90	88
Spanish	4	8
Mandarin	0	0
Cantonese	0	0
Taiwanese	0	0
Tagalog	0	0
Vietnamese	0	0
Korean	0	0
Arabic	1	0
Other	5	5

Question HS/MS A.12: What language is spoken most of the time in your home?

Note: Cells are empty if there are less than 10 respondents.

Table A3.13

English Language Proficiency Among Students Speaking a Language Other Than English at Home

	Grade 9 %	Grade 11 %
<i>How well do you...</i>		
understand English?		
Very well	91	69
Well	5	23
Not well	0	8
Not at all	5	0
speak English?		
Very well	82	69
Well	9	23
Not well	5	8
Not at all	5	0
read English?		
Very well	77	67
Well	14	25
Not well	5	8
Not at all	5	0
write English?		
Very well	73	50
Well	23	33
Not well	0	17
Not at all	5	0
<i>English Language Proficiency Status</i>		
Proficient	77	67
Not proficient	23	33

Question HS/MS A.12, 12A-12D: What language is spoken most of the time in your home?... How well do you understand, speak, read, and write English?... Understand English... Speak English... Read English... Write English.

Notes: Cells are empty if there are less than 10 respondents.

English Language Proficiency was determined by creating a scale score using four survey questions: how well do you understand... speak... read... and write English? Response options are reverse coded so higher values indicate higher English proficiency level (“Not at all” (1); “Not well” (2); “Well” (3); and “Very well” (4)). The scale score was computed by averaging the survey responses. Respondents are categorized as “Proficient” or “Not Proficient” based on the English language proficiency scale.

Proficient: students with average item response > 3.5; and

Not Proficient: students with average item response ≤ 3.5.

Table A3.14***Number of Days Attending Afterschool Program***

	Grade 9 %	Grade 11 %
I do not attend my school's afterschool program	82	86
1 day	0	0
2 days	2	3
3 days	2	2
4 days	7	1
5 days	7	9

Question HS/MS A.19: How many days a week do you usually go to your school's afterschool program?

Note: Cells are empty if there are less than 10 respondents.

Table A3.15***Military Connections***

	Grade 9 %	Grade 11 %
No	95	96
Yes	4	3
Don't know	0	1

Question HS/MS A.11: Is your father, mother, or guardian currently in the military (Army, Navy, Marines, Air Force, National Guard, or Reserves)?

Note: Cells are empty if there are less than 10 respondents.

4. Health Routines

Table A4.1

Eating of Breakfast

	Grade 9 %	Grade 11 %
No	44	42
Yes	56	58

Question HS/MS A.17: Did you eat breakfast today?

Note: Cells are empty if there are less than 10 respondents.

Table A4.2

Bedtime

	Grade 9 %	Grade 11 %
Before 7:00 pm	0	3
7:00-7:59 pm	0	0
8:00-8:59 pm	2	4
9:00-9:59 pm	14	12
10:00-10:59 pm	31	35
11:00-11:59 pm	25	26
12:00-12:59 am	12	11
After 1:00 am	15	8
<i>Bedtime at 12 am or later</i>	27	20

Question HS/MS A.16: What time did you go to bed last night?

Note: Cells are empty if there are less than 10 respondents.

5. Remote Schooling

Results in this section are applicable to students who indicated that they attend school remotely. Responses from students attending school in-person are not included.

Table A5.1

Remote Schooling Schedule and Instructional Time (Remote Only)

	Grade 9 %	Grade 11 %
Time spent on learning and completing schoolwork from home on the average weekday		
Less than 1 hour		
Between 1 and 2 hours		
Between 2 and 3 hours		
Between 3 and 4 hours		
Between 4 and 5 hours		
More than 5 hours		
Number of days in the past week participating in an online class from home where your teacher talked to students		
0 days		
1 day		
2 days		
3 days		
4 days		
5 days		
Number of weekdays participating in school from home for the entire school day		
0 days		
1 day		
2 days		
3 days		
4 days		
5 days		

Question HS/MS A.20-22: In the past 30 days, how many weekdays in an average week did you participate in school from home for an entire school day?.. On the average weekday, how much of your day did you spend learning and completing schoolwork from home?... How many days in the past week did you participate in an online class from home where your teacher talked to students from a computer, phone, or tablet (iPad)?

Note: Cells are empty if there are less than 10 respondents.

Table A5.2

Interesting Activities Provided for Student in Remote Schooling (Remote Only)

	Grade 9 %	Grade 11 %
Not at all true		
A little true		
Pretty much true		
Very much true		

Question HS/MS A.49: There is a teacher or some other adult from my school... who provides me with interesting activities to do while I am participating in school from home.

Note: Cells are empty if there are less than 10 respondents.

Table A5.3

Interest in Schoolwork Done from Home (Remote Only)

	Grade 9 %	Grade 11 %
Strongly disagree		
Disagree		
Neither disagree nor agree		
Agree		
Strongly agree		

Question HS/MS A.40: How strongly do you agree or disagree with the following statements?... I am interested in the schoolwork I do when participating in school from home.

Note: Cells are empty if there are less than 10 respondents.

6. School Performance, Engagement, and Supports

Table A6.1
Grades, Past 12 Months

	Grade 9 %	Grade 11 %
Mostly A's	26	30
A's and B's	38	38
Mostly B's	9	7
B's and C's	15	16
Mostly C's	4	4
C's and D's	5	4
Mostly D's	1	1
Mostly F's	2	1

Question HS/MS A.24: During the past 12 months, how would you describe the grades you mostly received in school?

Note: Cells are empty if there are less than 10 respondents.

Table A6.2
Absences, Past 30 Days

	Grade 9 %	Grade 11 %
I did not miss any days of school in the past 30 days	44	42
1 day	26	26
2 days	19	14
3 or more days	12	18

Question HS/MS A.18, 23: In the past 30 days, how often did you miss an entire day of school for any reason? [In-School only]. In the past 30 days, how often did you miss an entire day of remote learning classes for any reason? [Remote only]

Note: Cells are empty if there are less than 10 respondents.

Table A6.3***Reasons for Absence, Past 30 Days***

	Grade 9 %	Grade 11 %
Does not apply; I didn't miss any school	38	38
Illness (feeling physically sick), including problems with breathing or your teeth	53	50
Were being bullied or mistreated at school	0	1
Felt very sad, hopeless, anxious, stressed, or angry	6	11
Didn't get enough sleep	7	9
Didn't feel safe at school or going to and from school	0	0
Had to take care of or help a family member or friend	6	5
Wanted to spend time with friends	1	0
Used alcohol or drugs	0	0
Were behind in schoolwork or weren't prepared for a test or class assignment	3	2
Were bored or uninterested in school	5	3
Had no transportation to school	2	3
Other reason	14	17

Question HS/MS A.25, 26: In the past 30 days, did you miss a day of school for any of the following reasons? (Mark All That Apply.) [In-School only]... In the past 30 days, did you miss a day of school from home for any of the following reasons? (Mark All That Apply.) [Remote only]

Notes: Cells are empty if there are less than 10 respondents.

Total percentages may exceed 100% for "mark all that apply" items.

Table A6.4***School Environment, School Connectedness, Academic Motivation, and Promotion of Parental Involvement Scales***

	Grade 9 %	Grade 11 %	Table
Total school supports	46	50	
Caring relationships-adults in school [‡]	53	59	A6.5
High expectations-adults in school [‡]	63	67	A6.6
Meaningful participation at school [‡]	23	24	A6.7
School connectedness [†]	54	49	A6.8
School connectedness ^{†ψ} <i>(Remote Only)</i>			A6.8
Academic motivation [†]	59	55	A6.9
Promotion of parental involvement in school [†]	41	44	A6.13

Notes: Cells are empty if there are less than 10 respondents.

[‡]*Scales are based on average of respondents reporting “Pretty much true” or “Very much true.”*

[†]*Scales are based on average of respondents reporting “Agree” or “Strongly agree.”*

^ψ*The scale was based on four questions for remote respondents.*

Table numbers refer to tables with item-level results for the survey questions that comprise each scale.

Table A6.5
Caring Relationships Scale Questions

	Grade 9 %	Grade 11 %
Caring relationships-adults in school		
<i>Average reporting “Pretty much true” or “Very much true”</i>	53	59
<i>There is a teacher or some other adult from my school... who really cares about me.</i>		
Not at all true	8	10
A little true	43	23
Pretty much true	34	38
Very much true	16	30
<i>who notices when I’m not there.</i>		
Not at all true	17	10
A little true	31	41
Pretty much true	36	29
Very much true	16	20
<i>who listens to me when I have something to say.</i>		
Not at all true	11	10
A little true	31	31
Pretty much true	42	36
Very much true	16	24

Question HS/MS A.47, 50, 53: There is a teacher or some other adult from my school... who really cares about me... who notices when I’m not there... who listens to me when I have something to say.

Note: Cells are empty if there are less than 10 respondents.

Table A6.6***High Expectations Scale Questions***

	Grade 9 %	Grade 11 %
High expectations-adults in school		
<i>Average reporting “Pretty much true” or “Very much true”</i>	63	67
<i>There is a teacher or some other adult from my school... who tells me when I do a good job.</i>		
Not at all true	12	9
A little true	29	30
Pretty much true	41	31
Very much true	18	30
<i>who always wants me to do my best.</i>		
Not at all true	6	4
A little true	26	24
Pretty much true	42	41
Very much true	27	31
<i>who believes that I will be a success.</i>		
Not at all true	9	7
A little true	29	25
Pretty much true	41	36
Very much true	21	33

Question HS/MS A.48, 51, 54: There is a teacher or some other adult from my school... who tells me when I do a good job... who always wants me to do my best... who believes that I will be a success.

Note: Cells are empty if there are less than 10 respondents.

Table A6.7
Meaningful Participation Scale Questions

	Grade 9 %	Grade 11 %
Meaningful participation at school		
<i>Average reporting “Pretty much true” or “Very much true”</i>	23	24
At school/When I participate in school,...		
I do interesting activities.		
Not at all true	14	16
A little true	38	38
Pretty much true	37	29
Very much true	11	16
I help decide things like class activities or rules.		
Not at all true	48	31
A little true	34	49
Pretty much true	15	17
Very much true	3	3
I do things that make a difference.		
Not at all true	41	25
A little true	37	50
Pretty much true	18	19
Very much true	3	6
I have a say in how things work.		
Not at all true	50	39
A little true	31	43
Pretty much true	15	16
Very much true	4	2
I help decide school activities or rules.		
Not at all true	69	59
A little true	20	27
Pretty much true	8	12
Very much true	3	2

Question HS/MS A.55-64: At school [In-School only],... When I participate in school [Remote only],... I do interesting activities... I help decide things like class activities or rules... I do things that make a difference... I have a say in how things work... I help decide school activities or rules.

Note: Cells are empty if there are less than 10 respondents.

Table A6.8
School Connectedness Scale Questions

	Grade 9 %	Grade 11 %
School connectedness		
<i>Average reporting “Agree” or “Strongly agree”</i>	54	49
School connectedness^ψ (Remote Only)		
<i>Average reporting “Agree” or “Strongly agree”</i>		
I feel close to people at/from this school.		
Strongly disagree	3	7
Disagree	6	9
Neither disagree nor agree	28	35
Agree	44	36
Strongly agree	18	13
I am happy with/to be at this school.		
Strongly disagree	4	9
Disagree	9	7
Neither disagree nor agree	33	36
Agree	46	40
Strongly agree	8	7
I feel like I am part of this school.		
Strongly disagree	5	7
Disagree	12	7
Neither disagree nor agree	38	40
Agree	40	40
Strongly agree	4	7

Question HS/MS A.27-34: How strongly do you agree or disagree with the following statements?... I feel close to people at this school. [In-School only]... I feel close to people from this school. [Remote only]... I am happy to be at this school. [In-School only]... I am happy with this school. [Remote only]... I feel like I am part of this school.... The teachers at this school treat students fairly. [In-School only]... The teachers treat students fairly. [Remote only]... I feel safe in my school. [In-School only]

Notes: Cells are empty if there are less than 10 respondents.

^ψThe scale was based on four questions for remote respondents.

