Course Description

A strong English Language Arts course covers five major strands: Reading, Writing, Speaking & Listening, Language, and Media & Technology. The five strands represent an integrated model of literacy for the twenty-first century.

7th grade English focuses students on using precise language, appropriate vocabulary and style, and effective transitions for their purpose and audience to

- produce arguments that support claims with strong reasons and relevant evidence to persuade a target audience;
- write informative/explanatory passages that introduce and convey ideas in an organized manner to develop a topic using germane facts, concrete details, and examples;
- compose narratives about real or imagined experiences using key narrative techniques to develop events and engage readers.

7th grade English develops grammar skills by helping students

- demonstrate command of standard English grammar and usage;
- exhibit command of standard English capitalization, punctuation, and spelling;
- apply knowledge of language to use precise language when expressing ideas and to eliminate wordiness and redundancy.
