2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

Staff and parents at Grant Elementary work together to create and provide a safe environment that is conducive to learning and developing academic and social skills. Together we strive for our students to become life-long learners and productive citizens. We feel strongly that it is important to address all of the needs of the child. We share a belief that our children deserve to be prepared so that they are ready and able to pursue any career or life path they choose when they grow up. Our teachers participate in many professional development opportunities in order to provide the best learning opportunities for all learners. We are robustly implementing the Common Core State Standards in our TK through 6th grade program. We also offer many opportunities for parents to provide input and receive information. There are monthly SSC, ELAC, and APPAC meetings, Informational Coffees, parent workshops, parent-teacher conferences, assemblies, and messages on ClassDojo, ParentSquare, and social media to keep parents informed and involved. Our School Community Worker helps to support our families with any educationally related concerns and connects families to community resources to address other concerns they may need assistance with.

At Grant, we offer both academic and behavioral support to all students. The Grant community also respects and celebrates the diverse backgrounds of its parents and students. Our Learning Center provides pull-out support for students who need more specialized instruction and we also offer push-in support to classrooms where our data shows the need. We offer differentiated instruction in all subject areas to provide support for individual learning styles while maintaining high, attainable expectations for students. Intervention programs have also been added to target learning gaps for our struggling students. Study trips are arranged by teachers to enhance student learning and give them real-world applications. In addition, we have a large after-school program that supports the core subjects and provides a variety of extracurricular activities to enrich the lives of our students.

We have had many initiatives for behavioral support. Nine years ago, a Multi-tiered System of Support (MTSS) and Positive Behavioral Interventions and Supports (PBIS), were implemented. MTSS is to support a process of systematically documenting the performance of students as evidence of the need for additional services after making changes in classroom instruction. MTSS promises to change the way schools support students with learning and behavior problems by systematically delivering a range of interventions based on demonstrated levels of need.

MTSS is defined as "the practice of providing high-quality instruction and interventions matched to student need, monitoring progress frequently to make decisions about changes in instruction or goals, and applying child response data to important educational decisions. Based on a problem-solving model, the MTSS approach considers environmental factors as they might apply to an individual student's difficulty, and provides services/intervention as soon as the student demonstrates a need. Focused primarily on addressing academic problems, allows us to think in a new way about both disability identification and early intervention.

PBIS is based on a problem-solving model and aims to prevent inappropriate behavior through teaching and reinforcing appropriate behaviors. PBIS is a process that is consistent with the core principles of MTSS. PBIS offers a range of interventions that are systematically applied to students based on their demonstrated level of need and addresses the role of the environment as it applies to the development and improvement of behavior.

Both MTSS and PBIS are grounded in differentiated instruction. Each approach has critical factors and components to be in place at the universal (Tier 1), targeted group (Tier 2), and individual (Tier 3) levels. Our goal is to describe the shared characteristics of these approaches as a basis for highlighting how best to meet the needs of children experiencing academic and social difficulties in school. We have received a PBIS distinction at the Gold Level as well as accommodations for our outstanding contribution of support and care during the unprecedented COVID-19 pandemic and resulting disruptions to school.

We are continuing to support our parents by providing them with the know-how to use these same tools in guiding their students while at home. We will continue with our school-wide use of Mindfulness- a specific and intentional practice of paying attention to the present moment without judgment. Through focused and specific awareness, mindfulness builds skills to navigate All thoughts, emotions, physical sensations, and experiences by coming back to the here and now! Our Social Emotional Support of students includes mindfulness instruction that is taught on its own and also woven into our use of the Second Step.

Last year we became a Full Service Community School and with the assistance of Seneca Family of Agencies, we continue to provide all our students with an Unconditional Education academically, socially and emotionally. We will continue to support and coordinate services for identifying, referring, and tracking the progress of students requiring support. All stakeholder groups want us to use site funds to continue adequate support for our students. Grant Elementary has 570 students from Transitional Kindergarten through 6th grade.

School Facility Conditions and Planned Improvements

WCCUSD takes great effort to ensure that all schools are clean, safe, and functional. To assist in this effort, the school uses the Facility Inspection Tool (FIT) developed by the State of California OPSC. Maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used

School Facility Conditions and Planned Improvements

to ensure efficient service and that emergency repairs are given the highest priority. The school personnel also works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Parents are encouraged to participate in the SSC, ELAC, AASAT, and PTA- as committees assisting in developing the shared vision and mission of the school. Parental input and participation are highly valued and appreciated by the school staff. Parents are also encouraged to get a district volunteer badge and help in the classrooms, on study trips, and during lunches. In addition, Parents are invited to attend our Informational Coffees, these give parents an opportunity to speak in a casual setting with various experts on a variety of topics. During these meetings, guest presenters provide support on topics of concern.