Table A6.8***School Connectedness Scale Questions – Continued***

	Grade 9 %	Grade 11 %
The teachers at this school treat students fairly/The teachers treat students fairly.		
Strongly disagree	4	2
Disagree	7	8
Neither disagree nor agree	44	40
Agree	41	36
Strongly agree	3	14
I feel safe in my school.		
Strongly disagree	2	3
Disagree	5	6
Neither disagree nor agree	29	37
Agree	57	40
Strongly agree	7	14

Question HS/MS A.32-34 How strongly do you agree or disagree with the following statements?... The teachers at this school treat students fairly. [In-School only]... The teachers treat students fairly. [Remote only]...I feel safe in my school. [In-School only]

Note: Cells are empty if there are less than 10 respondents.

Table A6.9***Academic Motivation Scale Questions***

	Grade 9 %	Grade 11 %
Academic motivation		
<i>Average reporting “Agree” or “Strongly agree”</i>	59	55
I try hard to make sure that I am good at my schoolwork.		
Strongly disagree	1	0
Disagree	5	1
Neither disagree nor agree	18	27
Agree	51	51
Strongly agree	25	21
I try hard on my schoolwork because I am interested in it.		
Strongly disagree	9	6
Disagree	20	10
Neither disagree nor agree	40	48
Agree	25	35
Strongly agree	7	1
I work hard to try to understand new things when doing my schoolwork.		
Strongly disagree	3	1
Disagree	9	5
Neither disagree nor agree	31	41
Agree	44	50
Strongly agree	13	4
I am always trying to do better in my schoolwork.		
Strongly disagree	1	0
Disagree	4	2
Neither disagree nor agree	23	41
Agree	46	42
Strongly agree	26	16

Question HS/MS A.41-44: How strongly do you agree or disagree with the following statements?... I try hard to make sure that I am good at my schoolwork... I try hard on my schoolwork because I am interested in it... I work hard to try to understand new things when doing my schoolwork... I am always trying to do better in my schoolwork.

Note: Cells are empty if there are less than 10 respondents.

Table A6.10
Maintaining Focus on Schoolwork

	Grade 9 %	Grade 11 %
It is hard for me to stay focused when doing my schoolwork.		
Strongly disagree	4	4
Disagree	21	22
Neither disagree nor agree	31	34
Agree	31	20
Strongly agree	12	21

Question HS/MS A.39: How strongly do you agree or disagree with the following statements?... It is hard for me to stay focused when doing my schoolwork.

Note: Cells are empty if there are less than 10 respondents.

Table A6.11
School Boredom and Value of School

	Grade 9 %	Grade 11 %
School boredom		
Low (0-3)	10	18
Moderate (4-6)	42	38
High (7-10)	48	44
Value of school		
High (0-3)	55	61
Moderate (4-6)	29	26
Low (7-10)	17	12

Question HS/MS A.45, 46: How strongly do you agree or disagree with the following statements?... School is really boring (school boredom)... School is worthless and a waste of time (value of school). Response categories range from 0 (strongly disagree) to 10 (strongly agree).

Note: Cells are empty if there are less than 10 respondents.

Table A6.12
School Boredom Profile Groups

Value of School	School Boredom	Grade 9 %	Grade 11 %
High Value	Low Boredom	10	15
	Moderate Boredom	25	28
	High Boredom	20	18
Moderate Value	Moderate Boredom	15	8
	High Boredom	13	17
Low Value	High Boredom	15	9

Question HS/MS A.45, 46: How strongly do you agree or disagree with the following statements?... School is really boring (school boredom)... School is worthless and a waste of time (value of school). Response categories range from 0 (strongly disagree) to 10 (strongly agree)

Notes: Cells are empty if there are less than 10 respondents.

Students are classified as high on value of school if they selected 0, 1, 2, or 3, moderate if they selected 4, 5, or 6, and low if they selected 7, 8, 9, or 10.

Students are classified as high on school boredom if they selected 7, 8, 9, or 10, moderate if they selected 4, 5, or 6, and low if they selected 0, 1, 2, or 3.

Percentages may not add up to 100% because categories with very low responses are not reported.

Table A6.13***Promotion of Parental Involvement Scale Questions***

	Grade 9 %	Grade 11 %
Promotion of parental involvement in school		
<i>Average reporting “Agree” or “Strongly agree”</i>	41	44
Teachers at this school communicate with parents about what students are expected to learn in class.		
Strongly disagree	4	5
Disagree	9	11
Neither disagree nor agree	40	34
Agree	44	39
Strongly agree	4	11
Parents feel welcome to participate at this school.		
Strongly disagree	2	2
Disagree	9	9
Neither disagree nor agree	50	48
Agree	34	34
Strongly agree	5	7
School staff take parent concerns seriously.		
Strongly disagree	4	4
Disagree	8	13
Neither disagree nor agree	52	42
Agree	32	36
Strongly agree	4	5

Question HS/MS A.36-38: How strongly do you agree or disagree with the following statements?... Teachers at this school communicate with parents about what students are expected to learn in class... Parents feel welcome to participate at this school... School staff take parent concerns seriously.

Note: Cells are empty if there are less than 10 respondents.

Table A6.14
Checking Student Well-Being

	Grade 9 %	Grade 11 %
A teacher or some other adult from my school checks on how I am feeling.		
Not at all true	29	26
A little true	36	33
Pretty much true	23	25
Very much true	11	16

Question HS/MS A.52: There is a teacher or some other adult from my school... who checks on how I am feeling.
Note: Cells are empty if there are less than 10 respondents.

Table A6.15
Quality of School Physical Environment

	Grade 9 %	Grade 11 %
My school is usually clean and tidy.		
Strongly disagree	1	8
Disagree	9	13
Neither disagree nor agree	31	33
Agree	53	40
Strongly agree	6	6

Question HS/MS A.35: How strongly do you agree or disagree with the following statements?... My school is usually clean and tidy.
Note: Cells are empty if there are less than 10 respondents.

7. Social and Emotional Health

Table A7.1

Chronic Sad or Hopeless Feelings, Past 12 Months

	Grade 9 %	Grade 11 %
No	75	69
Yes	25	31

Question HS A.153/MS A.146: During the past 12 months, did you ever feel so sad or hopeless almost every day for two weeks or more that you stopped doing some usual activities?

Note: Cells are empty if there are less than 10 respondents.

Table A7.2

Seriously Considered Attempting Suicide, Past 12 Months

	Grade 9 %	Grade 11 %
No	90	90
Yes	10	10

Question HS A.154/MS A.147: During the past 12 months, did you ever seriously consider attempting suicide?

Note: Cells are empty if there are less than 10 respondents.

Table A7.3***Optimism Scale Questions***

	Grade 9 %	Grade 11 %
Optimism		
<i>Average reporting “Pretty much true” or “Very much true”</i>	44	43
Each day I look forward to having a lot of fun.		
Not at all true	24	24
A little true	35	35
Pretty much true	28	26
Very much true	13	15
I usually expect to have a good day.		
Not at all true	20	18
A little true	36	40
Pretty much true	31	26
Very much true	12	16
Overall, I expect more good things to happen to me than bad things.		
Not at all true	23	23
A little true	29	29
Pretty much true	31	24
Very much true	17	23

Question HS A.160-162/MS A.153-155: Please tell us how true each statement is of you... Each day I look forward to having a lot of fun... I usually expect to have a good day... Overall, I expect more good things to happen to me than bad things.

Note: Cells are empty if there are less than 10 respondents.

Table A7.4
Life Satisfaction Scale Questions

	Grade 9 %	Grade 11 %
Life satisfaction		
<i>Average reporting “Satisfied” or “Very satisfied”</i>	65	64
<i>I would describe my satisfaction with...</i>		
my family life as...		
Very dissatisfied	2	7
Dissatisfied	5	4
A little dissatisfied	7	7
A little satisfied	11	7
Satisfied	36	41
Very satisfied	39	33
my friendships as...		
Very dissatisfied	2	2
Dissatisfied	2	4
A little dissatisfied	5	8
A little satisfied	14	17
Satisfied	46	41
Very satisfied	31	27
my school experience as...		
Very dissatisfied	6	9
Dissatisfied	11	7
A little dissatisfied	15	18
A little satisfied	31	22
Satisfied	32	34
Very satisfied	6	10

Question HS A.163-165/MS A.156-158: Please describe your level of satisfaction below. I would describe my satisfaction with... my family life as... my friendships as... my school experience as...

Note: Cells are empty if there are less than 10 respondents.

Table A7.4
Life Satisfaction Scale Questions – Continued

	Grade 9 %	Grade 11 %
<i>I would describe my satisfaction with...</i>		
myself as...		
Very dissatisfied	8	7
Dissatisfied	5	9
A little dissatisfied	9	13
A little satisfied	22	15
Satisfied	34	28
Very satisfied	21	27
where I live as...		
Very dissatisfied	2	4
Dissatisfied	2	2
A little dissatisfied	5	10
A little satisfied	11	9
Satisfied	41	43
Very satisfied	40	33

Question HS A.166, 167/MS A.159, 160: Please describe your level of satisfaction below. I would describe my satisfaction with... myself as... where I live as...

Note: Cells are empty if there are less than 10 respondents.

Table A7.5
Social Emotional Distress Scale Questions

	Grade 9 %	Grade 11 %
Social emotional distress		
<i>Average reporting “Pretty much true” or “Very much true”</i>	24	24
I had a hard time relaxing.		
Not at all true	37	35
A little true	35	35
Pretty much true	19	23
Very much true	9	7
I felt sad and down.		
Not at all true	43	45
A little true	34	31
Pretty much true	14	16
Very much true	9	7
I was easily irritated.		
Not at all true	30	39
A little true	33	31
Pretty much true	23	16
Very much true	14	13
It was hard for me to cope and I thought I would panic.		
Not at all true	63	59
A little true	23	21
Pretty much true	9	12
Very much true	5	8
It was hard for me to get excited about anything.		
Not at all true	55	62
A little true	28	22
Pretty much true	10	7
Very much true	7	8

Question HS A.155-159/MS A.148-152: Over the past 30 days, how true do you feel these statements are about you?... I had a hard time relaxing... I felt sad and down... I was easily irritated... It was hard for me to cope and I thought I would panic... It was hard for me to get excited about anything.

Note: Cells are empty if there are less than 10 respondents.

8. School Violence, Victimization, and Safety

Table A8.1

Perceived Safety at School

	Grade 9 %	Grade 11 %
Very safe	11	20
Safe	54	36
Neither safe nor unsafe	30	38
Unsafe	4	4
Very unsafe	1	2

Question HS A.117/MS A.110: How safe do you feel when you are at school?

Note: Cells are empty if there are less than 10 respondents.

Table A8.2**Reasons for Harassment, Past 12 Months**

	Grade 9 %	Grade 11 %
Race, ethnicity, or national origin		
0 times	85	93
1 time	4	3
2 or more times	10	4
Religion

been made fun of, insulted, or called names?		
0 times	70	79
1 time	9	3
2 to 3 times	8	8
4 or more times	13	9
During the past 12 months, how many times did other students spread mean rumors or lies, or hurtful pictures, about you online, on social media, or on a cell phone? (Cyberbullying)		
0 times (never)	79	81
1 time	9	9
2 to 3 times	7	6
4 or more times	5	3

Question HS A.123, 124, 132, 135, 136, 151/MS A.116, 117, 125, 128, 129, 144: During the past 12 months, how many times on school property have you... been made fun of because of your looks or the way you talk? [In-school only]... had your property stolen or deliberately damaged, such as your car, clothing, or books? [In-school only]... been made fun of, insulted, or called names? [In-school only]... During the past 12 months, how many times did students from your school... make fun of you because of your looks or the way you talk? [Remote only]...make fun of you, insult you, or call you names? [Remote only]... During the past 12 months, how many times did other students spread mean rumors or lies, or hurtful pictures, about you online, on social media, or on a cell phone?

Note: Cells are empty if there are less than 10 respondents.

Table A8.4

School Violence Perpetration Scale Questions

	Grade 9 %	Grade 11 %
School violence perpetration		
<i>Average reporting “1 or more times”</i>	5	4
<i>During the past 12 months, how many times on school property have you...</i>		
been in a physical fight?		
0 times	94	92
1 time	4	4
2 to 3 times	0	0
4 or more times	2	4
been offered, sold, or given an illegal drug?		
0 times	89	92
1 time	5	2
2 to 3 times	3	5
4 or more times	3	1
damaged school property on purpose?		
0 times	97	98
1 time	1	2
2 to 3 times	1	0
4 or more times	1	0
carried a gun?		
0 times	99	100
1 time	0	0
2 to 3 times	0	0
4 or more times	1	0
carried any other weapon (such as a knife or club)?		
0 times	97	99
1 time	2	1
2 to 3 times	0	0
4 or more times	1	0

Question HS A.120, 125-128/MS A.113, 118-121: During the past 12 months, how many times on school property have you... been in a physical fight?... been offered, sold, or given an illegal drug?... damaged school property on purpose?... carried a gun?... carried any other weapon (such as a knife or club)?

