

Tier 2 - Targeted Supplemental Interventions

What is Tier 2 in MTSS?

- At Tier 2, [universal screeners](#) are used to identify students in need of support academically or behaviorally. These students are provided scientific, research-based interventions in addition to core instruction according to their needs.
 - Hempstead UFSD defines students in need of support in Tier 2 as students who scored between the 10th percentile and 24th percentile on the universal screeners.
- Approximately 5-15% of students will need supplemental instruction at Tier 2 to become proficient.
- Tier 2 interventions are [implemented within groups of students](#) who need support in the same area, such as academic, social-emotional, or behavioral.
- [Tier 2](#) or targeted group interventions typically involve an additional 60-90 minutes of instruction (outside of core instruction) provided each week (e.g., two to three 30-minute intervention periods) by the classroom teacher.
