2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state’s high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

Our mission at Michelle Obama School is to prepare all students to be perseverant, autonomous learners who achieve academic excellence and embody a love of learning in order to positively transform our communities.

Michelle Obama students engage in a rigorous standards-based, Common Core-aligned curriculum. We provide high-quality, deeper learning educational experiences that enable all students to make positive life changes, strengthen our community, and successfully participate in a diverse and global society. Our school delivers excellent learning and teaching experiences in safe student-centered learning environments. We develop and maintain productive community partnerships through individual and

collective accountability. Our goal is to be inclusive of all members of the school community as we strive to provide equitable opportunities for success. All staff members engage in a multitude of professional development workshops and training that support and enhance teaching and learning.

Our goals are based on frequent and consistent data that reveals what our students need and how to support the teaching and learning to ensure needs are met. We expect students to grow in their reading and math to levels of proficiency. Our core values include both students and adults developing a deep sense of agency in order to strengthen and reflect on our abilities to produce a culture of persistence in working towards our goals.

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

WCCUSD takes great effort to ensure that all schools are clean, safe, and functional. To assist in this effort, the school uses the Facility Inspection Tool (FIT) developed by the State of California OPSC. Maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used

to ensure efficient service and that emergency repairs are given the highest priority. The school personnel also works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

2023-24 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Michelle Obama School is in its second year of implementing the community school model. We are working on the implementation of new opportunities and deepening the level of involvement from our parents/guardians and outside school community.

PARENT INVOLVEMENT PROGRAMS: The school involves parents by informing them of the programs offered at the school site. Each month parents are offered opportunities to attend Coffee Chats and other meeting forums to gain educational information related to student learning. To date we offer the following:

- Back-to-School Night, Parent Teacher Conferences and Open House.
- Monthly parent education meetings (topics include: Common Core, College/Career Preparedness, Understanding the Report Card, Multiple Method Math Instruction, School Wide Data Review, Efficacy and Mindset practices)
- Family Literacy Night
- Family STEM Night
- Test-Prep Workshop for parents
- Focus Groups based on parent need i.e. literacy workshops, testing skills workshops, effective parent-teacher conference workshops, math workshops, homework workshops, and a series of educational parent workshops

SCHOOL SITE COUNCIL (SSC): The role of the SSC is to give parents, faculty and staff more on-site decision making ability by giving individuals the opportunity to work together in planning school program improvements. Every elementary school must have a School Site Council composed of five parents or community members, the principal, three classroom teachers, and one other staff member (Education Code Section 52852).

ELAC: The ELAC Committee advises the SSC on needs of English Learners and consults the SSC regarding school plans and budgets. We also offer parents the opportunity to attend English Learner classes four mornings per week. This program is offered through Adult Education.

The African American Advisory Committee meets monthly to review data and deliver input on programs and needs.

2024-25 Opportunities for Parental Involvement

PTA- The Michelle Obama PTA was formed in January 2017. The board meets monthly and General Association meetings occur 3 times per year. The PTA is instrumental in partnering with all other groups to assist with parent nights, school functions such as the Spelling Bee, Math Olympiad, and fundraising for student

2024-25 School Safety Plan

The purpose of the School Site Safety Plan is to provide a unified template for school sites to respond and recover from an emergency, disaster, or event resulting in the disruption of normal school operations.

2024-25 School Safety Plan

The School Site Safety Plan guides a coordinated school staff response to an emergency, disaster, or event and aids in directing emergency response activities toward reaching an agreed-upon goal. School Site Safety Plan procedures are scalable in order to address incidents that may develop over time and those that may occur without warning.

The objectives of the School Site Safety Plan are as follows:

1. Protect the safety and welfare of students, school staff, and visitors.
2. Provide a safe and coordinated response to emergencies.
3. Protect the District's facilities and properties.
4. Enable the District to restore normal conditions with minimal confusion in the shortest time possible.
5. Provide for the interface and coordination between sites and the District Emergency Operations Center (DEOC).
6. Provide for the interface and coordination between the District EOC and the Cities of Richmond, El Cerrito, San Pablo, Pinole, Hercules, and Contra Costa County Emergency Operations Center (EOC).
7. Provide for the orderly conversion of pre-designated District sites to mass care sites, when necessary.