Note: Cells are empty if there are less than 10 respondents.

Table A8.5***Threats and Injuries with Weapons at School, Past 12 Months***

	Grade 9 %	Grade 11 %
<i>During the past 12 months, how many times on school property have you...</i>		
been threatened with harm or injury?		
0 times	92	91
1 time	3	5
2 to 3 times	3	4
4 or more times	2	0
been threatened or injured with a weapon (gun, knife, club, etc.)?		
0 times	96	99
1 time	2	0
2 to 3 times	1	1
4 or more times	1	0

Question HS A.129, 131/MS A.122, 124: During the past 12 months, how many times on school property have you... been threatened or injured with a weapon (gun, knife, club, etc.)?... been threatened with harm or injury?

Note: Cells are empty if there are less than 10 respondents.

Table A8.6***Weapons Possession on School Property, Past 12 Months***

	Grade 9 %	Grade 11 %
<i>During the past 12 months, how many times on school property have you...</i>		
seen someone carrying a gun, knife, or other weapon?		
0 times	90	96
1 time	5	3
2 to 3 times	3	0
4 or more times	2	1

Question HS A.130/MS A.123: During the past 12 months, how many times on school property have you... seen someone carrying a gun, knife, or other weapon?

Note: Cells are empty if there are less than 10 respondents.

9. Alcohol and Other Drug Use

Table A9.1

Summary Measures of Level of AOD Use and Perceptions

	Grade 9 %	Grade 11 %	Table
Lifetime alcohol or drug use	18	17	A9.2
Lifetime marijuana use	8	8	A9.2
Lifetime very drunk or high (7 or more times)	2	6	A9.7
Current alcohol or drug use [¶]	5	6	A9.5
Current marijuana use [¶]	3	5	A9.5

Table A9.2
Summary of AOD Lifetime Use

	Grade 9 %	Grade 11 %
Alcohol	14	14
Marijuana	8	8
Inhalants	2	1
Cocaine, methamphetamine, or any amphetamines	0	1
Ecstasy, LSD, or other psychedelics	0	3
Prescription pain medication (opioids)	1	2
Cold/cough medicines or other over-the-counter medicines to get “high”	2	5
Any other drug, pill, or medicine to get “high”	1	2
<i>Any of the above AOD use</i>	18	17

Note: Cells are empty if there are less than 10 respondents.

Table A9.3
Lifetime AOD Use

	Grade 9 %	Grade 11 %
Alcohol (one full drink)		
0 times	86	86
1 time	5	4
2 to 3 times	5	4
4 or more times	4	6
Marijuana (smoke, vape, eat, or drink)		
0 times	92	92
1 time	2	1
2 to 3 times	3	1
4 or more times	3	6
Inhalants		
0 times	98	99
1 time	1	0
2 to 3 times	0	1
4 or more times	0	0
Cocaine, methamphetamine, or any amphetamines		
0 times	100	99
1 time	0	0
2 to 3 times	0	1
4 or more times	0	0
Ecstasy, LSD, or other psychedelics		
0 times	100	97
1 time	0	1
2 to 3 times	0	0
4 or more times	0	2
Prescription pain medication		
0 times	99	98
1 time	0	0
2 to 3 times	0	0
4 or more times	0	2

Question HS A.68-71, 73, 74/MS A.69-71: During your life, how many times have you used the following? One full drink of alcohol (such as a can of beer, glass of wine, hard seltzer, or shot of liquor)... Marijuana (smoke, vape, eat, or drink)... Inhalants (things you sniff, huff, or breathe to get “high” such as glue, paint, aerosol sprays, gasoline, poppers, gases)... Cocaine, methamphetamine, or any amphetamines (meth, speed, crystal, crank, ice)... Ecstasy, LSD, or other psychedelics (acid, mescaline, peyote, mushrooms)... Prescription pain medication (Vicodin, OxyContin, Percodan, Fentanyl).

Note: Cells are empty if there are less than 10 respondents.

Table A9.3***Lifetime AOD Use – Continued***

	Grade 9 %	Grade 11 %
Cold/cough medicines or other over-the-counter medicines to get “high”		
0 times	98	95
1 time	1	1
2 to 3 times	0	1
4 or more times	1	3
Any other drug, pill, or medicine to get “high” or for reasons other than medical		
0 times	99	98
1 time	0	0
2 to 3 times	0	0
4 or more times	1	2

Question HS A.75, 76/MS A.73: During your life, how many times have you used the following?... Cold/cough medicines or other over-the-counter medicines to get “high”... Any other drug, pill, or medicine to get “high” or for reasons other than medical.

Note: Cells are empty if there are less than 10 respondents.

Table A9.4
Methods of Marijuana Consumption

	Grade 9 %	Grade 11 %
<i>During your life, how many times have you used marijuana in any of the following ways...</i>		
Smoke it?		
0 times	94	95
1 time	2	0
2 to 3 times	2	1
4 or more times	3	4
In a vaping device?		
0 times	94	92
1 time	2	1
2 to 3 times	1	1
4 or more times	4	6
Eat or drink it in products made with marijuana?		
0 times	95	94
1 time	2	0
2 to 3 times	1	2
4 or more times	2	4
<i>Ever used marijuana in all three ways</i>	3	5

Question HS A.69, 80-82/MS A.70, 77-79: During your life, how many times have you used the following?... Marijuana (smoke, vape, eat, or drink)... During your life, how many times have you used marijuana in any of the following ways... Smoke it?... In a vaping device (vape pens, mods, or portable vaporizers)?... Eat or drink it in products made with marijuana?

Note: Cells are empty if there are less than 10 respondents.

Table A9.5***Current AOD Use, Past 30 Days***

	Grade 9 %	Grade 11 %
Alcohol (one or more drinks of alcohol)	3	5
Binge drinking (5 or more drinks in a row)	0	3
Marijuana (smoke, vape, eat, or drink)	3	5
Inhalants	0	0
Prescription drugs to get “high” or for reasons other than prescribed	0	1
Other drug, pill, or medicine to get “high” or for reasons other than medical	0	1
<i>Any drug use</i>	3	5
<i>Heavy drug use</i>	2	4
<i>Any AOD Use</i>	5	6
Two or more substances at the same time	0	1

Question HS A.86-92/MS A.83-87: During the past 30 days, on how many days did you use... one or more drinks of alcohol?... five or more drinks of alcohol in a row, that is, within a couple of hours?... marijuana (smoke, vape, eat, or drink)?... inhalants (things you sniff, huff, or breathe to get “high”)?... prescription drugs to get “high” or for reasons other than prescribed?... any other drug, pill, or medicine to get “high” or for reasons other than medical?... two or more substances at the same time (for example, alcohol with marijuana, ecstasy with mushrooms)?

Notes: Cells are empty if there are less than 10 respondents.

Heavy drug use was calculated based on pattern of combined current drug use on three or more days (marijuana, inhalants, prescription pain medicine to get “high” (high school only), or any other illegal drug/pill to get “high”).

Table A9.6***Frequency of Current AOD Use, Past 30 Days***

	Grade 9 %	Grade 11 %
Alcohol (one or more drinks)		
0 days	97	95
1 or 2 days	3	4
3 to 9 days	0	1
10 to 19 days	0	0
20 to 30 days	0	0
Binge drinking (5 or more drinks in a row)		
0 days	100	97
1 or 2 days	0	2
3 to 9 days	0	1
10 to 19 days	0	0
20 to 30 days	0	0
Marijuana (smoke, vape, eat, or drink)		
0 days	97	95
1 or 2 days	1	2
3 to 9 days	1	1
10 to 19 days	0	0
20 to 30 days	0	2

Question HS A.86-88/MS A.83-85: During the past 30 days, on how many days did you use... one or more drinks of alcohol?... five or more drinks of alcohol in a row, that is, within a couple of hours?... marijuana (smoke, vape, eat, or drink)?

Note: Cells are empty if there are less than 10 respondents.

Table A9.7***Lifetime Drunk or “High”***

	Grade 9 %	Grade 11 %
Very drunk or sick after drinking alcohol		
0 times	96	92
1 to 2 times	3	6
3 to 6 times	1	2
7 or more times	0	0
“High” (loaded, stoned, or wasted) from using drugs		
0 times	94	89
1 to 2 times	2	2
3 to 6 times	2	3
7 or more times	2	6
<i>Very drunk or “high” 7 or more times</i>	2	6

Question HS A.77, 78/MS A.74, 75: During your life, how many times have you been... very drunk or sick after drinking alcohol?... “high” (loaded, stoned, or wasted) from using drugs?

Note: Cells are empty if there are less than 10 respondents.

Table A9.8***Current AOD Use on School Property, Past 30 Days***

	Grade 9 %	Grade 11 %
Alcohol		
0 days	99	98
1 to 2 days	1	1
3 or more days	0	1
Marijuana (smoke, vape, eat, or drink)		
0 days	99	97
1 to 2 days	1	1
3 or more days	0	2
Any other drug, pill, or medicine to get “high” or for reasons other than medical		
0 days	100	99
1 to 2 days	0	1
3 or more days	0	0
<i>Any of the above</i>	1	4

Question HS A.96-98/MS A.91-93: During the past 30 days, on how many days on school property did you... have at least one drink of alcohol?... use marijuana (smoke, vape, eat, or drink)?... use any other drug, pill, or medicine to get “high” or for reasons other than medical?

Note: Cells are empty if there are less than 10 respondents.

Table A9.9***Lifetime Drunk or “High” on School Property***

	Grade 9 %	Grade 11 %
0 times	98	96
1 to 2 times	2	1
3 to 6 times	0	2
7 or more times	0	1

Question HS A.79/MS A.76: During your life, how many times have you been... drunk on alcohol or “high” on drugs on school property?

Note: Cells are empty if there are less than 10 respondents.

Table A9.10
Cessation Attempts

	Grade 9 %	Grade 11 %
Alcohol		
Does not apply, don't use	95	93
0 times	3	1
1 time	2	5
2 to 3 times	0	0
4 or more times	1	1
Marijuana		
Does not apply, don't use	94	95
0 times	1	0
1 time	4	5
2 to 3 times	1	0
4 or more times	1	0

Question HS A.68, 69, 114, 115: During your life, how many times have you used the following?... One full drink of alcohol (such as a can of beer, glass of wine, hard seltzer, or shot of liquor)... Marijuana (smoke, vape, eat, or drink)... How many times have you tried to quit or stop using... alcohol?... marijuana?

Notes: Cells are empty if there are less than 10 respondents.

Respondents reporting "0 times" on lifetime alcohol and marijuana use are coded as "Does not apply, don't use" on alcohol and marijuana cessation attempts, respectively.

Table A9.11***Perceived Harm of AOD Use***

	Grade 9 %	Grade 11 %
Alcohol - drink occasionally		
Great	27	35
Moderate	25	20
Slight	25	26
None	23	20
Alcohol - 5 or more drinks once or twice a week		
Great	52	52
Moderate	18	22
Slight	12	7
None	18	19
Marijuana - use occasionally		
Great	32	35
Moderate	28	30
Slight	18	17
None	22	18
Marijuana - use daily		
Great	57	53
Moderate	16	21
Slight	7	11
None	20	15

*Question HS A.104-107/MS A.99-102: How much do people risk harming themselves physically and in other ways when they do the following?... Drink alcohol (beer, wine, liquor) occasionally... Have five or more drinks of alcohol once or twice a week... Use marijuana occasionally (smoke, vape, eat, or drink) ... Use marijuana daily.
Note: Cells are empty if there are less than 10 respondents.*

Table A9.12***Perceived Difficulty of Obtaining Alcohol, Marijuana, and Prescription Drugs to Get “High”***

	Grade 9 %	Grade 11 %
Alcohol		
Very difficult	6	9
Fairly difficult	12	8
Fairly easy	20	25
Very easy	12	16
Don't know	48	42
Marijuana		
Very difficult	9	9
Fairly difficult	8	7
Fairly easy	17	20
Very easy	16	22
Don't know	50	42
Prescription drugs to get “high” or for reasons other than prescribed		
Very difficult	6	13
Fairly difficult	10	11
Fairly easy	20	17
Very easy	10	12
Don't know	53	47

Question HS A.110-112/MS A.105-107: How difficult is it for students in your grade to get any of the following if they really want them?... Alcohol... Marijuana... Prescription drugs to get “high” or for reasons other than prescribed.