In partnership with local organizations, we provide parents with opportunities to learn ways in which they can support their children at home with their learning. Family Nights are part of the school's tradition to provide parents with tools in supporting their children and becoming involved in their children's education. Other family fun events are planned throughout the year and parents are encouraged to participate actively. For the convenience of our Spanish-speaking parents, our meetings are bilingual.

In addition to the above, we will use our network of Community Partners, to provide opportunities for our parents to gain useful information such as awareness of age-appropriate disciplinary techniques, to identify important health issues in their community and enhance their own abilities to address these health issues with concrete solutions based on the strengths of the community.

For more information, please contact our office at (510) 231-1422.

2024-25 School Safety Plan

The purpose of the School Site Safety Plan is to provide a unified template for school sites to respond and recover from an emergency, disaster, or event resulting in the disruption of normal school operations.

2024-25 School Safety Plan

The School Site Safety Plan guides a coordinated school staff response to an emergency, disaster, or event and aids in directing emergency response activities toward reaching an agreed-upon goal. School Site Safety Plan procedures are scalable in order to address incidents that may develop over time and those that may occur without warning.

The objectives of the School Site Safety Plan are as follows:

1. Protect the safety and welfare of students, school staff, and visitors.
2. Provide a safe and coordinated response to emergencies.
3. Protect the District's facilities and properties.
4. Enable the District to restore normal conditions with minimal confusion in the shortest time possible.
5. Provide for the interface and coordination between sites and the District Emergency Operations Center (DEOC).
6. Provide for the interface and coordination between the District EOC and the Cities of Richmond, El Cerrito, San Pablo, Pinole, Hercules, and Contra Costa County Emergency Operations Center (EOC).
7. Provide for the orderly conversion of pre-designated District sites to mass care sites, when necessary.

The Comprehensive School Safety Plan is updated annually. Our school safety plan was last annually reviewed, updated, and discussed with school faculty and a student representative in 2024. A copy of the Comprehensive School Safety Plan is available by request through the district's website.

Professional Development

An Unconditional Education approach will continue to be our school-wide focus at Grant. Unconditional Education (UE) model empowers the entire school community with the skills and resources required to implement a multi-tiered system of academic, behavioral, and social emotional supports, devoting time and resources toward creating a culture and climate that is engaging and responsive to the needs of all students and their families. A primary focus of the UE model is to increase the achievement of struggling students, including students with disabilities, within inclusive education settings. Our teachers are provided

Professional Development

professional development opportunities that provide them with tools that allow them to serve the whole child. Quality instruction and instructional leadership are at the heart of the district's achievement efforts. To ensure this, the Academic Supports engage teachers, administrators and other personnel in ongoing professional development focused on improving teaching and learning. Our school leadership has sought out training to improve our ability to provide strong instructional leadership and guide teaching and learning at our school site. We provide support to our teachers through staff conferences, opportunities for collaborative study and planning, and individual coaching based on ongoing classroom observations. Teachers and other staff are provided with both on and off-site professional development in Standards Based Curriculum content areas. Beyond the content areas, professional development is provided in English Language Development, differentiated instruction-remediation/acceleration, and educational technology.

In addition, training is made available in classroom management and the effective use of assessment data and teacher data teams in meeting the needs of all students. A primary goal of the professional development program is ensuring that all students are served by skilled, highly qualified teachers and that teachers are supported by strong, knowledgeable instructional leaders. Specifically, monthly professional development is planned and presented to the Grant Staff based on needs identified by teachers. Grade levels meet weekly and meet regularly with district coaches, principal, and vice principal to review data and plan instruction. Teachers are encouraged to attend conferences, workshops, and training outside of the school day. They may also visit other schools or classrooms within Grant.

In order to best support our students' social emotional Development, our staff has been receiving Professional Development around Trauma from our Seneca Partnership. Our staff has worked closely with Seneca to complete a School Climate Assessment to improve our culture and climate. Teachers will continue to be supported in receiving training and maintaining a positive classroom environment by implementing behavioral interventions that support students. Through a trauma-informed lens, continuous support of stakeholders, professional development, and uniform practices, we will prepare our school community in taking the proper approach in the education and development of our students. In addition, we will tap into all professional development opportunities provided by the Anti-Defamation League including Anti-Bias, Anti-Bullying, and Ally Training. Furthermore, our staff will be working with the Office of African American Student Achievement-OAASA in continuing our dialogue around Race and Equity which are at the core of our work. Our School was recognized as a Gold and Silver Level School by the California PBIS state Recognition System as well as the recipient of Community Service Award.