The Comprehensive School Safety Plan is updated annually. Our school safety plan was last annually reviewed, updated, and discussed with school faculty and a student representative in 2024. A copy of the Comprehensive School Safety Plan is available by request through the district's website.

Professional Development

The primary areas of focus for staff development are derived from district goals in accordance with student needs. The data used to determine the pertinent needs of our student population include:

- iReady Assessment for reading and math
- Expeditionary Learning (EL) for English language arts (reading, writing, foundational skills- K-3); pre, mid, and end-of-module performance tasks, unit assessments. In K-2 foundational skills cycle assessments.
- English Language Proficiency Assessments for California (ELPAC)
- Eureka math squared module assessments (beginning, middle, end)
- Ongoing common assessment data at each grade level

Michelle Obama school goals include the following:

PD. Professional development centered on our IPG priority: Students do the majority of the work of the lesson. ELA instruction centers text and students engage with questions that (1) address qualitative features of a text and (2) require text evidence.

Peer observation: Create feedback protocols and practice with generic videos ? Teachers video themselves and then share feedback with one another based on video evidence ? In-person observations and feedback

Coaching. Coaching cycles with teachers with students doing the majority of the work as the focus.

Conditions for assessment

Teachers develop plans for setting students up for a clear understanding of the stakes and opportunity with assessment

Growth mindset lessons

Professional Development

Teacher and student goal setting and data analysis based on iReady data

Whole staff data analysis PD following beginning-of-year and mid-year iReady assessment administrations
Teachers develop plans for students to do individual goal setting based on assessment

We will continue to deepen our understanding of the K-6 module lessons in both EL and Eureka Math and effective implementation by:

- Studying modules in collaboration before teaching them
- Studying lessons and reading texts in collaboration prior to teaching them
- Analyzing student work

We will continue to deepen our understanding of how EL education supports students in becoming strong writers so that we can grow their writing via high-quality instructional materials.

We will deepen our understanding of how to accurately diagnose unfinished learning and appropriately address it while still accelerating student learning.

In order to support these two instructional priorities, we have two additional priorities that we will work towards as a staff: We will work to refine our team teaching approach by clearly defining roles and responsibilities and how we collaborate together.

We will work to define how to use our space to support deeper student learning as well as provide students with targeted support.

Professional developments to address these goals include:

- Ongoing professional development sessions that involve collective efforts to implement creative and innovative teaching and learning strategies.
- Standards-based professional development.
- Grade-level planning days (onsite)
- Collaboration days to analyze data using the DDI cycle of inquiry (onsite).
- Onsite peer observation cycles inclusive of all teachers observing each other and providing reflective feedback.
- A series of social/emotional workshops provided by onsite collaboration with school partner organizations.
- Teachers in their first three years of teaching receive professional development and support through TIP.
- Teachers and administrators attending professional development conferences, such as UnboundEd Standards Institute, and Leadership Community of Practices in partnership with the Chamberlain Foundation; including curriculum training for ELA and math programs, and race and equity training.

Quality instruction and instructional leadership are at the heart of the district's achievement efforts. To ensure this, the Academic Support Division engages teachers, administrators, and other personnel in ongoing professional development focused on improving teaching and learning. Training is provided to principals and other administrators to improve their ability to provide strong instructional leadership and guide teaching and learning at school sites. The principals, in turn, provide support to teachers through staff conferences, opportunities for collaborative study and planning, and individual coaching based on ongoing classroom observations. Teachers and other staff are provided with both on and off-site professional development in all standards-based curriculum content areas. Beyond the content areas, professional development is provided in English Language Development, Gifted and Talented Education (GATE), differentiated instruction, and educational technology. In addition, training is made available in classroom management and the effective use of assessment data and teacher data teams in meeting the needs of all students. A primary goal of the professional development program is to ensure that all students are served by skilled, highly qualified teachers and that teachers are supported by strong, knowledgeable instructional leaders.