Note: Cells are empty if there are less than 10 respondents.

10. Use of Tobacco and Vaping Devices

Table A10.1

Summary of Key CHKS Tobacco Indicators

	Grade 9 %	Grade 11 %	Table
Use Prevalence and Patterns			
Ever smoked a whole cigarette	3	4	A10.2
Current cigarette smoking [¶]	0	0	A10.5
Current cigarette smoking at school [¶]	0	0	A10.9
Ever tried smokeless tobacco	3	4	A10.2
Current smokeless tobacco use [¶]	0	0	A10.5
Current smokeless tobacco use at school [¶]	1	0	A10.9
Ever used vape products	11	11	A10.2
Current use of vape products [¶]	5	4	A10.5
Current tobacco vaping [¶]	4	3	A10.6
Current marijuana vaping [¶]	3	3	A10.6
Current vaping at school [¶]	1	2	A10.9
Lifetime tobacco use	10	9	A10.2
Current tobacco use [¶]	4	3	A10.8
Cessation Attempts			
Tried to quit smoking or vaping tobacco or nicotine	4	7	A10.14
Attitudes and Correlates			
Harmfulness of occasional cigarette smoking ^B	30	37	A10.15
Harmfulness of smoking 1 or more packs/day ^B	64	60	A10.15
Harmfulness of vaping occasionally ^B	33	38	A10.16
Harmfulness of vaping several times a day ^B	63	64	A10.16
Difficulty of obtaining cigarettes ^C	7	9	A10.17
Difficulty of obtaining vape products ^C	5	8	A10.17
Anti-Tobacco Policy			
School bans tobacco use and vaping	67	75	A10.18

Notes: Cells are empty if there are less than 10 respondents.

[¶]Past 30 days.

^BGreat harm.

^CVery difficult.

Table A10.2
Lifetime Tobacco Use and Vaping

	Grade 9 %	Grade 11 %
A whole cigarette		
0 times	97	96
1 time	1	3
2 to 3 times	1	1
4 or more times	0	0
Smokeless tobacco		
0 times	97	96
1 time	1	1

Native Hawaiian or Pacific Islander		
White	103.0	103.5
Multiracial	103.2	
Something else		

Notes: Cells are empty if there are less than 10 respondents.

^o*To construct the index, the ten items that comprise both the social emotional distress and life satisfaction scales were each recoded such that the lowest possible score on each item was zero. These scores were then added together, resulting in a total raw score that could vary between 0 and 40. To calculate the scale score for the Student Wellness Index, the raw score was divided by the maximum possible score (40). Additionally, for clearer comparisons across groups and for interpreting future trends across time, a standardized version of the Student Wellness Index was constructed based on statewide data from the 2021-23 Biennial State CHKS. The standardized score (presented in the table) is scaled to have a mean score of 100 and a standard deviation of 15.*

Notes: Cells are empty if there are less than 10 respondents.

[‡]Average percent of respondents reporting “Satisfied” or “Very satisfied” across survey questions that comprise the scale.

[°]To construct the index, the ten items that comprise both the social emotional distress and life satisfaction scales were each recoded such that the lowest possible score on each item was zero. These scores were then added together, resulting in a total raw score that could vary between 0 and 40. To calculate the scale score for the Student Wellness Index, the raw score was divided by the maximum possible score (40). Additionally, for clearer comparisons across groups and for interpreting future trends across time, a standardized version of the Student Wellness Index was constructed based on statewide data from the 2021-23 Biennial State CHKS. The standardized score (presented in the table) is scaled to have a mean score of 100 and a standard deviation of 15.

[§] Past 12 months.

[¶] Average percent of respondents reporting “Satisfied” or “Very satisfied” across survey questions that comprise the scale.

Table A16.7

Social and Emotional Health by English Learner (EL) Program Duration – Continued

	Grade 9	Grade 11
California Student Wellness Index⁶		
Not currently in English Learner Program	102.4	101.5
Less than 7 years (EL)		
7 years or more (LTEL)		

Notes: Cells are empty if there are less than 10 respondents.

⁶*To construct the index, the ten items that comprise both the social emotional distress and life satisfaction scales were each recoded such that the lowest possible score on each item was zero. These scores were then added together, resulting in a total raw score that could vary between 0 and 40. To calculate the scale score for the Student Wellness Index, the raw score was divided by the maximum possible score (40). Additionally, for clearer comparisons across groups and for interpreting future trends across time, a standardized version of the Student Wellness Index was constructed based on statewide data from the 2021-23 Biennial State CHKS. The standardized score (presented in the table) is scaled to have a mean score of 100 and a standard deviation of 15.*

Behavioral Health Module

Form A. Alcohol and Other Drugs (AOD)

1. Student Sample

Table B.I.1.1
Student Sample for AOD Indicators

	Grade 9	Grade 11
<i>Student Sample Size</i>		
Number of respondents	81	47

Note:

Student enrollments and response rates are not presented for respondents directed to this module, as districts and schools have the flexibility to choose between randomized and non-randomized survey options. This variability makes it challenging to define a clear target for accurately calculating the response rate. Therefore, student enrollments and response rates have been omitted from this section.

2. Summary of Key Indicators

Table B.I.2.1

Key Indicators of Alcohol and Other Drug Use

	Grade 9 %	Grade 11 %	Table
Alcohol and Marijuana Consumption Patterns			
Usually drank until felt it a lot	0	4	B.I.3.4
Usually used marijuana or other drugs until felt it a lot	2	2	B.I.3.5
Driving under the influence experiences	4	5	B.I.3.6
Consequences of AOD Consumption			
Caused one or more problems	6	7	B.I.4.2
Caused one or more dependency-related experiences	9	4	B.I.4.3
Supports to Reduce AOD Use			
Very likely to find help at school for quitting or reducing use	22	14	B.I.5.2
Strong Personal Disapproval of AOD Use			
Having one or two drinks of any alcoholic beverage nearly every day	52	53	B.I.7.1
Trying marijuana once or twice	32	35	B.I.7.1
Using marijuana once a month or more	53	47	B.I.7.1

Note: Cells are empty if there are less than 10 respondents.

3. Alcohol, Tobacco, and Other Drug Consumption Patterns

Table B.I.3.1

Lifetime Use of Heroin, Sedatives, Appetite Suppressants, and Prescription Stimulants

	Grade 9 %	Grade 11 %
Heroin		
0 times	100	96
1 time	0	2
2 to 3 times	0	2
4 or more times	0	0
Tranquilizers or sedatives		
0 times	100	98
1 time	0	0
2 to 3 times	0	2
4 or more times	0	0
Appetite suppressants		
0 times	97	96
1 time	0	2
2 to 3 times	0	0
4 or more times	3	2
Ritalin or Adderall or other prescription stimulant		
0 times	97	96
1 time	0	0
2 to 3 times	0	0
4 or more times	3	4

Question HS B.I.6-9: During your life, how many times have you used the following?... Heroin... Tranquilizers or sedatives (Xanax, Klonopin, Ativan, Valium)... Appetite suppressants (Didrex, Dexedrine, Xenadrine, Skittles, M&Ms)... Ritalin or Adderall or other prescription stimulant.

Note: Cells are empty if there are less than 10 respondents.

Table B.I.3.2***Age of Onset – AOD Use***

11-12 years old	1	2
13-14 years old	2	0
15-16 years old	0	0
17 years or older	0	0
A vape product such as an e-cigarette, vape pen, or mod		
Never	88	89
10 years or under	1	2
11-12 years old	5	2
13-14 years old	4	4
15-16 years old	2	2
17 years or older	0	0

Question HS/MS B.I.2, 3: About how old were you the first time you tried any of these things?... Part or all of a cigarette... A vape product such as an e-cigarette (JUUL), vape pen, or mod.

Note: Cells are empty if there are less than 10 respondents.

Table B.I.3.4***Usual Alcohol Consumption Level***

	Grade 9 %	Grade 11 %
I don't drink alcohol	95	93
Just enough to feel it a little	1	0
Enough to feel it moderately	4	2
Until I feel it a lot or get really drunk	0	4

Question HS B.I.10/MS B.I.6: If you drink alcohol, how much do you usually drink?

Note: Cells are empty if there are less than 10 respondents.

Table B.I.3.5
Usual Drug Consumption Level

	Grade 9 %	Grade 11 %
I don't use drugs	95	96
Just enough to feel a little high	1	0
Enough to feel it moderately	1	2
Until I feel it a lot or get really high	2	2

Question HS B.I.11: If you use marijuana or other drugs, how "high" (stoned, faded, wasted, trashed) do you usually like to get?

Note: Cells are empty if there are less than 10 respondents.

Table B.I.3.6
Driving Under the Influence Experiences, Lifetime

	Grade 9 %	Grade 11 %
Driven a car when you had been using alcohol or drugs, or been in a car driven by a friend who had been using		
Never	96	95
1 time	1	0
2 times	0	0
3 to 6 times	1	0
7 or more times	1	5

Question HS B.I.35: During your life, how many times have you ever driven a car when you had been using alcohol or drugs, or been in a car driven by a friend when he or she had been using?

Note: Cells are empty if there are less than 10 respondents.

4. Reasons for and Consequences of AOD Consumption

Table B.I.4.1
Reasons for AOD Use, Past 12 Months

	Grade 9 %	Grade 11 %
Does not apply, I haven't used alcohol, marijuana, or other drugs in the past 12 months.	89	91
To experiment (try using)	6	7
To get high	6	7
To have a good time with friends	6	9
To fit in with a group you like	1	2
Because of boredom	3	4
To relax	3	4
To get away from problems	3	4
Because of anger or frustration	3	4
To get through the day	1	2
Because it made you feel better	3	4
To seek deeper insights and understanding	0	2
None of the above	9	2

Question HS B.I.12/MS B.I.7: Have you used alcoholic beverages, marijuana, or other drugs in the past 12 months for any of the following reasons? (Mark All That Apply.)

Notes: Cells are empty if there are less than 10 respondents.

Total percentages may exceed 100% for "mark all that apply" items.

Table B.I.4.2***Problems Caused by AOD Use***

	Grade 9 %	Grade 11 %
Does not apply; I've never used alcohol or drugs	90	91
I've used alcohol or drugs but never had any of these problems	5	7
Have problems with emotions, nerves, or mental health	4	2
Get into trouble or have problems with the police	0	2
Have money problems	0	2
Miss school	0	0
Have problems with schoolwork	1	2
Fight with others	1	0
Damage a friendship	3	2
Physically hurt or injure yourself	0	0
Have unwanted or unprotected sex	0	0
Forget what happened or pass out	1	2
Been suspended from school	1	2
<i>One or more problems</i>	6	7

Question HS B.I.13: Has using alcohol, marijuana, or other drugs ever caused you to have any of the following problems? (Mark All That Apply.)

Notes: Cells are empty if there are less than 10 respondents.

Total percentages may exceed 100% for "mark all that apply" items.

Table B.I.4.3***Alcohol or Other Drug Use Caused Dependency-Related Experiences***

	Grade 9 %	Grade 11 %
Does not apply; I have not used alcohol or drugs	88	93
I use alcohol or drugs but have not experienced any of these things	3	4
Found you had to increase how much you use to have the same effect as before	4	4
Frequently spent a lot of time getting, using, or being hung over from using alcohol or other drugs	0	0
Used alcohol or drugs a lot more than you intended	4	2
Used alcohol or drugs when you were alone	6	2
Your use of alcohol or drugs often kept you from doing a normal activity, like going to school, working, or doing recreational activities or hobbies	0	2
You didn't feel OK unless you had something to drink or used a drug	0	0
Thought about reducing or stopping use	4	0
Told yourself you were not going to use but found yourself using anyway	4	0
Spoke with someone about reducing or stopping use	3	0
Attended counseling, a program, or group to help you reduce or stop use	0	2
<i>One or more dependency-related experiences</i>	9	4

Question HS B.I.14: If you use alcohol, marijuana, or another drug, have you had any of the following experiences? (Mark All That Apply.)

Notes: Cells are empty if there are less than 10 respondents.

Total percentages may exceed 100% for "mark all that apply" items.

Table B.I.4.4

Likelihood of Suspension, Expulsion, Transfer Because of AOD Use/Possession

	Grade 9 %	Grade 11 %
Very likely	35	27
Likely	32	31
Not likely	12	11
Don't know	21	31

Question HS B.I.17: In your opinion, how likely is it that a student will be suspended, expelled, or transferred if caught on school property using or possessing alcohol or other drugs?

Note: Cells are empty if there are less than 10 respondents.

5. Supports to Reduce AOD Use

Table B.I.5.1
Needed Counseling for Use

	Grade 9 %	Grade 11 %
No, I never used alcohol or other drugs	89	91
No, but I do use alcohol or other drugs	7	7
Yes, I have felt that I needed help	4	2

Question HS B.I.15: Have you ever felt that you needed help (such as counseling or treatment) for your alcohol or other drug use?

Note: Cells are empty if there are less than 10 respondents.

Table B.I.5.2
Likelihood of Finding Help at School for Quitting or Reducing Use

	Grade 9 %	Grade 11 %
Very likely	22	14
Likely	32	23
Not likely	19	27
Don't know	27	36

Question HS B.I.16: In your opinion, how likely is it that a student could find help at your school from a counselor, teacher, or other adult to stop or reduce using alcohol or other drugs?

Note: Cells are empty if there are less than 10 respondents.

Table B.I.5.3
Talked with Parent About AOD Use, Past 12 Months

	Grade 9 %	Grade 11 %
No	55	73
Yes	45	27

Question HS B.I.23/MS B.I.13: During the past 12 months, have you talked with at least one of your parents or guardians about the dangers of alcohol or drug use?

Note: Cells are empty if there are less than 10 respondents.

6. Availability

Table B.I.6.1
Sources for Obtaining Alcohol

	Grade 9 %	Grade 11 %
At school	3	9
At parties	11	34
At concerts or other social events	4	16
At their own home	22	27
From adults at friends' homes	8	16
From friends or another teenager	12	27
Get adults to buy it for them	7	16
Buy it themselves from a store	8	11
At bars, clubs, or gambling casinos	4	5
Other	7	9
Don't know	74	70

Question HS B.I.18/MS B.I.8: How do most students at your school who drink alcohol usually get it? (Mark All That Apply.)

Notes: Cells are empty if there are less than 10 respondents.

Total percentages may exceed 100% for "mark all that apply" items.

Table B.I.6.2***Sources for Obtaining Marijuana***

	Grade 9 %	Grade 11 %
At school	7	20
At parties	8	27
At concerts or other social events	8	16
At their own home	10	25
From an adult acquaintance	8	18
From friends or another teenager	17	20
Buy it at a marijuana dispensary	4	9
At bars or clubs	4	2
Other	4	7
Don't know	80	73

Question HS B.I.19/MS B.I.9: How do most kids at your school who use marijuana usually get it? (Mark All That Apply.)

Notes: Cells are empty if there are less than 10 respondents.

Total percentages may exceed 100% for “mark all that apply” items.

7. Influences on ATOD Use

Table B.I.7.1

Personal Disapproval of AOD Use

	Grade 9 %	Grade 11 %
Having one or two drinks of any alcoholic beverage nearly every day		
Neither approve nor disapprove	26	42
Somewhat disapprove	22	5
Strongly disapprove	52	53
Trying marijuana once or twice		
Neither approve nor disapprove	38	56
Somewhat disapprove	31	9
Strongly disapprove	32	35
Using marijuana once a month or more regularly		
Neither approve nor disapprove	24	44
Somewhat disapprove	24	9
Strongly disapprove	53	47

Question HS B.I.20-22/MS B.I.10-12: How do you feel about someone your age doing the following?... Having one or two drinks of any alcoholic beverage nearly every day... Trying marijuana once or twice... Using marijuana once a month or more regularly.

Note: Cells are empty if there are less than 10 respondents.

Table B.I.7.2***Parent Disapproval of ATOD Use***

	Grade 9 %	Grade 11 %
Take one or two drinks of alcohol nearly every day		
Very wrong	73	77
Wrong	21	10
A little wrong	1	10
Not at all wrong	4	3
Smoke tobacco		
Very wrong	81	84
Wrong	14	8
A little wrong	1	8
Not at all wrong	3	0
Use vape products such as e-cigarettes, vape pens, or mods		
Very wrong	81	84
Wrong	12	11
A little wrong	4	5
Not at all wrong	3	0
Use marijuana (smoke, vape, eat, or drink)		
Very wrong	81	76
Wrong	12	13
A little wrong	4	11
Not at all wrong	3	0
Use prescription drugs to get high or for reasons other than prescribed		
Very wrong	86	84
Wrong	10	13
A little wrong	1	3
Not at all wrong	3	0

Question HS B.I.25-29/MS B.I.15-19: How wrong do your parents or guardians feel it would be if you did the following?... Take one or two drinks of alcohol nearly every day... Smoke tobacco... Use vape products such as e-cigarettes (JUUL), vape pens, or mods... Use marijuana (smoke, vape, eat, or drink)... Use prescription drugs to get high or for reasons other than prescribed.

Note: Cells are empty if there are less than 10 respondents.

Table B.I.7.3**Peer Disapproval of ATOD Use**

	Grade 9 %	Grade 11 %
Take one or two drinks of alcohol nearly every day		
Very wrong	52	63
Wrong	26	21
A little wrong	13	16
Not at all wrong	9	0
Smoke tobacco		
Very wrong	62	63
Wrong	20	26
A little wrong	9	8
Not at all wrong	9	3
Use vape products such as e-cigarettes, vape pens, or mods		
Very wrong	59	63
Wrong	19	21
A little wrong	13	11
Not at all wrong	9	5
Use marijuana (smoke, vape, eat, or drink)		
Very wrong	62	63
Wrong	16	18
A little wrong	12	13
Not at all wrong	10	5
Use prescription drugs to get high or for reasons other than prescribed		
Very wrong	67	70
Wrong	16	24
A little wrong	9	5
Not at all wrong	9	0

Question HS B.I.30-34/MS B.I.20-24: How wrong would your close friends feel it would be if you did the following?... Take one or two drinks of alcohol nearly every day... Smoke tobacco... Use vape products such as e-cigarettes (JUUL), vape pens, or mods... Use marijuana (smoke, vape, eat, or drink)... Use prescription drugs to get high or for reasons other than prescribed.

Note: Cells are empty if there are less than 10 respondents.

Table B.I.7.4

Heard, Read, or Watched Any Anti-AOD Messages, Past 12 Months

	Grade 9 %	Grade 11 %
No	42	68
Yes	58	32

Question HS B.I.24/MS B.I.14: During the past 12 months, have you heard, read, or watched any messages about not using alcohol or drugs?

Note: Cells are empty if there are less than 10 respondents.

Behavioral Health Module

Form B. Other Behavioral Health Factors

1. Student Sample

Table B.II.1.1

Student Sample on Other Behavioral Health Factors

	Grade 9	Grade 11
<i>Student Sample Size</i>		
Number of respondents	87	46

Note:

Student enrollments and response rates are not presented for respondents directed to this module, as districts and schools have the flexibility to choose between randomized and non-randomized survey options. This variability makes it challenging to define a clear target for accurately calculating the response rate. Therefore, student enrollments and response rates have been omitted from this section.

2. Summary of Key Indicators

Table B.II.2.1

Key Indicators of Other Behavioral Health Factors

	Grade 9 %	Grade 11 %	Table
Behavioral Health Protective Factors			
Emotional safety at school [†]	57	59	B.II.3.2
School co-regulation supports [†]	48	67	B.II.3.3
Home adult co-regulation supports [†]	71	80	B.II.3.4
Peer co-regulation supports [†]	70	79	B.II.3.5
Resilience Assets			
Emotion regulation ^â	48	35	B.II.4.1
Student Wellness			
Responses to trauma ^{ê¶}	16	11	B.II.5.1
Potential Post-Traumatic Stress [¶]	29	19	B.II.5.2
Stress associated health symptoms [*]	11	15	B.II.5.3
Loneliness ^ê	40	25	B.II.5.4
Self-harm [§]	10	9	B.II.5.8
Fasting for 12 hours or more	18	22	B.II.5.7
Trouble sleeping (daily)	12	7	B.II.5.1
Mental Health Supports			
Wanted to get mental health services [§]	23	22	B.II.6.4
Received mental health services [§]	20	17	B.II.6.4
Barriers to receiving services (3 or more)	18	5	B.II.6.5

Notes: Cells are empty if there are less than 10 respondents.

Table numbers refer to tables with scale categories for domains or sub-domains, or item-level results for the survey questions that comprise each scale.

[†] Average percent of respondents reporting “Pretty much true” or “Very much true” across survey questions that comprise the scale.

^â Average percent of respondents reporting the top two response categories (“Quite relaxed,” “Extremely relaxed,” “Frequently,” “Almost always,” “Quite calm,” and “Extremely calm”) across survey questions that comprise the scale..

^ê Average percent of respondents reporting “2-3 times a week” or “Almost every day” across survey questions that comprise the scale.

[¶] Past 30 days.

^{*} Past 2 weeks.

^ê Average percent of respondents reporting “Sometimes” or “Often” across survey questions that comprise the scale.

[§] Past 12 months.

3. Behavioral Health Protective Factors

Table B.II.3.1
Perceived Safety at Home and in Neighborhood

	Grade 9 %	Grade 11 %
<i>How safe do you feel...</i>		
at home or the place where you live?		
Very safe	57	60
Safe	37	33
Neither safe nor unsafe	5	7
Unsafe	1	0
Very unsafe	0	0
in the neighborhood where you live?		
Very safe	46	51
Safe	46	33
Neither safe nor unsafe	7	13
Unsafe	1	2
Very unsafe	0	0

Question HS/MS B.II.12, 13: How safe do you feel at home or the place where you live?... How safe do you feel in the neighborhood where you live?

Note: Cells are empty if there are less than 10 respondents.

Table B.II.3.2***Emotional Safety at School Scale Questions***

	Grade 9 %	Grade 11 %
Emotional safety at school		
<i>Average reporting “Pretty much true” or “Very much true”</i>	57	59
<i>At my school,...</i>		
I feel socially accepted.		
Not at all true	10	0
A little true	31	39
Pretty much true	42	43
Very much true	17	18
I feel that I matter to others.		
Not at all true	20	9
A little true	26	34
Pretty much true	38	36
Very much true	16	20

Question HS/MS B.II.10,11: How true do you feel these statements are about your feelings at school? At my school,... I feel socially accepted... I feel that I matter to others.

Note: Cells are empty if there are less than 10 respondents.

Table B.II.3.3

School Co-Regulation Supports Scale Questions

	Grade 9 %	Grade 11 %
School co-regulation supports		
<i>Average reporting “Pretty much true” or “Very much true”</i>	48	67
<i>At my school, there is a teacher or other adult who... would understand my problems if I shared them.</i>		
Not at all true	16	13
A little true	38	20
Pretty much true	26	38
Very much true	20	29
<i>would be helpful to me if I came to school upset.</i>		
Not at all true	25	5
A little true	30	27
Pretty much true	25	39
Very much true	20	30
<i>makes me feel good about myself.</i>		
Not at all true	25	9
A little true	24	25
Pretty much true	31	36
Very much true	20	30

Question HS/MS B.II.7-9: How true do you feel these statements are about a teacher or other adult at school? At my school, there is a teacher or other adult who... would understand my problems if I shared them... would be helpful to me if I came to school upset... makes me feel good about myself.

Note: Cells are empty if there are less than 10 respondents.

Table B.II.3.4***Home Adult Co-Regulation Supports Scale Questions***

	Grade 9 %	Grade 11 %
Home adult co-regulation supports		
<i>Average reporting “Pretty much true” or “Very much true”</i>	71	80
<i>In my home, there is a parent or some other adult who... talks with me about my problems.</i>		
Not at all true	11	0
A little true	18	22
Pretty much true	27	27
Very much true	44	51
helps me when I am upset.		
Not at all true	11	2
A little true	17	18
Pretty much true	27	27
Very much true	45	52
makes me feel good about myself.		
Not at all true	10	0
A little true	23	20
Pretty much true	25	25
Very much true	42	55

Question HS/MS B.II.1-3: How true do you feel these statements are about your family? In my home, there is a parent or some other adult who... talks with me about my problems... helps me when I am upset... makes me feel good about myself.

Note: Cells are empty if there are less than 10 respondents.

Table B.II.3.5***Peer Co-Regulation Supports Scale Questions***

	Grade 9 %	Grade 11 %
Peer co-regulation supports		
<i>Average reporting “Pretty much true” or “Very much true”</i>	70	79
<i>I have a friend my age who...</i>		
talks with me about my problems.		
Not at all true	14	5
A little true	18	18
Pretty much true	25	32
Very much true	44	45
helps me when I am upset.		
Not at all true	13	7
A little true	18	18
Pretty much true	29	25
Very much true	40	50
makes me feel good about myself.		
Not at all true	7	2
A little true	21	14
Pretty much true	28	30
Very much true	44	55

Question HS/MS B.II.4-6: How true do you feel these statements are about your friends? I have a friend my age who... talks with me about my problems... helps me when I am upset... makes me feel good about myself.

Note: Cells are empty if there are less than 10 respondents.

4. Resilience Assets

Table B.II.4.1
Emotion Regulation Scale Questions

	Grade 9 %	Grade 11 %
Emotion regulation		
<i>Average reporting the top two response categories^â</i>	48	35
When everybody around you gets angry, how relaxed can you stay?		
Not relaxed at all	11	11
Slightly relaxed	28	22
Somewhat relaxed	33	36
Quite relaxed	19	13
Extremely relaxed	8	18
How often are you able to control your emotions when you need to?		
Almost never	6	2
Once in a while	8	16
Sometimes	11	30
Frequently	47	20
Almost always	28	32
When things go wrong for you, how calm are you able to remain?		
Not calm at all	4	5
Slightly calm	17	18
Somewhat calm	39	57
Quite calm	36	16
Extremely calm	4	5

Question HS/MS B.II.21-23: When everybody around you gets angry, how relaxed can you stay?... How often are you able to control your emotions when you need to?... When things go wrong for you, how calm are you able to remain?

Notes: Cells are empty if there are less than 10 respondents.

^â*The top two response categories include “Quite relaxed,” “Extremely relaxed,” “Frequently,” “Almost always,” “Quite calm,” and “Extremely calm.”*

5. Student Wellness

Table B.II.5.1
Responses to Trauma Scale Questions

	Grade 9 %	Grade 11 %
Responses to trauma		
<i>Average reporting “2-3 times a week” or “Almost every day”</i>	16	11
During the past 30 days,...		
I got upset easily or got into arguments or physical fights.		
Never	65	77
1-3 times a month	22	14
1-2 times a week	5	2
2-3 times a week	5	7
Almost every day	3	0
I had trouble concentrating or paying attention.		
Never	31	49
1-3 times a month	28	19
1-2 times a week	12	7
2-3 times a week	5	12
Almost every day	23	14
I had trouble feeling happiness or love.		
Never	56	77
1-3 times a month	26	12
1-2 times a week	11	9
2-3 times a week	1	0
Almost every day	5	2

Question HS/MS B.II.14-16: These questions ask about how you felt or what you did in the past 30 days... I got upset easily or got into arguments or physical fights... I had trouble concentrating or paying attention... I had trouble feeling happiness or love.

Note: Cells are empty if there are less than 10 respondents.

Table B.II.5.1**Responses to Trauma Scale Questions – Continued**

	Grade 9 %	Grade 11 %
During the past 30 days,...		
I felt alone even when I was around other people.		
Never	54	60
1-3 times a month	22	26
1-2 times a week	8	7
2-3 times a week	5	5
Almost every day	11	2
I had trouble going to sleep, woke up often, or had trouble getting back to sleep.		
Never	51	55
1-3 times a month	15	21
1-2 times a week	12	10
2-3 times a week	10	7
Almost every day	12	7

Question HS/MS B.II.17, 18: These questions ask about how you felt or what you did in the past 30 days... I felt alone even when I was around other people... I had trouble going to sleep, woke up often, or had trouble getting back to sleep.

Note: Cells are empty if there are less than 10 respondents.

Table B.II.5.2**Post-Traumatic Stress (PTS) Profile, Past 30 Days**

	Grade 9 %	Grade 11 %
Minimal PTS Symptoms	39	42
Mild PTS Symptoms	32	38
Potential PTS	29	19

Question HS/MS B.II.14-18: These questions ask about how you felt or what you did in the past 30 days... I got upset easily or got into arguments or physical fights... I had trouble concentrating or paying attention... I had trouble feeling happiness or love... I felt alone even when I was around other people... I had trouble going to sleep, woke up often, or had trouble getting back to sleep.

Notes: Cells are empty if there are less than 10 respondents.

PTS Profile categories are based on the UCLA Brief Screen for Child/Adolescent Trauma and PTSD.

Table B.II.5.3***Stress Associated Health Symptoms Scale Questions***

	Grade 9 %	Grade 11 %
Stress associated health symptoms		
<i>Average reporting “A lot” or “A whole lot”</i>	11	15
<i>In the last 2 weeks, how much were you bothered by the following physical problems?</i>		
Stomachaches		
Not at all	42	53
A little	25	14
Some	25	16
A lot	3	16
A whole lot	6	0
Headaches		
Not at all	22	42
A little	28	21
Some	36	21
A lot	7	7
A whole lot	7	9
Pains in your lower back		
Not at all	45	43
A little	14	10
Some	26	26
A lot	6	10
A whole lot	9	12

Question HS/MS B.II.27-29: Below is a list of symptoms that students sometimes have. In the last 2 weeks, how much were you bothered by the following physical problems?... Stomachaches... Headaches... Pains in your lower back.

Note: Cells are empty if there are less than 10 respondents.

Table B.II.5.3***Stress Associated Health Symptoms Scale Questions – Continued***

	Grade 9 %	Grade 11 %
<i>In the last 2 weeks, how much were you bothered by the following physical problems?</i>		
Feeling faint or dizzy		
Not at all	59	56
A little	16	21
Some	13	12
A lot	4	9
A whole lot	7	2
Heart beating too fast (even when you are not exercising)		
Not at all	65	74
A little	16	7
Some	14	7
A lot	0	12
A whole lot	4	0

Question HS/MS B.II.30, 31: Below is a list of symptoms that students sometimes have. In the last 2 weeks, how much were you bothered by the following physical problems?... Feeling faint or dizzy... Heart beating too fast (even when you are not exercising).

Note: Cells are empty if there are less than 10 respondents.

Table B.II.5.4
Loneliness Scale Questions

	Grade 9 %	Grade 11 %
Loneliness		
<i>Average reporting “Sometimes” or “Often”</i>	40	25
How often do you feel lonely?		
Never	32	42
Rarely	26	28
Sometimes	27	26
Often	15	5
How often do you feel that you are no longer close to anyone?		
Never	42	60
Rarely	20	21
Sometimes	27	12
Often	11	7

Question HS/MS B.II.19, 20: How often do you feel lonely?... How often do you feel that you are no longer close to anyone?

Note: Cells are empty if there are less than 10 respondents.

Table B.II.5.5***Body Image***

	Grade 9 %	Grade 11 %
Very dissatisfied	11	20
Dissatisfied	13	13
Neither dissatisfied nor satisfied	35	27
Satisfied	28	27
Very satisfied	13	13

Question HS/MS B.II.24: Over the past 30 days, how satisfied have you been with your weight and shape?

Note: Cells are empty if there are less than 10 respondents.

Table B.II.5.6***Weight Management***

	Grade 9 %	Grade 11 %
Which of the following are you trying to do about your weight?		
Lose weight	44	29
Gain weight	21	24
Stay the same weight	15	18
I am not trying to do anything about my weight	20	29

Question HS/MS B.II.25: Which of the following are you trying to do about your weight?

Note: Cells are empty if there are less than 10 respondents.

Table B.II.5.7
Disordered Eating Behavior

	Grade 9 %	Grade 11 %
During the past 30 days, please indicate which of the following things you did to lose weight or keep from gaining weight:		
Exercise		
No	15	15
Yes	85	85
Eat less food, fewer calories, or foods low in fat		
No	35	16
Yes	65	84
Go without eating for 12 hours or more		
No	82	78
Yes	18	22
Take diet pills, powders, or liquids without a doctor's advice		
No	92	82
Yes	8	18
Vomit or take laxatives		
No	90	79
Yes	10	21

Question HS/MS B.II.25A-25E: During the past 30 days, please indicate which of the following things you did to lose weight or keep from gaining weight:... Exercise... Eat less food, fewer calories, or foods low in fat... Go without eating for 12 hours or more (also called fasting)... Take diet pills, powders, or liquids without a doctor's advice (do not include meal replacement products such as Ensure, Muscle Milk, or SlimFast)... Vomit or take laxatives.

Notes: Cells are empty if there are less than 10 respondents.

Only respondents who selected "Lose weight" or "Stay the same weight" to question "Which of the following are you trying to do about your weight?" were asked to answer these questions.

Table B.II.5.8
Self-Harm, Past 12 Months

	Grade 9 %	Grade 11 %
0 times	90	91
1 time	1	5
2 or 3 times	6	2
4 or 5 times	0	0
6 or more times	3	2

Question HS/MS B.II.26: During the past 12 months, how many times did you do something to purposely hurt yourself, such as cutting, scratching, or burning yourself?

Note: Cells are empty if there are less than 10 respondents.

6. Mental Health Supports

Table B.II.6.1

Availability of Mental Health Supports at School, Past Year

	Grade 9 %	Grade 11 %
No	77	78
Yes	10	7
I don't know	13	15

Question HS/MS B.II.41: In the past year, did an adult at school refer or connect you to a counselor or therapist outside of school to get help?

Note: Cells are empty if there are less than 10 respondents.

Table B.II.6.2

Mental Health Help-Seeking Attitude

	Grade 9 %	Grade 11 %
<i>If you were feeling very sad, stressed, lonely, or depressed, would you...</i>		
talk to a teacher or another adult from your school?	26	36
talk to your parents or someone else in your family?	63	62
get help from a counselor or therapist?	23	29
talk to your friends?	69	62
be afraid to get help?	16	10
not know what to do?	18	12

Question HS/MS B.II.37: If you were feeling very sad, stressed, lonely, or depressed, would you... (Mark All That Apply.)

Notes: Cells are empty if there are less than 10 respondents.

Total percentages may exceed 100% for "mark all that apply" items.

Table B.II.6.3***Mental Health Help-Seeking Attitude Toward Peers***

	Grade 9 %	Grade 11 %
<i>If someone my age felt very sad, stressed, lonely, or depressed,...</i>		
talking to an adult could help them feel better.		
Strongly disagree	3	10
Disagree	25	10
Agree	59	76
Strongly agree	12	5
kids at my school would be nice to them.		
Strongly disagree	7	7
Disagree	18	24
Agree	66	64
Strongly agree	10	5

Question HS/MS B.II.35, 36: If someone my age felt very sad, stressed, lonely, or depressed,... talking to an adult could help them feel better.... kids at my school would be nice to them.

Note: Cells are empty if there are less than 10 respondents.

Table B.II.6.4***Mental Health Services Usage, Past Year***

	Grade 9 %	Grade 11 %
<i>In the past year,...</i>		
did you want to talk to a counselor or therapist about feeling very sad, stressed, lonely, or depressed?		
No	60	71
Yes	23	22
I don't know	17	7
did you get help from a counselor or therapist when you needed it?		
Does not apply, I didn't need help	60	76
No, I didn't get help when I needed it	20	7
Yes, I got help when I needed it	20	17
where did you get help from a counselor or therapist? (Mark All That Apply.)[#]		
Nowhere	0	
At school (in person, by phone, or online)	25	
From a counselor or therapist not from my school (in person, by phone, or online)	67	
Somewhere else	25	
I don't know	8	

Question HS/MS B.II.38-40: In the past year, did you want to talk to a counselor or therapist about feeling very sad, stressed, lonely, or depressed?... In the past year, did you get help from a counselor or therapist when you needed it? ... In the past year, where did you get help from a counselor or therapist? (Mark All That Apply.)

Notes: Cells are empty if there are less than 10 respondents.

[#]Total percentages may exceed 100% for "mark all that apply" items.

Table B.II.6.5***Barriers to Using Mental Health Services***

	Grade 9 %	Grade 11 %
I would not know where to go for help	14	12
There isn't anyone I can talk to	9	0
They wouldn't understand	21	5
People would think there's something wrong with me	11	5
My parents might find out	12	2
Other students might find out	16	0
I wouldn't have a way to pay for it	5	8
I wouldn't want to talk to a counselor or therapist	21	12
Other reasons	16	10
Does not apply, none of these things would stop you from talking to a counselor or therapist.	51	62
<i>Three or more barriers</i>	18	5

Question HS/MS B.II.42: If you were very sad, stressed, lonely, or depressed, would any of these things stop you from talking to a counselor or therapist? (Mark All That Apply.)

Notes: Cells are empty if there are less than 10 respondents.

Total percentages may exceed 100% for "mark all that apply" items.

Table B.II.6.6
School Promotion of Mental Health Awareness

	Grade 9 %	Grade 11 %
I know where to go or who to contact at school for help when I am very sad, stressed, lonely, or depressed.		
Strongly disagree	9	12
Disagree	14	7
Agree	58	63
Strongly agree	20	19
People at my school talk openly about mental health.		
Strongly disagree	12	16
Disagree	29	16
Agree	48	51
Strongly agree	11	16
My school encourages students to take care of their mental health.		
Strongly disagree	8	12
Disagree	14	7
Agree	65	58
Strongly agree	14	23

Question HS/MS B.II.32-34: How strongly do you agree or disagree with the following statements?... I know where to go or who to contact at school for help when I am very sad, stressed, lonely, or depressed... People at my school talk openly about mental health... My school encourages students to take care of their mental health.

Note: Cells are empty if there are less than 10 respondents.

Appendix

CHKS Content Overview, 2024-25

This brief guide to key CHKS Core Module indicators is designed to help survey users more easily understand and interpret their findings.¹ References are provided to the tables in CHKS reports where results for the indicators discussed can be found. References are also made to other relevant CHKS reports, factsheets, and resources that can be downloaded from the CalSCHLS website (calschls.org) for further information. What Works Briefs that provide guidance on best practices related to areas assessed by the survey are available from the California Safe and Supportive Schools website (ca-safe-supportive-schools.wested.org/resources).

Special attention is directed toward indicators related to the requirements of California’s Local Control and Accountability Plans (LCAP). For a summary of state-level LCAP-related baseline CHKS data, see Factsheet #15.²

MAIN CONTENT FOCUS: SCHOOL CLIMATE AND THE NEEDS OF THE WHOLE CHILD

The main purpose of the CHKS Core Module is to assess indicators of school climate, pupil engagement, and student supports, all three key priorities required of the LCAP. It provides schools with essential data to determine the degree to which they provide the conditions and supports that all youth need to succeed in learning and developmentally thrive. Forty-nine items assessing 14 school climate domains included in a *School Climate Report Card (SCRC)*.³ All districts receive a district-level SCRC and can request school-level SCRCs. The items used in the SCRC assess school connectedness, developmental supports (e.g., caring adult relationships), and safety, including bullying and victimization.

School climate, as measured by the CHKS, is strongly related to student learning and academic performance. Data for high school students show that as school climate improves—as the schools became safer, more supportive, and more engaging—academic performance increased as well.⁴

In a ground-breaking analysis, a positive school climate was a distinguishing characteristic of California secondary schools that “beat the odds” academically and consistently performed better on the state’s standardized tests than *would be predicted* based on the characteristics of their students (i.e., comparing schools with similar student demographics). The more positive the school climate, the greater the probability there was for beating the odds. School climate was more strongly associated with beating the odds than a school’s level of personnel resources.⁵

In addition, the CHKS Core Module provides data to help understand the degree to which schools address the needs of the whole child. CHKS data show that California secondary schools made greater progress in raising standardized test scores over a one-year period when they had higher percentages of students who reported: (1) being less engaged in risky behaviors such as substance use and violence; (2) being more likely to eat nutritiously and exercise; and (3) experiencing caring adult relationships and high

¹ To see how local results compare with state averages in California, download a copy of the latest Biennial State CHKS report (calschls.org/reports-data/#state-level_reports). The Biennial State data are derived from a randomly-selected, representative state sample. County-level reports are also available on the CHKS website. Biennial State CHKS and county-level data can also be examined interactively on the CalSCHLS Data Dashboard (calschls.org/reports-data/dashboard).

expectations at school.⁶ These results suggest that addressing the health and developmental needs of youth is a critical component of a comprehensive strategy for meeting accountability demands for improved academic performance.

GRADE-LEVEL PATTERNS

More than 20 years of survey administration has demonstrated that as youth progress through secondary school, they become: (1) less likely to report feeling connected to school and being academically motivated; and (2) more likely to report truancy, involvement in substance use, and chronic sadness and hopelessness. Here are some additional grade-level patterns in CHKS data:

- **Seventh graders** report the highest rates of harassment and victimization, as well as participation in a physical fight and seeing a weapon on campus.
- **Ninth graders** report the lowest rates of developmental support.
- **Nontraditional (continuation school) students** report risk behavior (e.g., binge drinking, fighting at school) prevalence rates at least twice those of 11th graders in traditional comprehensive high schools.⁷ They also exhibit lower perceived school safety, school connectedness, and developmental supports. Continuation school students are a highly vulnerable population in need of a wide range of academic, social, emotional, and behavioral supports and intervention services.⁸

DEMOGRAPHIC CHARACTERISTICS AND POPULATION GROUP DIFFERENCES (Section 3)

Indicators of the demographic and background characteristics of the survey respondents help users gain a better sense of how representative the survey sample is compared to the student population overall. They also enable users to analyze how survey results vary by important groups in the school and help them to identify, and target programs for, youth most in need. School districts can use these data to meet LCAP requirements to demonstrate actions across state priorities in regard to socioeconomically disadvantaged students, English learners, and foster youth, as well as other indicators such as race/ethnicity, homeless youth, and LGBTQ youth.

In the standard CHKS report, breakdowns for selected key indicators are provided by all the LCAP priority groups such as race/ethnicity, gender, parental education, English learner and long-term English learner status, disability status, foster youth, and unhoused youth. For selected key indicators, the CalSCHLS Data Dashboard (calschls.org/reports-data/dashboard) can be used to display group differences across these same groups as well as additional groups (e.g., chronic sadness, caring relationships). Districts/schools can also subscribe to the District CalSCHLS private data dashboard to disaggregate their CHKS results by these groups for each school (email calschls@wested.org).

Racial-Ethnic Group Identification

Respondents self-report their identification with six racial/ethnic groups. In one study of CHKS data, both academic performance and school well-being—the degree to which students feel safe at, supported by, and connected to the school—varied consistently and persistently across schools by racial/ethnic groupings.⁹ They were highest in schools with large proportions of white and Asian students, as well as

⁶ Hanson & Austin. (2003). Download data.calschls.org/resources/FACTSHEET-3.pdf

⁷ In interpreting the results for 11th graders, note that many youth who are most disengaged and involved in high risk behaviors may have already dropped out of school or did not participate in the survey because of truancy or absenteeism.

⁸ Austin, Dixon, & Bailey. (2007). Download data.calschls.org/resources/FACTSHEET-7.pdf

⁹ Austin, Hanson, Bono, & Zheng. (2008). Download data.calschls.org/resources/factsheet_8.pdf

in middle- and high-income schools. Controlling for socioeconomic status and other school demographic characteristics reduced these racial/ethnic group differences, but the disparities still remained. This suggests that school climate factors related to student well-being may also play a role in racial/ethnic group differences in achievement. One strategy to close the gap may be to enhance learning supports that foster caring adult relationships, high expectations, meaningful participation, safety, and connectedness in schools serving large proportions of low-income African American and Hispanic students.

In the majority of cases, with notable exceptions for Asians, *the racial/ethnic gaps in performance, engagement, perceived support, and safety are greater within-schools than between-schools*.¹⁰ White students feel more safe, engaged, and supported than their African American, Hispanic, and Asian peers *within the same school*.¹¹ Inequities in these factors can possibly contribute to the achievement differences. Further, these findings suggest that practices designed to ensure equitable access to academic resources, opportunities, learning supports, and promotion of common experiences may be effective in ameliorating the gap.

Youth in Foster Care

Compared to youth who live with their parents, youth in foster care settings report much higher rates of substance abuse, poor school attendance and grades, more violence-related behaviors, more harassment, and higher depression risk.^{12 13} They were also more likely to be low in caring adult relationships and total developmental support.

Unhoused Youth

Homeless youth are substantially more likely than other youth to engage in substance use, have lower attendance at school and struggle with academic performance, feel less safe at school and experience greater levels of harassment and bullying, and exhibit higher levels of chronic sadness.¹⁴ Like youth in foster care, unhoused youth were also more likely to be low in caring adult relationships at school.

Sexual Orientation and Gender Identity

Lesbian, gay, bisexual, transgender, and questioning or queer (LGBTQ) youth are at elevated risk for bullying and violence victimization, mental health problems, drug and alcohol use, and exhibiting poor performance in school.^{15 16} For example, analysis of the Biennial State CHKS data indicate that LGBTQ youth¹⁷ are:

- about 30 percentage points more likely than non-LGBTQ youth to experience harassment and bullying at school;
- 30-to-40 percentage points more likely to exhibit chronic sadness;
- 2-to-3 times more likely to smoke cigarettes, binge drink, and to have been drunk or high at school; and

¹⁷ See calschls.org/my-surveys/

- receive substantially fewer social supports from teachers and peers at school than their counterparts who do not identify as LGBTQ.

Because of such disparities, it is important to examine disparities across LGBTQ and non-LGBTQ youth to identify needs and support the development of practices that promote the healthy development and safety of all youth.

SCHOOL PERFORMANCE, ENGAGEMENT, AND SUPPORTS (Section 6)

A major focus of the CHKS is providing data to gauge the level of pupil engagement, an LCAP state priority on which districts are required to show improvement. Enhancing student engagement has been identified as the key to addressing problems of low achievement, high levels of student misbehavior, alienation, and high dropout rates.¹⁸ CHKS and other surveys consistently show that as youth progress through the school system, indicators of engagement decline.

It is important to look at engagement from three perspectives: behavioral, emotional, and cognitive. The CHKS provides data on all three types. As discussed below, the Academic Motivation scale, school boredom, and self-reported grades provide insight into cognitive engagement; the School Connectedness scale and school value item into emotional engagement; and attendance data into behavioral engagement. Another behavioral engagement indicator on the survey is substance use at school. Research shows that student engagement is malleable and that all three types of engagement are influenced by the level to which students perceive the school as having a positive environment.

The CHKS Developmental Supports scales provide insight into whether students experience three protective factors in their school (caring relationships, high expectations, and opportunities for meaningful participation). These protective factors characterize a positive school climate and are linked to school connectedness and positive academic, behavioral, and health outcomes. Other school climate factors assessed are the level of parent involvement and the quality of the school physical environment, both also LCAP priorities. The likelihood that students will be motivated and engaged is increased to the extent that their teachers, family, and friends effectively support their purposeful involvement in learning and in school.

Self-Reported Grades

The CHKS asks students to indicate what grades they received in school in the past 12 months. Although self-reports are not as accurate as actual report card data, they provide a general sense of the school performance of the survey respondents from their self-perception.

Academic Motivation

A four-item scale gauges student academic motivation by asking how strongly they agree that they try hard to do well on schoolwork, try hard because they are interested in the work, work hard to understand new things at school, and always try to do better. On the 2019-21 State CHKS, the percentage of students agreeing with the questions on this scale ranged from 64 percent in 11th grade to 71 percent in 7th.¹⁹

In order to achieve rigorous academic goals, students need not only a challenging and engaging curriculum, but they need to be emotionally connected to their learning. Student perceptions of the school environment and their degree of school connectedness influence their achievement motivation. But students may be behaviorally and/or emotionally invested in a given activity without actually exerting the

¹⁹ Download data.calschls.org/resources/Biennial_State_1921.pdf

necessary mental effort to understand and master the knowledge, craft, or skill that the activity promotes. This scale provides insight into the overall level of that mental effort.

In addition, the supplementary School Climate Module includes Student Learning Environment and Learning Engagement Climate scales and a series of questions about supports for learning and academic rigor.

School Boredom – School Value

Boredom is commonly experienced among secondary students, but its meaning and effects vary from student to student. Student boredom can be associated with specific subjects and academic tasks or it can be a pervasive response to school activities. Frequent boredom is associated with poor academic and mental health outcomes. Two CHKS questions ask about students’ school boredom (school is really boring) and how much they value their schooling experience (school is worthless and a waste of time). Combined, these two survey questions are used to identify School Boredom Mindset Profiles.^{20,21,22}

				School Boredom								
				School is really boring								
				Low Boredom			Moderate Boredom			High Boredom		
				0 Disagree	1	2	3	4	5	6	7	8
Value of School	School is worthless, a waste of time	High Value	0 Disagree	Optimal								
			1	1 High Value–Low Boredom			2 High Value–Moderate Boredom			3 High Value–High Boredom		
			2	Students did not think school was boring and valued school highly			Students valued school highly with moderate-level school boredom			Students indicated school was very boring, yet they valued it highly		
		Moderate Value	3									
			4	4 Moderate Value–Low Boredom			5 Moderate Value–Moderate Boredom			6 Moderate Value–High Boredom		
			5				Students with moderate-level school boredom and school value			Students indicated school was very boring, and valued it at a moderate level		
		Low Value	6									
			7							Suboptimal		
			8	7 Low Value–Low Boredom			8 Low Value–Moderate Boredom			9 Low Value–High Boredom		
			9							Students indicated school was very boring, and valued it at a very low level		
	10 Agree											
				<i>Only a low percentage of students’ responses place them in groups 4, 7, and 8.</i>

Students with high school boredom and low school-value, a suboptimal profile, report substantially poorer well-being than students with low boredom combined with elevated school-value, an optimal profile. Moreover, students with high school boredom and high school-value may be experiencing episodic or task-specific boredom, which requires different types of support than students who exhibit the suboptimal pattern. The percentage of students falling in each of these profile groups is presented in the CHKS report so that school personnel can monitor the boredom experiences of students to best address their academic and social-emotional needs.

Absenteeism

Before good teachers with quality curriculums and engaging activities can improve academic performance, the students have to show up. The CHKS provides data to identify what proportion of respondents are at risk of chronic absenteeism (missed 3 or more days during the past 30 days) and what were the reasons for absences.

Poor attendance is a marker of a wider variety of other problems, including low school connectedness and learning engagement. Both the US Department of Education and the California Office of the Attorney General have launched initiatives designed to raise awareness about and combat chronic absenteeism, generally defined as missing 10 percent of school days. According to a report by Attendance Works, the nation’s large and persistent achievement gaps are rooted in a largely hidden crisis of chronic absenteeism, especially among low-income and minority children.²³

Biennial State CHKS data indicate that the most common reasons for being absent in secondary school, after illness, are generally not getting enough sleep and anxiety or stress, followed by being behind in schoolwork, and being bored or uninterested in school, another good indicator of disengagement.²⁴

Developmental Supports

Research shows that when schools (or families or communities) provide three developmental supports—**caring adult relationships, high expectations, and opportunities for meaningful participation**—students are more likely to report more positive academic, social-emotional, and health outcomes, including higher grades, school connectedness, attendance, and perceived safety. CHKS measures these supports using multi-item scales. Results overall suggest that the great majority of students do not receive sufficient levels of support and that the supports received are lower in high school than in middle school, even though student need for them is arguably higher.^{25 26 27 28 29 30}

School Connectedness

School connectedness is one of the indicators of school climate that a California school district must address in its LCAP. Research shows that school connectedness is associated with multiple positive

academic, social-emotional, and health outcomes.³¹ It also shows that youth who feel safe at school, experience caring adults, and have opportunities for engagement and other developmental supports are more likely to feel connected to the school. The CHKS five-item School Connectedness scale is an important differentiator between low-performing and high-performing high schools and has value as an indicator of school quality. The online Query CalSCHLS system (calschls.org/reports-data/query-calschls/) enables examination of how key survey indicators vary by school connectedness.

School connectedness declines markedly after elementary school. A substantial minority of middle and high school students are not connected to their schools. On the 2017-19 State CHKS, the average percentage of students agreeing to these scale questions declined from 62 percent in 7th grade to 53 percent in 11th, a decline similar to that found for the Academic Motivation scale.³² This may be related at least in part to their lower levels of developmental support. Prior analyses have indicated that the lowest rates of both connectedness and test scores are in low-income schools.^{33 34}

Parent Involvement

Parent involvement, including promoting parental participation in school programs, is one of the LCAP state priorities. A three-item scale assesses student perceptions (level of agreement) of three components of parent involvement: teachers communicating with parents about what students are expected to learn in class, parents feeling welcome to participate at this school, and school staff taking parent concerns seriously. The same questions also are asked on the staff and parent surveys so that perceptions can be compared across all three stakeholder groups. A large and growing body of evidence has linked school success to the manner and degree to which a school communicates with parents, engages them both in school activities and education, and fosters a school climate that parents perceive as warm, inviting, and helpful.³⁵

Facilities and Physical Environment

As an indicator of student perceptions of the school’s physical environment, the CHKS includes a question asking students how much they agree the school “is usually clean and tidy.” Additional questions are included in the supplementary School Climate Module. An analysis of 2018/20 data from the questions on both modules found that a plurality of students report that their school facilities are in good condition, but a non-trivial minority of students were dissatisfied with the condition of their school facilities.³⁶ Between 20 percent and 25 percent of students disagree or strongly disagree on the quality of the physical environment items. Almost one-third of schools serving 11th graders were categorized as having low quality physical environments based on student reports on the clean and tidy item. Student perceptions of the quality of their school’s physical environment were strongly related to student achievement.

SCHOOL VIOLENCE, VICTIMIZATION, AND SAFETY (Section 8)

The CHKS asks students a wide range of questions to ascertain the scope and nature of physical and verbal violence and victimization that occurs on campus, as well as vandalism, and the overall level of school

safety.³⁷ Physical violence and weapons on campus have long been a major public concern. Equally disruptive are the uncounted acts of bullying, teasing, and other nonviolent misbehavior among youth, such as substance use and sales on campus.³⁸ These behaviors adversely affect not only students' ability to learn and willingness to attend school, but also the overall school environment, the ability of teachers to teach, and the willingness of adults to enter the teaching profession.^{39 40 41}

Perceived Safety

Perceived safety is another indicator that districts/schools are required to monitor as part of their LCAP school climate priority. School safety is more than the antithesis of violence. Perceived school safety is psychological as well as physical. Feelings of insecurity can have multiple sources, not all of which correctly reflect the level of danger and violence on a school campus, such as verbal bullying. Both physical and psychological safety are essential for high quality teaching and learning. It is a key factor in students feeling connected to school. Another indicator important for attendance is the percentage of students who report missing school because they didn't feel safe (Table A6.3).

If students report low levels of perceived school safety, further examination of all the indicators related to bullying and victimization is warranted. Consider conducting follow-up student voice and feedback sessions such as focus groups or Student Listening Circles and integrating questions on why students do not feel safe.⁴²

Harassment and Victimization

Most of the safety-related questions on the survey assess victimization. Because a relatively small number of students can victimize a large number of their peers, victimization questions provide important insight into the overall school climate. Nonviolent harassment in any form—threats, intimidation, rumors, and ostracism—can instill a sense of vulnerability, isolation, frustration, and fear among its victims, leading to engagement in health risk behaviors or avoidance behaviors such as missing school and social isolation. This type of misbehavior, vastly more common than any other, ruins the school day for many students.

The CHKS asks about the frequency with which students experienced any bullying/harassment related to six bias-related categories (gender, race/ethnicity, disability, sexual identity, religion, immigrant status), as well as for any other reason (Table A8.2). About three-in-ten secondary students report experiencing some harassment in the past year on the 2017-19 State CHKS, with the percentages declining between 7th and 11th grades.⁴³ Analyses show that victims of harassment are more likely to not feel safe at, and connected to, school; to have higher truancy; and to experience lower developmental (resilience) supports at school.^{44 45} They report higher rates of fighting and weapons possession at school, as well as risk of depression. Students who report bias-related harassment, particularly for disability and sexual orientation, have poorer well-being than students who were only harassed for other reasons.

Different forms of verbal harassment at school are assessed by asking students about: mean rumors or

³⁷ The CHKS also includes two violence-related questions that are not school based: the frequency students experienced cyberbullying and whether they are gang members.

lies; sexual-related jokes, comments, or gestures; being made fun of because of looks or speech; and, more generally, being made fun of, insulted or called names. Physical victimization is assessed by questions about having been pushed/shoved, threatened with harm or injury (without or without weapon), and being afraid of being beaten up. Students are also asked whether they have ever been in a physical fight as a measure of general violence.

The supplementary School Climate Module includes Bullying Prevention and Respect for Diversity scales to provide insight into what the school is doing to reduce the problem.

Vandalism and Weapons

Two other safety-related areas assessed by the survey are school vandalism and weapons possession. Students are asked whether they damaged school property or had their property damaged at school and whether they carried a knife or other weapon to school or observed someone else doing these things.⁴⁶ Overall, weapons possession is not common. Statewide, only about two percent of secondary students report carrying a gun and 4-5 percent report carrying another weapon.⁴⁷ About 14 percent of 7th and 9th graders report seeing someone carrying a weapon compared to 11 percent of 11th graders.

SUBSTANCE USE (Sections 9 and 10)

An important barrier to learning, positive youth development, and health, substance use is assessed by the CHKS Core.

Alcohol and Other Drug Use (Section 9)

The misuse of alcohol and other drugs (AOD) continues to be among the most important issues confronting the nation. For schools, the problem is particularly relevant. Years of research have shown that adolescent substance use is closely connected to academic performance and contributes to raising the level of truancy and absenteeism, special education, disciplinary problems, disengagement and dropout rates, teacher turnover, and property damage.

Reflecting this, on the California School Staff Survey, 39 percent of high school staff statewide reported that alcohol and drug use are a moderate to severe problem at their school.⁴⁸

Alcohol and Other Drug Use at School (Section 9)

AOD use at school is especially troubling. This is behavior that threatens not only the user's learning ability but also the school's efforts to educate all youth. It also is an indirect indicator of school disengagement. An analysis of CHKS data found that substance use and intoxication at school, being offered drugs at school, and lifetime intoxication were significantly related to changes in California achievement test scores one year later.⁴⁹ Schools with proportionately large numbers of students who reported these behaviors exhibited smaller gains in test scores than other schools.^{50 51}

Cigarette Smoking (Section 10)

Students who report smoking cigarettes are significantly more likely than those who do not to engage in alcohol and other drug use, be involved in violence and gang membership, and experience school-related

⁴⁶ Students who participated in school exclusively via remote learning were not asked these questions in 2020-21.

problems and disengagement. To a lesser extent, students who smoke are also more likely to be victims of violence and harassment, feel unsafe at school, and experience incapacitating sadness and loneliness. These results suggest that efforts to reduce student smoking may be more successful if embedded in approaches that address a broad range of risk behaviors and problems.^{52 53}

SOCIAL AND EMOTIONAL HEALTH (Section 7)

Student mental health can have a big impact on their health and well-being. The CHKS Core provides four measures for assessing mental health among students: (1) whether they experience chronic, incapacitating sadness or hopelessness; (2) whether they ever contemplated suicide; (3) social and emotional distress; and (4) life satisfaction. Students who experience chronic sadness, compared to their peers who do not, are at elevated risk of a wide range of educational, health, social, and emotional problems, including lower school attendance, performance, and connectedness.⁵⁴ They also report lower levels of the developmental supports in their schools and communities that have been shown to mitigate these problems. Similar findings are found among youth who have contemplated suicide.⁵⁵

CHKS data also show that students who report bias-related harassment, particularly for disability and sexual orientation, have poorer overall mental health than students who are harassed for other reasons or not harassed. Students who report any harassment are about twice as likely to experience chronic sadness/hopelessness than their non-harassed peers.^{56 57}

See also the percentage of students who report missing school because they “felt very sad, hopeless, anxious, stressed, or angry.” In addition, the supplementary School Climate Module includes a Social and Emotional Supports scale that provides insight from students on what the school does to help promote mental health and foster social-emotional competencies.
